GENERAL BUSINESS

Notices of Motion

Notice given 14 February 2002

17 **Senator Tierney:** To move—That the Senate—

- (a) notes the serious problem of overcrowding in New South Wales public schools, especially when compared with other states across the country;
- (b) acknowledges the shameful results of a New South Wales Teachers Federation survey showing 20 per cent of all classes in each of the first 3 years of primary school being over the Carr Government's own limit, and 32 per cent of all kindergarten classes exceeding suggested class sizes during 2001;
- (c) condemns the Carr Government for putting New South Wales children's education at risk by increasing class numbers and not reducing them as other states are now doing;
- (d) congratulates the Howard Government for increasing funding to New South Wales government schools by 5.2 per cent in 2001, as opposed to Premier Carr's paltry 2.6 per cent; and
- (e) recognises the low priority given to education by the Carr Government, as evidenced by the fact that the amount spent on education as a percentage of total state budget has dropped from 25.5 per cent to 22 per cent in the 7 years since Labor came to power in New South Wales.

Notice given 11 March 2002

23 **Senator McGauran:** To move—That the Senate—

- (a) notes that:
 - (i) it is the 100th anniversary of the execution of Harry 'Breaker' Morant and Peter Handcock, killed by firing squad during the Boer War for following the orders, take no prisoners,
 - (ii) the court case held for Morant and Handcock was a sham, set up by Lord Kitchener, the giver of the orders Morant and Handcock followed,
 - (iii) the injustice to Breaker and Handcock has plagued Australia's conscience since their execution on 27 February 1902,
 - (iv) in 1902 the then Federal Parliamentarian and later first Governor-General of Australia, Issac Issacs, raised the matter of the execution in Parliament stating that this issue was agitating the minds of the people of this country in an almost unprecedented degree, and questioned the validity of the decision,
 - (v) the reason we need to go back 100 years to now right this wrong, is because Breaker Morant is one of the fathers of our ANZAC tradition; a friend of Banjo Patterson and an inspiration for much of his poetry and described as a man of great courage who would never betray a mate; and a man of whom many of the young ANZACs in World War I had heard and on whom they modelled themselves, and

- (vi) Lord Kitchener was the Commander-in-Chief of the British Military who made the decision to commit troops to Gallipoli and is responsible for that disastrous campaign;
- (b) calls on the Government to petition directly the British Government for a review of the case, with the aim to quash the harsh sentence of death for Harry 'Breaker' Morant and Peter Handcock; and
- (c) take action to include the names of these two Australians on the Roll of Honour at the Australian War Memorial.

30 **Senator Brown:** To move—That the Senate—

- (a) notes that the Ministerial Code in the United Kingdom includes a system which deals with acceptance of appointments for ministers after leaving office; and
- (b) calls on the Government to:
 - (i) implement an advisory committee on business appointments, from which a minister would be required to seek advice before accepting business appointments within 5 years from the date from which he or she ceased to be a minister, and
 - (ii) ban any minister from taking an appointment that is directly related to his or her portfolio for 5 years from the date of resignation.

Notice given 16 May 2002

78 **Senator Tierney:** To move—That the Senate—

- (a) notes that south-eastern Australia is the most fire prone region in the world;
- (b) commends the support provided by the Howard Government to New South Wales in January 2002, in particular, the provision of aerial fire fighting equipment;
- (c) expresses its concern that the state government is whitewashing the causes of the bushfire catastrophe of Christmas 2001 by just blaming pyromaniacs during the current bushfires inquiry;
- (d) calls on the New South Wales Government to give serious consideration to the evidence of State Forests of NSW, which believes that inadequate back-burning was the primary cause of the devastating fires;
- (e) rejects calls from the Nature Conservation Council to restrict hazard reduction;
- (f) calls on the Carr Government to allow non-government committee members to receive witnesses' submissions without having to first request them;
- (g) encourages the inquiry to reach a conclusion based on evidence and not party politics resulting from pressure from extreme green groups; and
- (h) hopes that the lessons learned from the bushfire inquiry will be shared to other state governments so all Australians can avoid such an unnecessary disaster.

