Subject: third party certification of food

To the committee. My wife and I wish to add to the complaints regarding the halal certification on certain foods. We find ourselves concerned as to where money is going when money is paid for a halal certification. We do not want to be assisting the funding of terrorist activities. We believe that food labelling should be clear and legible to all, my wife is a diabetic and needs to be able to clearly read instructions/directions that are on food containers. Yours respectfully Joseph G Cosgrove & Irene Cosgrove.
