GENERAL BUSINESS

Notices of Motion

Notice given 14 February 2002

17 Senator Tierney: To move—That the Senate—

- (a) notes the serious problem of overcrowding in New South Wales public schools, especially when compared with other states across the country;
- (b) acknowledges the shameful results of a New South Wales Teachers Federation survey showing 20 per cent of all classes in each of the first 3 years of primary school being over the Carr Government's own limit, and 32 per cent of all kindergarten classes exceeding suggested class sizes during 2001;
- (c) condemns the Carr Government for putting New South Wales children's education at risk by increasing class numbers and not reducing them as other states are now doing;
- (d) congratulates the Howard Government for increasing funding to New South Wales government schools by 5.2 per cent in 2001, as opposed to Premier Carr's paltry 2.6 per cent; and
- (e) recognises the low priority given to education by the Carr Government, as evidenced by the fact that the amount spent on education as a percentage of total state budget has dropped from 25.5 per cent to 22 per cent in the 7 years since Labor came to power in New South Wales.

Notice given 11 March 2002

23 **Senator McGauran:** To move—That the Senate—

- (a) notes that:
 - (i) it is the 100th anniversary of the execution of Harry 'Breaker' Morant and Peter Handcock, killed by firing squad during the Boer War for following the orders, take no prisoners,
 - (ii) the court case held for Morant and Handcock was a sham, set up by Lord Kitchener, the giver of the orders Morant and Handcock followed,
 - (iii) the injustice to Breaker and Handcock has plagued Australia's conscience since their execution on 27 February 1902,
 - (iv) in 1902 the then Federal Parliamentarian and later first Governor-General of Australia, Issac Issacs, raised the matter of the execution in Parliament stating that this issue was agitating the minds of the people of this country in an almost unprecedented degree, and questioned the validity of the decision,
 - (v) the reason we need to go back 100 years to now right this wrong, is because Breaker Morant is one of the fathers of our ANZAC tradition; a friend of Banjo Patterson and an inspiration for much of his poetry and described as a man of great courage who would never betray a mate; and a man of whom many of the young ANZACs in World War I had heard and on whom they modelled themselves, and
 - (vi) Lord Kitchener was the Commander-in-Chief of the British Military who made the decision to commit troops to Gallipoli and is responsible for that disastrous campaign;
- (b) calls on the Government to petition directly the British Government for a review of the case, with the aim to quash the harsh sentence of death for Harry 'Breaker' Morant and Peter Handcock; and
- (c) take action to include the names of these two Australians on the Roll of Honour at the Australian War Memorial.

30 **Senator Brown:** To move—That the Senate—

- (a) notes that the Ministerial Code in the United Kingdom includes a system which deals with acceptance of appointments for ministers after leaving office; and
- (b) calls on the Government to:
 - (i) implement an advisory committee on business appointments, from which a minister would be required to seek advice before accepting business appointments within 5 years from the date from which he or she ceased to be a minister, and
 - (ii) ban any minister from taking an appointment that is directly related to his or her portfolio for 5 years from the date of resignation.

Notice given 16 May 2002

78 **Senator Tierney:** To move—That the Senate—

- (a) notes that south-eastern Australia is the most fire prone region in the world;
- (b) commends the support provided by the Howard Government to New South Wales in January 2002, in particular, the provision of aerial fire fighting equipment;

- (c) expresses its concern that the state government is whitewashing the causes of the bushfire catastrophe of Christmas 2001 by just blaming pyromaniacs during the current bushfires inquiry;
- (d) calls on the New South Wales Government to give serious consideration to the evidence of State Forests of NSW, which believes that inadequate back-burning was the primary cause of the devastating fires;
- (e) rejects calls from the Nature Conservation Council to restrict hazard reduction;
- (f) calls on the Carr Government to allow non-government committee members to receive witnesses' submissions without having to first request them;
- (g) encourages the inquiry to reach a conclusion based on evidence and not party politics resulting from pressure from extreme green groups; and
- (h) hopes that the lessons learned from the bushfire inquiry will be shared to other state governments so all Australians can avoid such an unnecessary disaster.

Notice given 26 June 2002

108 **Senator Sherry:** To move—That there be laid on the table, on the next day of sitting, the advice by the Australian Prudential Regulation Authority to the Assistant Treasurer under section 230A of the *Superannuation Industry (Supervision) Act 1993*, in relation to applications for financial assistance for superannuation funds where Commercial Nominees of Australia was trustee.