Notice given 26 June 2002

- 108 **Senator Sherry:** To move—That there be laid on the table, on the next day of sitting, the advice by the Australian Prudential Regulation Authority to the Assistant Treasurer under section 230A of the *Superannuation Industry*

(*Supervision*) Act 1993, in relation to applications for financial assistance for superannuation funds where Commercial Nominees of Australia was trustee.

109 **Senator Sherry:** To move—That the following matters be referred to the Select Committee on Superannuation for inquiry and report by 26 September 2002:

- (a) the extent to which Commonwealth government departments are using, or have used, contracting-out arrangements and, as a result, have avoided the payment of the Superannuation Guarantee; and
- (b) the involvement of the Department of Finance and Administration, the Australian Taxation Office or any other organisation in the establishment of contracting-out arrangements which resulted in the non-payment of the Superannuation Guarantee in the Australian Quarantine Inspection Service and/or any other Commonwealth government department.

112 **Senator Ridgeway:** To move—That the Senate—

- (a) notes that:
 - (i) the week beginning 24 June 2002 is Drug Action Week, aimed at generating community awareness about drug and alcohol abuse and the solutions being used to tackle these issues,
 - (ii) each day of Drug Action Week highlights a different theme and the theme on 27 June 2002 is Indigenous issues,
 - (iii) the misuse of alcohol and other drugs has long been linked to the deep levels of emotional and physical harm suffered by Indigenous communities since the colonisation of Australia,
 - (iv) alcohol and tobacco consumption rates continue to remain high in the Indigenous population, against declining rates in the general population, and the increasing use of heroin in urban, regional and rural Indigenous communities is also of particular concern,
 - (v) substance misuse is probably the biggest challenge facing Indigenous communities today, as it affects almost everybody either directly or indirectly and is now the cause as well as the symptom of much grief and loss experienced by Indigenous communities, and
 - (vi) the demand for the services of existing Indigenous-controlled drug and alcohol rehabilitation centres far exceeds the current level of supply;
- (b) acknowledges the essential role of Indigenous community-controlled health services in providing long-term, culturally-appropriate solutions for substance abuse; and
- (c) calls on the Government to:
 - (i) fund the national substance misuse strategy, developed by the National Aboriginal Community Controlled Health Organisation, which is designed to build the necessary capacity within the Indigenous health sector so communities can address their health and well-being needs in a holistic and culturally-appropriate manner, and
 - (ii) improve coordination between Commonwealth, state, territory and local governments on these issues and ensure this facilitates greater Indigenous control over the development and implementation of all health programs.

113 **Senator Bartlett:** To move—That the Senate—

- (a) notes that:

- (i) members of the Queensland community of Federal have been vigorously campaigning for the relocation of a mobile phone base station earmarked for placement in close proximity to their local school and residences,
 - (ii) 23 parents of Federal School have signed and presented a petition to the Member for Fairfax (Mr Somlyay) stating that if construction of the base station goes ahead at this site, 45 students will be removed from the school of 100,
 - (iii) individual Government members have, to date, not adequately addressed concerns put to them by residents of Federal, and
 - (iv) under the Government's regional mobile phone program no community consultation was undertaken prior to successful tendering of this contract to Vodafone; and
- (b) calls on the Government:
- (i) to acknowledge the continued lack of a consultative and statutory framework for communities to voice their concerns regarding the placement of mobile phone towers, and
 - (ii) to adequately address the concerns put to it via the ministers responsible for the portfolio areas of education and communications.

Notice given 27 June 2002

405 **Senator Sherry:** To ask the Minister for Revenue and Assistant Treasurer—

- (1) (a) How many applications for assistance under section 229 of the *Superannuation Industry Supervision Act 1993* (the SIS Act) have been received by the Assistant Treasurer or her predecessor in relation to Commercial Nominees of Australia Limited (CNAL); and (b) when were these applications made.
- (2) When did the Assistant Treasurer make a formal request (or requests) for advice from the Australian Prudential Regulation Authority (APRA), under section 230A of the SIS Act, in relation to these applications.
- (3) How many funds did this request (or these requests) apply to.
- (4) In this request (or these requests), did the Minister specify, under section 230A(1), any particular matters that APRA was (or is) to provide advice about or a particular time by which APRA was (or is) to provide the advice.
- (5) When did APRA provide advice to the Assistant Treasurer pursuant to this request (or these requests).
- (6) What was APRA's advice under section 231(2) pursuant to this request (or these requests).
- (7) In relation to the 181 funds for which the Assistant Treasurer has made a section 231 determination, as announced on 14 June 2002: (a) what is the total eligible loss; (b) what is the average eligible loss; and (c) does this eligible loss include rectification and/or administration costs charged by Oak Breeze as replacement trustee.
- (8) In relation to the 181 funds for which the Assistant Treasurer has made a section 231 determination, as announced on 14 June 2002, what is the total assistance that will be paid under section 231.

