However, these concerns had to be weighed against the considerable public interest in having access to information relating to important concerns about the integrity of the High Court and, more broadly, about serious issues of public governance and accountability at the time of the Commission’s investigations. In seeking to serve this public interest, the President and I took into account the fact that the general and specific nature of the allegations relating to Justice Murphy and others are widely known and, after 30 years, are historical in nature. We also took into account the non-partisan, focused and highly credible nature of the investigative processes employed by the Commission, which is reflected in the character of its records.

At the time it was wound up, the Commission had provided Justice Murphy with a number of specific allegations to which he had been invited to respond, but the judge’s unfortunate prognosis meant that a response was never to be received.

I now advise the House that the President and I have decided to approve the publication of the Class A documents.

Now that we have made our decision public, the President and I will request that the Clerks of both Houses, where possible and appropriate, advise persons named in the records, and the closest living relatives or legal representatives of deceased persons, of the forthcoming publication of the Class A documents. To enable sufficient time for this to happen, we have ordered that the Class A documents be scanned and published in electronic form on Monday July 24th at 10 am.

A small amount of personal information, including signatures and addresses of unrelated persons, will be redacted from the published versions.

In concluding my remarks, I wish to reiterate the deep sense of responsibility that the President and I have felt in executing the task that was bequeathed to us by the 34th Parliament.

35 RESPONSE TO QUESTION FROM THE MANAGER OF OPPOSITION BUSINESS—STATEMENT BY SPEAKER

The Speaker made the following statement:

After question time the Manager of Opposition Business raised some questions with me concerning the immunity available to Members under section 14 of the *Parliamentary Privileges Act 1987* (the Act). The provisions in the Act provide, in part, an immunity for a Member from being required to attend a court within 5 days, before and after, a meeting of the House. The purpose of the immunity is that Members should reasonably be available to attend to their responsibilities to the House. I make a few points in response to the Manager of Opposition's questions:

- the Act refers to a day on which the House 'meets'. The reasonable interpretation of this is that, should the House meet tomorrow for an extended sitting, that would be a 'meeting' of the House;
- the immunity applies to a Member personally, not to representatives who may appear before a court on behalf of a Member;
- a Member does not need to exercise the immunity; and
- finally, the exercise of the immunity is one for individual Members to assert, although as Speaker I can issue a certificate relating to a day on which the House will meet.

Suspension of sitting

At 5.35 pm, the Speaker left the Chair.

Resumption of sitting

At 12 am, the Speaker resumed the Chair.

- (a) the number of older Australians choosing to live in retirement villages is increasing faster than any other age-specific housing option;
- (b) the revelations in the recent Four Corners program that appeared to show older Australians being exploited were shocking;
- (c) many older Australians are finding it difficult to deal with the complex and confusing contracts offered to them by retirement village management;
- (d) the excessive exit fees and practices used by retirement village companies when older Australians decide to leave a retirement village are unacceptable; and
- (e) older Australians should not be exploited; and

(2) calls on the Government to:

- (a) commit to a national approach for the regulation of retirement living facilities; and
- (b) adopt consistency on retirement village contracts, with stronger consumer protections.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

4 QUEENSLAND EXPORT BUSINESSES

Mr Evans, pursuant to notice, moved—That this House:

- (1) condemns the Queensland Government for its statement: 'the State Government would no longer be constrained or bound by free trade agreements';
- (2) notes that:
 - (a) Australia's trade agreements guarantee Queensland businesses preferential access to Chile, Japan, Korea, New Zealand, Singapore, and the United States markets;
 - (b) Queensland's exports were worth \$62.6 billion to the state's economy in 2015-16;
 - (c) in April 2017, the Queensland Treasurer stated: 'one in five jobs in our state relies on our export performance'; and

- (d) the Queensland Government's decision to not abide by its international commitments threatens the access Queensland exporters have to international markets and the jobs that rely on them; and
- (3) calls on the Queensland Government to honour its commitments and abandon its anti-trade position to ensure that Queensland export businesses do not lose access to these crucial global markets.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

5 RENEWABLE ENERGY

Ms McGowan, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) there is electorate wide support for renewable energy;
 - (b) in March 2017, the Australia Institute reported that in a national poll 67 per cent think that Australia is moving into renewable energy too slowly and 73 per cent supported setting a new renewable energy target for 2030;
 - (c) the Government has committed to ensuring that 23.5 per cent of Australia's electricity generation in 2020 will be from renewable sources;
 - (d) the transition to a renewable energy future will require high levels of social consensus and engagement;
 - (e) international best practice has demonstrated that community ownership has become a well established mechanism to build consensus and assist the transition to increased renewable energy sources;
 - (f) Australian households are amongst the highest adopters in the world of photovoltaics solar, driven primarily to help control their own energy costs;
 - (g) community owned renewable energy projects that allow communities to reduce their energy costs, or even make income from power production, would enable these benefits to be felt across the broader community, addressing the Government's energy policy priority of security, reliability and affordability;
 - (h) the absence of clarity in Government policy has led to many communities 'going it alone' to secure their energy future; and
 - (i) continued investment and innovation in the sector requires a clear message of support from the Government; and
- (2) calls on the Government to:
 - (a) recognise that the community energy sector can play a significant role in the Government achieving its policy trifecta of secure, affordable and reliable energy; and
 - (b) demonstrate this recognition with a dedicated funding program for community energy projects to support the design and implementation and management of their own community specific integrated energy plans and projects.

- (b) that the oceans are under increasing pressure and other nations have started to establish protected areas;
- (c) that Australia cannot afford to leave its oceans exposed given the impacts of climate change, including the severe coral reef bleaching, unprecedented mangrove dieback and significant loss of kelp forests already seen around Australia;
- (d) the progress globally by other countries to put in place marine national parks, such as the:
 - (i) Ross Sea region Marine Protected Area (MPA), declared by 24 nations of the world, including Australia, in 2016 to protect 1,549,000 square kilometres of the Antarctic high seas in high level International Union for Conservation of Nature, Category II (IUCN II) National Park protection;
 - (ii) Papahānaumokuākea Marine National Monument, declared by the United States of America (USA) in 2006 and expanded in 2016 to protect 1,508,870 square kilometres of Hawaiian islands and atolls in high level IUCN II protection;

- (e) that Labor's 2012 Commonwealth Marine Reserves Network (CMRN):
 - (i) is the world's largest network;
 - (ii) put Australia at the forefront of ocean conservation globally, with other countries following suit; and
 - (iii) was based on science and extensive consultation, with Labor holding more public and stakeholder meetings which were attended by more people and received more submissions than the Government's recent review;
- (f) the Government's own review of the CMRN found that extensive:
 - (i) science went into the development of the CMRN and recognised the scientifically proven benefits of Marine National Park (MNP) IUCN II zones; and
 - (ii) consultation went into the development of the CMRN, stating there was in fact a considerable amount of 'consultation fatigue' expressed by many stakeholders; and
- (g) that after 15 years of process, regional businesses and industry leaders are seeking certainty with the completion of the CMRN; and

- (2) calls on the Government to honour its domestic and international obligations, and to bring the CMRN that was declared in 2012 into operation without further delay, and with no reduction of MNP IUCN II zone protection.

Debate ensued.

- (2) congratulates ASEAN on five decades of patient and effective work promoting regional peace and stability while advancing economic growth, social progress and cultural development;
- (3) notes that:
- (a) considered collectively, ASEAN countries are Australia's third largest trading partner, with current two-way trade surpassing \$100 billion annually since 2014;
 - (b) more than 65 per cent of ASEAN's population is under 35 years old, presenting a growth opportunity across the region; and

- (1) notes that:
 - (a) the retail trades industry is the second largest employment category in Australia, it employs 1.2 million, or one in nine, Australians and 52 per cent of these workers have no post school qualification;
 - (b) the Fair Work Commission's (FWC's) decision to cut penalty rates in the retail trade will hit those most powerless to change jobs;
 - (c) the take home pay of hundreds of thousands of workers will be cut because of the FWC decision to cut Sunday and public holiday penalty rates for the retail trade;
 - (d) workers affected are being treated as second class citizens and their work is not being valued;
 - (e) whilst a few jobs may be created on the margins of the economy, the removal of these workers' spending power from the economy will override any minimal jobs growth; and
 - (f) many families will struggle all over the country because of this short sighted decision;
- (2) condemns Government Members and Senators who called for cuts to penalty rates and their continuous pressuring of the FWC to reduce penalty rates;

10 MATTER OF PRIVILEGE RAISED BY MANAGER OF OPPOSITION BUSINESS—STATEMENT BY SPEAKER

The Speaker made the following statement:

On 15 August 2017 the Manager of Opposition Business raised as a matter of privilege whether the circumstances surrounding the former Member for Dunkley, Mr Bruce Billson, accepting an appointment as a paid director of the Franchise Council of Australia whilst still a Member of the House gave rise to any issues which may constitute contempt of the House. I am satisfied the Member has raised the matter at the earliest opportunity. The Manager of Opposition Business tabled a number of related documents and I have examined these as well as his statement to the House.

House of Representatives Practice, relying on the experience in the United Kingdom as noted in Erskine May's *Treatise on the Law, Privileges, Proceedings and Usage of Parliament* (known commonly as May) refers to two relevant matters that could be considered as contempts.

