

Correction to citation in submission no. 65 - Bureau of Meteorology  
(provided at public hearing, Canberra, 11 April 2013)

The citation (p33 as numbered, 40th page in PDF)

18. Fawcett, R.J.B., Trewin, B.C., Smalley, R., and Braganza, K. 2013. On the changing nature of Australian monthly and daily temperature anomalies. *Aust. Met. Oceanogr. J.* (submitted)

used to support Figure 4 is wrong. There is no such manuscript with that authorship submitted to any journal - I did try to draw NCC's attention to the error, but the error wasn't fixed and/or I was too late.

The most expedient way of dealing with the problem would be to change the citation to

18. Fawcett, R.J.B., Trewin, B.C., Smalley, R., and Braganza, K. 2013. On the changing nature of Australian monthly and daily temperature anomalies. Conference poster presented at the Australian Meteorological and Oceanographic Society annual conference, Melbourne, Australia, 2013.