- (9) In the period from 14 June 2002 to the provision of answers to these questions, will the Assistant Treasurer make any further determinations under section 231; if so: (a) to how many funds do these determinations relate; (b) what is the total eligible loss; (c) what is the average eligible loss; (d) does this eligible loss include rectification and/or administration costs charged by the replacement trustee Oak Breeze; and (e) what is the total assistance that will be paid under section 231.
- (10) (a) How many applications for assistance in relation to CNAL has the Assistant Treasurer received without making determinations under section 231; (b) when does the Minister expect to make determinations under section 231 in relation to these funds; and (c) what is the estimated total eligible loss for these funds.
- (11) Has the Assistant Treasurer determined not to provide assistance under section 231 to any funds for which CNAL was trustee.
- (12) Of the funds for which CNAL was trustee but the replacement trustee is yet to make an application, how many additional applications does the Assistant Treasurer expect to receive, and, of these, what does she expect the total eligible loss will be.
- (13) What is the total amount of assistance under Part 23 that the Assistant Treasurer expects will be paid.
- (14) (a) On how many occasions does the Assistant Treasurer expect to impose a levy under the *Superannuation (Financial Assistance Funding) Levy Act 1993*; (b) what will be the total amount of each of these levies; (c) what will be the applicable rate or rates for this levy or levies under section 8 of this Act; and (d) will this rate be different for different classes of fund.
- (15) When does the Assistant Treasurer intend to impose this levy or levies.
- (16) What steps did APRA take to ensure that rectification costs and administration fees charged by Oak Breeze, the replacement trustee of the 475 small funds for which CNAL was trustee, were kept to a minimum; in particular, what commitments in relation to costs did APRA seek from Oak Breeze before it was appointed as the replacement trustee.
- (17) Does APRA believe Oak Breeze is satisfying its disclosure obligations under the SIS Act and/or the Corporations Act to members of the small funds; in particular: (a) what are (or were) the start and finish dates for Oak Breeze's most recent reporting period and has Oak Breeze provided (or does it intend to provide) statements and annual reports to fund members within 6 months of the conclusion of that period; (b) did Oak Breeze provide details of how fees would be charged to fund members upon its appointment as trustee; (c) has Oak Breeze established a complaints procedure; (d) has Oak Breeze provided relevant and timely information to fund members when they have requested it to do so; and (e) if APRA is not satisfied that Oak Breeze has met its obligations, what enforcement action has it taken in relation to any or all of these issues.
- (18) With reference to the answer to a question placed on notice during additional estimates, in which APRA said that it chose PricewaterhouseCoopers (PWC) (the parent of Oak Breeze) as the replacement trustee of the three larger CNAL funds after seeking expressions of interest from PWC as well as KPMG, Ferrier Hodgson and Sims Lockwood: (a) were expressions of interest sought from these same parties before APRA appointed Oak Breeze as replacement trustee of the small funds; and (b) did any of these parties, other than PWC, express an

