GENERAL BUSINESS

Notices of Motion

*Notice given 14 February 2002***17 Senator Tierney:** To move—That the Senate—

- (a) notes the serious problem of overcrowding in New South Wales public schools, especially when compared with other states across the country;
- (b) acknowledges the shameful results of a New South Wales Teachers Federation survey showing 20 per cent of all classes in each of the first 3 years of primary school being over the Carr Government's own limit, and 32 per cent of all kindergarten classes exceeding suggested class sizes during 2001;
- (c) condemns the Carr Government for putting New South Wales children's education at risk by increasing class numbers and not reducing them as other states are now doing;
- (d) congratulates the Howard Government for increasing funding to New South Wales government schools by 5.2 per cent in 2001, as opposed to Premier Carr's paltry 2.6 per cent; and
- (e) recognises the low priority given to education by the Carr Government, as evidenced by the fact that the amount spent on education as a percentage of total state budget has dropped from 25.5 per cent to 22 per cent in the 7 years since Labor came to power in New South Wales.

*Notice given 11 March 2002***23 Senator McGauran:** To move—That the Senate—

- (a) notes that:
 - (i) it is the 100th anniversary of the execution of Harry 'Breaker' Morant and Peter Handcock, killed by firing squad during the Boer War for following the orders, take no prisoners,
 - (ii) the court case held for Morant and Handcock was a sham, set up by Lord Kitchener, the giver of the orders Morant and Handcock followed,
 - (iii) the injustice to Breaker and Handcock has plagued Australia's conscience since their execution on 27 February 1902,
 - (iv) in 1902 the then Federal Parliamentarian and later first Governor-General of Australia, Issac Issacs, raised the matter of the execution in Parliament stating that this issue was agitating the minds of the people of this country in an almost unprecedented degree, and questioned the validity of the decision,
 - (v) the reason we need to go back 100 years to now right this wrong, is because Breaker Morant is one of the fathers of our ANZAC tradition; a friend of Banjo Patterson and an inspiration for much of his poetry and described as a man of great courage who would never betray a mate; and a man of whom many of the young ANZACs in World War I had heard and on whom they modelled themselves, and
 - (vi) Lord Kitchener was the Commander-in-Chief of the British Military who made the decision to commit troops to Gallipoli and is responsible for that disastrous campaign;
- (b) calls on the Government to petition directly the British Government for a review of the case, with the aim to quash the harsh sentence of death for Harry 'Breaker' Morant and Peter Handcock; and

- (c) take action to include the names of these two Australians on the Roll of Honour at the Australian War Memorial.

30 **Senator Brown:** To move—That the Senate—

- (a) notes that the Ministerial Code in the United Kingdom includes a system which deals with acceptance of appointments for ministers after leaving office; and
- (b) calls on the Government to:
 - (i) implement an advisory committee on business appointments, from which a minister would be required to seek advice before accepting business appointments within 5 years from the date from which he or she ceased to be a minister, and
 - (ii) ban any minister from taking an appointment that is directly related to his or her portfolio for 5 years from the date of resignation.

Notice given 20 March 2002

53 **Senator Greig:** To move—That the following bill be introduced: A Bill for an Act to prohibit certain conduct involving the vilification and incitement to hatred of people on the ground of sexuality, and for related purposes. *Sexuality Anti-Vilification Bill 2003.*

Notice of motion altered on 30 January 2003 pursuant to standing order 77.

Notice given 16 May 2002

78 **Senator Tierney:** To move—That the Senate—

- (a) notes that south-eastern Australia is the most fire prone region in the world;
- (b) commends the support provided by the Howard Government to New South Wales in January 2002, in particular, the provision of aerial fire fighting equipment;
- (c) expresses its concern that the state government is whitewashing the causes of the bushfire catastrophe of Christmas 2001 by just blaming pyromaniacs during the current bushfires inquiry;
- (d) calls on the New South Wales Government to give serious consideration to the evidence of State Forests of NSW, which believes that inadequate back-burning was the primary cause of the devastating fires;
- (e) rejects calls from the Nature Conservation Council to restrict hazard reduction;
- (f) calls on the Carr Government to allow non-government committee members to receive witnesses' submissions without having to first request them;
- (g) encourages the inquiry to reach a conclusion based on evidence and not party politics resulting from pressure from extreme green groups; and
- (h) hopes that the lessons learned from the bushfire inquiry will be shared to other state governments so all Australians can avoid such an unnecessary disaster.

Notice given 26 June 2002

108 **Senator Sherry:** To move—That there be laid on the table, on the next day of sitting, the advice by the Australian Prudential Regulation Authority to the Assistant Treasurer under section 230A of the *Superannuation Industry*

(*Supervision*) Act 1993, in relation to applications for financial assistance for superannuation funds where Commercial Nominees of Australia was trustee.

