

---

Greeting to whom it may concern. I am greatly upset to learn that people are having baby aborted because of their gender and Medicare is supporting them. Every child is a blessing. I am not married and long for the day to have a family. I have been waiting. I don't understand why anyone would want to kill precious babies. It is God who gives them children who are we to kill the life He blesses us with. Not only that immediate family but the community is blessed by every child. Please stop Medicare from supporting the abortions of any kind. Let us have our community love and appreciate our children. Do not kill them because it's a girl or it's a boy. We see other nations do this and the affect and consequences on other nations. Please don't be the same.
