

Submission 20 – Sibyl Payn

Committee Secretary

Joint Standing Committee on Treatise

This submission to try to stop Australia from joining TTP may be short because I'm old and tired ,because I'm still getting over the flu, but I must add my name to the list of people horrified at the thought of multinationals obtaining more power over our trade. The governments of countries have enough trouble trying to collect taxes now. We would rather have less choice shopping than have these huge companies have so much power.

☹

Thankyou for listening to me,

Sibyl Payn

QLD