112 **Senator Ridgeway:** To move—That the Senate—

- (a) notes that:
 - (i) the week beginning 24 June 2002 is Drug Action Week, aimed at generating community awareness about drug and alcohol abuse and the solutions being used to tackle these issues,
 - (ii) each day of Drug Action Week highlights a different theme and the theme on 27 June 2002 is Indigenous issues,
 - (iii) the misuse of alcohol and other drugs has long been linked to the deep levels of emotional and physical harm suffered by Indigenous communities since the colonisation of Australia,
 - (iv) alcohol and tobacco consumption rates continue to remain high in the Indigenous population, against declining rates in the general population, and the increasing use of heroin in urban, regional and rural Indigenous communities is also of particular concern,
 - (v) substance misuse is probably the biggest challenge facing Indigenous communities today, as it affects almost everybody either directly or indirectly and is now the cause as well as the symptom of much grief and loss experienced by Indigenous communities, and
 - (vi) the demand for the services of existing Indigenous-controlled drug and alcohol rehabilitation centres far exceeds the current level of supply;
- (b) acknowledges the essential role of Indigenous community-controlled health services in providing long-term, culturally-appropriate solutions for substance abuse; and
- (c) calls on the Government to:

- (i) fund the national substance misuse strategy, developed by the National Aboriginal Community Controlled Health Organisation, which is designed to build the necessary capacity within the Indigenous health sector so communities can address their health and well-being needs in a holistic and culturally-appropriate manner, and
- (ii) improve coordination between Commonwealth, state, territory and local governments on these issues and ensure this facilitates greater Indigenous control over the development and implementation of all health programs.

Notice given 19 August 2002

120 **Senator Ray:** To move—That the Senate—

- (a) notes:
 - (i) the claims in the *Age* newspaper of 15 August 2002 that the McGauran family is financially supporting the Democratic Labour Party of Australia (DLP) in its attempt to retain registration under the provisions of the Electoral Act,
 - (ii) that two of the three Victorian National Party representatives in the Federal Parliament are from the McGauran family and have, on occasions, relied on DLP preferences,
 - (iii) the comments of the DLP Secretary, Mr John Mulholland, when he said, 'It would be in Senator Julian McGauran's interests for the DLP to survive this de-registration moved by the Electoral Commission', and
 - (iv) the immense amount of money made by the McGauran family from its poker machine interests in Altona, some of which is apparently going to fund the DLP's legal expenses; and
- (b) calls on Senator McGauran and the Minister for Science (Mr McGauran), to explain their knowledge of their family's involvement in funding the DLP's legal bills.

Notice given 22 August 2002

139 **Senator Mackay:** To move—That the Senate—

- (a) congratulates the Australian Capital Territory Legislative Assembly:
 - (i) on becoming the first state or territory legislature to remove abortion from the criminal code, and
 - (ii) for repealing the appalling law which required women seeking abortions to first look at pictures of foetuses;
- (b) notes that this landmark legislation should serve to encourage all remaining states and territories to enact similar legislative changes; and
- (c) notes that the Australian Capital Territory legislation recognises that abortion is a decision for women and is not something that should carry the threat of a jail term.

Notice given 16 September 2002

156 **Senator Allison:** To move—That the Senate—

- (a) notes that:
 - (i) the Deaflympic Games will be held in Melbourne in 2005; and

- (ii) Deaf Sports Recreation Victoria has set up a Games Organising Committee to begin planning and organising this international event which will see the participation of 4 000 deaf athletes and officials from over 90 countries; and
- (b) urges the Prime Minister (Mr Howard) to respond to the correspondence from Deaf Sports Recreation Victoria and to offer support for the Deaflympic Games.

Notice given 19 September 2002

175 **Senator Tierney:** To move—That the Senate—

- (a) deplores comments made in the New South Wales Parliament on Tuesday, 17 September 2002, by the State Minister for Education and Training (Mr Watkins), which misrepresented the future direction of universities in Australia and, in particular, the role of rural and regional universities;
- (b) notes that the Minister for Education, Science and Training (Dr Nelson) has put on the record that regional universities will not be disadvantaged by the current reform process;
- (c) further notes that the Federal Minister told all state education ministers, including Mr Watkins, in July 2002 that Australia would not be returning to second tier, teaching-only, higher education institutions; and
- (d) congratulates the Federal Minister for his comprehensive and inclusive review of higher education in Australia.

