

---

I draw your attention to a bill that is pushing to allow people to select gender of children through abortion and then have Medicare fund this.

Are we playing Hitler's game and trying to select who is worth living and who isn't. Have we thought about who is going to bear future children in this world. God has seen to the balance so this world functions as it should. Who are we as mere mortals to interfere with that?

In years to come we will struggle to find a work force who can sustain this country and pay the taxes for those who don't work. Leave the balance alone, God is in charge for a reason! More people will turn to homosexuality as there aren't enough heterosexual partners, this opens desires for prostitutes and fuels sex trades.

I strongly object to any Medicare funding being used to perform this murder. I beg you to stand up and be counted as one who will not go with the flow and is prepared to stand against this crime.

Regards Joan Lewis