The first is corruption in the execution of a Member's office as a Member. To quote from May:

The acceptance by a Member of either House of a bribe to influence him in his conduct as a Member, or of any fee, compensation or reward in connection with the promotion of or opposition to any bill, resolution, matter or thing submitted or intended to be submitted to either House, or to a committee is a contempt.

The second is lobbying for reward or consideration. Again to quote from May, citing a resolution of the House of Commons in 1995:

No Members of the House shall, in consideration of any remuneration, fee, payment, reward or benefit in kind, direct or indirect...advocate or initiate any cause or matter on behalf of any outside body or individual; or urge any Member of either House of Parliament, including Ministers, to do so, by means of any speech, Question, Motion, introduction of a bill, or amendment to a Motion or Bill.

Clearly these matters are not unrelated and there could be a fine distinction between them. As I understand it the Manager of Opposition Business has cited both as grounds for possible contempts in this case. He also refers to the actions of the Franchise Council of Australia in making the appointment of the former Member for Dunkley, and has raised whether this action also may give rise to contempt issues.

In his statement, the Manager of Opposition Business refers to a number of statements and actions of Mr Billson after his appointment to the Franchise Council of Australia that, he states, appeared to show support for the position of the Council or indicated an association with the Council.

I am not in a position to determine the nature of any connection between the appointment of Mr Billson to the Franchise Council and his subsequent statements and actions, but I appreciate that issues are raised.

In relation to the question of matters being contempts, I also note that they must meet the test of section 4 of the *Parliamentary Privileges Act 1987* and be conduct that is intended or likely to amount to an improper interference with the free exercise by the House of its authority or functions. I am not in a position to determine whether there is a prima facie case that this test has been met in these matters raised by the Manager of Opposition Business, but again I note the nature of the issues that have been raised.

I note that in the United Kingdom that matters to do with lobbying for reward or consideration would now generally be dealt with as matters of conduct under the House of Commons Code of Conduct. The House of Representatives does not have a similar code for Members even though a case such as this raises matters that may potentially be more to do with appropriate conduct rather than contempt. In this regard I note that the Committee of Privileges and Members' Interests has responsibility under the standing orders for questions about a code of conduct for Members.

I am willing to give precedence to a motion for matters to do with contempt or conduct in relation to the circumstances raised by the Manager of Opposition Business to be referred to the Committee of Privileges and Members' Interests. In doing so I reiterate that I have not made a determination that there is a *prima facie* case, but I am sufficiently concerned by the matters raised to consider they should be examined by the Committee.

I note that the Manager of Opposition Business referred to the Member for Isaacs having written to the Committee of Privileges and Members' Interests in relation to the former Member for Dunkley's obligations in relation to the registration of Members' Interests. I also note the remarks of the Prime Minister in response to a question from the Manager of Opposition Business on Thursday 10 August that he had asked the Secretary of the Department of Prime Minister and Cabinet to examine the former Member for Dunkley's compliance with the Statement of Ministerial Standards.

Finally, I wish to address the issue of the jurisdiction of the House in relation to a former Member. I note that the matters raised by the Manager of Opposition Business relate to the period when Mr Billson was a Member of the House. The requirements of a Member's accountability to the House relate to the period in which they were a Member and can be dealt with by the House after a Member ceases to be a Member. The most recent relevant case is that concerning the former Member for Dobell, Mr Craig Thomson.

11 MATTER OF PRIVILEGE—REFERENCE TO COMMITTEE OF PRIVILEGES AND MEMBERS' INTERESTS

Mr Burke moved—That the following matters be referred to the Committee of Privileges and Members' Interests:

Whether the former Member for Dunkley, Mr Bruce Billson, by accepting an appointment as, and acting as, a paid director of the Franchise Council of Australia whilst still a Member of the House gives rise either to any issues that may constitute a contempt of the House or to any issues concerning the appropriate conduct of a Member having regard to their responsibilities to their constituents and to the public interest.

Question—put and passed.

3 OLDER AUSTRALIANS CARE ASSISTANCE

Mr Georganas, pursuant to notice, moved—That this House:

- (1) acknowledges the significant contribution of the previous Labor Government's Living Longer Living Better reforms that were designed to deliver:
 - (a) more support and care at home;
 - (b) additional home and residential care places;
 - (c) a focus on greater consumer choice and control; and
 - (d) greater recognition of diversity and support to carers;
- (2) notes:
 - (a) the growing number of:
 - (i) older Australians who would like to remain living in their own home for as long as possible; and
 - (ii) carers who work hard to ensure their loved one is able to remain at home for as long as possible;
 - (b) that older Australians need adequate, flexible and responsive care options to ensure that they remain safe and healthy; and
 - (c) that many older Australians are experiencing long delays in accessing the necessary care they need, and are having to make do with lower levels of care than they were assessed for; and
- (3) calls on the Government to:
 - (a) ensure that older Australians receive home care assistance when they need it and at a level they need in order to allow them to remain living in their own home safely and independently for as long as possible; and
 - (b) release the number of people waiting for each level of the package.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

4 CYSTIC FIBROSIS

Ms Sharkie, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) Cystic Fibrosis is a condition that causes impairment of the lungs, airways and digestive system and leaves sufferers with an average life expectancy of 37 years;

- (b) over 3,000 Australians live with Cystic Fibrosis and every four days an Australian child is born with the condition;
 - (c) over one million Australians are carriers of the gene that causes Cystic Fibrosis;
 - (d) there is currently an application before the Pharmaceutical Benefits Schedule Advisory Committee (PBSAC) for the drug known as Orkambi which is used to treat the most common mutation of Cystic Fibrosis; and
 - (e) if approved, Orkambi will be available to over 1,000 Australians aged 12 and over who are currently suffering from this life shortening condition; and
- (2) calls on the Government to:
- (a) continue to support research into Cystic Fibrosis and its possible cure; and
 - (b) expedite the PBSAC review of the application to have Orkambi listed on the Pharmaceutical Benefits Scheme so that over 1,000 Australians can have access to a potentially lifesaving drug.

Debate ensued.

5 CAMBODIANS AND HUMAN RIGHTS

Mr Bowen, pursuant to notice, moved—That this House:

- (2) acknowledges the contribution that Cambodian-Australians have made to our nation since that time and the role they have played in the success story of Australian multiculturalism, including the large Cambodian communities in Fairfield, Liverpool and Cabramatta;
- (3) notes that the Cambodian community in Australia faces challenges that require attention, including a higher than average unemployment rate and a higher proportion of lower wage employment than the national average;
- (4) notes the struggle that many in Cambodia still face from their Government, including the right to peaceful assembly and opposition to Government policies; and
- (5) reaffirms Australia's commitment to the United Nations Human Rights Council's statement of 14 September 2016 that we are 'deeply concerned about escalating threats to legitimate activities by Opposition parties and Human Rights NGOs' in Cambodia'.

6 FAIR WORK AMENDMENT (PROTECTING TAKE HOME PAY) BILL 2017

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—*And on the amendment moved thereto by Mr Christensen, viz.*—That all words after "That" be omitted with a view to substituting the following words:

"The House is of the opinion that the bill does not fully address the issue of penalty rates, and:

- (1) notes that:
 - (a) when the Leader of the Opposition was Secretary of the Australian Workers' Union (AWU), his union negotiated enterprise agreements that reduced or removed Sunday penalty rates, including for:
 - (i) around 780 workers at Big W in North Queensland, whose penalty rates were 50 per cent under the award;
 - (ii) around 129 workers at Target Country in North Queensland, whose penalty rates were 50 per cent under the award;
 - (iii) around 119 workers at Just Jeans in Queensland, whose penalty rates were 50 per cent under the award;
 - (iv) around 101 workers at Rydges Tradewinds in Cairns, who got no penalty rates at all; and
 - (v) around 480 workers at Cleanevent, who lost all their penalty rates;

- (b) when the Labor Party was in Government, penalty rates were reduced in 2010 following its award modernisation process, including for many workers in the hospitality, restaurants, fast food and clubs sectors;
 - (c) presently, millions of workers—including staff at multinational and large businesses, such as Woolworths, Coles, Bunnings, McDonalds, KFC, Pizza Hut, Officeworks, Target, Kmart and the Langham Hotel—receive Sunday penalty rates that are below the award, thanks to enterprise agreements negotiated with large unions, including the AWU and the Shop, Distributive and Allied Employees' Association (SDA);
 - (d) the proposed Sunday rate of 150 per cent in the retail industry that has been determined by the Fair Work Commission is the same as the Sunday rate in a range of retail industry agreements negotiated by the AWU and the SDA; and
 - (e) small businesses that compete with large retail and fast food chains, and wish to employ staff on a Sunday, must currently employ them at higher rates than those large chains; and
- (2) agrees that any legislation to address cuts in penalty rates under awards must also address cuts in penalty rates under union negotiated enterprise agreements”—