- interest in the appointment; if so, were their costs, or likely costs, any different to those of Oak Breeze.
- (19) What opportunity, if any, was there for other parties to express an interest in being appointed as replacement trustee of the small funds.
 - (20) Given that, in the answer referred to above, APRA said that it 'adhered to its policy for the appointment of replacement trustees' in appointing Oak Breeze: (a) in light of the significant fees charged by Oak Breeze and the difficulties it initially experienced in its administration functions, has APRA seen fit to revise its policy for the appointment of replacement trustees; and (b) has APRA, for example, considered the possibility of establishing a pool of appropriately resourced entities that would be ready to be appointed as replacement trustees, at minimal cost, in future cases.
 - (21) In its report into CNAL the Select Committee on Superannuation and Financial Services, noted with concern that neither APRA nor the Australian Securities and Investment Commission (ASIC) had regulatory control over the so-called Enhanced Cash Management Trust (ECMT), the vehicle responsible for the losses incurred by CNAL funds and neither APRA nor ASIC were able to quantify the number of investment vehicles, like ECMT, that fall outside the current regulatory framework. In response to a question on this matter that was placed on notice during additional estimates, APRA stated that it 'does regulate these trusts' and has 'no records as to either their number or prevalence': (a) does APRA believe it is a cause for concern that investment vehicles, like ECMT, that receive superannuation monies, are not regulated by either itself or by ASIC; (b) does APRA agree that it is important for a prudential regulator to understand the extent of problems or loopholes in the regulator regime in order that it might recommend legislative changes to address any such deficiencies; and (c) should APRA therefore be concerned that APRA does not know how many investment vehicles like ECMT fall outside its regulatory jurisdiction.
 - (22) (a) In light of the example of the TED Engineering superannuation fund raised during budget estimates, what regulatory sanctions are at APRA's disposal for dealing with non-arms length transactions and other breaches of trust that occurred before the commencement of the SIS Act; (b) if another case were to emerge in which a fund had suffered a loss as a result of a non-arms' length transaction or other breach of trust that occurred before the commencement of the SIS Act, how would APRA respond; and (c) how would this response differ if the trustee had breached the relevant provisions of the SIS Act following its commencement in 1994.
 - (23) If APRA were presented with similar circumstances, and found it was unable to take effective remedial action under commonwealth legislation, would it take action against the trustee in the appropriate common law jurisdiction.
 - (24) (a) What proportion of regulated superannuation funds does APRA believe are in breach of the equal representation rules contained in the SIS Act; and (b) what strategies does APRA have in place to ensure that the equal representation rules are adhered to.
 - (25) With reference to the draft report of 4 March 2002 of the Superannuation Working Group, which noted concerns about the grandfathering provisions that allow the in-house investment cap of 5 per cent (in section 82 and 83 of the SIS Act) to be exceeded: (a) can APRA provide an average proportion for in-house assets in superannuation funds; (b) can APRA provide any

details of recent enforcement actions in respect of breaches of the in-house assets rule; (c) what is the maximum proportion of in-house assets that funds have held while still complying with the SIS Act; (d) does APRA believe that the grandfathering provisions in sections 71A to 71E need reform; and (e) does APRA believe that the 5 per cent cap in sections 82 and 83 is too high.

- (26) Given that the working group does not deal with investments in derivatives by superannuation funds in its draft report: (a) should this be interpreted as a sign that APRA is unconcerned about derivatives trading by super funds; (b) what proportion of superannuation funds are involved in derivatives trading; (c) what is the average 'derivative charge ratio', that funds are required to calculate and report to members if it exceeds 5 per cent, for superannuation funds; and (d) can APRA provide details of any recent problems it has encountered, and any enforcement action it has undertaken, in respect of derivatives.

- (1) Did the Manager, Workplace Relations in the Civil Aviation Safety Authority (CASA) write to Phillips Fox on 9 May 2002 seeking legal advice about a disciplinary process in relation to a CASA officer employed in CASA's Sydney Airline Office.
 - (2) Did Phillips Fox respond to that letter on 20 May 2002; if so, did that letter advise that the author was concerned that one officer only was being singled out under CASA's disciplinary policy in relation to an incident or series of incidents that occurred on or following 13 July 2001.
 - (3) In that letter, did the author advise that if charges were to be laid against this officer then the conduct of others involved in the incident, or incidents, may also warrant the laying of charges.
 - (4) In that letter, did the author advise CASA that, in his view, an external authority would conclude that CASA had used its discipline policy unfairly in not properly considering or indeed charging any other officer.
 - (5) In that letter, did the author advise that if charges proposed against this CASA officer were in fact made out they would not warrant his dismissal from CASA and that, in the view of the author, the Australian Industrial Relations Commission would uphold such a dismissal as unfair.

