- (a) notes:
- (i) that Amnesty International, CARE International UK, CAFOD, Christian Aid, Medecins du Monde UK, Oxfam, Save the Children UK and Trocaire, in the week beginning 2 March 2008 said that the humanitarian situation in the Gaza Strip is now worse than it was at any time since Israel occupied the Palestinian territories in 1967,
 - (ii) that those organisations in the week beginning 9 March 2008 described Israel's blockade of Gaza as a collective punishment of the entire Gazan population of 1.5 million and said it was unacceptable and illegal,
 - (iii) that the situation has worsened since Israel imposed the severe restrictions over the Gaza Strip and hindered the movement of residents and goods,
 - (iv) that poverty levels in the Gaza Strip are rising and that hospitals are suffering 12 hour power cuts each day while water and sewage systems are close to collapse,

- (v) that the United Nations (UN) emergency relief coordinator in Gaza says medical services are deteriorating, private industry has more or less collapsed, hospitals lack sufficient beds, drugs, resuscitation devices, needles and blood to meet the demand and more than 80 per cent of the population are receiving emergency rations from UN agencies as their main source of food,
 - (vi) that 40 per cent of the Gaza population has access to water for only a few hours a day and that municipal authorities lack the fuel and spare parts needed to maintain water delivery infrastructure which could collapse at any time and that 40 million litres of raw or partially-treated sewage is being pumped into the Mediterranean Sea every day with long-term risks to the environment, and
 - (vii) that the International Save the Children Alliance advised that hundreds of thousands of children are among those most at risk in the crisis in Gaza with increased levels of chronic disease, anaemia, diarrhoea and malnutrition in children under 5 years of age;
- (b) urges the Government to work with the international community and parties to the conflict to, as a matter of urgency:
- (i) establish procedures to manage the crossings and re-establish full humanitarian and commercial access to Gaza,
 - (ii) enforce the full implementation of the 2005 Agreement on Movement and Access, which was announced by the United States Secretary of State, Condoleezza Rice, in Jerusalem on 15 November 2005,
 - (iii) develop a strategy that ensures the protection of children and other civilians in Gaza, while negotiations continue for an end to the violence and a comprehensive settlement of the conflict, and
 - (iv) increase the levels of humanitarian aid in Gaza to reflect the severity of need; and
- (c) considers that celebrating the 60th anniversary of Israel's statehood should not be interpreted as endorsement of action that gave rise to such crises or approval of the failure to deliver peace and a separate state for Palestinians, an objective that appears less likely now than at any time in the past 60 years.

- 63 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate calls on the Minister for Foreign Affairs (Mr Smith) to seek the abandonment of the death sentence in China.

Notice given 13 May 2008

- 68 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—
- (a) notes the findings of the Court of Appeal in overturning a decision of the Victorian Civil and Administrative Tribunal which had granted approval to the Romsey Hotel to install gaming machines, stating:

‘... if the approval of gaming at particular premises is likely to cause unhappiness or discontent in that community (or any part or parts of it), that consequence is a “social impact of approval” which will be “detrimental to the well-being of the community”. It will be detrimental to well-being

because it diminishes the citizens' sense of happiness with, or contentment in, their community', and

'the fact that the ... Act *allows* gaming to occur in approved premises does not mean that any Victorian community is *obliged* to accept gaming machines';

- (b) recognises that the interests of any community must precede the commercial interests of approved premises and that of governments that derive revenue from the operation of gambling machines; and
- (c) calls on the Government to urge all state and territory governments to recognise the right of local communities, through their councils, to reject applications for poker machine venues in their municipalities.

