1.3 Business conducted in the Senate

Types of business in the Senate:

Business of the Senate includes disallowance motions, presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence to a senator and motions concerning the qualification of a senator. It has precedence over government business and general business for the day on which it is listed, except Monday and Tuesday, between 12.30 and 2 pm, and Wednesday between 9.30 am and 12.45 pm.

Government business is business initiated by a minister and includes all debate on government bills. Government business takes precedence over general business except for a period of 2½ hours on Thursdays.

General business is initiated by senators who are not ministers. It includes motions to take note of answers, most notices of motion, consideration of committee reports and government responses and matters of public interest. General business takes precedence over government business on Thursdays as described above.

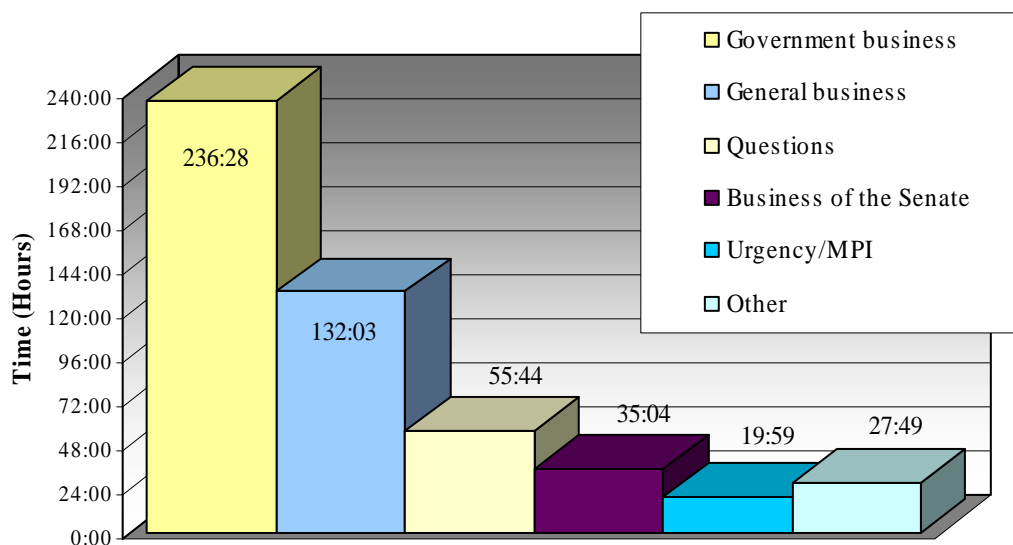

Questions include question time and additional answers given by ministers at the end of question time.

Urgency motions and matters of public importance (MPIs) may be proposed by senators on any sitting day pursuant to standing order 75. At the conclusion of the debate there is no vote taken on the substantive issue of the matter or motion. However, in the case of urgency motions, a procedural vote is taken as to whether the matter is considered urgent or not.

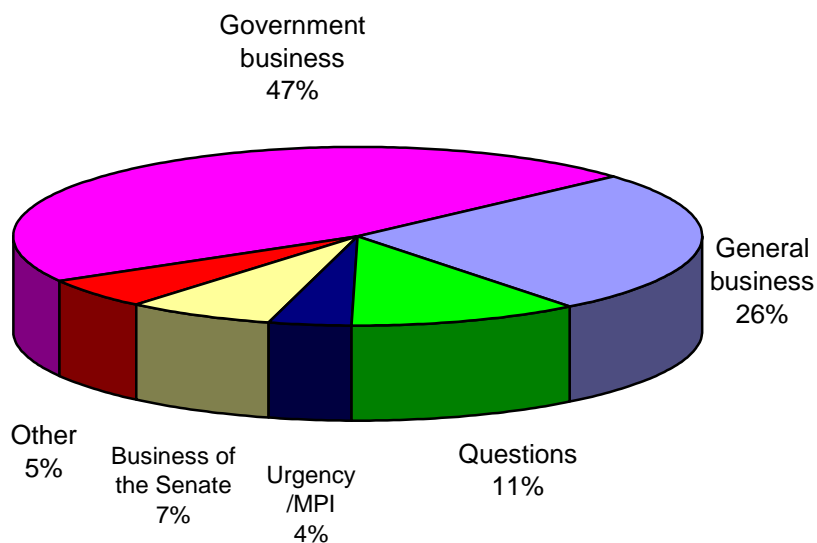

Other business includes prayers, petitions, postponements and ceremonial business.

Adjournment: Note that the time for the adjournment debate is not included in the figures shown.

2.5 Committee of the whole—Consideration

The *committee of the whole* process provides an opportunity for senators to consider bills in detail. Amendments moved in committee of the whole seek to change, delete or add words in the bill that may affect the final contents of the law. Where – under the Constitution – the Senate cannot directly amend a bill, it may instead *request* the House of Representatives to amend the bill before agreeing to it.

For more information on the legislative process see *Brief Guide to Senate Procedure No. 9 – Consideration of Legislation*.

2.6 Adoption of committee report—Amendments moved

At the conclusion of the *committee of the whole* stage of a bill or package of bills, the proceedings in committee of the whole are reported to the Senate. Amendments may be moved to the motion to adopt the report from the committee. Such amendments do not affect the text of the bill or bills, but typically propose the reference of related matters to committees or orders for the production of documents or express an opinion about the bill as it has emerged from the committee stage.

For information on the legislative process see *Brief Guide to Senate Procedure No. 9 – Consideration of Legislation*.

For more information on the stages of bills see *Brief Guide to Senate Procedure No. 9 – Consideration of Legislation*.

For completeness, this section also contains details of bills laid aside by the House of Representatives after consideration by the Senate.

2.8 Amendments and requests—Disagreements

Before it can become a law, a bill must be agreed to by both the Senate and the House of Representatives in precisely the same form. If there is a disagreement over amendments or requests, a bill may be transmitted between the two Houses a number of times until the Houses finally agree to it in the same form or it is abandoned. These negotiations on amendments and requests are conducted by the consideration of *messages* between the Houses. The details of this consideration are listed below.

For more information on the legislative process, see *Brief Guide to Senate Procedure No. 9 – Consideration of Legislation* and *No. 15 – Communication Between the Houses - Dealing with Messages*.

3.1 Notices of motion for disallowance

Many Acts of Parliament delegate to the executive government the power to make detailed rules and regulations (*delegated legislation*). Regulations and most other instruments made in this way are subject to the power of either House to veto or *disallow* them.

In most cases, within 15 sitting days after tabling a senator may give notice of a motion to disallow the regulations. If the motion is agreed to, the regulations are disallowed and cease to have effect. If a notice of motion to disallow regulations has not been resolved or withdrawn within 15 sitting days after having been given, the regulations are *deemed* to have been disallowed and they automatically cease to have effect.

For more information see *Brief Guide to Senate Procedure No. 1 – Disallowance*.

3.9 Orders for the production of documents

The power to require the production of information is one of the most significant powers available to a legislature to enable it to carry out its functions of scrutinising legislation and the performance of the executive arm of government.

Orders for the production of documents most frequently require the tabling of documents in the possession of ministers, government departments and agencies, although occasionally an order may require the creation of the document in question. The order will generally describe the documents sought and specify a date for their tabling.

For more information, see *Brief Guide to Senate Procedure No. 11 – Orders for Production of Documents*.
