18 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—

(a) notes:

- (i) the contempt in which the Australian Labor Party (ALP) has historically held upper houses around the country, including a platform to abolish all upper houses until 1979, the abolition of the upper house in Queensland and a current policy to abolish the South Australian Legislative Council,
 - (ii) that the Prime Minister (Mr Rudd) has reduced the number of sitting weeks in the Senate in 2008, and
 - (iii) that the Deputy Prime Minister (Ms Gillard) has already demanded legislation be passed without adequate scrutiny in the Senate; and
- (b) given the above, condemns the Rudd Labor Government for continuing the ALP's legacy of inherent contempt for the Senate.

Notice given 19 March 2008

Notice given 24 September 2008

220 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—

(a) notes:

- (i) the claims of both the Managers of Government Business in the Senate and the House of Representatives that the Government's legislative priority for the sitting week beginning 22 September 2008 is the passage of its budget-related bills, and
- (ii) that the Government has deferred consideration of its supposed priority bills on numerous occasions throughout the past three sitting weeks; and

(b) calls on the Government to give precedence to the following bills over other legislation:

Tax Laws Amendment (Medicare Levy Surcharge Thresholds) Bill 2008

Excise Legislation Amendment (Condensate) Bill 2008 and a related bill.

- 340 **Senator Hanson-Young:** To move—That the Senate—
- (a) notes:
 - (i) the recent decision by the President of the United States of America, Barack Obama, to overturn the global gag rule for family planning guidelines that effectively prohibits the use of aid funding for some contraceptives, and for abortion advice and services, and
 - (ii) that Australia is now the only country that continues to enforce these harsh restrictions on our aid program, limiting its ability to provide an effective and essential family planning service;
 - (b) recognises:
 - (i) the essential role mothers play in developing communities, with both maternal and child health considered crucial Millennium Development Goals, and
 - (ii) that an estimated 34 000 mothers die in our region each year, due to the lack of maternal health supports available, with more than half of the 29 developing countries not on track to achieve either goal; and

1 **Senator Milne:** To move—That the following matter be referred to the Environment, Communications and the Arts Committee for inquiry and report by 29 May 2009:

Australia's climate change response, with particular reference to:

- (a) the adequacy or otherwise of the Government's greenhouse gas emission reduction target of 5 per cent by 2020 and 60 per cent by 2050 below 2000 levels in avoiding dangerous anthropogenic interference with the climate, defined as a global temperature rise of more than 2 degrees;
- (b) whether or not, if the global community pursues a 550 parts per million (ppm) target until 2020, there is any prospect of achieving a 450 ppm target, i.e. is an 'overshoot' emission trajectory realistic and what are the risks involved;
- (c) whether or not, if the global community pursues a 550 ppm target, the Government's greenhouse emission reduction targets of 5 per cent by 2020 and 60 per cent by 2050 below 2000 levels constitutes a fair and proportionate contribution to the global abatement task;

- (d) what emission targets would be consistent with achieving a 300 ppm, 350 ppm and a 400 ppm atmospheric concentration target, equitably shared between industrial and developing nations, and between industrialised nations; and
- (e) the debate into global negotiations to date on per capita emission targets and whether or not the Government's arguments on per capita emissions are consistent with globally understood principles of equity underpinning burden sharing arrangements.

- *1380 **Senator Ludlam:** To ask the Minister for Innovation, Industry, Science and Research—
- (1) Given that the department’s 2008-09 Portfolio Budget Statement indicates that ‘Subject to regulatory approvals, ANSTO [Australian Nuclear Science and Technology Organisation] expects to complete commissioning of the OPAL [Open Pool Australian Lightwater] research reactor during the 2008-09 financial year’, is this commissioning still part of the contract for the Argentinean company, INVAP.
 - (2) In 2002, when INVAP was contracted to design, construct and commission the OPAL reactor it was deemed financially viable, however, given the global economic crisis, has INVAP’s financial viability been recently investigated to ascertain INVAP’s capacity to pay any major claims; if so, is the Minister satisfied that INVAP is financially viable and able to pay the damages sought by the Government.

