**27 Senator Lees:** To move—That the Senate—

- (a) acknowledges the threats facing the endangered Asian elephant throughout its natural range, including live trade, human-elephant conflict and poaching for ivory tusks, hide and meat;
- (b) notes that:
  - (i) the Asian elephant is listed as an Appendix I species under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES),
  - (ii) Appendix I species are those whose trade must be subject to particularly strict regulation, and only authorised in exceptional circumstances,
  - (iii) Australia has been a party to CITES since 1976,
  - (iv) implementation of the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* serves as Australia's way of meeting its international obligations as a CITES party,
  - (v) under the Act, CITES Appendix I species cannot be imported for the purpose of exhibition, and zoos must prove that they are able to meet the biological and behavioural needs of the animals if importation is for reasons such as conservation breeding,
  - (vi) Australian zoos have requested permission from the Australian Government to import nine Asian elephants from Thailand as part of a captive breeding program,
  - (vii) research undertaken by Oxford University in 2002 and supported by peers has identified that zoos are unable to meet the biological and behavioural needs of elephants in captivity, as elephants in captivity suffer from stress and boredom leading to abnormal behaviours and have a greater incidence of infant mortality and early death, and
  - (viii) the proposed captive breeding program offers no conservation benefit to the Asian elephant species as no offspring will ever be returned to the wild and elephants do not breed successfully in captivity; and
- (c) calls on the Government to:
  - (i) reject the proposal that would allow the impending and any future importation of elephants from Thailand to Australian zoos,
  - (ii) work with the zoo association and non-government organisations to undertake an assessment of welfare conditions for elephants currently held in Australian zoos, and
  - (iii) earmark funding from the Regional Natural Heritage Program addressing biodiversity hotspots in the Asia Pacific region, for in situ conservation projects that will help to address the threats facing the Asian elephant in Thailand and other range states.

## QUESTIONS ON NOTICE

### *Questions remaining unanswered*

Question Nos, as shown, from 1 to 311 remain unanswered for 30 or more days (see standing order 74(5)).

### *Notice given 16 November 2004*

1 **Senator Brown:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the announcement by the Minister on 23 August 2004 of a \$48 million package to improve security within Australia's regional airports:

- (1) Is any of the money for this package coming from the air passenger ticket levy that was imposed in order to meet the entitlements of former Ansett employees.
- (2) (a) How much money was raised by the levy; and (b) of this, how much has been paid to former Ansett employees.
- (3) How much remains to be paid to former Ansett employees in order to fully meet their entitlements.

6 **Senator Brown:** To ask the Minister representing the Prime Minister—With reference to a letter dated 17 September 2003 sent by Mr D Brown of Ocean Reef, Western Australia, to the Commonwealth Ombudsman, Professor John McMillan, in which he specified six alleged irregularities in the conduct of the ombudsman, and asked for a detailed response to each complaint:

- (1) Has the ombudsman received this letter; if so, has he responded to the complaints made in the letter; if not, when will a response be made.
- (2) Does the Office of the Commonwealth Ombudsman respond to complaints made about the office itself, whether or not these are the basis of a formal complaint about a particular individual within the office.
- (3) Has the Office of the Commonwealth Ombudsman established a benchmark time frame for responding to complaints about the office.

**Senator Allison:** To ask the Ministers listed below (Question Nos 19-20)—

- (1) Is the Minister aware of the resolution of the Parliament of the European Union (EU) dated 28 October 2004 which calls on its 25 member states to stop the deployment of high intensity active naval sonar until more is known about the harm it inflicts on whales and other marine life.
- (2) Is the Minister aware of the report of the Scientific Committee of the International Whaling Commission (IWC) which found compelling evidence that entire populations of whales and other marine mammals are potentially threatened by increasingly intense man-made underwater noise, both regionally and ocean-wide.
- (3) Is the Minister aware that the IWC expressed particular concern about the effects of high intensity sonar, noting that the association with certain mass strandings 'is very convincing and appears overwhelming'.
- (4) Will the Government consider joining the EU in supporting the establishment of a multinational task force to develop an international agreement on sonar and other sources of intense ocean noise in order to exclude and seek alternatives to the harmful sonars used and to immediately

restrict the use of high intensity active naval sonars in waters falling under their jurisdiction; if not, why not.

