- (1) creating a skills crisis through during their ten long years in office;
- (2) its continued failure to provide the necessary opportunities for Australians to get the training they need to get a decent job and meet the skills needs of the economy;

- (3) reducing the overall percentage of the Federal Budget spent on vocational education and training, and allowing this percentage of spending to further decline over the forward estimate period;
- (4) its incompetent handling of the Australian Technical Colleges initiative as evidenced by only four out of twenty five colleges being open for business, enrolling fewer than 300 students;
- (5) failing to be open and accountable about the operations of the Australian Technical Colleges, including details of extra student enrolments, funding levels for the individual colleges, course structures and programs;
- (6) denying local communities their promised Australian Technical College because of their ideological industrial relations requirements; and
