- (c) recognises the importance of these and other fast-action mitigation strategies to reduce the threat of crossing tipping points for abrupt, irreversible and catastrophic climate changes – tipping points many leading scientists now warn may be only a few years away; and
- (d) calls on the Government to support the proposals from the Federated States of Micronesia and Mauritius, to recognise the need to work towards an HFC phase-out coordinated between the UNFCCC and the protocol, and to seek amendments that will enable the UNFCCC and the protocol to both play important collaborative roles in the phase-out of HFCs.

- (ii) that the Government has refused to provide information in response to successive orders of the Senate concerning modelling done for the Government's CPRS, without raising a valid claim of public interest immunity, thus preventing the Senate from making a properly informed judgement about the impact of the proposed CPRS on the economy, jobs and regional Australia; and

 - (i) schools being prevented from using local builders, in favour of government-preferred contractors who are charging significantly more for comparable projects,

- (ii) tenderers being offered the opportunity to bid for projects outside of their local area, but prevented from bidding for projects in their local area,
 - (iii) construction costs incurred under the tender program being substantially higher than current construction industry rates,
 - (iv) significant consultancy fees being levied by project managers over and above the 1.5 per cent limit that state and territory departments may take for administration costs,
 - (v) schools receiving funds for maintenance and infrastructure in 2009 when the school will cease to exist in 2010,
 - (vi) schools being forced by state education departments to accept prefabricated demountable halls that do not meet the needs of the local school community, and
 - (vii) schools being forced to duplicate existing facilities rather than provide new infrastructure that the school community needs;
- (b) whether the Commonwealth Government is exercising sufficient supervision over state and territory governments and block grant authorities in the administration and implementation of the BER in order to prevent mismanagement and minimise waste;
- (c) whether the Commonwealth's guidelines for the program are appropriate where:
- (i) certain categories of school (for example, distance education schools and secondary campuses of multi-campus schools) are ineligible for funding irrespective of their comparative level of need or ability to deliver projects,
 - (ii) schools wishing to spend School Pride maintenance funds on energy-efficient air-conditioning or heating are explicitly prevented from doing so, and
 - (iii) principals and governing council members feel they are prevented from raising concerns about BER projects for fear of losing funding for their school; and
- (d) any other examples of waste and mismanagement by either Commonwealth, state or territory governments in relation to this program that the Auditor-General deems relevant.
- (2) That the Auditor-General is requested to respond in a timely manner in order for the public to be fully informed of the program in advance of further parliamentary scrutiny of the issue.

- (ii) the recent report of the Snowy Scientific Committee which warned that critical deep pools in the upper reaches of the Snowy River are ‘under threat of permanent or near permanent change’;
- (b) expresses concern:
 - (i) at the failure of the three governments to meet legislated targets for returning environmental flows to the Snowy River, which should have seen the return of 15 per cent annual natural flow to the river by 2009, rather than the 46.7GL or just over 4 per cent planned to be delivered in 2009-10, and
 - (ii) at the recommissioning of the Mowamba Aqueduct, diverting the waters of the Mowamba River to Lake Jindabyne, and calls for the suspension of repayment of the Mowamba Borrowings Account from the Snowy River environmental allocation and the permanent decommissioning of the aqueduct; and
- (c) calls on:
 - (i) the New South Wales Government to release the long overdue draft report of the first five-year review on the Snowy Water Licence, which was due in 2007, and
 - (ii) the Commonwealth to commit additional resources for the immediate purchase of high security water entitlements to meet the commitment to return 21 per cent of annual natural flows to the Snowy River by 2012 and 28 per cent of natural flows beyond 2012.

- (b) the market for Namibian cape fur seal skins has collapsed over recent years due to lack of demand and import bans in the European Union, the United States, Mexico and South Africa because of the cruelty involved in the sealing methods; and