Notice given 24 September 2002

184 **Senator Stott Despoja:** To move—That the Senate—

- (a) notes:
 - (i) the commitment of the Government and Mr John Loy, Chief Executive Officer (CEO) of Australian Radiation Protection and Nuclear Safety Agency (ARPANSA), to a demonstrated store for radioactive waste by 2005,
 - (ii) the commitment of the Government and Mr Loy to a second spent fuel reprocessing pathway for spent fuel from the Lucas Heights reactor,
 - (iii) the commitment in the Lucas Heights environmental impact statement (EIS), EIS supplementary report and EIS assessment report to a radioactive waste store by 2005,
 - (iv) the ARPANSA site licence assessment regarding a potential operating licence at Lucas Heights that, 'A license to operate would not be issued by ARPANSA without there being clear and definite means available for the ultimate disposal of radioactive waste and spent nuclear fuel',
 - (v) that the recent comments by Mr Loy on the Australian Broadcasting Corporation's *PM* program indicating that the 'new' deadline for a store is now 2025 and that provision for second country reprocessing is no longer required are in direct contradiction to previous commitments, and
 - (vi) that it recently passed a second reading amendment that:
 - (A) noted the view of the CEO of ARPANSA that arrangements for taking the spent fuel and turning it into a reasonable waste form need to be absolutely clear before the new

reactor at Lucas Heights commences operation, and there needs to be clear progress on siting a store for the waste that returns to Australia, and

- (B) expressed its opinion that until all matters relating to safety, storage and transportation of nuclear materials associated with the new reactor at Lucas Heights are resolved, no operating licence related to the new reactor at Lucas Heights should be issued by ARPANSA; and
- (b) calls on the CEO of ARPANSA to:
 - (i) reaffirm commitments made to the Australian people as part of the EIS process, and
 - (ii) act in conformity with the Senate's second reading amendment.

Notice given 17 October 2002

215 **Senator Tierney:** To move—That the Senate—

- (a) recognises that the Federal Coalition Government has increased investment in education each year, with \$2.4 billion being provided for public schools in 2002-03, an increase of 5.7 per cent over the past year and a 52 per cent increase since 1996;
- (b) expresses alarm that New South Wales state government spending on education currently lags \$318 million a year below the Australian national average;
- (c) notes that New South Wales primary schools have the worst student-to-teacher ratios in Australia and some of the largest class sizes in the country;
- (d) further notes that the Vinson report into public education demonstrates the under resourcing of the public education system in New South Wales by the Carr Government; and
- (e) congratulates New South Wales Opposition Leader, John Brogden, who vowed on 24 September 2002 to spend more on public schools and backed the need to reduce class sizes.

 - (c) congratulates the Australian Government for its high tech support for the firefighting effort with the provision of air crane fire bombing technology;

Notice given 11 December 2002

- 327 **Senator Stott Despoja:** To move—That the Senate—
- (a) notes:

- (i) the recent \$US3 million fine imposed by the United States Department of Agriculture on ProdiGene, a biotechnology company, for contamination of soybeans meant for human consumption with genetically-engineered corn containing a vaccine,
 - (ii) that 500 000 bushels of food crop must now be destroyed,
 - (iii) that research into such pharma-foods (genetically-engineered crops containing vaccines, medicines and drugs) is occurring in Australia, and
 - (iv) that pharma-foods, because they contain drugs, may create serious health and safety issues in Australia, including by misuse and contamination; and
- (b) urges the Government to prevent the commercial release of pharma-foods in Australia until all issues relating to health, safety, environment and contamination are fully resolved.

Notice given 5 March 2003

387 **Senator Brown:** To move—That the Senate calls on the Commonwealth Government:

- (a) to demonstrate leadership in cooperation with the states in addressing the unmet need for disability services, recognising that the Australian Institute of Health and Welfare report, *Unmet Need for Disability Services: Effectiveness of Funding and Remaining Shortfalls*, July 2002, identified that 12 500 people still need accommodation and respite services, 8 200 places are needed for community access services and 5 400 people need employment services;

- (d) in consultation with the states, to develop and implement a comprehensive plan beyond the current negotiations to address the unmet need for services over the next 5 years.

388 **Senator Ridgeway:** To move—That the Senate—

- (a) notes the outcome of recent action against the International Olympic Committee for using the work of Indigenous artists during the Sydney Olympics without permission and, in particular, that the Olympic Museum Foundation has:
 - (i) issued an apology to Sam Tjampitjin, Richard Tax Tjupurulla and Mary Kemarre, acknowledging that they are the authors and copyright owners of works displayed on the Museum website from July to 12 December 2000 without proper licence,
 - (ii) asked any persons who downloaded the artistic works in any digital form to delete it immediately from their computer hard drives, and
 - (iii) sincerely apologised for any harm or inconvenience their actions may have caused to the artists, regretting any cultural or other harm that may have been occasioned by their families and clans;
- (b) further notes that:

- (i) Indigenous cultural expression is a fundamental part of Indigenous heritage and identity, and unauthorised use of Indigenous art and cultural expression can be inappropriate, derogatory, and culturally offensive,
 - (ii) individual Indigenous artists are custodians of the knowledge and wisdom their work incorporates and reflects and Indigenous moral rights are therefore collective rights that are inalienable from their community of origin, and
 - (iii) Indigenous artists are particularly vulnerable under Australian law, which offers no protection for the moral rights owned collectively by Indigenous communities; and
- (c) urges the Government to take immediate action to amend the *Copyright Act 1968* to ensure the adequate recognition and protection of Indigenous collective moral rights.