Debate resumed.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

10 SUPERANNUATION GUARANTEE NON-COMPLIANCE

Ms McGowan, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) the Superannuation Guarantee system—in conjunction with voluntary superannuation contributions and a means-tested, government funded age pension—forms an integral part of Australia's retirement income policy;
 - (b) recent analysis by Industry Super Australia indicates employers failed to pay an aggregate amount of \$5.6 billion in Superannuation Guarantee contributions in 2013-14;
 - (c) this amount represents 2.76 million affected employees, with an average amount of more than \$2,000 lost per person in a single year;
 - (d) within the electoral division of Indi there were 16,068 affected employees, with an average amount of \$2,001 lost per person in a single year;
 - (e) evidence received by the Senate Economics References Committee inquiry into the Superannuation Guarantee indicates a failure to adequately detect and address that Superannuation Guarantee non-compliance causes long term financial detriment to millions of Australian employees, significant competitive disadvantage to compliant employers, and an unnecessary impost to Government finances through additional reliance on the age pension; and
 - (f) in its report, the Committee:
 - (i) concluded the current approach of the Australian Taxation Office (ATO) in identifying and addressing Superannuation Guarantee non-compliance is inadequate and recommends that the ATO takes a more proactive stance;
 - (ii) argued that there is a compelling need for the determination of a reliable Superannuation Guarantee gap figure annually in order to track rates of Superannuation Guarantee non-payment, analyse which policies are effective, and ultimately minimise the problem;
 - (iii) recommended the current Superannuation Guarantee Charge framework, with its reliance on employer self-reporting, should be reviewed in order to ensure that penalties are strong enough deterrents; and
 - (iv) considered it is crucial to move Superannuation Guarantee compliance from the 'paper age' to the 'digital age', enabling a greater focus on proactive methods, and in turn increasing the effectiveness of efforts to detect and remedy Superannuation Guarantee non-compliance; and

- (2) calls on the Government to accept and act upon all 32 recommendations made in the Committee's report to address the significant problem of Superannuation Guarantee non-compliance.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

11 **CRIMES PERPETRATED BY INTERNATIONAL TERRORIST GROUPS**

Ms Brodtmann, pursuant to notice, moved—That this House:

- (1) notes that:
- (a) the use of sexual violence in armed conflict is a war crime; and
 - (b) the use of sexual violence as part of a widespread or systematic attack directed against any civilian population is a crime against humanity;
- (2) acknowledges that Islamic State:
- (a) is perpetrating war crimes and crimes against humanity against minority Muslim groups, Christians, Yazidis and other religious and ethnic minorities in Iraq and Syria;
 - (b) has perpetrated acts of sexual violence amounting to war crimes and crimes against humanity; and
 - (c) has dedicated infrastructure for the kidnap, trafficking and sale of sex slaves; and
- (3) calls on the Australian Government to:
- (a) investigate, prosecute and hold to account Australians who have committed crimes, according to domestic or international law, as members of Islamic State or other recognised international terrorist groups; and
 - (b) support international efforts to gather evidence, investigate and prosecute those responsible for international crimes perpetrated by Islamic State or other recognised international terrorist groups.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

12 **SMALL AMOUNT CREDIT CONTRACT LAWS REVIEW**

Mr Hammond, pursuant to notice, moved—That this House:

- (1) notes that:
- (a) the Government established a panel to review the Small Amount Credit Contract (SACC) laws on 7 August 2015, which provided its final report to the Government on 3 March 2016;
 - (b) the Government released its response to the SACC review on 28 November 2016, in which it agreed with the vast majority of the recommendations in part or in full;
 - (c) the Minister for Revenue and Financial Services said at the time that 'the implementation of these recommendations will ensure that vulnerable consumers are afforded appropriate levels of consumer protection while continuing to access SACCs and leases';
 - (d) the Minister claimed in an interview on Lateline on 28 February 2017 that Treasury was drafting legislation to implement the review's recommendations; and
 - (e) in response to questioning in Senate Additional Estimates by Senator Gallagher on 1 March 2017, Treasury's head of the Financial System Division confirmed that drafting had not commenced for a bill to enact the SACC review recommendations accepted by the Government;
- (2) acknowledges that consumer credit contracts and consumer leases have been shown to cause unnecessary hardship to vulnerable consumers, and that the Parliament should act to protect vulnerable consumers;
- (3) recognises that the delay in introducing legislation for consideration by the Parliament, to implement the SACC review recommendations, results in an unnecessary continuation of hardship to vulnerable consumers and their families;
- (4) congratulates the consumer advocate groups who attended Parliament House on 27 March 2017 to raise the profile of this important issue; and

- (5) calls on the Government to immediately prepare legislation for consideration by the Parliament, to implement the SACC review recommendations.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

4 BUILDING BETTER REGIONS FUND

Mr Wallace, pursuant to notice, moved—That this House:

- (1) welcomes the results of Round One of the Building Better Regions Fund (BBRF), including the allocation of \$3 million in funding to the Events Centre, Caloundra, on the Sunshine Coast;
- (2) congratulates all of the successful applicants in Round One of this program;
- (3) notes that:
 - (a) the BBRF is another example of the Government investing in our regions to boost local economies, grow regional confidence, create jobs and build vibrant communities;
 - (b) nationally the successful projects will support a diverse range of important infrastructure in regional and remote areas for projects ranging from tourism and transport, to culture, sporting and healthcare facilities;
 - (c) the Events Centre is such an important piece of infrastructure, providing world class cultural experiences for local people on the Sunshine Coast and drawing tourists from all over South East Queensland; and
 - (d) nearly 550 organisations applied from all across Australia for the Infrastructure Projects stream;
- (4) commends the Government for its allocation of an additional \$200 million in funding for this important program in the 2017 budget; and
- (5) encourages eligible organisations to make an application to Round Two of the BBRF, which is anticipated to open later in 2017.

5 SEXUAL ASSAULT AND DOMESTIC VIOLENCE TRAUMA COUNSELLING

Ms T. M. Butler, pursuant to notice, moved—That this House:

- (1) acknowledges that:
 - (a) victims and survivors of sexual and family violence should be able to gain access to the highest standard of professional counselling support;
 - (b) 1800 RESPECT, a national telephone and on line counselling service for people living with sexual assault and family violence, is an important part of the national response to family and domestic violence;
 - (c) since the establishment of the 1800 RESPECT service, Rape and Domestic Violence Services Australia has provided specialist sexual assault and domestic violence trauma counselling for the service; and
 - (d) Rape and Domestic Violence Services Australia, which has operated for almost fifty years, has achieved international recognition for its expertise in its field;
- (2) notes that:
 - (a) Medibank Health Solutions (MHS), a for-profit company, receives public funds to administer 1800 RESPECT;
 - (b) MHS recently announced that the service previously provided by Rape and Domestic Violence Services Australia would now be provided by four organisations, three of which have not previously provided trauma counselling for the 1800 RESPECT service;
 - (c) the consequence of this decision is a 75 per cent reduction in the public funding provided to Rape and Domestic Violence Services Australia via MHS for the provision of the 1800 RESPECT service, as that organisation becomes one of four providers, rather than the sole provider; and
 - (d) in those circumstances, the Board of Rape and Domestic Violence Services Australia has decided not to accept the proposed MHS contract, which the Board states does not provide sufficient funding to enable Rape and Domestic Violence Services Australia to provide the service, and imposes obligations which the Board considers unethical; and
- (3) calls upon the Prime Minister to ensure that victims and survivors of family and domestic violence continue to have access to best practice specialist sexual assault and family violence trauma counselling services as previously provided by Rape and Domestic Violence Services Australia.

Debate ensued.

- (4) praises the \$600 million Northern Australia Roads Programme which enables upgrades to high priority roads in northern Australia essential to the movement of people and freight to support the north's economic development;

 - (a) Thompson Square, Windsor, is Australia's only surviving Georgian public town square;

 - (c) the NSW Government's Windsor Bridge replacement project will result in a large modern concrete structure destroying the current Square; and
 - (d) a community action group, Community Action for Windsor Bridge, has staged a 24 hour occupation of Thompson Square since 21 July 2013 in order to fight the NSW Government's plan;
- (2) condemns the NSW Government for ignoring the advice of its own Office of Environment and Heritage, the Heritage Council of NSW and the National Trust; and

Mr Christensen, pursuant to notice, moved—That this House:

- (1) recognises the importance of the actions of this Government in abolishing the Temporary Work (Skilled) visa (subclass 457) program to ensure that the interests of Australian workers are protected;
- (2) notes that a review of the changes by Dr Bob Birrell of the Australian Population Research Institute highlights their significance by making the following points, that the:
 - (a) abolition of the 457 visa program is a 'game changer' rather than being mere 'window dressing' as was claimed by critics in the media and members of the Opposition;

- (b) reset stops the past immigration policy outcome of employers recruiting as many temporary skilled foreign workers as they wanted and then facilitating their transition to permanent residence via the Employer Nomination Scheme visa (subclass 186); and
- (c) changes go some way to ‘redressing the balance between employer interests and those of domestic workers’;
- (3) further notes that the 457 visa program had become ‘bloated out and a proxy pathway to permanent residence’ as stated by the head of the Department of Immigration and Border Protection, Mr Mike Pezzullo; and
- (4) commends the Government on its actions which are predicted to reduce skilled migration numbers by more than 50,000, or one quarter, of the total program, thus resulting in more jobs being available for Australian workers.

