Notice given 6 September 2005

1148 **Senator Allison:** To ask the Minister for Communications, Information Technology and the Arts—

- (1) Can the Minister clarify a recent statement that the Government will ensure services to customers in areas of ‘market failure’ after full privatisation of Telstra.
- (2) Are ‘areas of market failure’ determined by the Government to be in: (a) rural; (b) remote; or (c) metropolitan, areas.
- (3) What is the Government’s definition of ‘market failure’.
- (4) To what extent and how does the Government consider that the privatisation of the Telstra environment will facilitate competition in areas of ‘market failure’.
- (5) Has the Government accepted that areas of ‘market failure’, however defined, are never likely to attract competition.
- (6) Does the Government agree that the commitment to ensure services to customers in areas of ‘market failure’ provides a perverse incentive for Telstra to: (a) withhold or diminish services in these areas; and (b) impede efforts by competitors to set up service provision in these areas.

- (7) What is the extent of 'market failure' that has been caused by Telstra's prevention of other businesses from setting up services.
- (8) How will the Government deal with the well-documented cases of Telstra pushing small competitors out of business when they try to establish competing businesses, particularly in regional areas in, for example, Crookwell, Bungendore and Albury-Wodonga.
- (9) How will the Government deal with excessive regulatory gaming by Telstra, whereby it effectively delays or prevents access by competitors to declared services.
- (10) What is the Government's estimation of the effect of the proposed additional regulation on: (a) Telstra's annual profits; and (b) Telstra's share price.
- (11) Does the Government have a conflict of interest in protecting the shareholders from the cost of additional regulation and ensuring consumers receive the benefits of modern telecommunications infrastructure and services; if so, to what extent.
- (12) How will the Government reconcile the mutually exclusive objective of providing for effective regulation of telecommunications and maximising Telstra's share price.
- (13) How will the Government ensure that the operational separation model for Telstra creates an incentive for Telstra to treat its retail arm and its competitors equitably.
- (14) How will the Government ensure that Telstra does not operate its retail arm at a loss by charging high wholesale prices to itself and competitors.
- (15) Will the Government give the Australian Competition and Consumer Commission (ACCC) divestiture powers in case operational separation fails.
- (16) What were the reasons for structural separation of Telstra not being considered in the package.
- (17) Does the Government agree that the fact that Telstra is vertically integrated is the single most important factor in Australia being ranked 21st in broadband penetration in the Organisation for Economic Co-operation and Development (OECD) Communications Outlook, 2005.
- (18) How does Australia compare with other OECD countries in terms of the rate of penetration of broadband, as opposed to the current rate of uptake.
- (19) Does the Government acknowledge that Australia's rate of uptake is relatively high because it starts from a very low base compared with other OECD countries.
- (20) How does the Government's definition of 'broadband' differ from other countries in the OECD.
- (21) What will the Government do about the obvious weakness of the anti-competitive conduct regime in the Trade Practices Act as demonstrated by the ACCC's experience with the Telstra broadband pricing competition notice.
- (22) What will the Government do to make it easier for Telstra's competitors to get access to reasonably-priced backhaul.

- (23) How will the Government ensure that people in regional areas where there is no competition receive better broadband services as standards improve in metropolitan areas.
- (24) What safeguards will the Government put in place to ensure that money put aside for regional areas will: (a) not simply fall back into Telstra's hands so as to cement its monopoly in regional areas; and (b) be applied equitably and not directed to Coalition or marginal electorates.

6 Unauthorised disclosure of committee proceedings

That the following order operate as a sessional order:

- (1) The Senate confirms that any disclosure of evidence or documents submitted to a committee, of documents prepared by a committee, or of deliberations of a committee, without the approval of the committee or of the Senate, may be treated by the Senate as a contempt.

- (2) The Senate reaffirms its resolution of 20 June 1996, relating to procedures to be followed by committees in cases of unauthorised disclosure of committee proceedings.
- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:
 1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:
 - (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;
 - (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;
 - (c) disclosure of documents and evidence submitted to a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event;
 - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
 2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
 - (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
 - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
 - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
 3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.
 4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.

- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.
- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at aph.gov.au/senate.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