Notice given 6 March 2003

*389 **Senator Evans:** To move—That the Senate—

- (a) condemns the Prime Minister's re-writing of history, that bulk billing was never intended to be available to all Australians irrespective of their income;
- (b) condemns the Prime Minister (Mr Howard) for seeking to make Medicare a second-class safety net for the poor rather than a guarantee of quality health care for all Australians irrespective of their ability to pay; and
- (c) calls on the Government to urgently address the dramatically declining rates of bulk billing for all Australians as its highest health priority.

*390 **Senator Nettle:** To move—That the Senate—

- (a) notes the Human Rights Watch report, from December 2002 regarding the use of cluster bombs, which described these munitions used by both British and American forces as 'fundamentally flawed';
- (b) recognises that by February 1993 unexploded bomblets had killed 1 600 Kuwaiti and Iraqi civilians and injured 2 500, sixty per cent of which victims were under 15 years of age;
- (c) notes:
 - (i) that a leaked British Ministry of Defence report estimated that 60 per cent of the 531 cluster bombs dropped by the Royal Air Force during the Kosovo war missed their intended targets or were unaccounted for,
 - (ii) the provisions of the protocol additional to the Geneva Convention of 12 August 1949, relating to the protection of victims of international armed conflicts (Protocol 1) of 8 June 1977, to which Australia is a state party, in which Article 51 forbids indiscriminate methods and means of attack,
 - (iii) that unexploded cluster bomblets are indiscriminate and cluster bomblets cause higher rates of live 'duds' than other explosive munitions, and
 - (iv) that Article 35(2) of Protocol 1 additional to the Geneva Convention states, 'It is prohibited to employ weapons, projectiles and material and methods of warfare of a nature to cause superfluous injury or unnecessary suffering';

- (d) accepts the status of these munitions as being as unacceptably dangerous to the safety of civilians as the use of anti-personnel landmines, which are banned under the Ottawa Convention;
- (e) therefore, endorses the European Parliament's call for the United Nations Convention on Certain Conventional Weapons (CCW) State Parties to declare an immediate moratorium until an international agreement has been negotiated on regulation or restriction or ban on the use, production, and transfer of cluster munitions under the CCW, including air-dropped cluster munitions and submunitions delivered by missiles, rockets and artillery projectiles; and
- (f) calls on the Government to guarantee that Australian forces will not use, or be involved in the use of, these cruel and indiscriminate weapons.

Adjourned debate on the motion of Senator Ludwig—That the Senate—
- (a) condemns the Howard Government's decision to strip, without warning, the tax returns of Australian families who have been overpaid family payments as callous and unfair to parents trying to survive under increasing financial pressures;
 - (b) notes that this is not consistent with the statement of the Minister for Family and Community Services (Senator Vanstone) in July 2001 in which she assured families that, 'The Government has also decided that it would be easier for any family who still had an excess payment to have it recovered by adjusting their future payments, rather than taking it from their tax refund. This is because people may have earmarked their refund for use for specific things';
 - (c) considers that the Government's 2-year-old family payments system is deeply flawed, given that it delivered average debts of \$850 to 650 000 Australian families in the 2001-02 financial year and continues to punish families who play by the rules; and

 - (ii) in every year from the commencement of Medicare in 1984 through to 1996, bulk billing rates for GPs increased, but that, in every year since the election of the Howard Government, bulk billing rates have decreased;

 - (b) its decision to replace effective and meaningful consultation and discussion with a \$300 000 propaganda campaign, designed to sway the opinions of South Australians towards locating the repository in that state, in the absence of genuine efforts to provide accurate and exhaustive information on the suitability of the selected site, close to Woomera; and
 - (c) its lack of a thorough examination of the environmental impact of this plan, in particular the possible dangers caused by the site's proximity to the Woomera rocket range, and the serious concerns of both the Department of Defence and private contractors on this issue (*Senator Buckland, in continuation, 6 February 2003*).