112 **Senator Ridgeway:** To move—That the Senate—

- (a) notes that:
- (i) the week beginning 24 June 2002 is Drug Action Week, aimed at generating community awareness about drug and alcohol abuse and the solutions being used to tackle these issues,
 - (ii) each day of Drug Action Week highlights a different theme and the theme on 27 June 2002 is Indigenous issues,
 - (iii) the misuse of alcohol and other drugs has long been linked to the deep levels of emotional and physical harm suffered by Indigenous communities since the colonisation of Australia,
 - (iv) alcohol and tobacco consumption rates continue to remain high in the Indigenous population, against declining rates in the general population, and the increasing use of heroin in urban, regional and rural Indigenous communities is also of particular concern,
 - (v) substance misuse is probably the biggest challenge facing Indigenous communities today, as it affects almost everybody either directly or indirectly and is now the cause as well as the symptom of much grief and loss experienced by Indigenous communities, and
 - (vi) the demand for the services of existing Indigenous-controlled drug and alcohol rehabilitation centres far exceeds the current level of supply;
- (b) acknowledges the essential role of Indigenous community-controlled health services in providing long-term, culturally-appropriate solutions for substance abuse; and
- (c) calls on the Government to:
- (i) fund the national substance misuse strategy, developed by the National Aboriginal Community Controlled Health Organisation, which is designed to build the necessary capacity within the Indigenous health sector so communities can address their health and well-being needs in a holistic and culturally-appropriate manner, and
 - (ii) improve coordination between Commonwealth, state, territory and local governments on these issues and ensure this facilitates greater Indigenous control over the development and implementation of all health programs.

Notice given 19 August 2002

120 **Senator Ray:** To move—That the Senate—

- (a) notes:
- (i) the claims in the *Age* newspaper of 15 August 2002 that the McGauran family is financially supporting the Democratic Labour Party of Australia (DLP) in its attempt to retain registration under the provisions of the Electoral Act,
 - (ii) that two of the three Victorian National Party representatives in the Federal Parliament are from the McGauran family and have, on occasions, relied on DLP preferences,
 - (iii) the comments of the DLP Secretary, Mr John Mulholland, when he said, 'It would be in Senator Julian McGauran's interests for the

- DLP to survive this de-registration moved by the Electoral Commission', and
- (iv) the immense amount of money made by the McGauran family from its poker machine interests in Altona, some of which is apparently going to fund the DLP's legal expenses; and
- (b) calls on Senator McGauran and the Minister for Science (Mr McGauran), to explain their knowledge of their family's involvement in funding the DLP's legal bills.

Notice given 22 August 2002

139 **Senator Mackay:** To move—That the Senate—

- (a) congratulates the Australian Capital Territory Legislative Assembly:
 - (i) on becoming the first state or territory legislature to remove abortion from the criminal code, and
 - (ii) for repealing the appalling law which required women seeking abortions to first look at pictures of foetuses;
- (b) notes that this landmark legislation should serve to encourage all remaining states and territories to enact similar legislative changes; and
- (c) notes that the Australian Capital Territory legislation recognises that abortion is a decision for women and is not something that should carry the threat of a jail term.

Notice given 16 September 2002

156 **Senator Allison:** To move—That the Senate—

- (a) notes that:
 - (i) the Deaflympic Games will be held in Melbourne in 2005; and
 - (ii) Deaf Sports Recreation Victoria has set up a Games Organising Committee to begin planning and organising this international event which will see the participation of 4 000 deaf athletes and officials from over 90 countries; and

175 **Senator Tierney:** To move—That the Senate—

- (a) deplures comments made in the New South Wales Parliament on Tuesday, 17 September 2002, by the State Minister for Education and Training (Mr Watkins), which misrepresented the future direction of universities in Australia and, in particular, the role of rural and regional universities;
- (b) notes that the Minister for Education, Science and Training (Dr Nelson) has put on the record that regional universities will not be disadvantaged by the current reform process;
- (c) further notes that the Federal Minister told all state education ministers, including Mr Watkins, in July 2002 that Australia would not be returning to second tier, teaching-only, higher education institutions; and
- (d) congratulates the Federal Minister for his comprehensive and inclusive review of higher education in Australia.

*Notice given 24 September 2002***184 Senator Stott Despoja:** To move—That the Senate—

(a) notes:

- (i) the commitment of the Government and Mr John Loy, Chief Executive Officer (CEO) of Australian Radiation Protection and Nuclear Safety Agency (ARPANSA), to a demonstrated store for radioactive waste by 2005,

- (iii) the commitment in the Lucas Heights environmental impact statement (EIS), EIS supplementary report and EIS assessment report to a radioactive waste store by 2005,
- (iv) the ARPANSA site licence assessment regarding a potential operating licence at Lucas Heights that, 'A license to operate would not be issued by ARPANSA without there being clear and definite means available for the ultimate disposal of radioactive waste and spent nuclear fuel',
- (v) that the recent comments by Mr Loy on the Australian Broadcasting Corporation's *PM* program indicating that the 'new' deadline for a store is now 2025 and that provision for second country reprocessing is no longer required are in direct contradiction to previous commitments, and
- (vi) that it recently passed a second reading amendment that:
 - (A) noted the view of the CEO of ARPANSA that arrangements for taking the spent fuel and turning it into a reasonable waste form need to be absolutely clear before the new reactor at Lucas Heights commences operation, and there needs to be clear progress on siting a store for the waste that returns to Australia, and
 - (B) expressed its opinion that until all matters relating to safety, storage and transportation of nuclear materials associated with the new reactor at Lucas Heights are resolved, no operating licence related to the new reactor at Lucas Heights should be issued by ARPANSA; and

(b) calls on the CEO of ARPANSA to:

- (i) reaffirm commitments made to the Australian people as part of the EIS process, and
- (ii) act in conformity with the Senate's second reading amendment.

