Dear Senators,

I wish to strongly protest and submit a petition to say PLEASE STOP MEDICARE FUNDING FOR GENDER SELECTION WHICH VIRTUALLY MEANS ELIMINATING MOSTLY BABY GIRLS- TAX PAYERS MONEY SHOULD NOT BE WASTED FOR THIS PURPOSE!- THIS IS SHOCKING!

I would like to bring to your attention that abortions performed solely because of the sex of the child often aims at eliminating baby girls and is therefore a form of gendercide. Abortions like this in China and India have led to a huge shortage of girls missing in the world today. We don't need that situation occurring here in Australia.

A girl has a right to live not just because she is a girl, not just because she can contribute to society and not just because she could change the world, but because it is her most basic human right.

I stand for Gender equality and justice for every baby conceived

Please give them that basic right to live,