1170 **Senator Harris:** To ask the Minister representing the Minister for Transport and Regional Services—

- (1) Does the year of manufacture of a vehicle determine what Australian Design Rules are applicable to that vehicle and, indeed, whether or not the *Motor Vehicle Standards Act 1989* applies to that vehicle.
- (2) Does the department nominate a year of manufacture for each vehicle for which an import approval is issued.
- (3) Why does the department have no formal guidelines to check this date is correct.
- (4) If this year of manufacture is incorrect, is not the department guilty of issuing a false and misleading document (certificate).
- (5) Does the import approval nominate the compliance plate approval (CPA) holder who has agreed to comply that vehicle.
- (6) Is this agreement binding on both the vehicle importer and CPA holder.
- (7) What procedures does the department have in place to ensure the CPA holder can abide by this agreement.
- (8) What compensation will the department offer to those who have imported vehicles, based on an agreement confirmed by the department, which is not able to be fulfilled.
- (9) (a) Why has the department never issued warnings that details on the import approvals it issues may be incorrect and should not be relied on; and (b) why have departmental officers issued contrary advice that import approvals cannot be changed once issued and that details contained therein must be abided by.
- (10) Given that two of the most important details on an import approval (year of manufacture and CPA holder) may be incorrect, why does the department bother issuing these documents.

- (4) How much of the annual expenditure on the Reserves is spent on: (a) Army Reserves; (b) Navy Reserves; and (c) Air Force Reserves.

- (5) Is the greater cost of Army Reserves simply proportional to the greater number of Army Reservists, or are there other reasons for the higher amount of spending on the Army Reserves.
- (6) Are there any cost implications of the new categories of Reserve service introduced by the Defence Personnel Regulations 2002.

Notice given 21 February 2003

1172 **Senator Allison:** To ask the Minister for Defence—

- (1) Has the date for public comment on the draft Portsea Defence Land Community Master Plan been extended to 28 February 2003, as requested.
- (2) Will the Government accept the advice of the consultants who prepared the draft master plan that private residential land-use be excluded and that the site remain in public ownership; if not, why not.
- (3) Why have real estate agents been appointed to develop a marketing and sales program for the land ahead of finalisation of the master plan.
- (4) Can a copy of the brief provided to Colliers International be made available; if not, why not.
- (5) What is the current status of discussions with the Victorian State Government over the clean-up of the site.
- (6) By what process, and on what basis, was permission given to Portsea landowner, Mr Lindsay Fox, to land his helicopter in the Norris Barracks area at Point Nepean throughout the summer.
- (7) What are the terms of this arrangement.
- (8) Was local government consulted over the decision; if not, why not.
- (9) Were local residents consulted over the decision; if not, why not.

1173 **Senator Bartlett:** To ask the Minister representing the Minister for Foreign Affairs—

- (1) With reference to the view expressed by the Minister recently that Saddam Hussein's behaviour is 'intolerable': (a) is it not the case that when, in the 1980s, Saddam Hussein's regime was gassing Kurds and Iranians, the West increased its aid and support to Iraq; and (b) if Saddam Hussein's behaviour is intolerable now, why was it not intolerable then.
- (2) Is it not the case that Saddam Hussein was assisted by the United States of America (US) with intelligence, satellite imagery, arms and weapons of mass destruction at that time.
- (3) Is it not the case that the US declared itself to be 'neutral' in the war between Iraq and Iran, while covertly assisting Iraq in that war.
- (4) (a) Does the Government agree with US Senator John McCain, who has stated that it was 'foolish' for people to protest on behalf of the Iraqi people, because the Iraqis live under Saddam Hussein 'and they will be far, far better off when they are liberated from his brutal, incredibly oppressive rule'; and (b) what advice has the US Government provided about the plan to liberate Iraq.
- (5) Given that France, Germany and other members of the Security Council have questioned the urgent rationale for war now, saying that there is a chance that continued inspections under military pressure might accomplish the disarmament of Iraq peacefully: Does the Government agree; if not, why not.

- (6) With the Minister urging that there be a United Nations (UN) resolution authorising an attack on Iraq, what are the implications for Australia's relations with France, Germany, Russia and China now that these countries have argued for continued inspections.
- (7) (a) Is the Government aware that foreign ministers for 22 Arab nations, meeting in Cairo recently, called on all Arab countries to 'refrain from offering any kind of assistance or facilities for any military action that leads to the threat of Iraq's security, safety and territorial integrity'; and (b) what are the implications of this statement in the event of an attack on Iraq.
- (8) Given that, in his latest report, the Executive Chairman of the UN Monitoring, Verification and Inspection, Dr Blix, indicated that weapons inspectors were making noteworthy progress in forcing Iraq to make concessions on everything from allied surveillance flights to giving inspectors greater access to Iraqi weapons scientists, and also said Iraq was still not cooperating like a state that truly wanted to disarm, but there had been progress: Why does the Government claim that Saddam Hussein is playing a 'cat and mouse' game and that there has been no progress on disarmament.
- (9) Given that US Secretary of State, Mr Powell, recently promised new intelligence on connections between Iraq and Al Qaeda, but then did not publicly provide it: Has that information been provided to the Australian Government; if so, when will it be released publicly.
- (10) Given that Dr Blix pointed out recently, that the satellite images Mr Powell brought before the Council were shot 2 weeks apart and did not necessarily show Iraqi deception: What are the implications of this advice for Australia's position.
- (11) What response has the Minister made to the argument of the French Foreign Minister, Mr de Villepin, that no one has convincingly argued that immediate war would be shorter and more effective in disarming Iraq than continued UN weapons inspections under the threat of force.
- (12) What response has the Minister made to French intelligence agencies finding that there was no support for the US claim of a strong connection between Baghdad and Osama bin Laden's terrorism network.
- (13) What advice has been sought from the British Prime Minister, Mr Blair, with regard to revelations that the United Kingdom's latest intelligence white paper was found to have been plagiarized from Internet sources.
- (14) Given that recent reports from Israel, suggest that the date of attack depends only on logistical considerations, when the deployment of US troops is complete, and that the war will begin at the end of February 2003 or the beginning of March 2003: Is this the Government's understanding of the situation.
- (15) Given that Israeli Major-General Gilad, Coordinator of Government Activities in the West Bank and Gaza, is quoted as saying on Saturday, 15 February 2003, that a US-led attack on Iraq would remove the Iraqi threat, and would be an example for 'the removal of other dictators closer to us who use violence and terror': What is the Government's understanding of this statement.