- (6) In that letter, did the author advise that external scrutiny would not look favourably upon the timeframe in which the matter had been handled by CASA setting aside the merits and process that had been followed.
- (7) In that letter, did the author express concern that the officer, who was the subject of the advice, had been suspended since 24 October 2001 but that no charges were laid against him.
- (8) In that letter, did the author advise CASA that the outcome of the matter may be unfavourable comment by a tribunal or increased compensation for the officer if his employment was terminated.
- (9) In that letter, did the author advise that he would not lay charges against the officer in relation to alleged negligence or carelessness in the discharge of his duties.
- (10) Did the author also advise that in relation to alleged improper conduct he considered the officer's actions inappropriate but trivial.
- (11) Did the author of the letter advise CASA that he considered there were grounds for charges in relation to allegations by the officer about another officer and the officer's alleged failure to act with honesty in relation to an investigation of the incident of 13 July 2001 and subsequent events.
- (12) Did the author of the letter further advise that if these charges were found to be warranted they would still not justify the summary dismissal of this officer.
- (13) Did the author of the letter advise that lesser sanctions, such as admonition or a reduction in salary, would be more appropriate.
- (14) (a) Who received the advice from Phillips Fox other than the Manager, Workplace Relations; and (b) in each case: (i) when was that advice provided, and (ii) what action followed consideration of that advice by each person who received a copy of the advice other than the Manager Workplace Relations.
- (15) Has the board of CASA, or any committee of the board, considered this matter generally and the external legal advice from Phillips Fox dated 20 May in particular; if so: (a) on how many occasions has the board, or any of its committees, considered this matter, or this legal advice; (b) when was the matter considered; and (c) on each occasion, what action did the board or the committee recommend and require.

Notice given 11 July 2002

- *450 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—
 - (1) Is it a fact that loans to investors in the Active Cattle project were found by the Federal Court never to have been made.
 - (2) Is the Australian Taxation Office (ATO) now a shareholder in Active Cattle on the basis that tax has nevertheless been levied on the loan amounts as income in the hands of the project manager, and could not be paid.
 - (3) Is the ATO still the largest creditor of the Australian Tea Tree Oil Research Institute, even though the Federal Court found in the *Phai See* case that the Australian Research and Development Board had wrongly decided that the institute did not qualify as a research institute, and hence it was actually entitled to tax exempt status.
- *451 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—
 - (1) Is it the case that it was possible up until 30 June 2002 to invest in an existing infrastructure bond, relinquished by another investor, through the Commonwealth Bank of Australia (CBA) or Westpac.
 - (2) Did that investment, by offering a large loan, potentially allow an upfront tax deduction such that the cash amount contributed was exceeded by the tax refund and hence would confer a tax benefit.
 - (3) Was that loan non-recourse, and for a term of as little as one year.
 - (4) Did the loan which could be taken out actually include an amount to be paid tax free to the investor as interest on the loan at the end of 12 months.

- (5) Is it the case that the Economics References Committee inquiry into mass-marketed tax effective schemes was told by First Assistant Commissioner, Mr Peter Smith, that some of these infrastructure borrowings could fall under Part IVA of the Income Tax Assessment Act.
- (6) Has any action been taken by the Australian Taxation Office to investigate whether Part IVA applies to the infrastructure bonds offered in 2002 to investors by the CBA and Westpac.

Notice given 18 July 2002

*461 **Senator Knowles:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the government response to the Rural and Regional Affairs and Transport References Committee report on Air Safety and Cabin Air Quality in the BAe 146 Aircraft:

- (1) Why does the Civil Aviation Safety Authority (CASA) consider that an Australian Airworthiness Directive (AD) which 'requires all operators to undertake inspections of oil contamination at intervals not to exceed