Notice given 16 June 2008

100 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes that:
 - (i) despite the relative improvement in the security situation in Iraq, the Iraqi people continue to live in an atmosphere of general chaos including lawlessness, unbridled terrorism, insecurity and the spread of organised crime, and
 - (ii) Iraqi women are subjected to various forms of discrimination, oppression and exploitation and face violence on a daily basis, they are facing mass killings because of widespread terrorism targeting them and that heinous murders are committed against them in broad daylight with impunity;
- (b) condemns the crimes of killing women in Iraq and denounces all forms of violations of their human rights; and
- (c) calls on the Government to promote an international fact-finding mission to Iraq, organised by the United Nations High Commission for Human Rights, with the participation of international human rights organisations, to investigate the crimes committed against women and to help the Iraqi authorities to identify the perpetrators and work to stop these crimes, and to:
 - (i) expose the criminals and those who stand behind them, and bring them to justice,
 - (ii) disclose the outcome of the investigations,
 - (iii) take measures to safeguard personal freedoms that are constitutionally guaranteed,
 - (iv) take deterrent measures to ensure the safety of citizens and to protect their lives, and
 - (v) act firmly to improve the conditions of women and facilitate their involvement in the reconstruction process.

101 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes that the statement by the Australian Industry Group, the Australian Council of Trade Unions, the Australian Education Union, Group Training Australia and the Dusseldorp Skills Forum 'Facing up to Australia's Skills Challenge', in which priorities are proposed for:

- (i) a focus on improving the quality and increasing the number of Australians with vocational education and training qualifications which meet future industry and workforce needs,
 - (ii) the centrality of industry,
 - (iii) improved youth engagement and attainment,
 - (iv) the crucial role for student support and for intermediaries,
 - (v) national workforce development and existing worker strategies,
 - (vi) genuine competency-based progression and improved apprenticeship completions,
 - (vii) a review of traineeships,
 - (viii) a public and industry investment strategy for vocational education and training,
 - (ix) a clear vision for flexible and responsive vocational education providers, and for the future of technical and further education in particular, and
 - (x) a focus on the skills needed for a low carbon economy; and
- (b) calls on the Government to adopt these priorities and to seriously consider the strategies suggested in the statement as soon as possible.

102 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes that on 11 June and 12 June 2008 citizens and scientists came together in Canberra for the 2008 Manning Clark House Conference ‘Imagining the Real Life on a Greenhouse Earth’, in honour of former federal Minister, the Honourable Dr Barry Jones, AO, and concluded that:
- (i) global warming is accelerating,
 - (ii) the Arctic summer sea ice is expected to melt entirely within the next 5 years, decades earlier than predicted in the Fourth Assessment Report of the Intergovernmental Panel on Climate Change (2007),
 - (iii) scientists judge the risks to humanity of dangerous global warming to be high,
 - (iv) the loss of the Great Barrier Reef now seems likely,
 - (v) extreme weather events, such as storm surges adding to rising sea levels and threatening coastal cities, will become more frequent,
 - (vi) there is a real danger that we have reached or will soon reach critical tipping points and the future will be taken out of our hands – the melting Arctic sea ice could be the first such tipping point,
 - (vii) beyond 2°C of warming seems inevitable, unless greenhouse gas reduction targets are tightened, and we risk huge human and societal costs, and perhaps even the effective end of industrial civilisation,
 - (viii) we need to cease our assault on our own life support system and that of millions of species, and that global warming is only one of many symptoms of that assault,
 - (ix) peak oil, global warming and long-term sustainability pressures all require that we reduce energy needs and switch to renewable energy sources and many credible studies show that Australia can quickly and cost-effectively reduce greenhouse gas emissions through dramatic improvements in energy efficiency and by increasing Australia’s investment in solar, wind and other renewable sources,

- (x) the need for action is extremely urgent and the window of opportunity for avoiding severe impacts is rapidly closing, yet the obstacles to change are not technical or economic, they are political and social, and
- (xi) democratic societies have responded successfully to dire and immediate threats, as was demonstrated in World War II and this is a last call for an effective response to global warming;
- (b) thanks the delegates of this conference, including Professor Barry Brook, Sir Hubert Wilkins, Dr Geoff Davies, Dr Andrew Glikson and Mr Sebastian Clark for their efforts in drawing this warning to the Senate's attention; and
- (c) urges the Government to act on these conclusions.

