
I would like to voice my support for the removal of Medicare funding for abortions being conducted on the basis of sex selection. In general I do not support Abortion as I am pro life, and in particular where it is being conducted for convenience of the parents, the unborn child has no voice in this matter and is simply having their life terminated to allow for a selfish decision on behalf of those involved. I know this is controversial but it is how I feel as some people view it s their right to chose, but the child's right to live should surely also be considered in these arguments.....

As such, I do not support government funding for these initiatives.

Regards,

MARC VENTER