 - (b) LEGO is a world-renowned brand with a philosophy to foster imaginative and creative learning and development through play;
- (2) congratulates Mr Damien MacRae and his seven year old son Aiden on creating an Australian sun smart beach themed LEGO project entitled ‘LEGO Surf Rescue’, which has reached the required 10,000 supporters for the LEGO Ideas review;
- (3) recognises that:
 - (a) Mr MacRae and his family have shown remarkable resilience and positivity, in spite of his terminal melanoma diagnosis, in highlighting the dangers of skin cancer and the importance of sun safety; and
 - (b) the ‘LEGO Surf Rescue’ project:
 - (i) demonstrates not only the importance of sun safety to reduce the risks of melanoma, but also highlights the importance of surf lifesaving and promotes healthy and active lifestyles for children; and
 - (ii) would be the first set in LEGO history to feature figures wearing sunscreen; and
- (4) calls on LEGO to support ‘LEGO Surf Rescue’, and to approve the project to become an official LEGO set.

Debate ensued.

 - (c) Australia ranks thirteenth in the world for defence expenditure, but is only the twentieth largest exporter;
- (2) congratulates the Government on its activities to date to encourage local small businesses to bid for Government defence contracts, including the 2016 Defence White Paper, and Integrated Investment Program, the Defence Industry Policy Statement and the Centre for Defence Industry Capability (CDIC);

- (3) welcomes the Government's efforts to develop a Defence Export Strategy to plan, guide and measure defence export outcomes that will support our foreign and trade policies, defence industry, defence capability and national security objectives; and

 - (a) regional universities:
 - (i) play an active role in developing regional economies and contributing to the social and cultural development of their regions; and
 - (ii) act as an anchor for investment and workforce development;
 - (b) education is a major driver of economic development in regional Australia and should not be seen in isolation from other regional economic development issues;
 - (c) one of the biggest threats to the sustainability of rural communities is a declining population of young people;
 - (d) regional universities will educate the future regional workforce;
 - (e) students who study in regional areas are more likely to stay in regional areas after they graduate;
 - (f) the Regional Universities Network reports about three-quarters of those who study at regional universities stay in the regions to work and, by contrast, students who leave their communities to take up university studies in major cities are much less likely to return after graduating; and

- (3) notes the many ties that bind our nations together, in areas including:
 - (a) intelligence and law enforcement, where information sharing and coordination are at all-time highs, which has led to the prevention of far more terrorist attacks than have occurred;
 - (b) security cooperation, in which Australia has made valuable contributions in the past 15 years to the United States-led campaigns against terror in Afghanistan, Iraq and across the Middle East, noting as well that the United States Force Posture Initiatives in Australia, launched in 2012, have and will continue to enhance the readiness and interoperability of our militaries;
 - (c) trade, with the Australia-United States Free Trade Agreement in particular having expanded the flow of fair, free, and high-standard trade between our countries for 12 years;
 - (d) investment, recognising that the United States is Australia's largest foreign investor, and the top destination for Australian investment, with mutual investment by the United States and Australia in each other's economies having grown to nearly AUD\$2 trillion; and
 - (e) political engagement, including the frequent exchange of politicians, officials and dignitaries between our nations, recognising in particular that over the last three years alone, the President, Vice President, and half of the President's cabinet has visited Australia, as well as more than 100 congressional delegations and prominent United States governors; and
- (4) affirms that our nations' mutual and long-standing commitment to freedom, democracy and the pursuit of happiness will continue to guide and shape our relationship into the future, through both challenging and prosperous times ahead.

 - (c) catheter ablation is the acknowledged best practice treatment;
 - (d) there are long waiting lists for catheter ablation in the public hospital system and the treatment is not listed on the Prostheses List; and
 - (e) up to 40,000 Australians could benefit from catheter ablation, including 13,000 on private health insurance; and

FEDERATION CHAMBER

MINUTES OF PROCEEDINGS

MONDAY, 16 OCTOBER 2017

1 The Federation Chamber met at 10.30 am.

2 MEMBERS' CONSTITUENCY STATEMENTS

Members' constituency statements were made.

3 CORAL BLEACHING

Ms T. M. Butler, pursuant to notice, moved—That this House:

- (1) notes that the:
 - (a) last three years have seen an unprecedented global coral bleaching event which has had a devastating impact on many coral reefs ecosystems around the world, including our own Great Barrier Reef (GBR); and
 - (b) World Heritage Committee:
 - (i) met in early July in Poland and expressed its 'utmost concern' regarding the 'serious impacts from coral bleaching that have affected World Heritage properties'; and
 - (ii) noted that the most widely reported impacts were on the GBR and called on all States Parties to undertake 'the most ambitious implementation of the Paris Agreement';
- (2) recognises that:
 - (a) the World Heritage Centre released the first global scientific assessment of the impact of climate change on World Heritage coral reefs;
 - (b) the assessment found that it is a well established conclusion of international peer reviewed literature that limiting the global average temperature increase to 1.5 degrees Celsius above pre-industrial levels provides a chance of retaining coral-dominated communities for many reef locations around the globe;
 - (c) the assessment also found that the GBR will start to experience severe coral bleaching twice per decade by 2035, a mere 18 years away; and
 - (d) this frequency of bleaching will not allow coral reefs to recover, putting the survival of the GBR in danger along with the 64,000 jobs that are dependent on it; and
- (3) calls on the Government to:
 - (a) urgently adopt a clean energy target that is fully consistent with Australia's obligations within the World Heritage Convention to protect the outstanding universal value of the GBR World Heritage area; and
 - (b) abandon plans for a \$1 billion loan through the Northern Australian Infrastructure Facility to Adani to help establish one of the world's largest coal mines.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

4 STRONGER COMMUNITIES PROGRAM

Mr Wallace, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) applications are now open for Round Three of the Stronger Communities Programme (SCP);
 - (b) the SCP has:
 - (i) invested in thousands of worthwhile projects applied for by small community groups and organisations which would often not have received funding another way; and
 - (ii) had a positive impact on the lives of all kinds of Australians, supporting youth sporting clubs, community halls and clubhouses, surf lifesavers, aged and day care facilities among many more;
- (2) welcomes the funding allocated to all successful projects under Rounds One and Two of the SCP, including the Caloundra Woodworking Club's grant of \$15,000 to enable the construction of an extension to their building and the grant of \$8,700 to Caloundra Surf Club which enabled the purchase of an inflatable rescue boat;
- (3) congratulates the Government for developing the SCP, for its ongoing commitment to building stronger and safer communities, and for investing a further \$22.5 million in the 2017 budget to enable a third round of the SCP to proceed in 2017-18; and

- (2) welcomes the Government's decisive and comprehensive program of measures to investigate, stamp out and punish union malfeasance, including:
 - (a) the *Fair Work (Registered Organisations) Act 2016*;
 - (b) the *Building and Construction Industry (Improving Productivity) Act 2016*, which included the restored Australian Building and Construction Commission (ABCC), and the Building Code 2016; and
 - (c) the *Fair Work Amendment (Corrupting Benefits) Act 2017*;

- (3) congratulates the Government on dealing with the scourge of union misbehaviour on Australian construction sites; and

- (1) this is a tax hike on over seven million Australian workers earning less than \$87,000 a year;
- (2) the Government is already supporting cuts to penalty rates for low and middle income workers;
- (3) at a time of low wages growth and the high cost of living pressures, including energy costs, the Government should not be seeking to raise taxes on these low and middle income workers;
- (4) the Government:
 - (a) is cutting funding for vocational education, university and research infrastructure, and transport infrastructure;
 - (b) has failed to abolish the Nation-Building Funds previously; and
 - (c) has sidelined Infrastructure Australia when making infrastructure investment decisions;
- (5) the National Disability Insurance Scheme has been fully funded in a bipartisan fashion, and funding has been allocated to the NDIS in all Budgets since 2013-14 and bilateral agreements with the states that contain the Commonwealth Government’s commitment to the full funding of the NDIS have been signed in a bipartisan manner;
- (6) like all other items of Government expenditure, such as defence, the NDIS is funded from consolidated revenue and does not require a separate funding arrangement; and

- (7) there is a better and fairer plan which would:
- (a) only raise the Medicare Levy for those earning above \$87,000 a year;
 - (b) reinstate the Budget Repair Levy for those earning above \$180,000 a year; and
 - (c) ease the pressure on low and middle income workers, and be better for the budget bottom line”.

 - (d) there is a delay in diagnosing endometriosis of up to seven to ten years because the symptoms are variable; and

Suspension of standing orders moved

Mr Burke moved—That so much of the standing orders be suspended as would prevent the Member for Watson from moving the following motion immediately—The House:

- (1) notes:
 - (a) yesterday, it was revealed the Australian Federal Police (AFP) did not have the resources to investigate the importation of 1.6 tonnes of cocaine;
 - (b) on the very same day, the Prime Minister's Registered Organisations Commission sent at least 25 AFP officers to look at a 10-year-old donation to GetUp;
 - (c) in so doing, this Government diverted police resources needed to fight drug syndicates to protect his own political interests; and
 - (d) that this is just the latest example of this Prime Minister's willingness to abuse his power and debase the Office of Prime Minister; and
- (2) therefore, condemns this born-to-rule Prime Minister for his grubby attacks and blatant abuses of power designed to protect his own political interests instead of protecting Australians.

