- (2) Will the Australian Government petition the US Administration to ensure that statements made by the defendants under duress are not admitted as evidence by the military commission.
- (3) Will the Australian Government petition the US Administration for an inquiry into whether Mr Hicks and/or Mr Habib have been subjected to torture to be conducted by an independent inquiry rather than by an inquiry held within the US Navy.

*9 **Senator Brown:** To ask the Minister for Fisheries, Forestry and Conservation—

Given the following extract from the website of the South Australian Branch of Marine and Coastal Community network <http://www.mccn.org.au/sa/>: 'South Australian fishers have continued to criticize Australian Fisheries Management Authority (AFMA) to allow automatic longline fishing in the southern fishery. Speaking on ABC radio, Alan Suter, from the Commercial Marine Scalefish Executive Committee and the West Coast Fishermen's Association has claimed most South Australia fishers are opposed to the practice. The fishers have also expressed extreme disappointment in State Fisheries for failing to protect the fishers and fish stocks. Fourteen trial auto-long-lining permits have been issued, allowing each fisher to put up to 15,000 hooks into the water twice a day. AFMA claims it will not compromise sustainability in deciding to allow the use of automatic long-lining in the Southern and Eastern Scalefish and Shark Fishery (SESSF). Apart from existing trial permits, no further auto-long-lining permits will be granted until further examination of the management measures required':

- (1) Were relevant stakeholders consulted before the AFMA issued the auto-long-lining permits.
- (2) Has there, in the light of the criticisms by the industry, been any review of the policy of allowing automatic longline fishing; if not, will the Government instruct the AFMA to conduct such a review, involving full consultation with the affected parties within the Australian fishing industry.

- (2) In circumstances where monies are collected from customers, as a levy to cover the increased cost of fuel: (a) are operators required to pass these levies to sub-contractors where the fuel is purchased by the sub-contractor; and (b) is there an available estimate of the yearly value of fuel levies that are not passed on to sub-contractors who purchase their own fuel.

- (3) Will the Government ask the National Road Transport Commission to investigate whether sub-contractors should be given further protection with respect to both of the above issues.
- *11 **Senator Brown:** To ask the Minister for the Environment and Heritage—With reference to the abandoned Woodsreef asbestos mine, located east of Barraba in New South Wales:

 - (3) If the law in effect annuls such marriages, how and when will the Government inform couples of this fact.
- *13 **Senator Brown:** To ask the Minister representing the Minister for Foreign Affairs—

 - (2) What is the complete picture regarding the treatment of the two Australians at Guantanamo Bay.

- (5) Has the Government made representation to the Victorian Government suggesting that the revenue from selling the land on which Kew Cottages is located should be used for accommodation for people with disabilities; if not, why not.
- (6) Does the Minister advocate choice of support and accommodation for families that are currently caring for a disabled and dependent person; if so, how.
- (7) Is the Minister aware that the board of Endeavour, the largest service provider for people with intellectual disability in the southern hemisphere, has been forced, through inadequate Commonwealth and state funding, to close its services; if so, what action does the Minister intend to take to ensure that those services will continue to be made available to those who need them.
- (8) What progress has been made in moving young people with disabilities from nursing homes into more appropriate accommodation in each state and territory.

*15 **Senator Allison:** To ask the Minister representing the Minister for Health and Ageing—With reference to an article in the *Herald Sun*, dated 18 October 2004, which reported that the Premier of Victoria (Mr Bracks) will ask for funds to compensate for the loss of revenue expected after 2006 when exemptions for motor racing from the *Tobacco Advertising Prohibition Act 1992* will not be provided by the Federal Government:

