

---

I fully support the Health Amendment Bill 2013 "not to fund every type of abortion through medicare", on the grounds of discrimination in Australia; mainly against women by ending their lives prematurely through killing them in the womb.

In my work as a pregnancy counselor, I have become aware of callers to our line selecting their IVF children according to their sex .Many times they have chosen to do this even though it is illegal in Australia.

Sincerely,  
Julie James