103 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes that:
 - (i) United Nations (UN) efforts to accomplish the decolonisation process in Western Sahara have not been successful yet,
 - (ii) more than 165 000 Saharawis have been living in refugee camps in the south-west of Algeria for the past 33 years in dire conditions,
 - (iii) the UN Security Council adopted Resolutions 1754 and 1783 (2007) whereby it called on Morocco and the Polisario independence movement to enter into negotiations, in good faith and without preconditions with a view to achieving a peaceful solution that provides a genuine opportunity for the Saharawi people to exercise their right to self-determination,
 - (iv) Polisario has offered a reasonable and genuine proposal for a peaceful solution to the conflict which complies with international legality and was noted in Security Council Resolutions 1754 and 1783,
 - (v) a just, lasting and democratic solution to the question of Western Sahara can be achieved through the organisation of a free and fair referendum to allow the Saharawi people to exercise their right to self-determination, in accordance with the UN resolutions, and
 - (vi) a UN failure in Western Sahara would compromise its credibility and lead to instability in north-west Africa;
- (b) calls on both parties in the conflict, Morocco and the Polisario, to cooperate fully with the UN in its efforts to find a speedy and peaceful resolution to the conflict in Western Sahara; and
- (c) urges the Government to make representations to:
 - (i) the UN, urging it to proceed in organising the long overdue referendum of self-determination without further delays, and
 - (ii) the Moroccan Government, asking it to respect human rights in the occupied territories of Western Sahara.

109 **Senator Allison:** To ask the Minister representing the Minister for Foreign Affairs—

- (1) Does the Government stand by its commitment to support a nuclear weapons convention, made on 14 August 2007 by the then Shadow Minister for Foreign Affairs Mr Robert McClelland in a speech to the United Nations Association.
- (2) Does the Government still consider the idea of a nuclear weapons convention as 'responsible and timely'; if so, to what extent and in what manner.
- (3) Will the Government support moves to implement a nuclear weapons convention in the terms suggested by the Middle Powers Initiative and the updated model nuclear weapons convention, adopted by the United Nations (UN) General Assembly as a discussion document in December 2007.
- (4) In detail, what is the Government's response to the updated model nuclear weapons convention, tabled by Malaysia and Costa Rica in the UN General Assembly Plenary in December 2007.
- (5) Will the Government proceed with the creation of a new Canberra Commission, as promised by the Prime Minister (Mr Rudd) prior to the 2007 election; if so, when.
- (6) (a) Is the Minister aware that a key recommendation of the original Canberra Commission was the lowering of the operational readiness of nuclear weapons systems; and (b) how has the Government decided to respond to that recommendation and to recommendation 17 of the final report of the Weapons of Mass Destruction Committee, chaired by Dr Hans Blix and tabled on 1 June 2006, to the same effect.
- (7) Does the Government consider the UN resolution 'Renewed determination toward the total elimination of nuclear weapons' (the renewed determination) to be an appropriate response.
- (8) In regard to the more recent resolution L.29 on decreasing the operational readiness of nuclear weapons system, co-sponsored by New Zealand, Chile, Nigeria, Sweden and Switzerland: (a) in what way does it differ from the renewed determination; (b) why did Japan, a co-sponsor of the renewed determination, vote in favour of L.29; (c) were there any reasons, other than the exigencies of time, for the incoming Government not to have voted in support of resolution L.29 on operating status as Japan, Germany, Austria, Spain, Portugal, Italy, Iceland, Ireland, Norway, Finland, Sweden, and New Zealand did; (d) what is the reaction of the Government to the passage

of that text by the UN General Assembly in a vote of 136 to 3; (e) why did the three nations, with whom Australia so frequently votes, vote for this resolution while Australia abstained; (f) why was this abstention maintained in the UN General Assembly Plenary; (g) from which non-government organisations did the Government receive correspondence suggesting that it ought to change its vote in the Plenary; and (h) is there anything in the text of resolution L.29 that is, or could be interpreted as being, in any way destabilising; if so, what constructive changes might be made to the resolution.