VOTES AND PROCEEDINGS

No. 87

THURSDAY, 26 OCTOBER 2017

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 SUSPENSION OF STANDING ORDERS MOVED

Mr Wilkie moved—That so much of the standing orders be suspended as would prevent the Member for Denison from moving the following motion immediately—That this House:

- (1) notes that:
 - (a) a fifth Crown Casino whistleblower has now made allegations consistent with earlier whistleblowers about serious misconduct at the Casino;
 - (b) one of the allegations is that one or more machines manufactured by Xcite were illegally tampered with, to reduce the payout to gamblers, through the removal of the “gamble button”, a feature which allows users to bet on their winnings, and that the relevant button was replaced by a blank plastic cap;
 - (c) this modification is inconsistent with the regulator’s approval of this type of machine and is therefore illegal;
 - (d) to verify the veracity of these latest allegations, one of the Member for Denison’s staff visited the Casino at approximately 10 pm on Sunday, 22 October and confirmed this machine was operating on the floor of the Casino on the river side, near the membership office, but when that member of staff revisited the Casino on Wednesday, 25 October at approximately 4 pm the machine had been replaced by a different machine and the first machine was nowhere to be found;
 - (e) the illegal machine disappeared after the Member for Denison raised allegations concerning Crown Casino in the Parliament, which is clear evidence of someone covering up criminal activity; and
 - (f) there is a record of this episode which will be forwarded to police and the Victorian gambling regulator as soon as possible;
- (2) further notes that it is reasonable to assume that the misconduct in question is not unique to Crown Casino and extends to the poker machine industry broadly; and
- (3) calls on the Government, and the Opposition, to immediately support a parliamentary inquiry into the casino industry so that those who allege misconduct, and representatives of the industry, can have their say in an open and transparent way and so that the community, including the 17 million who visit Crown Casino annually, can be witness to this.

Debate ensued.

Question—put.

Suspension of standing orders moved

Mr Burke moved—That so much of the standing orders be suspended as would prevent the Member for Watson from moving the following motion immediately—The House:

(1) notes:

- (a) yesterday morning, the media aired an allegation the Employment Minister's Office had leaked the raids, which allowed television crews to turn up to the raids before the police did;
- (b) by midday yesterday, the Employment Minister had five times denied that her office had been involved in leaking the raids;
- (c) at the Prime Minister's Question Time briefing yesterday, attended by the Employment Minister and the Senior Media Adviser who has now resigned for leaking the raids, the Prime Minister, according to the Government's account, failed to ask a single question about the involvement of the Minister's office in leaking the raids;
- (d) at 6.10 pm, Alice Workman of Buzzfeed reported that journalists received a leak about the raids from the Employment Minister's office before the raids began;
- (e) at 7.30 pm, after the truth had been exposed, only then did the Employment Minister finally admit that she had misled the Senate on five separate occasions; and
- (f) during the utegate scandal, the now Prime Minister himself said that misleading the Parliament "is an offence that should result in the dismissal or resignation of a Minister. It is perfectly clear"; and

(2) therefore, calls on the Prime Minister to:

- (a) sack the Employment Minister for breaching Ministerial Standards by repeatedly misleading the Senate; and
- (b) explain to the House his involvement, his office's involvement and his Government's involvement in this serious matter where the publicly stated version of events doesn't add up.

FEDERATION CHAMBER

MINUTES OF PROCEEDINGS

MONDAY, 5 FEBRUARY 2018

1 The Federation Chamber met at 10.30 am.

2 MEMBERS' CONSTITUENCY STATEMENTS

Members' constituency statements were made.

3 RAKHINE STATE IN MYANMAR

Ms Vamvakinou, pursuant to notice, moved—That this House:

(1) notes that:

- (a) Amnesty International has evidence that hundreds of Rohingya women, men and children have been killed since the escalation of a violent assault in Northern Arakan/Rakhine State, Myanmar, since 25 August 2017;
- (b) the United Nations has estimated that since August 2017, over 589,000 Rohingyas have been forced to flee to refugee camps in Bangladesh;
- (c) there are at least another 20,000 Rohingyas being detained at the borders;
- (d) the United Nations Human Rights team has witnessed accounts and heard testimonies of the Myanmar security force setting villages on fire and injuring, torturing, raping, killing and executing innocent victims;
- (e) 214 villages have been destroyed through fire and will be taken over by the Myanmar Government because burnt land becomes government-managed land;
- (f) the United Nations High Commissioner for Human Rights, Prince Zeid Ra'ad al-Hussein, has called these government attacks 'a textbook example of ethnic cleansing';
- (g) approximately 600,000 people are still deadlocked inside Rakhine State with limited access to food, medical care or humanitarian assistance;
- (h) despite the history of the Rohingya Muslims in the Rakhine region extending back to the post-colonial era, this community has been denied citizenship and most basic government services since 1982; and
- (i) the treatment of Rohingya Muslims in the Rakhine region is an issue that deeply concerns the Australian community; and

(2) urges:

- (a) the Government of Myanmar to:
 - (i) recommit to the pursuit of peace and national reconciliation; and
 - (ii) allow access to all parts of Rakhine State to allow for the provision of humanitarian aid;
- (b) the Australian Minister for Foreign Affairs to:
 - (i) do everything in her power to help alleviate the suffering in Rakhine State;

- (ii) lead the push for a strong United Nations General Assembly resolution on the violence in Rakhine State; and
- (iii) work to establish an independent United Nations investigation into human rights abuses in Myanmar; and
- (c) the Australian Government to:
 - (i) support unimpeded humanitarian access to the Rohingya population;
 - (ii) maintain pressure on the Myanmar Government, particularly the military and security forces, by condemning the persecution, attacks, killings and human rights abuses of the Rohingyas; and
 - (iii) stand up for the moderate voices in Myanmar which are being widely suppressed by the threat of persecution by the Myanmar military.

Debate ensued.

Debate adjourned (Mr K. J. Andrews), and the resumption of the debate made an order of the day for the next sitting.

4 CITY DEALS

Mr Wallace, pursuant to notice, moved—That this House:

- (1) welcomes the Government's action to make our cities better places to live in and do business through ongoing City Deal developments in Townsville, Launceston, Western Sydney and Darwin;
- (2) notes that:
 - (a) City Deals:
 - (i) bring together all three levels of Government to develop collective plans for growth with a focus on jobs, housing, transport and the environment; and
 - (ii) are already delivering firm commitments and real benefits for communities, including the \$250 million North Queensland Stadium, the Townsville Eastern Access Rail Corridor, movement of the University of Tasmania's main campus and the rejuvenation of the CBD in Launceston; and
 - (b) further benefits through City Deals are under development, including the Western Sydney Housing Package and the redevelopment of Paterson Barracks in Launceston;
- (3) commends the Government for continuing to encourage and pursue new City Deals with other regional cities around Australia, including areas such as the Sunshine Coast; and
- (4) encourages state and territory governments and local councils in regional cities, especially on the Sunshine Coast, to work closely with their local Members of Parliament and the Assistant Minister for Cities and Digital Transformation to develop City Deals for their eligible communities.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

5 AVIATION RESCUE AND FIRE FIGHTING SERVICES

Mr Albanese, pursuant to notice, moved—That this House:

- (1) declares:
 - (a) its support for the vital work performed each and every day by the highly trained professionals providing aviation rescue and fire fighting (ARFF) services to ensure the safety of the flying public;
 - (b) that the ARFF service is particularly important to the safe operation of airports in regional Australia where it also responds to non-aviation emergencies within its local communities; and
 - (c) that the presence of the ARFF service is key to safeguarding the safety and security at major metropolitan and regional airports around the country, which is critical for international and domestic tourism; and

- (2) calls on the Government to reject any proposal to increase the threshold for the provision of ARFF services at airports from the existing 350,000 passenger movements annually, noting that this would preclude the establishment of these services at Proserpine Whitsunday Coast Airport and lead to the removal of these services from the following regional communities: Ballina; Coffs Harbour; Ayres Rock; Gladstone; Hamilton Island; Broome; Karratha; Newman; and Port Hedland.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

6 EXPORTS

Mr Coulton, pursuant to notice, moved—That this House:

- (1) acknowledges the important contribution that the Export Finance and Insurance Corporation (Efic) makes to supporting Australian exporters;
- (2) notes the recent passage of the Insurance Corporation Amendment (Support for Commonwealth Entities) Bill 2016 through the Parliament with bipartisan support, helping Efic keep pace with Australia's changing exports; and
- (3) commends the Government for issuing a new Statement of Expectations for Efic, re-enabling it to support onshore resource projects, and related infrastructure.

Debate ensued.