1174 **Senator Bartlett:** To ask the Minister for Defence—

- (1) (a) What legal advice does the Government have to suggest that the threat and/or use of force against Iraq, without United Nations (UN) Security

Council authorisation, would not constitute a crime of aggression and a breach of international law; and (b) can a copy of that advice be provided.

- (2) With reference to the statement by the Minister for Foreign Affairs in September 2002 that, 'We have no intention, as Australians, of playing any part in anything which would be illegal in breach of the law ... Australia has no intention of doing anything which is in breach of international law': How does the Government explain the change in approach leading to the Prime Minister's comments on the Australian Broadcasting Corporation's *7.30 Report*, on 23 January 2003, that, 'Until I know and the Government knows what has come out of the UN Security Council position – I mean you could have a situation where you have a resolution carried 13-2, and one of the two is a permanent member and the permanent member says "I am going to veto the resolution". Now in those circumstances we would have to make a decision, the Americans would have to make a decision, and potentially others. And I know there are other countries that would in those circumstances regard such a veto as capricious and regard a vote of 13-2 in favour of action as being Security Council endorsement and they wouldn't allow that capricious veto to hold them back'.
- (3) Why will the Government proceed to take action against Iraq if one or more UN Security Council members vetoes action, as has been suggested by the Prime Minister.
- (4) What criteria will the Government use to determine if a UN Security Council veto on Iraq is 'capricious'.
- (5) Given that the United States of America (US) is the only country to have vetoed a UN Security Council resolution calling on states to obey international law: In the Government's view, was this capricious; if not, why not.
- (6) Does the Government intend to push for a change to the UN Security Council's processes to take away the right of the five permanent members of the council to veto resolutions; if so, what steps has it taken to do so.
- (7) Does the Government acknowledge that Iraq had chemical and biological weapons during the Gulf War in 1991 but chose not to use them.
- (8) Has the US Administration explained why Saddam Hussein would be more inclined to use chemical and biological weapons now than in 1991.
- (9) Does the Government agree with the proposition that Saddam Hussein would be more likely to use chemical and biological weapons if his personal survival was at stake and he had nothing left to lose; if so, what role would Australia's dispatching of troops play in threatening Saddam Hussein's survival.
- (10) Has the Government been provided with an analysis by the US Administration of the current strength of Iraq's armed forces and the state of Iraq's industry and equipment, bearing in mind the effect of UN sanctions, no-fly zones in the north since 1991 and the south since 1993, political isolation and damage to infrastructure, including power and water reticulation systems; if so, can a copy of this analysis be provided.
- (11) (a) What evidence has been provided to the Government by the US Administration of Iraq's involvement in terrorist acts such as those on the World Trade Centre in New York and in Bali; and (b) can a copy of this evidence be provided.
- (12) With reference to the statement by US Administration official, Mr Armitage, that he is in no doubt that Iraq would pass weapons of mass

destruction on to terrorists: What evidence has the US administration provided to the Government of this assertion.