- (9) Will the Government try to advance the issue of nuclear weapons operating status: (a) at the 2008 Nuclear Non-Proliferation Treaty Preparatory Committee (NPT PrepCom); (b) at the next UN General Assembly First Committee; and/or (c) in its discussions with the United States of America and/or Russia.
- (10) Will the Government consider working together with: (a) New Zealand, Chile, Nigeria, Sweden and Switzerland at the NPT PrepCom to write a working paper on nuclear weapons operational status; (b) the New Agenda group, both on this issue and more widely on nuclear disarmament issues at the NPT PrepCom; and (c) the New Agenda and the Non-Aligned Movement groups, as well as the western groups and the nuclear weapons states, to promote ongoing progress in nuclear disarmament and strategic stability both via the measures set out in the final report of the Year 2000 NPT review and in the renewed determination, and via a lowering in nuclear weapons operational readiness.
- (11) What further steps will the Government take towards: (a) lowering nuclear weapons operational readiness; and (b) bringing the world closer to the creation and implementation of a nuclear weapons convention, along the lines of the updated model convention submitted to the UN General Assembly Plenary.

Senator Minchin: To ask the Ministers listed below (Question Nos 117-152)—With reference to Senator Minchin's letter to the Minister representing the Prime Minister, dated 1 February 2008, can the following information be provided prior to each round of Estimates and for Additional Estimates by 13 February 2008:

- (2) How many vacancies remain to be filled by ministerial (including Cabinet and Executive Council) appointments.

136 Minister for Human Services

137 Minister representing the Minister for Agriculture, Fisheries and Forestry

- 141 Minister representing the Assistant Treasurer
 142 Minister representing the Minister for Competition Policy and Consumer Affairs

 152 Minister representing the Minister for Sport (*transferred to the Minister representing the Minister for Health and Ageing on 9 May 2008*)

Senator Cormann: To ask the Ministers listed below (Question Nos 225-260)—

- (1) (a) Since 24 November 2007, what federal funding, programs and/or services to Western Australia have been cut and/or discontinued in any of the Minister's portfolio agencies; and (b) what savings have been made from these cuts.
- (2) (a) What plans does the Government have to cut and/or discontinue federal funding, programs and/or services to Western Australia in any of the Minister's portfolio agencies in the coming period; and (b) what estimated savings would be made from these cuts.

- 229 Minister representing the Treasurer
 245 Minister representing the Minister for Agriculture, Fisheries and Forestry
 249 Minister representing the Assistant Treasurer
 250 Minister representing the Minister for Competition Policy and Consumer Affairs
 257 Minister for Superannuation and Corporate Law

269 **Senator Murray:** To ask the Minister representing the Treasurer—

- (1) What costs would be incurred and what ramifications are there if the administration of the Medicare Levy surcharge was adjusted to ensure that it affects or is calculated for same-sex couples on the same basis as mixed-sex couples.
- (2) In view of the Prime Minister's statements in favour of ending discriminatory provisions, does the government intend to address this deficiency.

270 **Senator Murray:** To ask the Minister representing the Treasurer—

- (1) With reference to the former Treasurer's statement of 27 June 2007 on the release of the 2006 census information that 'the Census forms the basis for our electoral system, the provision of services and policy to meet the challenges that we face': does this mean that the effects of fly-in and fly-out workers who record their domicile elsewhere, or of transient/tourist numbers, will not be sufficiently taken into account for the provision of services in shires such as Roebourne and Wyndham East Kimberley; if not, how are fly-in fly-out or transient/tourist requirements factored in.
- (2) Given that, according to the recently released Australian Bureau of Statistics (ABS) census figures, in the Kimberley Region, between 2001 and 2006, the population of Broome has risen by only 1.8 per cent, or 1 240 people, and in the Shire of Wyndham East Kimberley, by just 0.4 per cent, or 133 people: (a) why do these figures differ from the shires' views as to significant real population growth; and (b) how were these figures arrived at, given, for instance, that school student numbers, a good indicator of permanency, in the region have risen by more than this amount in absolute terms (e.g. at Kununurra District High School, by at least 13 per cent).

