

Council blows wind tower plans away

MEMBERS of the York Council Board and Associated South District Councils last week gave the go-ahead to a \$10-million tower to be built in the city's downtown core.

The tower will be built on the site of the former York County Courthouse, which was destroyed by fire in 1954. The tower will be a 10-story building with a glass facade and will house the offices of the York Region Council.
