Parliament House,  
Canberra ACT 2600

TO WHOM IT MAY CONCERN

1. Windfarms are an eyesore and an intrusion on people's lives
2. The wind farm administrators should be made live with the monsters they erect.
3. We have relatives who have had to relocate to Ballarat from the Waubra Windfarm they do not have any towers on the property but the noise & environment has seriously interfered with their health.
4. A minimum of 2-5 km from the nearest residence should be mandatory.
5. We are sure if an administrator

had a free change he would not allow a monster within coo-ee of their residence, how sad for families who have made such a move only to be confronted with the problems these towers present.

6. There is definitely division in the communities small rural areas are all struggling socially anyway, wind farms only make the situation worse.

7. Property values in the vicinity of wind farms definitely are falling and some cases deeming properties unsaleable.

8. local roads are already under pressure & will not be able to cope more accidents & deaths as the roads are narrow with councils struggling to maintain

Just you will consider these points

Regards Kaye & Howard  
Draffin