- (3) Do census collectors obtain accurate figures from Indigenous communities in the Kimberley; if not, what is the degree of error.
- (4) Has the ABS investigated its figures to determine how such apparent small rises in overall population in the Kimberley can be possible, given the rise in housing demand and construction in these areas since the 2001 census and the overall increase in numbers of children enrolled in the local schools, in some areas, up at least 10 per cent.
- (5) Given that, according to an ABS seminar in Kununurra in 2007, the community was advised that the figures for the 2006 census were collated based on 'place of enumeration' while the method used in the 1996 census and the 2001 census was 'usual place of residence': (a) what impact has this change had on the census outcome; and (b) have Australians still continued to identify their usual place of residence (e.g. Perth) rather than place of enumeration (e.g. Argyle Mine).
- (6) Can the Treasurer confirm that any funding allocations from the Commonwealth, which are aligned to population numbers based on the census, will take into account other factors, such as housing demand and school enrolments in the East Kimberley, when considering funding allocation.

Notice given 13 February 2008

- 281 **Senator Webber:** To ask the Minister representing the Treasurer—Are banks with an Australian banking licence permitted to hold data or records on accounts in associated banks or subsidiaries domiciled in known tax havens.
- 283 **Senator Webber:** To ask the Minister representing the Treasurer—
- (1) Did the Australian Prudential Regulation Authority (APRA) ever place any restrictions, formally or informally, on Mr Murray Nugent or the companies he was involved with, specifically Reward Insurance Ltd and Australian Home Warranty Pty Ltd, on writing licensed builder home warranty insurance (LBHWI) from 1 July 1999 onwards.
 - (2) Can the Minister confirm that Mr Nugent continued to write LBHWI through Rewards Insurance Ltd after 1 July 1999.
 - (3) Can the Minister confirm that APRA has the power to disqualify an individual from holding roles within the Australian insurance industry; if so, why has APRA never moved to disqualify Mr Nugent from operating in the insurance industry.
 - (4) If Reward Insurance Ltd was under the minimum capital requirements for insurance companies from 2001 onwards, why did not APRA shut the company down.
 - (5) Can an outline be provided of all investigations, recommendations and directions undertaken and instigated into Reward Insurance Ltd since 1999 by: (a) APRA; and (b) the Australian Securities and Investments Commission (ASIC).
 - (6) Can the Minister confirm that investigations by APRA and ASIC into Reward Insurance Ltd and Mr Nugent have stalled since May 2005; if so, why.

Notice given 4 March 2008

344 **Senator Allison:** To ask the Minister representing the Minister for Resources and Energy—Given: (a) the announcement of the then Minister for the Environment and Water Resources on 20 February 2007 that conventional, incandescent light bulbs are to be phased out over the next 3 years and replaced with energy-saving globes; (b) the release of a discussion paper on 17 December 2007 on the proposed phase-out of incandescent bulbs and a minimum energy standard of 15 lumens per watt by 2010 and 20 lumens per watt by 2013; (c) that market-proven compact fluorescent lamps (CFLs) represent more than 15 per cent of the market share, with sales increasing rapidly and exponentially; (d) that CFLs are typically 60 lumens per watt, which is four times more efficient than the cut-off threshold proposed in the discussion paper; (e) that the additional benefits of high efficiency lighting are the energy savings and longer lifetime; and (f) that compared to incandescent lamps, high efficiency lighting saves in the order of \$50 to \$100 over its lifetime, has, on average, a 3 year payback and delivers a very competitive greenhouse abatement cost of \$3 per tonne:

- (1) What policy options, other than the Minimum Energy Performance Standards (MEPS), were considered.
- (2) Was a simplified energy label, supported by government promotion of high efficiency lighting solutions or rebates for efficient lamps, considered.
- (3) What role did industry play in forming this standard.
- (4) Given that setting a higher MEPS level and faster timetable or faster MEPS would be consistent with the Minister's policy objectives, why is a lower and slower MEPS being implemented.

Notice given 7 March 2008

- (1) How many new surgical procedures have been put to the Medical Services Advisory Committee (MSAC) for consideration since 2004.

369 **Senator Nettle:** To ask the Minister representing the Prime Minister—

- (1) At any point during the recent Asia-Pacific Economic Cooperation (APEC) forum, in Sydney, were the spouses of the APEC leaders transported by a coach with a parquet floor; if so: (a) where did the coach come from and how was it transported to Sydney; (b) why was it deemed necessary for the leaders' spouses to be transported in this manner; and (c) who made the decision about what level of luxury the leaders' spouses would travel in.
- (2) What were the costs and the greenhouse gas emissions associated with the transport of the coach to Sydney.