- (5) Will the Minister provide details of: (a) the sonar systems used in Australian waters; and (b) the proposals to use active sonar during the proposed joint military training exercises between Australia and the United States of America (US) in Shoalwater Bay and surrounding waters.
- (6) Will the environmental management plans for these joint military training exercises be made public and will the precautionary principle be adopted in all circumstances.
- (7) Will the Minister provide details of proposals to adopt the new Surveillance Towed Array Sensor System Low Frequency Active system, currently in use on two US Navy ships, for Australian warships and submarines.
- (8) What efforts have been made by the Government to improve knowledge about the distribution of whales in Australian waters and the effects of active sonar systems on marine life.
- (9) Will the environmental impact of the use of active sonar systems in joint military exercises and more generally be overseen and assessed by marine scientists independent of government; if so, by whom; if not, why not.

20 Minister for the Environment and Heritage

22 **Senator Allison:** To ask the Minister representing the Minister for Health and Ageing—

- (1) When will the report resulting from the Investment Review of Health and Medical Research be made public.
- (2) What are the reasons for the delay in the publication of the report.
- (3) What plans does the Government have to implement the recommendations of the report.

23 **Senator Marshall:** To ask the Minister for Immigration and Multicultural and Indigenous Affairs—

- (1) For each of the years 2002, 2003 and 2004 (to date): (a) how many appeals for ministerial discretion to grant a visa to remain in Australia were made by people whose visas were cancelled under subsection 501(2) of the *Migration Act 1958*; and (b) how many times did the Minister exercise discretion to grant a visa to a person whose visa was cancelled under section 501 of the Act.
- (2) Does the Minister have the power to re-instate a permanent resident visa previously cancelled under sections 200 or 501 of the Act.

24 **Senator Allison:** To ask the Minister representing the Minister for Health and Ageing—

- (1) What discussions or consultations were conducted with industry and consumer groups regarding the pre-election announcement of compulsory 12.5 per cent cuts in the Pharmaceutical Benefits Scheme (PBS) prices for newly listed medicines.
- (2) (a) How will this savings measure be realised; (b) what legislative changes will be required; and (c) when will these be presented to the Parliament for consideration.
- (3) What information does the Minister have on the potential consequences of these enforced cuts in PBS prices for the sustainability of the pharmaceutical industry in Australia.

- (4) What work has been done to study the impact of this decision on the take-up of generic medicine manufacture.
- (5) What information does the Minister have on the potential consequences of these enforced cuts in PBS prices for community pharmacies.

