Re: Request for advice?

15/2/12.

Dear Graham,

Yes, the many kinds of Scam are a serious problem - perpetrated by mail, phone, internet & Door to Door Sales people.

If you can find "cures" I suspect only Gov. bodies in power will be able to fix the problems.

As far as computers are concerned - Memorize passwords (NOT written) avoid ticking on ads and be suspicious of tempting ads.

Parents shall have to be held to be more responsible for children & teens using "Facebook"

However, people I speak to are heartily fed up with phone calls from India 3 times a day trying to sell something, offshoring jobs as well as the scams; (Courier Mail Feb 14) and selling off to Australia to Billionaire foreigners.

Trusting this reaches you by Friday (dead line)

Sincerely

D. MacLennan

Area Coordinator.