*Notice given 17 October 2002***215 Senator Tierney:** To move—That the Senate—

- (b) expresses alarm that New South Wales state government spending on education currently lags \$318 million a year below the Australian national average;

- (c) notes that New South Wales primary schools have the worst student-to-teacher ratios in Australia and some of the largest class sizes in the country;
- (d) further notes that the Vinson report into public education demonstrates the under resourcing of the public education system in New South Wales by the Carr Government; and

- (a) condemns the Howard Government's decision to strip, without warning, the tax returns of Australian families who have been overpaid family payments as callous and unfair to parents trying to survive under increasing financial pressures;
 - (b) notes that this is not consistent with the statement of the Minister for Family and Community Services (Senator Vanstone) in July 2001 in which she assured families that, 'The Government has also decided that it would be easier for any family who still had an excess payment to have it recovered by adjusting their future payments, rather than taking it from their tax refund. This is because people may have earmarked their refund for use for specific things';

- (c) considers that the Government's 2-year-old family payments system is deeply flawed, given that it delivered average debts of \$850 to 650 000 Australian families in the 2001-02 financial year and continues to punish families who play by the rules; and

 - (b) its decision to replace effective and meaningful consultation and discussion with a \$300 000 propaganda campaign, designed to sway the opinions of South Australians towards locating the repository in that state, in the absence of genuine efforts to provide accurate and exhaustive information on the suitability of the selected site, close to Woomera; and
 - (c) its lack of a thorough examination of the environmental impact of this plan, in particular the possible dangers caused by the site's proximity to the Woomera rocket range, and the serious concerns of both the Department of Defence and private contractors on this issue (*Senator Buckland, in continuation, 6 February 2003*).

 - (a) beer (low-, mid- and full-strength beer, in packaged and draught form);

 - (d) spirits (including brandy) and 'other excisable beverages exceeding 10% abv'; and

 - (a) the quantity of customs duty, excise duty and WET collected;
 - (b) the amounts of rebates, subsidies and grants paid; and
 - (c) the amounts of drawback of customs and excise duty paid on re-exports and exports.
 - (3) The effectiveness of the existing alcohol administration arrangements relating to taxation collection, including whether or not the collection should be administered by a single administration agency.

 - (5) The impact of the existing alcohol taxation arrangements for:
 - (a) the economy, employment, the environment and industry;
 - (b) beverage pricing and cost structures;
 - (c) the patterns of consumption, including the abuse, of the various categories of alcohol product;

- (9) Were local residents consulted over the decision; if not, why not.

1173 **Senator Bartlett:** To ask the Minister representing the Minister for Foreign Affairs—

- (1) With reference to the view expressed by the Minister recently that Saddam Hussein's behaviour is 'intolerable': (a) is it not the case that when, in the 1980s, Saddam Hussein's regime was gassing Kurds and Iranians, the West increased its aid and support to Iraq; and (b) if Saddam Hussein's behaviour is intolerable now, why was it not intolerable then.
- (2) Is it not the case that Saddam Hussein was assisted by the United States of America (US) with intelligence, satellite imagery, arms and weapons of mass destruction at that time.
- (3) Is it not the case that the US declared itself to be 'neutral' in the war between Iraq and Iran, while covertly assisting Iraq in that war.
- (4) (a) Does the Government agree with US Senator John McCain, who has stated that it was 'foolish' for people to protest on behalf of the Iraqi people, because the Iraqis live under Saddam Hussein 'and they will be far, far better off when they are liberated from his brutal, incredibly oppressive rule'; and (b) what advice has the US Government provided about the plan to liberate Iraq.
- (5) Given that France, Germany and other members of the Security Council have questioned the urgent rationale for war now, saying that there is a chance that continued inspections under military pressure might accomplish the disarmament of Iraq peacefully: Does the Government agree; if not, why not.