- (3) What is the extent of the current claims being made on INVAP.
- (4) (a) What court proceedings have occurred since 2002 in regard to the ANSTO/INVAP contract; and (b) what impacts have these court proceedings had on current negotiations with INVAP on completion of commissioning and performance demonstrations.
- (5) (a) Which department currently approves claims from ANSTO/INVAP for the OPAL project; and (b) who in the department signs off on those payments.
- (6) Can details be provided of the claims in regard to extras or variations claimed over and above the original lump sum for the contract.
- (7) Given that the original tender would have a schedule of costs associated with each major phase and component of the project, and that negotiations are currently in progress regarding extra items: (a) what were the original cost estimates for the OPAL project; and (b) who prepared these estimates.
- (8) Were the costs of supply of spare parts from INVAP (CN129849 valued at \$1 140 357 for the period 2008-11) included in any estimates for completion of the OPAL project.
- (9) What are the costs of managing this supply contract, including any overseas inspection requirements.
- (10) What quality assurance provisions have been included in the contract for the spare parts to ensure that components provided by INVAP are safe and conform to all technical requirements.
- (11) What contingency provisions have ANSTO made for the inability of INVAP to provide conforming components.
- (12) Is ANSTO still considering building a treatment plant for the heavy water to mitigate the problems caused by the seepage.
- (13) Was this covered in the original estimate for the reactor facility or is it to be covered in defects claims from INVAP.
- (14) Were the Australian Radiation Protection and Nuclear Safety Agency's (ARPANSA's) costs for consulting and visits to Egypt, Argentina and France taken into account in the estimates for the reactor facility construction.
- (15) Has a cost benefit analysis been carried out based on the current cost of the reactor facility; if so, what were the results.
- (16) How much is the OPAL project contributing to ANSTO's annual loss.
- (17) In the construction of the reactor pool liner, were the welds connecting the wall of the reactor pool liner to the reactor base radiographed or were they tested using ultrasound.
- (18) Why was porosity of the welds, that are now leaking, not picked up by testing and the quality assurance system.
- (19) What risk is there of further leaking in other vessels.
- (20) Why was it not until commissioning that the porosity in the welds was discovered.
- (21) (a) Has ANSTO examined the documents and test certificates for the leaking welds; and (b) do these documents indicate non-conformance.
- (22) Are the current negotiations for compensation and defects liability being held with the John Holland Evans Deakin Joint Venture (JHEDI) alliance or just with INVAP.

- (23) What are the contractual relationships between ANSTO and JHEDI.
- (24) Was the fabrication company DME Engineering Services Pty Ltd that made the non-conformances nominated in the tender, or were they chosen internally by JHEDI after the award of the main contract
- (25) (a) How long is the defects liability period for INVAP; and (b) what occurs at the end of the defects liability period if there are further leaks.
- (26) Are there liquidated damages opportunities in the INVAP/ANSTO contract for compensation resulting from errors and delays.
- (27) How confident is ANSTO that vessels and other components which were fabricated in Argentina away from Australian inspectors, comply with the required Australian standards and are not a safety risk.
- (28) Are the staff supervising the ongoing repair work of INVAP qualified in fabrication inspection; if so, can details be provided of the number and qualifications of these staff.
- (29) Given that some of the assumptions in the original safety reviews have shown to be incorrect, and the vessel may not have the engineering integrity assumed in the original assessment, has a further safety assessment or risk analysis been undertaken.
- (30) What magnitude of earthquake events was the reactor designed to tolerate.
- (31) Has the patched and leaking vessel been reassessed for integrity under earthquakes of these magnitudes.
- (32) Has ANSTO re-evaluated the reactor's ability to tolerate earthquake events given the issues arising from the patched and leaking reactor vessel.
- (33) Given that the risk analysis informing the reference accident assumed a 'high quality design' can no longer be guaranteed as several basic errors have occurred, is the reference accident based on a certain level of engineering integrity of the facility still considered valid.
- (34) Was the independent peer review of the *Preliminary Safety Analysis Report* recommended by Environment Australia undertaken; if so: (a) which organisation conducted the review; (b) did the review pick up the design errors; (c) what were the recommendations of the review; and (d) will the Minister table a copy of this review.
- (35) Given that the construction license process and negotiations with ARPANSA were not complete until after the award of the contract, were the license requirements imposed on ANSTO by ARPANSA fully reflected in the contract documents for the vendors, fabricators, construction contractors and subcontractors.
- (36) How long has the occupational health and safety unit at ANSTO been in operation and what are the current competencies of staff in relation to safety standards.
- (37) Given that the Welding Technology Institute of Australia's (WTIA's) review of the ANSTO strategy for the repairs commented that 'in qualifying the weld procedure used for welding the 6mm wall to 12mm base plate, test coupons had not used plate of sufficient thickness', did the recommended re-qualification of the weld procedure occur.
- (38) Has WTIA been asked to further review the welds.

- (39) Given that the non-standard engineering drawings provided by INVAP to the liner fabricators was a non-conformance: (a) was the drawing that did not comply with Australian practice recorded as a non-conformance; and (b) were subsequent drawings and documents checked for compliance with Australian practice.
- (40) As a result of the non-conformances it would appear that ARPANSA has taken on a far more detailed supervisory role than would be expected of a high level licence approval authority, what are the costs for ARPANSA's work on this project.
- (41) Given that repeated reference is made to a final safety analysis report (FSAR), what is the status of the FSAR.
- (42) Given that a Deed of Indemnity exists between the Commonwealth Government and ANSTO under which the Government has formally agreed to indemnify ANSTO and ANSTO officers from any loss or liability arising from claims caused by ionising radiation, who is ultimately responsible in the event of accidental radiation exposure to the public.

- (4) (a) Is the Minister aware that in respect to the current draft conservation management plan, the Australian Heritage Commission determined that the 25 tonne limit be retained on the bridge with the commission expressing concern that this limit may actually be stressing the bridge unnecessarily and therefore constituting an activity that is already having a significant impact on the bridge; and (b) what immediate action, if any, is the Commonwealth Government prepared to take to address such current usage management issues.