- 500 flights' is adequate, when that many flights could constitute around 125 days (at a rate of 4 flights per day) before any check is made.
- (2) (a) How are the 'inspections of oil contamination' undertaken and by whom; and (b) what empirical method is used for determining the presence of oil in the entire cabin air system.
 - (3) Given that there is considerable evidence of poor cabin air quality in Australia, why is it considered that Australia will have 'a more timely and effective response into cabin air quality' if we wait for more international studies to determine the approach to be taken.
 - (4) Why would it be 'premature to develop unique Australian cabin air quality standards at this stage'.
 - (5) Given that Australia has been at the leading edge of many aviation discoveries such as the black box, microwave landing system, slide rafts, doppler navigation, distance measuring equipment and T-VASIS (visual landing slope guidance), why can Australia not set the pace and determine corrective action that needs to be taken to eliminate the problem.
 - (6) The Government may have been 'satisfied that the aircraft met the design standards applicable *at the time* of the introduction of the aircraft into Australian service,' however, given how much evidence is available about toxic fumes entering the cabins of BAe 146s: (a) why is the Government relying on out-of-date information to certify the airworthiness of the planes; and (b) who in the Government is satisfied today.
 - (7) Given that many crew and passengers are still getting sick: (a) how does the Government consider that 'the modifications subsequently introduced by the aircraft manufacturer and incorporated by the airlines,' are adequate to resolve the problem sufficiently to be able to ensure the complete safety of crew and passengers; (b) what percentage of these modifications, have been completed by National Jet Systems; and (c) how do these modifications completely fix the problem.
 - (8) Why has Australia agreed to a further delay in remedying a fault that is causing illness among crew and passengers by establishing a 'Reference Group'.
 - (9) (a) Why has the Government asked CASA to establish 'a "Reference Group" ... that could monitor the appropriateness of these reporting arrangements in light of overseas developments'; (b) why is another inquiry being established to provide the same information that has been provided by all other Australian and overseas inquiries; and (c) when is this reference group due to report and to whom.
 - (10) (a) Who comprises the reference group; (b) will the group be quite independent; and (c) what are its terms of reference.
 - (11) With reference to the statement that, 'air conditioning packs are subject to regular overhaul, the engine seals are replaced at frequent intervals and the air conditioning ducts are thoroughly cleaned or replaced at each servicing': (a) how many thousand hours is 'regular'; (b) how frequent is 'frequent'; (c) what is an example of 'each servicing'; and (d) can it be guaranteed that the thorough cleaning and/or replacement have been carried out.
 - (12) (a) Why does 'the Authority ... not propose to introduce additional maintenance requirements for the BAe 146 aircraft'; and (b) why does the Government consider 'that maintenance procedures currently performed on the BAe 146 aircraft are appropriate,' when there is much medical evidence of sickness among crew and passengers.

- (13) With reference to the statement that, 'changes to the BAe 146 Aircraft Flight Manuals ... provide for improved procedures for the isolation of any source of fumes into the aircraft,' and that, 'This process allows faulty components, such as leaky engine seals, to be isolated and the problem corrected at an appropriate time and location': (a) how can contaminated air be 'isolated' when the air ducting has already been contaminated; and (b) what is considered an 'appropriate time and location' for the problem to be corrected.
- (14) Considering that crew members are too afraid of losing their jobs if they speak out about cabin air contamination, why is it that 'a specific reporting mechanism for cabin air complaints is not considered necessary at this time,' even though, 'there are already several types of incident reporting systems in place'.
- (15) If the current structures are adequate, why have the problems not been rectified.
- (16) Given that Australia appears to be at the international forefront of the BAe 146 air contamination problem with the Senate committee report and the report of Professor Chris Winder, why do we have to wait for third parties to catch up and report to us.
- (17) Given that the average flight for a BAe 146 amongst the world fleet is 55 minutes, and that Australian BAe 146 aircraft average flight times are over double this and, that apart from the crew, passengers receive twice the world average oil contamination exposure, why can we not be world leaders in fixing this problem.
- (18) Why has the Government asserted that there is 'no causal link between contamination and health effects [that] could be substantiated using available data,' when a number of aviation experts and doctors have provided much learned information on the subject.
- (19) How can such a statement be made when all traditional research on toxicity of the oil components on humans is based on conditions at ground level and not at an 8000 foot cabin altitude or after the oil has been burnt or modified through a jet engine.
- (20) Why is the Government relying on the reference group to 'consider whether a specific reporting mechanism needs to be introduced based on research currently under way,' instead of all the research that has repeatedly confirmed the problem.
- (21) As CASA maintains that 'Australian operators have already completed air circulation modifications that are designed to improve the cabin air environment of the BAe 146,' and 'that National Jet Systems has also completed modifications to its aircraft': (a) does this mean that all National Jet Systems' planes have had *all* the modifications; if so, when was each plane modified; (b) have any aircraft had *all* the modifications; and (c) has there been any reported cabin air contamination in any of those planes since modification.
- (22) With reference to the comments about testing conducted on aircraft VH-NJY: Is this the same aircraft that had both its wings so badly corroded that it had to be returned to the factory in England to be repaired; if so: (a) has this aircraft had any adverse reports made about it since its return to Australia; and (b) what were those reports.
- (23) With reference to Airworthiness Directive AD/BAe 146/86, issued by CASA, which requires that, whenever oil contamination of the cabin air