- (6) With the Minister urging that there be a United Nations (UN) resolution authorising an attack on Iraq, what are the implications for Australia's relations with France, Germany, Russia and China now that these countries have argued for continued inspections.
- (7) (a) Is the Government aware that foreign ministers for 22 Arab nations, meeting in Cairo recently, called on all Arab countries to 'refrain from offering any kind of assistance or facilities for any military action that leads to the threat of Iraq's security, safety and territorial integrity'; and (b) what are the implications of this statement in the event of an attack on Iraq.
- (8) Given that, in his latest report, the Executive Chairman of the UN Monitoring, Verification and Inspection, Dr Blix, indicated that weapons inspectors were making noteworthy progress in forcing Iraq to make concessions on everything from allied surveillance flights to giving inspectors greater access to Iraqi weapons scientists, and also said Iraq was still not cooperating like a state that truly wanted to disarm, but there had been progress: Why does the Government claim that Saddam Hussein is playing a 'cat and mouse' game and that there has been no progress on disarmament.
- (9) Given that US Secretary of State, Mr Powell, recently promised new intelligence on connections between Iraq and Al Qaeda, but then did not publicly provide it: Has that information been provided to the Australian Government; if so, when will it be released publicly.
- (10) Given that Dr Blix pointed out recently, that the satellite images Mr Powell brought before the Council were shot 2 weeks apart and did not necessarily show Iraqi deception: What are the implications of this advice for Australia's position.
- (11) What response has the Minister made to the argument of the French Foreign Minister, Mr de Villepin, that no one has convincingly argued that immediate war would be shorter and more effective in disarming Iraq than continued UN weapons inspections under the threat of force.
- (12) What response has the Minister made to French intelligence agencies finding that there was no support for the US claim of a strong connection between Baghdad and Osama bin Laden's terrorism network.
- (13) What advice has been sought from the British Prime Minister, Mr Blair, with regard to revelations that the United Kingdom's latest intelligence white paper was found to have been plagiarized from Internet sources.
- (14) Given that recent reports from Israel, suggest that the date of attack depends only on logistical considerations, when the deployment of US troops is complete, and that the war will begin at the end of February 2003 or the beginning of March 2003: Is this the Government's understanding of the situation.
- (15) Given that Israeli Major-General Gilad, Coordinator of Government Activities in the West Bank and Gaza, is quoted as saying on Saturday, 15 February 2003, that a US-led attack on Iraq would remove the Iraqi threat, and would be an example for 'the removal of other dictators closer to us who use violence and terror': What is the Government's understanding of this statement.

1174 **Senator Bartlett:** To ask the Minister for Defence—

- (1) (a) What legal advice does the Government have to suggest that the threat and/or use of force against Iraq, without United Nations (UN) Security

Council authorisation, would not constitute a crime of aggression and a breach of international law; and (b) can a copy of that advice be provided.

- (2) With reference to the statement by the Minister for Foreign Affairs in September 2002 that, 'We have no intention, as Australians, of playing any part in anything which would be illegal in breach of the law ... Australia has no intention of doing anything which is in breach of international law': How does the Government explain the change in approach leading to the Prime Minister's comments on the Australian Broadcasting Corporation's *7.30 Report*, on 23 January 2003, that, 'Until I know and the Government knows what has come out of the UN Security Council position – I mean you could have a situation where you have a resolution carried 13-2, and one of the two is a permanent member and the permanent member says "I am going to veto the resolution". Now in those circumstances we would have to make a decision, the Americans would have to make a decision, and potentially others. And I know there are other countries that would in those circumstances regard such a veto as capricious and regard a vote of 13-2 in favour of action as being Security Council endorsement and they wouldn't allow that capricious veto to hold them back'.
- (3) Why will the Government proceed to take action against Iraq if one or more UN Security Council members vetoes action, as has been suggested by the Prime Minister.
- (4) What criteria will the Government use to determine if a UN Security Council veto on Iraq is 'capricious'.
- (5) Given that the United States of America (US) is the only country to have vetoed a UN Security Council resolution calling on states to obey international law: In the Government's view, was this capricious; if not, why not.
- (6) Does the Government intend to push for a change to the UN Security Council's processes to take away the right of the five permanent members of the council to veto resolutions; if so, what steps has it taken to do so.
- (7) Does the Government acknowledge that Iraq had chemical and biological weapons during the Gulf War in 1991 but chose not to use them.
- (8) Has the US Administration explained why Saddam Hussein would be more inclined to use chemical and biological weapons now than in 1991.
- (9) Does the Government agree with the proposition that Saddam Hussein would be more likely to use chemical and biological weapons if his personal survival was at stake and he had nothing left to lose; if so, what role would Australia's dispatching of troops play in threatening Saddam Hussein's survival.
- (10) Has the Government been provided with an analysis by the US Administration of the current strength of Iraq's armed forces and the state of Iraq's industry and equipment, bearing in mind the effect of UN sanctions, no-fly zones in the north since 1991 and the south since 1993, political isolation and damage to infrastructure, including power and water reticulation systems; if so, can a copy of this analysis be provided.
- (11) (a) What evidence has been provided to the Government by the US Administration of Iraq's involvement in terrorist acts such as those on the World Trade Centre in New York and in Bali; and (b) can a copy of this evidence be provided.
- (12) With reference to the statement by US Administration official, Mr Armitage, that he is in no doubt that Iraq would pass weapons of mass

destruction on to terrorists: What evidence has the US administration provided to the Government of this assertion.