13 Unauthorised disclosure of committee proceedings

That the following order operate as an order of continuing effect:

- (1) The Senate confirms that any disclosure of evidence or documents submitted to a committee, of documents prepared by a committee, or of deliberations of a committee, without the approval of the committee or of the Senate, may be treated by the Senate as a contempt.
- (2) The Senate reaffirms its resolution of 20 June 1996, relating to procedures to be followed by committees in cases of unauthorised disclosure of committee proceedings.
- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:
 1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:
 - (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;

- (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;
 - (c) disclosure of documents and evidence submitted to a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event;
 - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
- (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
 - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
 - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.
4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.
- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.
- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

***33 Carbon Pollution Reduction Scheme—Treasury modelling—Order for production of documents**

That the Senate—

- (1) Notes:
 - (a) that the government has not complied with the order of the Senate made on 4 February 2009, ordering the production of certain unpublished information relating to the Department of the Treasury modelling, *Australia's Low Pollution Future: The economics of climate change mitigation*;
 - (b) the government's statement to the Senate on 11 February 2009 expressing the 'belief' that the provision of some of the documents requested would cause substantial commercial harm to organisations that were contracted to assist Treasury;
 - (c) that the claim of commercial harm cited by the government in its refusal to release the required information relates to only part of the information requested and that no explanation was provided as to why all of the other information not covered by the claim of commercial harm should not be provided for scrutiny by the Senate;
 - (d) the evidence to the committee in this regard by Professor McKibbin, one of the consultants contracted by Treasury for its modelling, that in his view models developed with public funding should be publicly available;

- (e) that the committee has received correspondence from Monash University, one of the two organisations the government indicated in its statement would be exposed to substantial commercial harm were the requested information to be released, which states that “*the University wishes to assist (the Fuel and Energy Committee) in every way possible*”, and that the University Solicitors would work with the creators of the Monash Multi-Regional Forecasting model “*to identify the manner and nature of disclosure that will meet the Committee’s needs as far as possible while protecting the University’s interests*”;
 - (f) the correspondence received from Purdue University, the other organisation mentioned in the government’s statement, which explains that the simple purchase of a licence would avoid any commercial harm;
 - (g) the evidence of the WA Department of Treasury and Finance indicating that they had also been unsuccessful in obtaining access to relevant modelling information, which was preventing them from providing proper and informed advice on the economic impact of the proposed Carbon Pollution Reduction Scheme in Western Australia to the government in that state; and
 - (h) the ongoing concerns expressed by a wide variety of stakeholders about the inadequacy of the Treasury modelling of the impact of the proposed Carbon Pollution Reduction Scheme;
- (2) Considers that:
- (a) irrespective of the government’s statement in the Senate on 11 February 2009 it is in the public interest that all the underlying information used by Treasury in its modelling be available to help facilitate proper scrutiny by the Senate of the impact of the government’s proposed Carbon Pollution Reduction Scheme;
 - (b) models used in the modelling exercise developed using public funding ought to be publicly available; and
 - (c) where the public release of information is likely to cause significant commercial harm to an external organisation every effort ought to be made to prevent that harm while not preventing the Senate from fulfilling its proper role to scrutinise the activities and proposals of government;
- (3) Orders that the following information be produced to the Senate Select Committee on Fuel and Energy by noon on Friday 13 March 2009:
- (a) the information referred to in paragraph (b) of the Senate’s order for documents of 4 February 2009 relating to the Department of the Treasury modelling, *Australia’s Low Pollution Future: The economics of climate change mitigation*;
 - (b) any other information not published and not covered by (a) relating to the Department of the Treasury modelling, including but not limited to:
 - (i) any information and documents generated by the government for the purpose of the composition of the information covered by (a),
 - (ii) for the two scenarios modelled for the CPRS (CPRS -5 per cent and the CPRS -15 per cent) and the reference scenario, the time series data per annum to 2050 for all states and territories of the following:

- a) Industry growth output in millions of dollars,
 - b) Employment numbers,
 - c) Gross State Product,
 - d) Emissions, and
 - e) Household CPI changes,
- (iii) the data from (ii), a), b) and c) broken down by region where applicable, and
 - (iv) any substrate data of gross industry output by the above regions.
- (4) That the committee may make the information described in paragraph (3) available to the person contracted by the committee and referred to in paragraph (a) of the Senate's order of 4 February 2009, and any person appointed by the leader of a party in the Senate or an independent senator, duly notified to the committee, to examine that information and report to that senator.
 - (5) That the committee, any senator and any other person referred to in paragraph (4) treat the information produced in accordance with paragraph (3)(a) of this order as confidential, and not publish the information to any other person except as authorised by this order.
 - (6) That the committee may refer to the information produced to it in accordance with this order and any conclusions reached from it in a report to the Senate, but shall not disclose the information in such a report.

(Motion of the Chair of the Select Committee on Fuel and Energy (Senator Cormann) agreed to 11 March 2009.)

GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo Search and at: www.aph.gov.au/senate/work/notice/index.htm

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