- system is confirmed, a copy of the associated report be forwarded to CASA addressed to the Section Head, Systems: (a) how many such reports have been received since 3 April 2001 and on which aircraft; and (b) have there been multiple reports on the same aircraft.
- (24) Given that contaminated air, once in the cabin air ducting system, cannot be 'isolated', what useful purpose does the AD requirement of '[e]ither before further flight, **or** within 10 flying hours **provided** the source of the contamination is identified and isolated from the cabin air environment before further flight, using either flight operations procedures to maintenance procedures' serve.
- (25) (a) Is Mobil 291 still toxic; (b) what specifically is the difference in composition of the new and old oils; (c) how many of the ingredients are listed on the National Occupational Health and Safety Commission (NOHSC) Designated List of Hazardous Substances; and (d) is Mobil in full compliance with the regulations.
- (26) Is the Government satisfied that Mobil 291 is safe when humans are exposed to it and its by-products.
- (27) Why does the Government believe 'it is not necessary to develop new codes covering fuel substances used by these aircraft,' when crew and passengers continue to get sick from cabin air contamination.
- (28) Why does the Government believe 'it is not necessary to develop new codes covering fuel substances used by these aircraft,' when the oil and its by-products have toxic properties.
- (29) How is the Government sure that operators of all BAe 146 aircraft in Australia use Mobil 291 oil.
- (30) (a) Does the Minister accept that the government's response to the toxicity of the oil is questionable; (b) does the Minister accept that the fact that 'several of the ingredients used in ... Mobil jet Oil II are already listed on the National Occupational Health and Safety Commission (NOHSC) Designated List of Hazardous Substances' and that this 'is generally reflected in the regulatory framework of all Australian occupational health and safety jurisdictions' is an insufficient response; (c) is the Minister aware that there are two NOHSC standards used to classify hazardous substances, the list and the approved criteria; (d) does the Minister accept that even a simple application of both standards to the known ingredients in Mobil jet Oil II (as suggested by NOHSC in its own guidance material) show that this product is a hazardous substance; and (e) if this is all that needs to be done, is the Government prepared to do this.
- (31) Why did CASA not issue the manufacturer's Service Information Leaflet in full as an AD regarding the cabin environment as a matter of occupational health and safety regardless of whether it would or could 'establish a precedent where the Authority is involved with mandating various aspects of customer comfort, such as number of toilets, colour scheme, quality of food etc'.
- (32) Given that there is evidence to suggest that flight crews have been seriously affected by contaminated cabin air on the aircraft, particularly during take-off and landing: (a) why is the Government supporting CASA's view not to mandate introduction of the modifications for all BAe 146; and (b) does the Government agree that such sickness among flight crew does in fact create 'an unacceptable risk to safety'.