8 PLASTIC BAGS

Ms Sharkie, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) plastic bags are detrimental to the environment;
 - (b) Australians use an estimated 5 billion plastic bags a year, which represents over 20 million bags used every day;
 - (c) research has indicated that as of 2013, approximately 5.25 trillion pieces of plastic have been floating in our world's oceans—these are mostly microplastics of less than 5 millimetres in size and are regularly eaten by marine life, through which they enter the global food chain and are consumed by humans;
 - (d) thousands of marine mammals and seabirds die every year around the world as a result of plastic litter;
 - (e) plastic bags are particularly bad for the environment because they take from between 20 and 1,000 years to biodegrade and can travel long distances via air and water;
 - (f) South Australia led the nation with the phasing out of lightweight non-biodegradable plastic shopping bags, which state legislation defines as a carry bag, the body of which comprises (in whole or in part) polyethylene with a thickness of less than 35 microns and includes handles;
 - (g) South Australia's ban on plastic shopping bags came into force on 4 May 2009; and

- (h) the South Australian Environmental Protection Authority estimates that the state's ban on plastic shopping bags has resulted in almost 400 million fewer plastic bags in that state each year; and
- (2) calls on the:
 - (a) state governments yet to enact a ban on lightweight non-biodegradable plastic shopping bags to do so with speed and urgency; and
 - (b) Australian Government to work with the state Governments to implement a national ban on lightweight non-biodegradable plastic shopping bags by the end of 2018.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

9 THINKUKNOW PROGRAM

Mrs Marino, pursuant to notice, moved—That this House:

- (1) recognises the:
 - (a) importance of educating and protecting our children in the online space; and
 - (b) work of the Australian Federal Police through the ThinkUKnow program, a free, evidence based cyber safety program, to provide educational presentations to parents, carers and teachers, and students across Australia;
- (2) congratulates the Australian Government on passing the *Criminal Code Amendment (Protecting Minors Online) Act 2017*, also known as Carly's Law, which targets online predators preparing or planning to cause harm to, procure or engage in sexual activity with a child; and
- (3) recognises the new law is a testament to Sonya Ryan, who has advocated for this since her 15 year old daughter Carly was murdered a decade ago by an online predator posing as a teenage boy.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

10 CAMBODIAN ELECTIONS

Mr M. C. Butler, pursuant to notice, moved—That this House:

- (1) recognises:
 - (a) the role of Australia in helping to broker the Paris Peace Accords (PPA); and
 - (b) that one of the core promises of the PPA was to provide the Cambodian people with free and fair elections;
- (2) expresses serious concerns about:
 - (a) political suppression in Cambodia, including the closure of media outlets such as the Cambodia Daily; and
 - (b) the arrest and trial of the Cambodia National Rescue Party (CNRP) leader, Kem Sokha, arising from a speech he delivered in Australia in 2013;
- (3) calls for:
 - (a) the immediate release of Kem Sokha from detention and the removal of restrictions on civil society; and
 - (b) greater transparency and assurance of due process in proceedings against political prisoners and dissidents;
- (4) condemns the move to disband the CNRP and redistribute seats to minor parties without by-elections;
- (5) expresses serious concerns about the timing of the actions against the CNRP and Kem Sokha in light of the impending 2018 general election; and
- (6) calls upon the Australian Government to impress upon the Cambodian Government the importance of free and fair elections for the Cambodian people.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

11 TAX AND SUPERANNUATION SYSTEMS

Mr van Manen, pursuant to notice, moved—That this House:

- (1) recognises positive effect of the Government's measures to assist more hard working Australians to:
 - (a) earn more through the tax system, in particular by:
 - (i) legislating tax cuts for middle income earners to ensure they are not pushed into the second highest tax bracket;
 - (ii) introducing to Parliament the Enterprise Tax Plan, which will extend small business tax concessions to businesses up to \$10 million from the outdated \$2 million threshold; and
 - (iii) supporting employers to invest more, provide more hours and increase wages through a more competitive international tax rate; and
 - (b) save more for their retirement through increased flexibility in the superannuation system, in particular by:
 - (i) abolishing the so called '10 per cent rule', which prevents anyone earning more than 10 per cent of their income from salary and wages from claiming a deduction for personal superannuation contributions; and
 - (ii) introducing catch up concessional contributions to provide assistance to those—particularly women—who have interrupted work patterns, whether to raise children, look after elderly parents, or seek to boost their retirement savings just before retirement; and
- (2) notes with deep concern that the Opposition:
 - (a) refuses to support tax relief for small business, while at the same time advocating tax cuts for foreign workers;
 - (b) seeks to abolish measures to improve the retirement savings of hard working Australians, particularly those on low incomes and with interrupted work patterns; and
 - (c) has no plan for jobs and growth, despite having previously advocated for a more competitive tax rate for employers.

- (5) recognises the importance of the agreement for Australia's farmers, manufacturers and service providers in increasing their competitiveness in overseas markets;
- (6) notes indicative modelling by the Peterson Institute for International Economics, which found that the TPP-11 agreement would boost Australia's national income by 0.5 per cent and exports by 4 per cent; and
- (7) encourages the Parliament to work co-operatively to ratify the TPP-11 agreement so that Australian exporters can take advantage of the many benefits it delivers.

Debate ensued.

4 LEADERSHIP AND GENDER DIVERSITY

Ms McGowan, pursuant to notice, moved—That this House:

 - (b) the Australian Institute of Company Directors (Institute) says its quest for 30 per cent female representation across ASX 200 boards by 2018 has stalled;
 - (c) the Institute's latest gender diversity report shows that as of 31 August 2017 there were 25.4 per cent female directors, only marginally higher than the 25.3 per cent reached at the end of 2016;

- (d) at the time of the publication of the Institute's latest gender diversity report, 11 ASX 200 companies had no women on their boards; and
- (e) the Institute says that the Government may be forced to intervene with quotas to force companies to appoint more female directors;
- (2) acknowledges the Diversity in Agriculture Leadership Program (Program) initiative launched by the National Farmers' Federation and AACo on 15 October 2017, which asks organisations to commit to auditing the gender diversity within their leadership teams and pledge to make 'meaningful change' towards achieving enhanced gender equality; and

 - (b) across the country this month, students will be attending university, with orientation periods beginning, and that these students are faced with more uncertainty about how the cuts will affect their student experience; and

No. 100

MONDAY, 26 FEBRUARY 2018

1 The House met, at 10 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 PROTESTS ON 30 NOVEMBER AND 1 DECEMBER 2016—STATEMENT BY SPEAKER

The Speaker made the following statement:

Members may recall that on 30 November 2016, question time was interrupted by a group of protestors in the public galleries and on the following day further protests occurred outside of the building. At the time I indicated that the matter would be investigated and that I would update the House as appropriate.

I can advise the House that following referrals by ACT Policing to the Commonwealth Director of Public Prosecutions, the two offenders who abseiled down the front façade of Parliament House were summoned to appear before the ACT Magistrates Court last year for the charge of behaving in a disorderly manner on Commonwealth premises.

Both offenders pleaded guilty to the charge and the matter was adjourned on 13 February 2018. Last week, Magistrate Glenn Theakston fined the pair \$1,500 each, which amounts to almost half the maximum fine for such an offence. I will continue to apprise the House on the matter.

2 MEMBERS' CONSTITUENCY STATEMENTS

Members' constituency statements were made.

3 REGIONAL PUBLIC SECTOR JOBS

Ms O'Toole, pursuant to notice, moved—That this House:

- (1) notes that ongoing cuts to public sector jobs in regional cities like Townsville have had a detrimental impact on the local economy and include:
 - (a) the relocation of Royal Australian Air Force's 38 Squadron King Air fleet from Townsville to East Sale in Victoria resulting in the loss of more than 40 aviation jobs in Townsville;
 - (b) the Government's change of process in second division resulting in the loss of up to 10 Townsville Australian Public Service defence support staff;
 - (c) Townsville having 50 fewer defence staff in June 2017 than it had in December 2012;
 - (d) 19 jobs having been cut from CSIRO in Townsville over the last few years;
 - (e) regional Queensland Customs staffing being cut by 50 per cent with 30 job losses from Gladstone to Thursday Island with Townsville being one of the hardest hit; and
 - (f) the consolidation of the Australian Taxation Office in 2014 resulting in the loss of 110 jobs in Townsville;
- (2) acknowledges that maintaining public sector jobs is important in regional Australia and notes that job cuts are harmful to regional cities like Townsville; and
- (3) calls on the Government to ensure the coming federal budget puts a moratorium on these regional jobs cuts in public sector agencies.

4 CARMICHAEL COAL MINE AND RAIL PROJECT

Mr Christensen, pursuant to notice, moved—That this House:

- (1) supports the Carmichael Coal Mine and Rail Project because:
 - (a) its proponents, Adani Australia, already employ 800 workers in Queensland;
 - (b) it will open up the Galilee Basin and lead the way in creating as many as 15,000 jobs across five potential mines for the workers of Central and North Queensland; and
 - (c) it will improve the lives of millions of Indians by providing their country with affordable and safe electricity; and
- (2) notes that the Opposition is now opposed to the project, endangering both existing and future jobs in regional Queensland as evidenced by:

- (a) the Leader of the Opposition stating that ‘Labor is increasingly sceptical and today’s revelation, if true, is incredibly disturbing, and if Adani’s relying on false information, that mine does not deserve to go ahead’;
- (b) Senator Singh stating that ‘I believe the Adani coal mine is a big mistake for this country’;
- (c) the Shadow Minister for Environment and Water stating that the Carmichael coal mine ‘will simply displace existing coal operations elsewhere in Australia. There will be jobs lost elsewhere in Queensland or there will be jobs lost in the Hunter Valley...The demand for thermal coal exports around the world is in rapid decline and I think instead we should be talking about other economic developments and job opportunities for North Queensland’; and
- (d) the Member for:
 - (i) Charlton tweeting that ‘Hunter coal mining jobs are endangered by the Adani project’; and
 - (ii) Gellibrand stating that ‘the reality is, the Adani coal mine has always been something that regional Queenslanders know well: snake oil’.

