Subject: NBN UNDER REVIEW - SUBMISSION

Greetings,

[1] The NBN should be cancelled because it is a politics-driven, expensive, inefficient, ugly proposal

[2] To duplicate and make obsolete satisfactory existing infrastructure is absurd

[3] The rational approach would be to improve our present communications network through carefully-designed incremental improvements, not this silly attempted king-hit

[4] I repeat, the NBN should be cancelled - despite the loss of face for those politicians who rushed ignorantly to back it.

Go well,

Hugh Dakin
