12/04/11

Inquiry Secretary

House of Representatives Standing Committee on Health and Ageing

PO Box 6021

Parliament House

Canberra ACT 2600

STANDING COMMITTEE
13 APR 2011
ON HEALTH AND AGEING

As you know that I attended the Inquiry Commission meeting at Sydney Parliament House on 31/03/11 and raised my issue about English Proficiency exam the OET which I have been unable to pass over the past 4 years. However, I passed the similar exam with 4 B Grade in 2004. After that I passed all the Australian Medical Council exams and received pass AMC certificate in May 2007. Since that time I have been unable to start my work and doing the endless exam again and again.

* I wrote the OET 20th times on 12/03/11 and received the result on 11/04/11. I was expecting to pass 3 skills except the reading which I have been finding difficult but working hard to improve the skill. Believe me I missed 3 skills and passed only the writing. Normally I have been passing 2-3 skills in one sitting for the past few years. I believe that I must pass 3 skills this time the writing, the speaking and the listening skills (100%). Therefore, I understand that my comments about the OET department have affected on my performance.

I am so concerned about the current situation and feel that I will never pass the OET exam in near future. My whole career seems to be at risk in Australia? However, I have booked the next OET exam on 7th May 2011.

Thanks,

Yours Sincerely,

DR. NASIR MEHMOOD BAIG