- (5) recognises the importance of the agreement for Australia’s farmers, manufacturers and service providers in increasing their competitiveness in overseas markets;

- (b) across the country this month, students will be attending university, with orientation periods beginning, and that these students are faced with more uncertainty about how the cuts will affect their student experience; and
 - (c) the Government's short-sighted cuts will hurt regional and outer metropolitan universities and their students the most; and

 - (b) the 2016 Code includes requirements in respect of building association logos, mottos or indicia; and
 - (c) the Australian Building and Construction Commission's fact sheet *Freedom of Association—Logos, Mottos and Indicia* specifies that 'logos, mottos and indicia' that would breach the 2016 Code include 'the iconic symbol of the five white stars and white cross on the Eureka Stockade flag';

 - (d) it is an attack on:
 - (i) an individual’s freedom of association to prevent them from wearing the Eureka Stockade flag on their clothing; and
 - (ii) freedom of association to prevent a construction site from displaying the Eureka Stockade flag; and

- (2) recognises that 15 July 2018 marks the 80th anniversary of the end of the fateful Évian Conference, convened by President Roosevelt in 1938 in Évian-les-Bains, France, with 31 countries, to discuss the issue of the plight of Jewish refugees fleeing the horror of Nazi persecution;
- (3) further notes that:
 - (a) the Australian Minister for Trade and Customs in 1938, Lieutenant Colonel T.W. White, declined to further assist the Jewish people, stating 'Australia has her own particular difficulties...migration has naturally been predominantly British, and it (is not) desired that this be largely departed from while British settlers are forthcoming. Under the circumstances Australia cannot do more, for it will be appreciated that in a young country manpower from the source from which most of its citizens have sprung is preferred, while undue privileges cannot be given to one particular class of non-British subjects without injustices to others. It will no doubt be appreciated also that as we have no real racial problem, we are not desirous of importing one by encouraging any scheme of large-scale foreign migration...I hope that the conference will find a solution of this tragic world problem';
 - (b) post Kristallnacht, when the Nazis burned Jewish synagogues, businesses and books, Australia did reassess its policy to admit 15,000 refugees over three years, compared to the previous quota of 1,800 per year;

- (c) an estimated 6 million Jews and millions of others died during the Holocaust, exacerbated by the failure of Australia and other nations of the world to more fully protect the Jewish people; and
 - (d) Lieutenant-Colonel White's statement on behalf of the Government of Australia is still visible at the Yad Vashem Holocaust Memorial in Jerusalem, as a representative response for all other nations' responses of indifference at the Évian Conference;
- (4) states that this Parliament, as representative of all political parties and the people of Australia, issues a profound apology and says 'sorry' to the Jewish people for the indifference shown by the Parliament in 1938 that worsened the impact of the Holocaust; and
- (5) notes that:
- (a) in doing so, we seek to honour the memory of all those who lost their lives in the Holocaust and make right, a great wrong, perpetuated by Australia on the Jewish people;
 - (b) a request will be made for this motion to be presented to Yad Vashem this 70th year asking that the parliamentary apology be displayed beside Lieutenant-Colonel White's statement of 1938 that he issued on behalf of the Government of Australia; and
 - (c) this motion will be provided to the Knesset this 70th year, one parliament to another.

No. 104

FEDERATION CHAMBER

MINUTES OF PROCEEDINGS

MONDAY, 26 MARCH 2018

1 The Federation Chamber met at 10.30 am.

2 MEMBERS' CONSTITUENCY STATEMENTS

Members' constituency statements were made.

3 INTERNATIONAL WOMEN'S DAY

Ms Claydon, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) International Women's Day is celebrated on 8 March;
 - (b) the theme for 2018 is 'Press for Progress', recognising the strong and growing global momentum striving for gender equity; and
 - (c) now more than ever, governments must recommit to addressing entrenched gender inequities including:
 - (i) high rates of family and domestic violence, sexual violence and harassment;
 - (ii) pay inequity and the undervaluation of work in traditionally female industries; and
 - (iii) the under-representation of women in Australian public life and leadership; and
- (2) calls on the Government to:
 - (a) end its complacency and ensure gender equality is a central priority for government; and
 - (b) commit to urgent action to improve Australian women's:
 - (i) safety and physical security;
 - (ii) economic security and retirement incomes;
 - (iii) health and reproductive rights; and
 - (iv) representation in Australian parliaments.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

4 WORLD TUBERCULOSIS DAY

Mr Entsch, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) 24 March is World Tuberculosis Day, and marks the anniversary of German Nobel laureate Dr Robert Koch's 1882 discovery of the bacterium that causes tuberculosis;
 - (b) tuberculosis is contagious and airborne, ranking as the world's leading cause of death from a single infectious agent;

- (c) in 2016, 1.7 million people died from tuberculosis worldwide and 10.4 million people became sick with the disease, with over 60 per cent of cases occurring in countries in our region;
 - (d) large gaps in tuberculosis detection and treatment remain with 4.1 million cases of active tuberculosis that were not diagnosed and treated in 2016, including 600,000 children;
 - (e) Papua New Guinea (PNG) had one of the highest rates of tuberculosis infection in the Pacific in 2016, with an estimated 35,000 total cases including 2,000 drug-resistant cases, not taking into consideration the large number of cases that go unreported in many regions; and
 - (f) tuberculosis is:
 - (i) the leading cause of death among HIV positive people globally—HIV weakens the immune system and is lethal in combination with tuberculosis, each contributing to the other's progress;
 - (ii) now linked to non-communicable diseases like diabetes; and
 - (iii) considered a preventable and treatable disease, however many current treatment tools—drugs, diagnostics and vaccines—are outdated and ineffective;

(1) notes:

- (a) on Monday, the Prime Minister guaranteed to the Australian people that “lower business taxes result in higher wages”;
 - (b) on Tuesday, a secret survey of big business revealed that over 80 per cent of big businesses ruled out increasing wages or employing more Australians because of the Prime Minister’s \$65 billion handout;
 - (c) that today, in the last half hour, a leaked draft of a statement from the Business Council of Australia reveals the commitments that big businesses were unwilling to give:
 - (i) a commitment to “create more Australian jobs” was in the draft but deleted from the final statement;
 - (ii) a commitment to “increase wages” was in the draft but deleted from the final statement; and
 - (iii) a commitment to pay tax was in the draft but deleted from the final statement; and
 - (d) the Prime Minister is still claiming his \$65 billion handout to big business will create jobs and increase wages when even big business says it won’t; and
- (2) therefore, calls on this out of touch Prime Minister to admit his \$65 billion handout to big business is another example of this Government choosing the top end of town over ordinary Australians.

19 BRADDON, FREMANTLE, LONGMAN, MAYO AND PERTH BY-ELECTIONS—STATEMENT BY SPEAKER

The Speaker made the following statement:

As I have advised the House, following the receipt of five resignations of Members for Braddon, Fremantle, Longman, Mayo and Perth, I would undertake the usual practice of consulting with the Australian Electoral Commissioner on possible dates for the by-elections and consulting with party Leaders about my preferred date.

The earliest possible date for the by-elections is 23 June if the writs are issued today. However, the Electoral Commissioner has advised me that, in light of issues to do with section 44 of the Constitution that have caused four of the five by-elections, the Government is considering urgent changes, through regulations, to the nomination process to ensure that candidates are aware of their obligations under section 44 prior to the by-elections taking place.

The Commissioner has advised that he supports these changes. I note they also have been supported unanimously in the recent report of the Joint Standing Committee on Electoral Matters which has proposed they should be in place for the forthcoming by-elections to improve public trust and confidence. As this regulation is not yet in force, there is no possibility of it applying if by-elections were held on 23 June, and consequently I consider I should not proceed to issue the writs today for the by-elections to be held on 23 June.

I will continue to consult with the Commissioner and party leaders about the timing of the by-elections and I hope to be able to update the House later this week.

23 BRADDON, FREMANTLE, LONGMAN, MAYO AND PERTH BY-ELECTIONS—STATEMENT BY SPEAKER

The Speaker made the following statement:

Earlier in the week I advised the House I would provide an update on possible dates for by-elections in the seats of Braddon, Fremantle, Longman, Mayo and Perth. This update follows further consultation with the Australian Electoral Commissioner and party Leaders.

Under the Constitution it is my responsibility alone to issue a writ for a by-election when a vacancy occurs and generally it has not been the practice to provide an explanation for the exercise of this responsibility. I have varied from the usual practice because of the quite unusual, quite unique circumstances surrounding these by-elections.

As House of Representatives Practice makes clear, there is no statutory period within which I must issue the writ.

