<sup>1</sup> Case management staff at Villawood also case manage clients in NSW and ACT correctional facilities.

<sup>2</sup> Additional case management resources for clients at the Melbourne ITA are provided through offsite arrangements by staff in Victoria Case Management based at the Melbourne CBD office (see below).

<sup>3</sup> These teams provide case management services to IMA clients in Community Detention, non-IMA clients in the community and may also provide case management services to centres in metropolitan areas and correctional facilities through offsite arrangements.

The number of case management staff at each centre is based primarily on client numbers at each centre and consideration of the work required in case managing each client based on their individual circumstances. However, in some cases case managers are not physically located at individual centres due to local service delivery arrangements or the availability of office infrastructure and/or personal accommodation at each location.

Please note that the staffing numbers above do not include staff undertaking training and mentoring at state offices on 30 June 2011 prior to deploying to remote locations as Case Managers.
