

Information Circular No: **2010/2**      Date:                      19 January 2011

---

TO: SENATORS, MEMBERS AND OTHER BUILDING OCCUPANTS

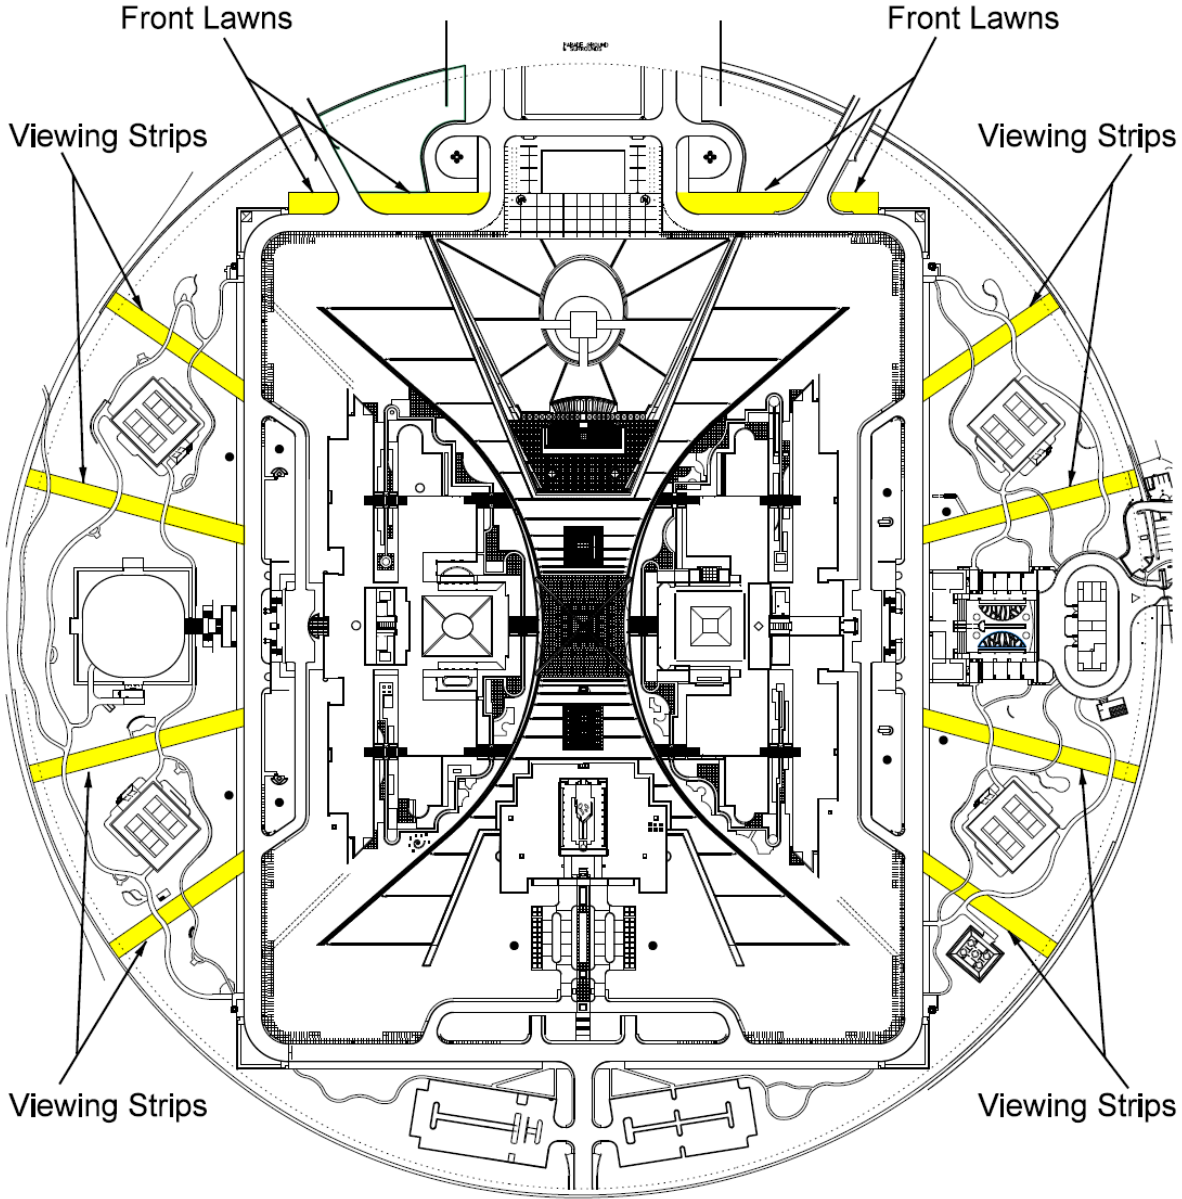

**Viewing strips and front lawns couch grass planting**

1        DPS is planting "Conquest" couch grass in additional areas around Parliament Drive. These include the viewing strips that run through the native garden and the four sections of lawn along the front of the building (see attached map). This work is intended to stop erosion and is part of restoring the landscape after the drought. (Earlier this summer, DPS also planted couch grass in the area around the Ministerial Wing entrance.)

2        The work will require some temporary lane closures on Parliament Drive, and is expected to be completed by 4 February 2011.

3        We apologise for any inconvenience caused from these works. For any additional information, please contact Paul Janssens at Landscape Services on extension 5258.
