Q60

Question: In relation to each of the contracts issued by the department for Capital Works, please provide the value of each contract and whether it has been completed on time and on budget?
(Supplementary to Question 32)

Answer: Multiple individual contracts are awarded as part of a broader project therefore it is only possible to nominate if the broader project is on time. While individual contracts have been completed on schedule as negotiated from the original contract signing, the completion of works for the broader projects is subject to a large number of variables. Generally this is due to latent conditions as well as environmental and heritage requirements beyond those initially anticipated.

All projects are within budget.

Below is the value of each contract, as provided in the listing supplied for Q32, and whether the contract is open or closed. For closed contracts the closing value is also provided.