- (13) (a) Can the Government explain why the US and the United Kingdom (UK) continued to supply Iraq with weapons of mass destruction for 18 months after Saddam Hussein's attack, on 17 March 1988, against the Kurdish city of Halabja in which 5 000 citizens were killed by deadly chemical weapons; and (b) has the Government raised this question with the US Administration; if not, why not.
- (14) Has the US Administration indicated why it continued to treat Saddam Hussein as an ally and trading partner long after the 1988 attack on Halabja.
- (15) Has the US Government advised why, in 1989, President George H Bush authorised new loans to Saddam Hussein in order to achieve the goal of increasing US exports and putting the US in a better position to deal with Iraq regarding its human rights record.
- (16) Has the US Administration advised why Mr Kelly, US Assistant Secretary of State, flew to Baghdad in February 1989 – 11 months after the attack on Halabja – to tell Saddam Hussein that 'you are a source for moderation in the region, and the United States wants to broaden her relationship with Iraq'.
- (17) With reference to the US Senate Banking Committee reports which indicate that the 'United States provided the government of Iraq with "dual use" licensed materials which assisted in the development of Iraqi chemical, biological and missile-system programs' and that this assistance included 'chemical warfare agent precursors; chemical warfare-agent production facility plans and technical drawings; chemical warfare-filling equipment; biological warfare related materials; missile fabrication equipment and missile system guidance equipment': Is the Government aware that this assistance was provided up until December 1989, 20 months after the attack on Halabja.
- (18) Is the Government aware that private American suppliers provided Iraq with biological materials, including Bacillus Anthracis, Clostridium, Botulinum, Histoplasma Capsulatum, Brucella Melitensis and other toxic agents, and that, according to a US Senate committee report, 'these biological materials were not attenuated or weakened and were capable of reproduction'.
- (19) Is the Government aware of a US Senate committee report which stated in relation to these biological materials that, 'these microorganisms exported by the United States were identical to those the United Nations inspectors found and removed from the Iraqi biological warfare program'.
- (20) Has the Government sighted Iraq's 12 000 page declaration of its weapons program in the form in which it was presented; if not, why not.
- (21) Can the Government confirm that around 150 European, US and Japanese companies provided the components and know-how needed by Saddam Hussein to build atomic bombs, chemical and biological weapons.
- (22) Can a list of the countries involved in supplying those weapons of mass destruction to Iraq be provided.
- (23) (a) Can the Government confirm that an International Institute of Strategic Studies report found that Saddam Hussein is much less dangerous now than in the past when he was backed by the West; and (b) does the Government agree with the report; if not, why not.

- (24) Why is it that, when Iraq released its 12 000 page inventory of arms programs, the US obtained agreement from the President of the Security Council that the document be handed over to the US to analyse and copy.
- (25) (a) Is it the case that the US excised the 9-page table of contents, chapters on procurements in Iraq's nuclear program and relations with companies, representatives and individuals for its chemical weapons program from Iraq's inventory of arms programs before the distribution of the inventory to Russia, China, France and Great Britain; (b) if the Government is unable to provide an answer to (a), has it sought clarification from the US Administration since those reports in December 2002; if not, why not; (c) why is it that the 10 non-permanent members of the UN Security Council were given a scaled down, 3 000 page document instead of the full inventory; and (d) given that former UN weapons inspector, Mr Albright, said in December 2002, as reported in the *Guardian*, that there would be widespread embarrassment if the extent to which British, French, German and other Western companies had supplied Iraq's weapons build-up was known, what steps has the Government taken to establish whether or not this is the case.
- (26) With reference to the claim made by historian Gabriel Kolko in 2002 that, 'the United States supplied Iraq with intelligence throughout the war with Iran and provided it with more than \$US5 billion in food credits, technology and industrial products, most coming after it began to use mustard, cyanide and nerve gases against both Iranians and dissident Iraqi Kurds': can the Government confirm that this is the case.
- (27) (a) Can the Government confirm that Iraq's invasion of Iran in the 1980s was actively supported by the US with intelligence and weaponry; and (b) if this is the case, what explanation has been offered to Australia by the US Administration about the need to now take action against Iraq for its attack on Iran.
- (28) (a) Is it the case that Iraq's use of chemical weapons against Iran was not raised by the US with the UN or with Saddam Hussein at the time; and (b) what explanation does the US offer for this lack of action.
- (29) Has the Government been informed by the US as to why Iraq has been singled out for attack when, for instance, Egypt fought six wars between 1948 and 1973 and played a key role in starting four of them, and Israel initiated wars on three occasions and has conducted innumerable air strikes and commando raids against its various Arab adversaries.
- (30) In the Government's judgment, how does Iraq now rate as a brutal regime compared with, for instance, that of Indonesia's General Suharto.
- (31) How, in the Government's judgment, do Iraq's attacks on Iran and Halabj compare in terms of human rights abuses with Indonesia's occupation of East Timor, South Africa's occupation of Namibia, Turkey's occupation of northern Cyprus or Israel's occupation of Palestine.
- (32) Given the fact that Mr Richard Butler withdrew weapons inspectors from Iraq on the advice of the US Administration just prior to the attack on Iraq by the US and the UK on 16 to 19 December 1998, why did the Prime Minister claim in the *Australian* on 1 January 2003 that 'Hussein effectively expelled weapons inspectors during 1998'.
- (33) (a) Can the Government advise which states have assisted Israel to develop nuclear weapons; and (b) does the Government regard these states as being responsible for proliferation of weapons of mass destruction.

