

---

Dear Sir/Madam,

I am writing to show my support for the "Health Insurance (Certain Types of Abortion) Amendment Bill 2013".

Medicare money (that is made up of the money I pay in taxes) should not be spent on the killing of defenceless infants. Abortion is horrid enough in its own right but to preform it simply based on gender is particularly abhorrent. What does it say about the moral compass of a society who's government pays for this selfish murder?

Please do all that you can to protect the value of human life in this great country of ours.

Kind regards,

Jacqui Halpin
