

Recommendations

Recommendation 1

2.63 The committee recommends that Commonwealth, state and territory governments review their tobacco control measures, with a view to:

- identifying opportunities to reduce the red tape burden on small retailers; and
- identifying and eliminating regulatory measures that are not evidence-based.

Recommendation 2

2.64 The committee recommends that Commonwealth, state and territory governments develop and implement an appropriate framework for alternative nicotine delivery systems.

Recommendation 3

2.65 The committee recommends that the Department of Immigration and Border Protection provide an explanation to justify the requirement for re-exportation of tobacco products on which drawback is claimed, failing which the requirement should be eliminated in a timely fashion.