- (34) (a) Can the Government advise which states have assisted North Korea in building its nuclear stockpile; and (b) does the Government regard these states as being responsible for proliferation of weapons of mass destruction?
- (35) Has the Government considered the implications under international law of Australia's threat to use force in the form of dispatching troops prior to authorisation by the UN Security Council of action against Iraq; if so, what are those implications.
- (36) Given that Article 51 of the UN Charter requires very strong evidence that specific, grave and imminent threats are present before pre-emptive action is taken: (a) Has the Government been provided with evidence from the US Administration to this effect; and (b) can a copy of this evidence be provided.
- (37) What led the Prime Minister to say recently 'if the United Nations Security Council doesn't rise to its responsibilities on this occasion it will badly weaken its credibility'.
- (38) What led to the Minister for Foreign Affairs saying recently that the UN Security Council will 'look meaningless and weak, completely ineffectual'.
- (39) (a) Does the Government agree with remarks made by Mr Woolcott, former Australian Ambassador to the UN, in early February 2003 that, 'for 40 years the Security Council was paralysed by the Cold War and by repeated Soviet and American vetoes. But it survived, and whatever position it takes this month, it will survive the present crisis. It is simply an overstatement to suggest that if it does not come in behind the Anglo-American pressure it will become irrelevant'; if not, why not.
- (40) In the Government's assessment, to what extent has Israel's consistent non-compliance with UN Security Council resolutions calling for its withdrawal from occupied territories weakened the UN Security Council's credibility.
- (41) What difference does it make, in terms of the Security Council's credibility, that Israel is a democracy and that Iraq is not.
- (42) Is the Government aware that Israel would not permit the UN to conduct inspections of its research institute at Nes Ziona near Tel Aviv, which produces chemical and biological weapons and holds a stockpile of chemical agents.
- (43) Is the Government considering retrospective amendments to international law to legitimise threatening or using force against Iraq.
- (44) What, in the Government's assessment, would be the implications of such changes for Pakistan, India, North Korea and South Korea.
- (45) Does the Government agree with claims by President Bush that Iraqi actions amount to a threat of nuclear blackmail; if so, why.
- (46) With reference to the Prime Minister's recent statement that he believes that Iraq's 'aspiration to develop a nuclear capacity' might be a sufficient reason for Australia to join in pre-emptive action, claiming 'there is already a mountain of evidence in the public domain': Can a copy of that evidence be tabled.
- (47) Can the Government confirm that the US vetoed 22 draft UN Security Council resolutions on Palestine and seven relating to Israel's invasion of Lebanon in the 1980s.

- (48) Would these vetoes be regarded as capricious in the Government's criteria.
- (49) (a) What advice has the Government received from the US Administration about the suggestion that Iraqi dissidents have promised to cancel all existing oil contracts awarded to firms that do not assist the US to remove Saddam Hussein from power; and (b) was this taken into account in the decision to dispatch Australian troops to Iraq.
- (50) Does the Government agree with the statement made by Mr Woolcott, that, 'The fundamental role of the [UN] Security Council is to preserve the peace, not to authorise war'.
- (51) Given that Mr Woolcott also said, 'War is not, in fact, being "forced" on the US, as Bush said in his State of the Union address. The truth is that an unnecessary war is being forced on Iraq': Does the Government agree; if not, why not.
- (52) Given that Mr Scott Ritter, former UN weapons inspector says in his book, *War on Iraq*, that Iraq cannot be given a 'clean bill of health' in terms of weapons of mass destruction, but says that in 1998 nuclear infrastructure and facilities had been 100 per cent eliminated; and that scientists there still have the knowledge to reconstruct but this would be a very gradual process and not possible while weapons inspectors are there, for example, the centrifuges needed to enrich uranium are readily detectable: What evidence has the US Administration provided the Government about Iraq's access to nuclear weapons.
- (53) Given that, according to Mr Ritter's book, Iraq produced three nerve agents in the past: Sarin, Tabun and VX at the Mathanna State chemical factory: Is the Government aware that this factory was bombed during the Gulf War and then weapons inspectors completed the task of eliminating the facility.
- (54) Is the Government aware that Sarin and Tabun have a shelf life of 5 years and VX agent would also have degraded by now; if so, what evidence has the US Administration provided the Government about the existence of these weapons in Iraq.

- (10) Given the claim, in the response to question on notice W13(a) from the Foreign Affairs, Defence and Trade Legislation Committee estimates hearings, on 21 November 2002, that a 2-year delay did not warrant a reconsideration of the viability of the project: If the delays increase further, at what point would the viability of the project be reconsidered.

- (14) With reference to the answer to question on notice no. 324 (Senate *Hansard*, 19 August 2002, p. 3191), which indicates that the presence of the FFGs in the Gulf would be reviewed 'should [the] environment change', and in view of these and other comments about the deficiencies in the combat system software and the 'environment change' that has occurred in the Gulf: Has the presence of the FFGs in that region been reviewed; if so, what was the outcome of this review; if not, why not.

- (15) Given the deficiencies in its combat system software was the option of recalling HMAS *Darwin* and not deploying any of the other FFGs to the Gulf considered; if so, what was the outcome; if not, why not.
- (16) Were the inadequacies in the combat system software on HMAS *Sydney* and HMAS *Newcastle* considered before it was decided to deploy these ships to the Gulf later in 2003; if so, why was it decided to proceed with the deployments; if not, why not.
- (17) What is the latest estimate of the total budget for this project.

