Notices of Motion

Notice given 13 February 2008

- 18 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—
 - (a) notes:
 - (i) the contempt in which the Australian Labor Party (ALP) has historically held upper houses around the country, including a platform to abolish all upper houses until 1979, the abolition of the upper house in Queensland and a current policy to abolish the South Australian Legislative Council,
 - (ii) that the Prime Minister (Mr Rudd) has reduced the number of sitting weeks in the Senate in 2008, and

- (iii) that the Deputy Prime Minister (Ms Gillard) has already demanded legislation be passed without adequate scrutiny in the Senate; and
- (b) given the above, condemns the Rudd Labor Government for continuing the ALP's legacy of inherent contempt for the Senate.

Notice given 19 March 2008

- 63 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate calls on the Minister for Foreign Affairs (Mr Smith) to seek the abandonment of the death sentence in China.

Notice given 24 September 2008

- 220 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—

- (a) notes:
 - (i) the claims of both the Managers of Government Business in the Senate and the House of Representatives that the Government's legislative priority for the sitting week beginning 22 September 2008 is the passage of its budget-related bills, and
 - (ii) that the Government has deferred consideration of its supposed priority bills on numerous occasions throughout the past three sitting weeks; and
- (b) calls on the Government to give precedence to the following bills over other legislation:
 - Tax Laws Amendment (Medicare Levy Surcharge Thresholds) Bill 2008
 - Excise Legislation Amendment (Condensate) Bill 2008 and a related bill.

Notice given 3 February 2009

340 **Senator Hanson-Young:** To move—That the Senate—

(a) notes:

- (i) the recent decision by the President of the United States of America, Barack Obama, to overturn the global gag rule for family planning guidelines that effectively prohibits the use of aid funding for some contraceptives, and for abortion advice and services, and
- (ii) that Australia is now the only country that continues to enforce these harsh restrictions on our aid program, limiting its ability to provide an effective and essential family planning service;

(b) recognises:

- (i) the essential role mothers play in developing communities, with both maternal and child health considered crucial Millennium Development Goals, and
- (ii) that an estimated 34 000 mothers die in our region each year, due to the lack of maternal health supports available, with more than half of the 29 developing countries not on track to achieve either goal; and

(c) calls on the Rudd Government to stand up for women's rights and immediately abolish the family planning guidelines that prevent Australian aid money from being spent on contraception and family planning advice.

- *451 **Chair of the Select Committee on Fuel and Energy (Senator Cormann):** To move—That the Senate notes with concern:
- (a) that the Select Committee on Fuel and Energy has been seeking unsuccessfully to gain information from the Government regarding the modelling undertaken by the Department of the Treasury titled, *Australia's Low Pollution Future: The Economics of Climate Change Mitigation*, since December 2008;
 - (b) the following history of the Government's refusal to provide the information needed to properly scrutinise the Government's proposed Carbon Pollution Reduction Scheme:
 - (i) the committee wrote to the Treasurer on 9 December 2008 seeking additional information about the modelling,
 - (ii) the committee eventually received a response from the Treasurer on 3 February 2009 refusing the committee's request stating 'The Treasury is obligated, under contractual agreements ... to not disclose or make public any Confidential Information of the other party',
 - (iii) on 4 February 2009 the Senate made an order requiring the production of information by 5 February 2009,
 - (iv) on 5 February 2009, Senator the Honourable Ursula Stephens, Parliamentary Secretary for Social Inclusion and the Voluntary Sector, made a statement in the Senate on behalf of the Government that the 'Treasury is obligated, under contractual agreements ... to not disclose or make public any confidential information of the other party',
 - (v) the committee again wrote to the Treasurer on 6 February 2009 pointing out that the Senate in passing the order of 4 February 2009, had accepted the judgement of the committee that contractual obligations to consultants did not constitute a valid reason for declining to produce documents because parliamentary privilege overrides any contractual obligations,
 - (vi) Senator Stephens made another statement in the Senate on behalf of the Government on 11 February 2009, attempting to make a new and different case of commercial harm,
 - (vii) following the response from the Government, the committee wrote to Monash University and Purdue University on 11 February 2009 seeking to work with the universities to protect the intellectual property of the universities while allowing the committee to properly scrutinise the material,
 - (viii) on 12 February 2009 the committee received correspondence from Purdue University stating that commercial harm to its Global Trade and Analysis Project, would be avoided by the simple purchase of a licence,