- (13) (a) Can the Government explain why the US and the United Kingdom (UK) continued to supply Iraq with weapons of mass destruction for 18 months after Saddam Hussein's attack, on 17 March 1988, against the Kurdish city of Halabja in which 5 000 citizens were killed by deadly chemical weapons; and (b) has the Government raised this question with the US Administration; if not, why not.
- (14) Has the US Administration indicated why it continued to treat Saddam Hussein as an ally and trading partner long after the 1988 attack on Halabja.
- (15) Has the US Government advised why, in 1989, President George H Bush authorised new loans to Saddam Hussein in order to achieve the goal of increasing US exports and putting the US in a better position to deal with Iraq regarding its human rights record.
- (16) Has the US Administration advised why Mr Kelly, US Assistant Secretary of State, flew to Baghdad in February 1989 – 11 months after the attack on Halabja – to tell Saddam Hussein that 'you are a source for moderation in the region, and the United States wants to broaden her relationship with Iraq'.
- (17) With reference to the US Senate Banking Committee reports which indicate that the 'United States provided the government of Iraq with "dual use" licensed materials which assisted in the development of Iraqi chemical, biological and missile-system programs' and that this assistance included 'chemical warfare agent precursors; chemical warfare-agent production facility plans and technical drawings; chemical warfare-filling equipment; biological warfare related materials; missile fabrication equipment and missile system guidance equipment': Is the Government aware that this assistance was provided up until December 1989, 20 months after the attack on Halabja.
- (18) Is the Government aware that private American suppliers provided Iraq with biological materials, including Bacillus Anthracis, Clostridium, Botulinum, Histoplasma Capsulatum, Brucella Melitensis and other toxic agents, and that, according to a US Senate committee report, 'these biological materials were not attenuated or weakened and were capable of reproduction'.
- (19) Is the Government aware of a US Senate committee report which stated in relation to these biological materials that, 'these microorganisms exported by the United States were identical to those the United Nations inspectors found and removed from the Iraqi biological warfare program'.
- (20) Has the Government sighted Iraq's 12 000 page declaration of its weapons program in the form in which it was presented; if not, why not.
- (21) Can the Government confirm that around 150 European, US and Japanese companies provided the components and know-how needed by Saddam Hussein to build atomic bombs, chemical and biological weapons.
- (22) Can a list of the countries involved in supplying those weapons of mass destruction to Iraq be provided.
- (23) (a) Can the Government confirm that an International Institute of Strategic Studies report found that Saddam Hussein is much less dangerous now than in the past when he was backed by the West; and (b) does the Government agree with the report; if not, why not.

- (24) Why is it that, when Iraq released its 12 000 page inventory of arms programs, the US obtained agreement from the President of the Security Council that the document be handed over to the US to analyse and copy.
- (25) (a) Is it the case that the US excised the 9-page table of contents, chapters on procurements in Iraq's nuclear program and relations with companies, representatives and individuals for its chemical weapons program from Iraq's inventory of arms programs before the distribution of the inventory to Russia, China, France and Great Britain; (b) if the Government is unable to provide an answer to (a), has it sought clarification from the US Administration since those reports in December 2002; if not, why not; (c) why is it that the 10 non-permanent members of the UN Security Council were given a scaled down, 3 000 page document instead of the full inventory; and (d) given that former UN weapons inspector, Mr Albright, said in December 2002, as reported in the *Guardian*, that there would be widespread embarrassment if the extent to which British, French, German and other Western companies had supplied Iraq's weapons build-up was known, what steps has the Government taken to establish whether or not this is the case.
- (26) With reference to the claim made by historian Gabriel Kolko in 2002 that, 'the United States supplied Iraq with intelligence throughout the war with Iran and provided it with more than \$US5 billion in food credits, technology and industrial products, most coming after it began to use mustard, cyanide and nerve gases against both Iranians and dissident Iraqi Kurds': can the Government confirm that this is the case.
- (27) (a) Can the Government confirm that Iraq's invasion of Iran in the 1980s was actively supported by the US with intelligence and weaponry; and (b) if this is the case, what explanation has been offered to Australia by the US Administration about the need to now take action against Iraq for its attack on Iran.
- (28) (a) Is it the case that Iraq's use of chemical weapons against Iran was not raised by the US with the UN or with Saddam Hussein at the time; and (b) what explanation does the US offer for this lack of action.
- (29) Has the Government been informed by the US as to why Iraq has been singled out for attack when, for instance, Egypt fought six wars between 1948 and 1973 and played a key role in starting four of them, and Israel initiated wars on three occasions and has conducted innumerable air strikes and commando raids against its various Arab adversaries.
- (30) In the Government's judgment, how does Iraq now rate as a brutal regime compared with, for instance, that of Indonesia's General Suharto.
- (31) How, in the Government's judgment, do Iraq's attacks on Iran and Halabj compare in terms of human rights abuses with Indonesia's occupation of East Timor, South Africa's occupation of Namibia, Turkey's occupation of northern Cyprus or Israel's occupation of Palestine.
- (32) Given the fact that Mr Richard Butler withdrew weapons inspectors from Iraq on the advice of the US Administration just prior to the attack on Iraq by the US and the UK on 16 to 19 December 1998, why did the Prime Minister claim in the *Australian* on 1 January 2003 that 'Hussein effectively expelled weapons inspectors during 1998'.
- (33) (a) Can the Government advise which states have assisted Israel to develop nuclear weapons; and (b) does the Government regard these states as being responsible for proliferation of weapons of mass destruction.