- (24) Given the response to question on notice W21(c) from the Foreign Affairs, Defence and Trade Legislation Committee estimates hearings on 21 November 2002, which indicated that liquidated damages clauses are used to address 'performance shortcomings': Is a 2-year delay in a contract considered to be a performance shortcoming; if so, has the liquidated damages clause in the contract with ADI been invoked; if not, why not.
- (25) If a 2-year delay is not enough for the damages clause to be invoked: (a) at what point will this occur; and (b) why is this the case.

1183 **Senator Evans:** To ask the Minister for Defence—With reference to the JP 2062 project in the Defence Capability Plan (DCP):

- (10) (a) Why was a spokeswoman from the Minister's office quoted on page 5 of the *Australian* of 7 February 2003, warning that, 'cost blowouts associated with the Global Hawk program might delay any final purchase decision'; and (b) what did the spokeswoman mean by the statement.
- (11) What are the 'cost blowouts' that have been experienced with the project.
- (12) (a) What implications do the spokeswoman's comments have for phase two of the project; (b) is the timing specified in the DCP still on target (for year of decision and delivery date); if not, why not; and (c) what is the new timing for the year of decision.
- (13) Is the budget for phase two still in the order of \$100 to \$150 million, as specified in the DCP; if not, why is this the case.
- (14) How would any delays with this project impact on future capability.

1184 **Senator Evans:** To ask the Minister for Defence—With reference to the answer to question on notice no. 964 (Senate Hansard, 4 February 2003, p. 210), which indicated that the Government had not responded to any of the recommendations of the Review of Australian Defence Force Remuneration 2001 ('the Nunn Review'), and given that the former Minister Assisting the Minister for Defence, Mr Scott, indicated on 5 October 2001 that the Government had 'decided to set aside the recommendations concerning accommodation in Chapter 8 of the Review':

- (1) Have the recommendations concerning accommodation in Chapter 8 of the review been set aside or are the recommendations still under consideration, despite the former Minister's assurance that they had been set aside.
- (2) If these recommendations are still being considered by the Government, why did the former Minister announce on 5 October 2001 that they had been set aside.

1185 **Senator Evans:** To ask the Minister for Defence—With reference to Defence asset sales:

- (1) What progress has been made in selling the \$722 million worth of assets that were forecast to be sold in the *Portfolio Additional Estimates Statements 2002-03*.

1337 Minister representing the Minister for Transport and Regional Services

1338 Minister representing the Minister for Industry, Tourism and Resources

1339 Minister representing the Minister for Science

1340 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—With reference to the recent decision in the Federal Court determining that Ms Julie Vincent was not liable to pay taxes to the Australian Taxation Office (ATO) and did not owe the tax debt attributed to her:

- (1) Will the ATO contact Ms Vincent's fellow investors who have made settlement offers to the ATO and inform them that they are not liable to pay the tax claimed by the ATO on their amended assessments.

- (2) Can assurance be given that no other taxpayers will be financially disadvantaged as a result of ATO actions against them, particularly those who have made settlement offers to the ATO.
- (3) Why did the settlement process require that taxpayers make an offer to the ATO on a document prepared by the ATO which could not be accepted if there were any deletions or additions.
- (4) Has the ATO undertaken a review of the approximately 174 tax effective projects on which it has disallowed deductions, to determine the categories that would define projects in good, bad or alternative groups (eg structure, investor investment/deductions ratios, investor risk, profitability potential, export potential, certification and endorsement levels and employment opportunities); if so, will the ATO release the results of that review.
- (5) Has the ATO undertaken a review of the project type and/or such ratings, against the decisions made by the Federal Court to date.
- (6) How does the ATO explain the original letters sent to investors, with the prominent use of *Budplan* and *Vincent* case names, implying that these projects were typical and applied to all tax effective projects, given that rulings in the Federal Court to date paint a completely different picture and suggest that the average mum and dad investor has been misled by the ATO.
- (7) Does the ATO intend to issue to all investors a letter of explanation and an opportunity to withdraw any settlement offer.

1341 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—

- (1) Following Ms Julie Vincent's win before the Full Bench of the Federal Court, does the Minister accept that the amended assessment sent to her was wrong.
- (2) Does the Minister accept that Ms Vincent would have been required to pay tax for which she was not liable had she followed the settlement process provided by the ATO.
- (3) Can a guarantee be given that not one of the approximately 45 000 people caught up in this campaign will be similarly disadvantaged.
- (4) Does the Minister believe that the 'one size fits all' approach taken by the Commissioner of Taxation to the mass marketed tax effective investments campaign has resulted in gross unfairness to taxpayers who sought professional advice and told the truth when filling out their returns.
- (5) What is the Minister prepared to do about the growing feeling that the Commissioner of Taxation has taken advantage of his powers by bullying and intimidating taxpayers into accepting offers that can seriously disadvantage them.

1342 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—With reference to mass marketed tax effective investment (MMTEI) schemes:

- (1) Does the Minister believe that the Taxpayers' Charter of Rights should be dissolved.
- (2) Can the Minister confirm: (a) that the Australian Taxation Office (ATO) had concerns about the charter in the early 90s or even earlier; and (b) that the ATO took no action.
- (3) Does the Minister agree that if the taxpayer has to 'get it right' or face the repercussions then so, too, the ATO must also 'get it right' or also face the repercussions.