*27 **Senator Allison:** To ask the Minister representing the Prime Minister—

- (1) With reference to a claim made by the Prime Minister before the war that only the threat of force by the United States of America (US) allowed the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) weapons inspectors back into Iraq, and given that it was the threat of force by Washington which pulled the weapons inspectors out of Iraq in March 2003 before they could complete their work (as in December 1998), does the Prime Minister now concede that the threat of force failed again to disarm Iraq of its weapons of mass destruction.
- (2) What is the Government's response to the claim of the Executive Chairman of UNMOVIC, Dr Blix, that the US was guilty of 'fabricating' evidence against Iraq to justify the war, and his belief that the discovery of weapons of mass destruction had been replaced by the main objective of the US of toppling Saddam Hussein (The Guardian, 12 April 2003).
- (3) With reference to claims made by the Prime Minister before the war that there was no doubt that Iraq had weapons of mass destruction and that that this was the primary reason for Australia's participation in the 'coalition of the willing', what is the Prime Minister's position now that, even after the collapse of the regime in Baghdad, no weapons of mass destruction have been found despite United States Defence Secretary Donald Rumsfeld's claim to know where they are.
- (4) Given the Prime Minister's statements that 'regime change' was only a secondary concern for Australia, does the Government agree that the primary justification for the war may prove to be a lie.
- (5) If, as the Prime Minister repeatedly claimed, Iraq had weapons of mass destruction and Saddam Hussein could not be contained or deterred, what is the Government's analysis of why they were not used in the regime's terminal hours against the invading US, United Kingdom and Australian forces.
- (6) With reference to the Prime Minister's argument that stopping the spread of weapons of mass destruction was a primary motive for Australia's participation in a war against Iraq: (a) is the Government concerned that one of the direct effects of the war may be the proliferation of weapons of mass destruction to third parties, including other so called 'rogue states' and possibly terrorist groups, and (b) what analysis has the Government done of this likelihood, and (c) can details be provided.
- (7) Does the Prime Minister now regret saying just before the war (at the National Press Club and elsewhere) that Saddam Hussein could stay on in power providing he got rid of his weapons of mass destruction, thus allowing him to continue the repression of Iraqis; if so, what circumstances altered the Prime Minister's view.

*32 **Senator Allison:** To ask the Minister representing the Treasurer—

- (10) Given that the Government considered amending the *Interactive Gambling Act 2001* to make all exemptions under the Act (not just wagering) subject to the holding of an Australian state or (internal) territory licence at the time of its passage through the Parliament but did not do so because there was little time for consultation, will the Government now consider doing so.
- (11) Why is the Government permitting offshore wagering operators to shelter behind the subsection 8A(2) exemption of the *Interactive Gambling Act 2001* s8A exemption, allowing these operators to provide services to Australian residents (in New South Wales and Western Australia) that are illegal for those residents to use.

*52 **Senator Greig:** To ask the Minister representing the Minister for Revenue and Assistant Treasurer—With reference to a recent application by Open Doors Youth Service Inc. to the Australian Taxation Office for public benevolent institution and deductible gift recipient status, which was rejected on the grounds that the organisation, a support service for lesbian, gay, bisexual and transgender young people, did not satisfy the requirements of a benevolent institution:

- (1) Does the Minister consider that the conditions or misfortunes Open Doors is seeking to relieve, that is, suffering, distress, destitution, homelessness, suicide risk, disadvantage, discrimination, and isolation, which it claims occur as a direct result of homophobia, are such as to arouse pity or compassion in the community.

- (6) Does the Minister acknowledge that in certain circumstances, an individual’s experience of poverty, sickness, suffering, distress, misfortune, disability or helplessness may be directly relieved through the provision of community education or services that foster values and, if so, that such activity would then constitute benevolent relief.

*53 **Senator Greig:** To ask the Minister for Family and Community Services—With reference to the answer to question on notice no. 2863 (Senate *Hansard*, 15 June 2004, p. 23810) in which the Minister advised in paragraph 10(b) that the 2001 Agreement covers all Dutch pension payments being made into Australia allowing closer cooperation between Centrelink and the Sociale Verzekeringsbank (SVB), and in paragraph 10(a) that prior to commencement of the current agreement in 2003, SVB privacy rules did not allow for the exchange of information on customers paid without the aid of the agreement:

- (1) Can the Minister confirm whether these statements mean that not all Dutch pension recipients fell within the scope of the 1991 Agreement on Social Security between Australia and the Netherlands; if so, on what basis did a Dutch pension recipient fall or not fall within the scope of the 1991 Agreement.
- (2) Can the Minister confirm whether Centrelink or the department received information about individual customers who were paid because of the 1991 Agreement; if so, what was the nature of that information.
- (3) Of the 11 952 Dutch pension recipients who were subject to the Centrelink payment review that commenced in October 2002, did any of these fall within the scope of the 1991 Agreement; if so, how many.
- (4) Can the Minister confirm that the information of a general nature provided by the SVB to Centrelink under Article 16 of the 1991 Agreement, referred to in paragraph 10(a) of the answer, included information about periodic adjustments to rates of payment; if so, would that information have been sufficient to alert Centrelink or the department to the likely necessity for Dutch pension recipients to notify it of changes in their circumstances.
- (5) Did Centrelink or the department actively and specifically seek this information from individual Dutch pension recipients prior to the October 2002 review.

A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at aph.gov.au/senate.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