- (ix) on 19 February 2009 the committee received correspondence from Monash University which stated that ‘The University wishes to assist your Committee in every way possible’,
 - (x) on 11 March 2009, the Senate made a further order requiring the production of information by 13 March 2009 and specifying that some of the requested information was to be treated as confidential, meaning that any disclosure or use of the information otherwise than in accordance with the order would be a contempt of the Senate and a criminal offence under the *Parliamentary Privileges Act 1987*,
 - (xi) on 12 March 2009 the committee again wrote to Monash University informing it of the Senate’s order of 11 March 2009 and seeking to establish whether the protections afforded by the Senate sufficiently protected the university’s intellectual property in relation to the Monash Multi Regional Forecasting model,
 - (xii) on 17 March 2009 Senator Stephens made a further statement to the Senate in response to the Senate order of 11 March 2009, in which she stated ‘the government continues to believe that the provision of the proprietary model code and data related to the modelling conducted for *Australia’s low pollution future: the economics of climate change mitigation* would cause commercial harm to organisations that were contracted to assist Treasury’,
 - (xiii) the committee received further correspondence from Monash University on 18 March 2009 attaching a letter the university had sent to the Treasurer which stated that ‘Monash University waives its requirements of confidentiality on the basis that confidentiality is protected under the provisions of Order SJ61-11 March 2009’,
 - (xiv) following receipt of the 18 March 2009 correspondence from Monash University, the committee wrote to the Treasurer on 18 March 2009 once again requesting the relevant information and reiterating the committee’s judgement ‘that contractual obligations to consultants do not constitute a valid reason for declining to produce information’ and pointing out that ‘given the information is required under an order of the Senate, parliamentary privilege overrides any relevant contractual obligations of the government’,
 - (xv) the committee heard evidence from the Department of the Treasury on 2 April 2009 stating that it was the Government’s position that ‘there is potential for commercial harm for aspects of the information to be provided’, and
 - (xvi) following this evidence provided by the Department of the Treasury, and in the absence of a response to the Treasurer’s letter of 18 March 2009, the committee again wrote to the Treasurer on 3 April 2009 seeking the information as ordered by the Senate on 11 March 2009 and stating that the committee views the response from the Government and the Department of the Treasury ‘as unnecessarily bureaucratic, baseless and deliberately unhelpful to the Committee’;
- (c) that the committee has gone to considerable lengths and provided robust protections to accommodate any issues of potential commercial harm to Monash University and Purdue University;

- (d) that the Government has failed to respond to either the committee's letters of 18 March 2009 and 3 April 2009;
- (e) that the Government has failed to provide any information to the committee despite the considerable efforts taken by the committee to avoid any commercial harm, and the Government's claim of commercial harm only applying to some of the information sought; and
- (f) that the Government has failed to provide any explanation to the Senate or the committee as to why the remainder of the information was not provided or responded to the fact that Monash University has informed both the committee and the Treasurer that the university is prepared to waive its requirements of confidentiality in accordance with the order of the Senate of 11 March 2009.

*452 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate—

- (a) notes the decision by the New South Wales Mining Warden permitting BHP Billiton to proceed with exploration for coal near and under prime food-growing floodplain at Carroona, in the centre of the Liverpool Plains, near Gunnedah;
- (b) acknowledges the undiminished opposition to this exploration by local farmers and other members of the local communities and the independent Member for New England in the House of Representatives, Mr Tony Windsor; and
- (c) calls on the Government:
 - (i) to exercise all legal and ethical options available to cease the exploration activities of BHP Billiton at Carroona until the completion of the independent expert evaluation of the hydrology of the region, and also
 - (ii) to cease the granting of all exploration licences for the purpose of resource and mineral extraction and undertake further independent studies into impacts of mining on the surficial and underground aquifer systems which form part of the Murray-Darling system if significant risks are identified in the expert evaluation currently underway.

*453 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate—

- (a) notes the findings of Professor Brendan Mackey, Professor David Lindenmayer and Dr Heather Keith of the Australian National University that Victoria's *Eucalyptus regnans* (mountain ash) forests are the most carbon dense on Earth; and
- (b) calls on the Government to inform the Senate by 24 June 2009:
 - (i) whether the report has validity,
 - (ii) what government measures are being taken or considered to protect *Eucalyptus regnans* forests in Australia that are currently targeted for logging,
 - (iii) what area and volume of such forests are available for logging under current planning regimes, and
 - (iv) whether ending native forest and woodland removal in Australia would reduce the nation's greenhouse gas emissions by 10 to 20 per cent.

