  - (x) a focus on the skills needed for a low carbon economy; and
- (b) calls on the Government to adopt these priorities and to seriously consider the strategies suggested in the statement as soon as possible. (*general business notice of motion no. 101*)

The Leader of the Australian Democrats (Senator Allison): To move on the next day of sitting—That the Senate—

- (a) notes that on 11 June and 12 June 2008 citizens and scientists came together in Canberra for the 2008 Manning Clark House Conference ‘Imagining the Real Life on a Greenhouse Earth’, in honour of former federal Minister, the Honourable Dr Barry Jones, AO, and concluded that:
- (i) global warming is accelerating,
  - (ii) the Arctic summer sea ice is expected to melt entirely within the next 5 years, decades earlier than predicted in the Fourth Assessment Report of the Intergovernmental Panel on Climate Change (2007),
  - (iii) scientists judge the risks to humanity of dangerous global warming to be high,
  - (iv) the loss of the Great Barrier Reef now seems likely,
  - (v) extreme weather events, such as storm surges adding to rising sea levels and threatening coastal cities, will become more frequent,
  - (vi) there is a real danger that we have reached or will soon reach critical tipping points and the future will be taken out of our hands – the melting Arctic sea ice could be the first such tipping point,
  - (vii) beyond 2°C of warming seems inevitable, unless greenhouse gas reduction targets are tightened, and we risk huge human and societal costs, and perhaps even the effective end of industrial civilisation,
  - (viii) we need to cease our assault on our own life support system and that of millions of species, and that global warming is only one of many symptoms of that assault,
  - (ix) peak oil, global warming and long-term sustainability pressures all require that we reduce energy needs and switch to renewable energy sources and many credible studies show that Australia can quickly and cost-effectively reduce greenhouse gas emissions through dramatic improvements in energy efficiency and by increasing Australia’s investment in solar, wind and other renewable sources,
  - (x) the need for action is extremely urgent and the window of opportunity for avoiding severe impacts is rapidly closing, yet the obstacles to change are not technical or economic, they are political and social, and

- (xi) democratic societies have responded successfully to dire and immediate threats, as was demonstrated in World War II and this is a last call for an effective response to global warming;
- (b) thanks the delegates of this conference, including Professor Barry Brook, Sir Hubert Wilkins, Dr Geoff Davies, Dr Andrew Glikson and Mr Sebastian Clark for their efforts in drawing this warning to the Senate's attention; and
- (c) urges the Government to act on these conclusions. (*general business notice of motion no. 102*)

The Leader of the Australian Democrats (Senator Allison) and Senator Murray: To move on the next day of sitting—

- (1) That the Senate—
  - (a) notes the report by CHOICE on charities, published online in March 2008, that highlights the wide variability and inconsistency in the way that charities disclose information to the public; and
  - (b) acknowledges that the 27 recommendations from the inquiry into the definition of charities and related organisations, which reported in 2001, have not been implemented.
- (2) That the following matters be referred to the Economics Committee for inquiry and report by the last sitting day of November 2008:
  - (a) to investigate the relevance and appropriateness of current disclosure regimes for charities and all other not-for-profit organisations;
  - (b) to identify models of regulation and legal forms that would improve governance and management of charities and not-for-profit organisations and cater for emerging social enterprises; and
  - (c) to identify other measures that can be taken by government and the not-for-profit sector to assist the sector to improve governance, standards, accountability and transparency in its use of public and government funds.

The Leader of the Australian Democrats (Senator Allison): To move on the next day of sitting—That the Senate—

- (a) notes that:
  - (i) United Nations (UN) efforts to accomplish the decolonisation process in Western Sahara have not been successful yet,
  - (ii) more than 165 000 Saharawis have been living in refugee camps in the south-west of Algeria for the past 33 years in dire conditions,
  - (iii) the UN Security Council adopted Resolutions 1754 and 1783 (2007) whereby it called on Morocco and the Polisario independence movement to enter into negotiations, in good faith and without preconditions with a view to achieving a peaceful solution that provides a genuine opportunity for the Saharawi people to exercise their right to self-determination,
  - (iv) Polisario has offered a reasonable and genuine proposal for a peaceful solution to the conflict which complies with international legality and was noted in Security Council Resolutions 1754 and 1783,
  - (v) a just, lasting and democratic solution to the question of Western Sahara can be achieved through the organisation of a free and fair referendum to allow the Saharawi people to exercise their right to self-determination, in accordance with the UN resolutions, and

- (vi) a UN failure in Western Sahara would compromise its credibility and lead to instability in north-west Africa;
- (b) calls on both parties in the conflict, Morocco and the Polisario, to cooperate fully with the UN in its efforts to find a speedy and peaceful resolution to the conflict in Western Sahara; and
- (c) urges the Government to make representations to:
  - (i) the UN, urging it to proceed in organising the long overdue referendum of self-determination without further delays, and
  - (ii) the Moroccan Government, asking it to respect human rights in the occupied territories of Western Sahara. (*general business notice of motion no. 103*)

The Leader of the Australian Democrats (Senator Allison): To move on the next day of sitting—That the Senate—

- (a) notes that remote area nurses are the mainstay of health service provision in remote Indigenous communities, often providing the only local health service available;
- (b) recognises that remote area nurses provide an invaluable service to some of the most disadvantaged populations in Australia, while their work context and role put them at risk of emotional and physical burnout due to insufficient access to resources, limited professional support and social and cultural isolation; and
- (c) calls on the Government to recognise the primacy of remote area nurses in providing health care to remote Indigenous communities and to improve remote area nurse representation in government efforts to develop long-term plans of action to overturn existing inequalities in health services between Indigenous and non-Indigenous Australians. (*general business notice of motion no. 104*)