- (3) Can descriptions be provided of the other features of the vehicles that the leaders' spouses travelled in.

Notice given 19 March 2008

382 **Senator Allison:** To ask the Minister representing the Prime Minister—With reference to the Prime Minister's commitment to undertake 'evidence based policy in terms of producing the best outcomes for this nation' in an interview on the Australian Broadcasting Corporation's *Lateline* program on 8 November 2007, a central theme repeated by ministers of the Government:

- (1) Is the Prime Minister aware of fast growing scientific evidence that climate change is accelerating rapidly, as indicated, among other evidence, by the 23 per cent growth in spring melt of Arctic Sea ice between 2006 and 2007 and by an increase in the rate of mountain glacier melting from 30 centimetres per year between 1980 and 1999 to 1.5 metres in 2006.
- (2) Is the Prime Minister aware that, increasingly, climate scientists doubt dangerous climate change can be avoided unless abrupt reductions in carbon emissions occur in the near future, as reflected, among other evidence, by the theme of an upcoming Australian Academy of Science (AAS) conference 'Dangerous climate change: is it inevitable?'.
- (3) Is the Prime Minister aware that, in the view of climate scientists, climate change can not be halted unless critical reductions are made in carbon emissions in order to attempt to reduce the atmospheric level of carbon dioxide from current levels (of near 450 parts per million (ppm)) to about 350 ppm.
- (4) Does the Prime Minister realise that, by analogy to a medical condition where precise doses of antibiotic need to be administered in time to counter bacterial infection, the runaway climate crisis cannot be mitigated unless critical emission reductions are made in time.
- (5) Is the Prime Minister aware of the danger that, should urgent measures on mitigation not be undertaken, carbon feedback effects from warming oceans and drying biosphere can result in a climate catastrophe, which has happened several times during the recent history of Earth due to solar radiation peaks.
- (6) Is the Prime Minister aware that current rates of carbon dioxide and temperature increases are 1 to 2 orders of magnitude faster than those which occurred during the last glacial termination, between 14.5 and 11.5 thousand years ago.
- (7) Is the Prime Minister aware of the consequences of inaction, including extensive droughts, storminess, acidification of the oceans, collapse of the marine food chain and the flooding of extensive low-lying agricultural regions and coastal cities caused by rising sea levels, leading to forced evacuations of hundreds of millions of people around the world.
- (8) How does the Prime Minister view the consequences of these developments compared to the cost of fast-tracked conversion from carbon-emitting utilities to clean energy applications, including solar-thermal, photovoltaic, wind, hot rocks, hydrogen and other techniques.

- (9) What is the difference in outcomes between the previous Government's denial of climate change and the current Government's apparent reluctance to follow the minimum mitigation measures recommended by the interim Garnaut report, which include emission reductions of between 25 and 40 per cent by 2020 and 90 per cent by 2050.
- (10) Will the forthcoming Treasury report on the economics of climate mitigation also consider the economics of major droughts, storms, rising sea levels and the damage to international trade systems consequent on runaway climate change.
- (11) Given that Australia is a net exporter of coal and has one of the highest per capita carbon pollution rates, is the Prime Minister willing to undertake immediate steps to promote Australian leadership in the world's attempts to stem the looming climate crisis.
- (12) Given the Prime Minister's undertaking that 'my door will always be open to men and women of goodwill who want to participate in making our country even greater in the future' in his election victory speech on 24 November 2007, is the Prime Minister willing to: (a) consider the evidence raised in the critical AAS meeting on 9 May 2008; and (b) accept a delegation of active climate scientists, in order to obtain direct advice regarding the fast deteriorating state of the atmosphere and its consequences.

That the following order operate as an order of continuing effect:

- (2) The Senate reaffirms its resolution of 20 June 1996, relating to procedures to be followed by committees in cases of unauthorised disclosure of committee proceedings.
- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:

1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:
 - (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;
 - (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;

 - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
 2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
 - (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
 - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
 - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
 3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.
 4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.
- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.

- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and at: www.aph.gov.au/senate/work/notice/index.htm

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
