

The Secretary
Standing Committee on Environment, Communications,
Information Technology & the Arts
Legislation Committee

Dear Secretary

I am making a submission re. the proposed Bill.

The steady decline of koalas in this shire is reflected in the recent koala survey.
Legislation with goals & enforcement are required to prevent the demise of this iconic
animal in this shire .

Global Warming/ Climate Change is clearly becoming a major issue for this nation &
the planet. As a matter of urgency, wide ranging legislation is required to develop
solutions.

Yours faithfully
Don Baxter
