- (2) Will the Minister provide a definition of mainstream media, taking into account the following extract from Mr Peter McGuaran's second reading speech, for the Broadcasting Services (Media Ownership) Bill 2002 on 21 March 2003:

Technological progress and globalisation are changing the structure of the Australian media market and patterns of media consumption—undeniably Australian media organisations are responding to these changes by investing in new technology enterprises and forming broader strategic partnerships, but the regulation of ownership and control of Australian media has been largely static. This creates ongoing tension between the trend towards convergence in the communications market and a regulatory framework which is based on sector-specific regulation and an assumption that influential sources of news and opinion are limited to the traditional domestic media outlets...The government is committed to the need for ongoing diversity of opinion and information in the Australian media.

\*1022 **Senator Bartlett:** To ask the Minister for Family and Community Services—With reference to the Commonwealth State Housing Agreement and, in particular, the related bilateral agreement with New South Wales:

- (1) Is the Minister aware of a document released on 27 April 2005 by the New South Wales Premier and the New South Wales Minister for Housing titled, ‘The NSW Government’s Plan for Reshaping Public Housing’.

Tenant’s needs will be reviewed toward the end of each tenancy. If their review shows they still need public housing, their tenancy will continue’; if so: (a) what analysis has been undertaken to assess the impacts of this policy change in discouraging low-

income tenants from improving their household earnings because they would no longer meet the stringent income test for eligibility; and (b) does the Minister agree that this policy change creates a potential poverty trap.

- (4) Does the Minister consider that the New South Wales Government has breached the commitment it and other states signed up to in the 2003 Commonwealth-State Housing Agreement, that 'States and Territories agree to research and better understand the nature of the barriers to Social Housing tenants accessing employment opportunities. The findings will be used to reduce or remove barriers to employment for Social Housing tenants'; if so, what action does the Minister intend to take.

## A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

**Matters of privilege** take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

**Business of the Senate** has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

**Government business** is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

**General business** is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

**Notices of motion** are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

**Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

**Orders of the day relating to committee reports and government responses** follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Orders of the day relating to government documents** appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Business for future consideration** lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

**Bills referred to committees** lists all bills or provisions of bills currently being considered by committees.

**Questions on notice** includes the text of new questions on notice and lists the numbers of unanswered questions.

**Orders of the Senate** includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

**Contingent notices of motion** are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

**Temporary chairs of committees** is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

**Categories of committees** is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

**Committees** lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

**Senate appointments to statutory authorities** lists the statutory authorities on which the Senate is represented and details of representation.

**Ministerial representation** lists Senate ministers and the portfolios they represent.

### The ‘full’ Notice Paper

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at [aph.gov.au/senate](http://aph.gov.au/senate).

---

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
