

Dear Sir/Madam,

I wish the Committee to be informed that the Australian Public do not want Testra sold.

In a recent survey over 70 percent of the Australian Public said that Telstra should NOT be sold.

If the Committee accepts the Bills as they are, the Liberal Government will definitely NOT be re-elected in the next Election as I know a whole heap of people who, even though they voted Liberal in the last Election, have absolutely stated that they will NOT be voting Liberal in the next Election.

Telstra should not be sold until regional areas like Campbelltown are included in the Capital City as they are for everything else.

Telstra should not be sold while I continue to pay for rental of a handset, a handset that has been paid for many times over.

Telstra should NOT be sold until such time as the price of Telstra shares is such that the Government recouperates the money that has been sunk into Telstra over many years and to sell Telstra at almost \$4 a share is absolutely ludicrous.

Yours Sincerely,

Paul Johnson