- (4) (a) Is the Minister aware that the settlement process document provided by the ATO to taxpayers states that the *Budplan* and *Vincent* court wins for the ATO prove the ATO was right, however in a letter to Australians for Tax Justice, the ATO states that the result of the Federal Court win for Ms Vincent was confined to a small number of participants in the project; and (b) why is this the case.
- (5) Does the Minister agree that the actions of the ATO in regard to the freedom of information (FOI) requests from MMTEI taxpayers, including originally attempting to charge five and six figure fees, were designed to avoid the ATO's obligations under FOI law.
- (6) Will the Minister admit that the failure on the ATO's side to meet FOI requests by the deadline for settlement meant that MMTEI taxpayers were forced to decide on settlement without being fully informed.
- (7) Does the Minister agree that the ATO failed to comply with directions from the AAT to provide documents to at least one appellant and sought repeated stays of hearing as the deadline for settlement approached.
- (8) Why does the ATO operate on the basis that it does not have to apply the principles of natural justice (ie procedural fairness) when conducting an internal review of a taxation decision.
- (9) Can the Minister confirm that the decision to disallow MMTEIs was taken at Casselden Place, Melbourne 5 months before the ATO had informed the public of its views by issuing Draft Ruling TR97/D17.
- (10) Will the Minister confirm that the ATO issued at least seven Private Binding Rulings (PBR) concerning the following primary production MMTEIs between 3 December 1992 and 19 January 1998, as follows: (a) 1/ Main Camp Tea Tree Oil Project No. 1 (at least 2 PBRs were issued); (b) 2/ Main Camp Tea Tree oil Project No. 2; (c) 3/ Tumut River; (d) 4/ Orchard Project; (e) 5/ Golden Vintage 1996; (f) 6/ WA Paulownias; (g) and 7/ Plantations and Red Claw Partnerships.
- (11) Does the Minister agree that all but one of these seven PBRs are unqualified as to Part IVA provisions of the Income Tax Assessment Act, and that the financing arrangements (associated companies, non recourse loans, round robin of cheques) are specifically acknowledged in four of them.
- (12) Does the Minister agree that the Commonwealth's stated position (after the Sherman report) on the applicability of PBRs is that they should be available to ATO officers and taxation advisers for guidance, and 'legally binding on the Commissioner for a taxpayer whose circumstances are comparable to those dealt with by the ruling'.
- (13) Why is it that the ATO continues to resile from the applicability of these (and possible other) PBRs to many of the 174 disallowed MMTEIs.

1343 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—With reference to mass marketed tax effective investment (MMTEI) schemes:

- (1) Can details be provided of how much the Australian Taxation Office (ATO) has spent on the MMTEI campaign.
- (2) Has the Treasurer allocated additional funds to the ATO to carry out this campaign; if so, can details of additional funds be provided.
- (3) Can the Minister confirm that the ATO has spent over \$100 million on the MMTEI investigations.

- (4) (a) Has the Minister failed in her duty to the Parliament by not taking earlier action; and (b) why should Australian taxpayers pay for this level of inadequacy.
- (5) Will the Minister make a commitment that she will not waste any more public money when it is clear that the ATO has been proven wrong in the eyes of the law.
- (6) (a) Does the Minister accept the ruling of the Federal Court in the cases *Vincent*, *Puzey* and *Cooke*; and (b) will the Minister put a plan in action if it becomes more obvious that the ATO cannot sustain arguments in the court.
- (7) If a taxpayer has availed himself of the settlement process issued by the ATO and it is subsequently found that investors in the project have their deductions allowed by the court, as in the *Vincent* case, can the Minister confirm that the ATO will contact the acceptors and inform them that their deductions are allowed.
- (8) Will the Minister inform the Senate what mischief there is in aggressive tax planning.
- (9) Is aggressive planning illegal; if so, under what head of power.
- (10) Is it possible for an ATO product ruling to allow a project manager to go out and mass market an aggressive tax planning strategy.
- (11) Is tax minimisation illegal; if so, under what head of power.
- (12) Is it true that, in May 1997, officers of the ATO met in Casselden Place, Melbourne to discuss the disallowance to the deductions in MMTEIs.
- (13) Why was a further \$2 billion in tax deductions recovered by the ATO and accepted as claims in the following 2 years before the market effectively knew that the ATO had agreed to disallow the deductions.
- (14) Was the Treasurer made aware of the ATO's intentions in this matter before action was taken; and, if so, what was his reaction.
- (15) Given that the Treasurer re-appointed the Commissioner of Taxation for another 7 years, a full year before he was required to, and given that, in a press release, he stated that the re-appointment was because of his work on aggressive tax planning: is this just another way of securing 7 years for the Commissioner to promise the Treasurer hundreds of millions of dollars.

Notice given 24 March 2003

- 1344 **Senator Bartlett:** To ask the Minister representing the Minister for the Environment and Heritage—Has the Minister made a declaration exempting the Commonwealth and all relevant Commonwealth agencies from the operation of section 28 of the *Environment Protection and Biodiversity Conservation Act 1999* in relation to the Government's actions in the war on Iraq; if so, can a copy of that written declaration be tabled.

A GUIDE TO THE DAILY NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.
