

Re Flyer Creek Wind Farm

My Name is Duane Chilcott I am a local land holder and have worked at Cadia gold mine for the past 8 years.

I would like to object to the flyers Creek wind farm on the grounds that it is to be located within 5km of the Cadia East/Cadia Hill/Ridgeway Deeps gold mine. Cadia is soon to be the forth largest under ground gold mine in the world. Currently there are major concerns about health issues from wind turbines. Can the government afford to be tied to a controversy about approving a project that could loose one of the biggest money spinners they have? The mine also employs over 5000 people Where as the Wind farm will employ very few. Cadia puts back into the community with infrastructure and donations. The Wind farm will be of no benefit to any one except a very few who have the Turbines on their properties and we also stand to loose our health, our property values and our life styles. The mine has been in the area for over 100 years and may well be for another 100. One a the biggest draw cards to our area is high employment and clean environment but if people are worried about the health of their children and families people will soon move on as there is plenty of work for skilled trades men in other states.

Thank fully yours

Duane Chilcott