- (34) (a) Can the Government advise which states have assisted North Korea in building its nuclear stockpile; and (b) does the Government regard these states as being responsible for proliferation of weapons of mass destruction?
- (35) Has the Government considered the implications under international law of Australia's threat to use force in the form of dispatching troops prior to authorisation by the UN Security Council of action against Iraq; if so, what are those implications.
- (36) Given that Article 51 of the UN Charter requires very strong evidence that specific, grave and imminent threats are present before pre-emptive action is taken: (a) Has the Government been provided with evidence from the US Administration to this effect; and (b) can a copy of this evidence be provided.
- (37) What led the Prime Minister to say recently 'if the United Nations Security Council doesn't rise to its responsibilities on this occasion it will badly weaken its credibility'.
- (38) What led to the Minister for Foreign Affairs saying recently that the UN Security Council will 'look meaningless and weak, completely ineffectual'.
- (39) (a) Does the Government agree with remarks made by Mr Woolcott, former Australian Ambassador to the UN, in early February 2003 that, 'for 40 years the Security Council was paralysed by the Cold War and by repeated Soviet and American vetoes. But it survived, and whatever position it takes this month, it will survive the present crisis. It is simply an overstatement to suggest that if it does not come in behind the Anglo-American pressure it will become irrelevant'; if not, why not.
- (40) In the Government's assessment, to what extent has Israel's consistent non-compliance with UN Security Council resolutions calling for its withdrawal from occupied territories weakened the UN Security Council's credibility.
- (41) What difference does it make, in terms of the Security Council's credibility, that Israel is a democracy and that Iraq is not.
- (42) Is the Government aware that Israel would not permit the UN to conduct inspections of its research institute at Nes Ziona near Tel Aviv, which produces chemical and biological weapons and holds a stockpile of chemical agents.
- (43) Is the Government considering retrospective amendments to international law to legitimise threatening or using force against Iraq.
- (44) What, in the Government's assessment, would be the implications of such changes for Pakistan, India, North Korea and South Korea.
- (45) Does the Government agree with claims by President Bush that Iraqi actions amount to a threat of nuclear blackmail; if so, why.
- (46) With reference to the Prime Minister's recent statement that he believes that Iraq's 'aspiration to develop a nuclear capacity' might be a sufficient reason for Australia to join in pre-emptive action, claiming 'there is already a mountain of evidence in the public domain': Can a copy of that evidence be tabled.
- (47) Can the Government confirm that the US vetoed 22 draft UN Security Council resolutions on Palestine and seven relating to Israel's invasion of Lebanon in the 1980s.

- (48) Would these vetoes be regarded as capricious in the Government's criteria.
- (49) (a) What advice has the Government received from the US Administration about the suggestion that Iraqi dissidents have promised to cancel all existing oil contracts awarded to firms that do not assist the US to remove Saddam Hussein from power; and (b) was this taken into account in the decision to dispatch Australian troops to Iraq.
- (50) Does the Government agree with the statement made by Mr Woolcott, that, 'The fundamental role of the [UN] Security Council is to preserve the peace, not to authorise war'.
- (51) Given that Mr Woolcott also said, 'War is not, in fact, being "forced" on the US, as Bush said in his State of the Union address. The truth is that an unnecessary war is being forced on Iraq': Does the Government agree; if not, why not.
- (52) Given that Mr Scott Ritter, former UN weapons inspector says in his book, *War on Iraq*, that Iraq cannot be given a 'clean bill of health' in terms of weapons of mass destruction, but says that in 1998 nuclear infrastructure and facilities had been 100 per cent eliminated; and that scientists there still have the knowledge to reconstruct but this would be a very gradual process and not possible while weapons inspectors are there, for example, the centrifuges needed to enrich uranium are readily detectable: What evidence has the US Administration provided the Government about Iraq's access to nuclear weapons.
- (53) Given that, according to Mr Ritter's book, Iraq produced three nerve agents in the past: Sarin, Tabun and VX at the Mathanna State chemical factory: Is the Government aware that this factory was bombed during the Gulf War and then weapons inspectors completed the task of eliminating the facility.
- (54) Is the Government aware that Sarin and Tabun have a shelf life of 5 years and VX agent would also have degraded by now; if so, what evidence has the US Administration provided the Government about the existence of these weapons in Iraq.

A GUIDE TO THE DAILY NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees: is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees: is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees: a daily list of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

A GUIDE TO THE FULL NOTICE PAPER

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full electronic version of the *Notice Paper*, available on ParlInfo and on the parliament's Internet site.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3015.
