

**Australian Parliament
Joint Standing Committee on Migration
Submission No. 49**

Dear Maria Vamvakinou

We must meet the natural and human needs of migrants (I am a migrant) such as how to obtain and practice granted rights and how to meet your responsibility.

However, the political correctness has gone crazy and probably corrupt.

The current multicultural policy will lead to a blood bath and the destruction of our society, civilization and life style. It will simply take us back to the 7th century life style. By applying this policy we are going to be another Talaban state sooner or later.

The history will curse all your governments who supported these polices but it would be tooooooooooooooooooo late.

Finally I wish you an enjoyable time in your position till some body else takes over.

Kind Regards,