27 **Senator Allison:** To ask the Minister representing the Prime Minister—

- (1) With reference to a claim made by the Prime Minister before the war that only the threat of force by the United States of America (US) allowed the United Nations Monitorings Verification and Inspection Commission (UNMOVIC) weapons inspectors back into Iraq, and given that it was the threat of force by Washington which pulled the weapons inspectors out of Iraq in March 2003 before they could complete their work (as in December 1998), does the Prime Minister now concede that the threat of force failed again to disarm Iraq of its weapons of mass destruction.
- (2) What is the Government's response to the claim of the Executive Chairman of UNMOVIC, Dr Blix, that the US was guilty of 'fabricating' evidence against Iraq to justify the war, and his belief that the discovery of weapons of mass destruction had been replaced by the main objective of the US of toppling Saddam Hussein (*The Guardian*, 12 April 2003).
- (3) With reference to claims made by the Prime Minister before the war that there was no doubt that Iraq had weapons of mass destruction and that that this was the primary reason for Australia's participation in the 'coalition of the willing', what is the Prime Minister's position now that, even after the collapse of the regime in Baghdad, no weapons of mass destruction have been found despite United States Defence Secretary Donald Rumsfeld's claim to know where they are.
- (4) Given the Prime Minister's statements that 'regime change' was only a secondary concern for Australia, does the Government agree that the primary justification for the war may prove to be a lie.
- (5) If, as the Prime Minister repeatedly claimed, Iraq had weapons of mass destruction and Saddam Hussein could not be contained or deterred, what is the Government's analysis of why they were not used in the regime's terminal hours against the invading US, United Kingdom and Australian forces.
- (6) With reference to the Prime Minister's argument that stopping the spread of weapons of mass destruction was a primary motive for Australia's participation in a war against Iraq: (a) is the Government concerned that one of the direct effects of the war may be the proliferation of weapons of mass destruction to third parties, including other so called 'rogue states' and possibly terrorist groups, and (b) what analysis has the Government done of this likelihood, and (c) can details be provided.
- (7) Does the Prime Minister now regret saying just before the war (at the National Press Club and elsewhere) that Saddam Hussein could stay on in power providing he got rid of his weapons of mass destruction, thus allowing him to continue the repression of Iraqis; if so, what circumstances altered the Prime Minister's view.

28 **Senator Allison:** To ask the Minister representing the Minister for Agriculture, Fisheries and Forestry—

- (1) Has Basslink Pty Ltd prepared a code of conduct for commercial and recreational fishing activities, as is required for approval of the Basslink

- project; if so; (a) has the code been approved; and (b) can a copy of the code be provided.
- (2) With which fishing groups and individuals did the proponents consult when developing the code.
  - (3) If consultations did not include Gippsland fisher's such as those from Yarram, McLaughlin's Beach and Lakes Entrance, why were these groups not consulted.

  - (4) Why were the non-compliant outcomes not identified before February 2004.
- 32 **Senator Allison:** To ask the Minister representing the Treasurer—
- (1) Why has the Treasurer imposed competition payment penalties on the Government of South Australia and ignored the arguments it put forward about the social impact that would result from that state removing its 'proof of need' test for hotel and retail liquor merchant licences, as required by the National Competition Council.
  - (2) Does the Treasurer accept advice from the Government of South Australia, and the Drug and Alcohol Services Council, the Salvation Army and the South Australia Police, that removing the 'proof of need' test would result in greater alcohol-related harm; if not, why not.
  - (3) Does the Treasurer accept the arguments put forward by the South Australian Premier on 2 June 2004 that the 'proof of need' test protects against business failures in the industry, and against market domination by

one or two powerful players, which would lead to a reduction in competition; if not, why not.

- (4) What other competition payment penalties will be or have been imposed on state governments, despite arguments put forward by those governments in relation to social and/or health impacts.

**33 Senator Allison:** To ask the Minister representing the Treasurer—

- (1) Is the company Betfair registered for the goods and services tax (GST) in Australia; if so, when did it register.

- (8) Does the Government acknowledge that in some cases AWAs are being misused and an inquiry into AWAs would be useful to ensure that AWAs are being implemented in the spirit in which they were first introduced, that

## A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

**Matters of privilege** take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

**Business of the Senate** has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

**Government business** is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

**General business** is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

**Notices of motion** are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

**Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

**Orders of the day relating to committee reports and government responses** follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Orders of the day relating to government documents** appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Business for future consideration** lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

**Bills referred to committees** lists all bills or provisions of bills currently being considered by committees.

**Questions on notice** includes the text of new questions on notice and lists the numbers of unanswered questions.

**Orders of the Senate** includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

**Contingent notices of motion** are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

**Temporary chairs of committees** is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

**Categories of committees** is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

**Committees** lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

**Senate appointments to statutory authorities** lists the statutory authorities on which the Senate is represented and details of representation.

**Ministerial representation** lists Senate ministers and the portfolios they represent.

### The ‘full’ Notice Paper

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at [aph.gov.au/senate](http://aph.gov.au/senate).

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