*454 **Leader of The Nationals in the Senate (Senator Joyce):** To move—That the Senate—

- (6) With reference to the Minister's form letter on Internet filtering which states that the 'scope of the definition of prohibited content in legislation cannot be expanded without changes to legislation being passed by Parliament, and the Government does not intend doing this', what lawful authority empowers: (a) the ACMA to maintain a list of RC content, separate from its existing list of prohibited content; and (b) the Government to require Internet Service Providers (ISPs) to maintain mandatory filtering systems on their networks.

- (15) Has the Government consulted with officials in overseas jurisdictions to determine their likely reaction in the event that a leaked copy of an Australian list of RC material is published on the Internet, and which subsequently enables criminal activity outside Australia's borders; if not: (a) why not; and (b) does the Government intend to consult these jurisdictions.

(1) Notes:

- (a) that the government has not complied with the order of the Senate made on 4 February 2009, ordering the production of certain unpublished information relating to the Department of the Treasury modelling, *Australia's Low Pollution Future: The economics of climate change mitigation*;
- (b) the government's statement to the Senate on 11 February 2009 expressing the 'belief' that the provision of some of the documents requested would cause substantial commercial harm to organisations that were contracted to assist Treasury;
- (c) that the claim of commercial harm cited by the government in its refusal to release the required information relates to only part of the information requested and that no explanation was provided as to why all of the other information not covered by the claim of commercial harm should not be provided for scrutiny by the Senate;
- (d) the evidence to the committee in this regard by Professor McKibbin, one of the consultants contracted by Treasury for its modelling, that in his view models developed with public funding should be publicly available;
- (e) that the committee has received correspondence from Monash University, one of the two organisations the government indicated in its statement would be exposed to substantial commercial harm were the requested information to be released, which states that "*the University wishes to assist (the Fuel and Energy Committee) in every way possible*", and that the University Solicitors would work with the creators of the Monash Multi-Regional Forecasting model "*to identify the manner and nature of disclosure that will meet the Committee's needs as far as possible while protecting the University's interests*";

- (f) the correspondence received from Purdue University, the other organisation mentioned in the government's statement, which explains that the simple purchase of a licence would avoid any commercial harm;
 - (g) the evidence of the WA Department of Treasury and Finance indicating that they had also been unsuccessful in obtaining access to relevant modelling information, which was preventing them from providing proper and informed advice on the economic impact of the proposed Carbon Pollution Reduction Scheme in Western Australia to the government in that state; and

- (2) Considers that:
- (a) irrespective of the government's statement in the Senate on 11 February 2009 it is in the public interest that all the underlying information used by Treasury in its modelling be available to help facilitate proper scrutiny by the Senate of the impact of the government's proposed Carbon Pollution Reduction Scheme;
 - (b) models used in the modelling exercise developed using public funding ought to be publicly available; and
 - (c) where the public release of information is likely to cause significant commercial harm to an external organisation every effort ought to be made to prevent that harm while not preventing the Senate from fulfilling its proper role to scrutinise the activities and proposals of government;
- (3) Orders that the following information be produced to the Senate Select Committee on Fuel and Energy by noon on Friday 13 March 2009:
- (a) the information referred to in paragraph (b) of the Senate's order for documents of 4 February 2009 relating to the Department of the Treasury modelling, *Australia's Low Pollution Future: The economics of climate change mitigation*;

 - c) Gross State Product,
 - d) Emissions, and
 - e) Household CPI changes,
 - (iii) the data from (ii), a), b) and c) broken down by region where applicable, and
 - (iv) any substrate data of gross industry output by the above regions.

- (4) That the committee may make the information described in paragraph (3) available to the person contracted by the committee and referred to in paragraph (a) of the Senate's order of 4 February 2009, and any person appointed by the leader of a party in the Senate or an independent senator, duly notified to the committee, to examine that information and report to that senator.
- (5) That the committee, any senator and any other person referred to in paragraph (4) treat the information produced in accordance with paragraph (3)(a) of this order as confidential, and not publish the information to any other person except as authorised by this order.
- (6) That the committee may refer to the information produced to it in accordance with this order and any conclusions reached from it in a report to the Senate, but shall not disclose the information in such a report.

GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo Search and at: www.aph.gov.au/senate/work/notice/index.htm

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
