To Whom it may concern

I am a primary school teacher in NSW and am writing on behalf of my close friends and family to express my grave concerns regarding the WTO operating in Australia.

We live in a precious country and we feel the operation of the WTO will be detrimental to local Australian businesses, the Australian Economy, the environment and to a continuing democracy.

Another concern is the secrecy and hidden agendas that typify the WTO.

This is an incredibly important issue in regards to the future of our quality of life.

I question the intentions of the WTO and the veil they stand behind, and strongly oppose their operating in Australia!

Yours

Suzanne Falls