- (33) (a) Does the Minister accept that aviation safety is something that someone outside this important industry would understand to cover all aspects of safety, including the health and safety of its workers, however, this does not seem to be how industry insiders see it—to them aviation safety is about making sure airplanes keep flying; (b) is the Minister aware of claims that Mr Toller, CASA's Director of Safety, arguably the highest aviation safety professional in Australia, thinks occupational health and safety is not CASA's business; (c) why is this so; and (d) given that section 28BE of the Civil Aviation Act (duty to exercise care and diligence) states that the holder of an Air Operators Certificate (AOC) must at all times take all reasonable steps to ensure that every activity covered by the AOC and everything done in connection with such an activity is done with a reasonable degree of care and diligence: If CASA will not look after the health and safety of workers in the industry, who is assigned to do so.
- (34) Why does the Government consider committee recommendation 3 as unnecessary, given that the work allegedly carried out on all BAe 146 aircraft has allowed contaminated air to continue to flow into the cabins of some aircraft.
- (35) What has been the outcome of the advice of the Minister for Employment and Workplace Relations to his state and territory counterparts on the Workplace Relations Ministers' Council on the Senate committee's recommendation for future workers compensation and other insurance cases.
- (36) (a) Why does the Government agree with the assertion made by the National Health and Medical Research Council 'that the issue of aircraft cabin air does not meet the criteria against which urgent requests are assessed,' when part of the criteria is that 'there must be a medium/high risk of threat to public health ... [and] the population at risk'; and (b) why does an excess of 2 million passengers per year not constitute a potential public health risk.
- (37) (a) Why does the Government agree with the UK Committee that 'triorthocresyl phosphate and volatile organic compounds ... have been found in such low levels that concerns about significant health risk are not substantiated,' when Australian experts in their fields conclude otherwise; (b) were the aircraft on which these tests were completed suffering from oil contamination at the time; and (c) were the tests carried out by an independent party that was free to choose how and which aircraft were to be examined.
- (38) Given that changes to air-conditioning filters fitted 'by Ansett were designed to remove the presence of odours in the cabin air environment,' but 'National Jet Systems currently do not have filters fitted to their fleet': (a) as National Jet Systems operated more BAe 146 aircraft than Ansett, why did they not incorporate carbon filters; and (b) why is it that Ansett complied with all the manufacturer's recommendations but National Jet Systems did not.
- (39) Even though the new filters may remove odours, how do they remove toxic gases from air entering the cabin.
- (40) What useful purpose does 'improving the galley air extraction and increasing the airflow in the aisle and vestibule areas', as done by National Jet Systems, serve if the air entering the cabin is contaminated.

- (41) (a) How did the galley modification correct the air contamination problem; and (b) is that modification still installed on all the aircraft or has it been removed.

*462 **Senator Knowles:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the *Air Transport Safety Bureau Report 200103696* which cites two instances of cabin air contamination of the same aircraft, VH-NJA, on consecutive days and in both instances, the crew donned oxygen masks after being affected by contaminated air, and the cabin crew and passengers were affected by contaminated air:

- (1) Why was the plane not immediately turned around when fumes were first detected.
- (2) How are crew members who are wearing oxygen masks capable of identifying the source of the contamination.
- (3) Is it not considered an emergency situation in which the aircraft should be landed as soon as possible; if not, what would happen if all crew members were seriously affected at the same time and unable to continue their duties.
- (4) (a) How many flights were there between the two reported incidents; (b) why are the two incidents on the same report form; and (c) are they not two separate incidents.
- (5) Given the documented illness of crew and passengers on the first flight: (a) why was there found to be no sign of oil contamination when initially inspected by the ground engineers; and (b) what was different between the engineering check after the first flight found ‘no signs of oil contamination or oil leaks,’ and the next inspection, which ‘revealed oil contamination in the number 3 engine’.
- (6) Given that, on 6 September 1999, the Australian Transport Safety Bureau issued recommendation R19990052 to the Civil Aviation Safety Authority (CASA) that stated in part, ‘These deficiencies should be examined by the regulatory authority as part of its responsibilities for initial certification and continued airworthiness of the BAe 146 aircraft’: Why then has CASA responded (more than 6 months later) that ‘CASA is satisfied that the BAe 146 aircraft in service in Australia are safe for public transport’.

*463 **Senator Bishop:** To ask the Minister representing the Minister for Veterans’ Affairs—

- (1) Has the department reimbursed veterans for doctors’ fees where doctors have refused to accept veterans’ treatment cards; if so: (a) in how many cases has the department done this, on a monthly basis, over the past 12 months; and (b) (i) which offices of the department have performed such reimbursements, and (ii) how many of these reimbursements have been undertaken for each of those offices each month for the past 3 months.
- (2) Is it a fact that Gold Card holders do not have Medicare cards; if so, does that mean that they have to pay the full doctor’s fee up-front if the doctor will not accept the Gold Card.
- (3) What authority does the department have to pay doctors’ fees where doctors charge above the scheduled fee.

Notice given 22 July 2002

Senator Faulkner: To ask the Ministers listed below (Question Nos *464-*481)—

A GUIDE TO THE DAILY NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.