As a matter of principle Speakers have generally sought to issue writs as soon as electorally practicable to ensure that electors are not without a representative here in the House for longer than necessary. However, the timing of the calling of each by-election has varied considerably because of circumstances and in this case there has been a unique set of circumstances.

While there has been much commentary around the five by-elections occurring on one day, the Australian Electoral Commission actually has to consider whether this is feasible and desirable. The advice I have received from the Electoral Commissioner is that, although this is the largest number of by-elections to be conducted at the one time since Federation and the holding of them across four States adds complexity, the AEC believes conducting the by-elections on the one day is the preferred option. I intend to follow this preferred option.

As noted in my statement on Monday, the Electoral Commissioner advised me that the Government was considering urgent changes, through regulation, to the nomination process to ensure that all candidates are aware of their obligations under section 44 of the Constitution. The implementation of these changes prior to the by-elections was supported by the Electoral Commissioner and by the Joint Standing Committee on Electoral Matters in a unanimous recommendation.

The latest advice I have from the Electoral Commissioner is that the Regulations have been signed by the Special Minister of State and will be submitted to the Governor-General soon for his consideration, expected to be 29 May. Regardless of the date for submission to the Federal Executive Council, the AEC has advised me that it has commenced preparations to implement the regulations and will require approximately two weeks to do so. The implementation would need to be complete prior to the writs being issued because nominations open as soon as writs are issued at which time candidates can then start nominating. This is in part to accommodate the requirements of the Electoral Commission, but more importantly so that all candidates in the forthcoming by-elections have sufficient time to comply with the new requirements.

Turning now to the date for the by-elections, the Electoral Commissioner has advised me that there is a complication of the school holiday period affecting all four States subject to by-elections extending across a three week period from 30 June to 21 July. Although, as the Commissioner advises, it is possible to hold by-elections in the school holiday period, it does create additional difficulties for voters and risks disenfranchisement and low turnout. Let me say, this is particularly the case in by-elections for, whilst in a general election there are significant absentee voting opportunities outside the electorate in which a voter resides, in by-elections there are not. If there is to be a single date for all by-elections and the school holidays are to be avoided, this pushes the next possible date to 28 July. Although the Electoral Commission would not usually provide advice about a preferred date, I can advise Members, on this occasion the Electoral Commissioner has advised that 28 July is the optimal date. As the Commissioner notes in his advice to me, this achieves three things: it provides sufficient time for the AEC to implement the changes; enables prospective candidates to comply with the new requirements; and ensures that voters are not disenfranchised.

I consider it is prudent in the current circumstances that I follow this advice and allow time for the changes related to section 44 to be implemented and avoid the by-elections taking place in the school holidays. I therefore propose to accept the Commissioner's recommendation for the optimal date of July 28. I will consult with the AEC about the date to issue the writ and the relevant dates for the by-elections and will advise the House when the dates have been settled.

One very important consideration for me has been that this will not impact on the elected Members' ability to take up their seats in the House at the earliest opportunity. Because of the break in the sittings from 28 June to 13 August, the earliest date that any elected Members could now take their seats regardless of the date for the by-elections is the resumption of the sittings on 13 August.

Because of the particular nature of the issues surrounding these by-elections, I am going to table the advice I have received from the Electoral Commissioner. There are two pieces of correspondence from the Electoral Commissioner, one dated 17 May 2018 and a further update in a letter 23 May 2018, and this is not a precedent for the tabling of such advice by Speakers in the future.

Ms O'Toole, by leave, for Mr Gosling, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) 2018 marks the 50th anniversary of the battles of Fire Support Bases Coral and Balmoral during the Vietnam War;
 - (b) on 12 May 1968 two battalions, 1st Battalion Royal Australian Regiment (RAR) and 3rd Battalion RAR with Attachments, were deployed as the 1st Australian Task Force (Forward) to Fire Support Bases Coral and Balmoral, approximately 20 kilometres north of Biên Hòa City, and were involved in a series of actions until 6 June 1968; and
 - (c) the series of battles were incredibly fierce and costly, claiming the lives of 26 Anzacs, with up to 100 wounded and an estimated 300 North Vietnamese combatants killed during the almost one month of fighting;
- (2) acknowledges all of the units and elements that comprised the 1st Australian Task Force (Forward) that deployed to Fire Support Bases Coral and Balmoral;
- (3) notes that:
 - (a) the Defence Honours and Awards Appeals Tribunal recently wrote to the Minister for Defence Personnel recommending: 'That the 1st Australian Task Force (Forward) be awarded the "Unit Citation for Gallantry" for extraordinary gallantry in action at the Battles of Fire Support Bases Coral and Balmoral, between 12 May and 6 June 1968.';
 - (b) on 13 May 2018 the Minister for Veterans' Affairs announced that the Governor-General had approved the awarding of the Unit Citation for Gallantry to the 1st Australian Task Force (Forward) group and all those associated units who participated in that battle;

7 FINANCIAL ASSISTANCE GRANTS

Ms McGowan, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) the Commonwealth's Financial Assistance Grants are a key source of revenue for local governments, especially for regional and rural councils;
 - (b) the impact of the indexation freeze in the 2014-15 budget meant that local councils missed out on \$925 million in funding to provide better infrastructure and better services for our local communities—in Victoria this equated to \$200 million in cuts to funding for local roads and community services;
 - (c) the impact of the indexation freeze was magnified in rural and regional areas where local governments have small ratepayer bases and ageing infrastructure and these councils cannot afford a repeat of the indexation freeze;
 - (d) cost shifting onto local governments places them under increasing pressure to deliver services and maintain assets previously provided by other tiers of government and for rural and regional councils the impact is magnified due to their limited ability to increase revenue;
 - (e) the two main sources of funding for councils are rates and grants and as grant income declines, councils have had to fill the revenue gap by increasing rates or reducing services;
 - (f) the ability of rural and regional councils to increase revenue via rates is limited due to a high proportion of 'non-rateable' land and a smaller population, and revenue raising via user charges for facilities, parking fees and development applications adopted by metropolitan councils is not an option for regional councils; and
 - (g) rural and regional councils often have higher costs per capita than metropolitan councils, with:
 - (i) older, more disadvantaged or more vulnerable populations, who require more services from councils;
 - (ii) larger asset bases relative to the population;
 - (iii) an environmental stewardship role, including responsibility for weed and pest animal management and flood mitigation infrastructure;
 - (iv) more dispersed populations, which increase the amount of travel needed to deliver services or which require duplicate facilities to be provided in multiple locations to meet local needs; and
 - (v) reduced competition among service providers and suppliers, which can increase costs for councils when purchasing goods and services; and
- (2) calls on the Government to:
 - (a) commit to the sustainability of rural and regional councils by guaranteeing the Financial Assistance Grants will not be subject to another indexation freeze;
 - (b) work with the states and territories and local governments to review the funding methodology of Financial Assistance Grants so that distribution of funds supports the sustainability of rural and regional councils; and

And so it was resolved in the affirmative.

Mr Morrison presented reasons, which were circulated, and are as follows:

Reasons of the House of Representatives for disagreeing to the amendments of the Senate

Senate amendments (1, 2 and 3)

The amendments proposed by the Senate remove step three of the Personal Income Tax Plan. Step three of the Personal Income Tax Plan simplifies and flattens the tax system by abolishing the 37 per cent tax bracket entirely, reducing the number of tax brackets from five to four.

The Plan is a package that gives certainty to Australian families that they will keep more of what they earn in the future. It comprises three steps.

Step 1, prioritises low and middle income earners by providing tax relief of up to \$530 to help with cost of living pressures.

Step 2, protects what Australians earn from bracket creep, ensuring that a pay rise, extra overtime or working more hours do not get eaten up by higher tax rates.

Step 3, by simplifying and flattening the tax system, ensures that, by 2024-25, some 94 per cent of taxpayers will face a marginal tax rate no higher than 32.5 per cent based on projections.

High income earners will continue to pay their fair share with the tax system remaining progressive under the Personal Income Tax Plan. For example, a person on \$200,000 would pay around 13 times more tax than a person on \$41,000.

In 2015-16, the top 20 per cent of taxpayers paid around 61 per cent of all personal income tax. Under the Personal Income Tax Plan, this cohort is projected to continue to contribute a broadly similar share in 2024-25.

In 2015-16 those on the top tax bracket paid 30.3 per cent of all personal income tax collected. Under the plan those on the top tax bracket will pay around 36 per cent of all personal income tax collected in 2024-25.

The Personal Income Tax Plan delivers lower, fairer and simpler taxes to all taxpayers.

Accordingly, the House of Representatives does not accept these amendments.

Mr Morrison moved—That the reasons be adopted.

3 SUSPENSION OF STANDING ORDERS MOVED

Mr Burke moved—That so much of the standing orders be suspended as would prevent the Member for Watson from moving the following motion immediately—That the House—

- (1) notes that:
 - (a) gross debt has grown to a record half a trillion dollars under this Government;
 - (b) last night, in an act of gross incompetence, this Government teamed up with Senator Pauline Hanson's One Nation to vote to support a bill which abolished all income tax rates from 2024;
 - (c) this is just the latest act from a Government consumed by chaos and incompetence, which has outsourced all economic policy to Pauline Hanson's One Nation;
 - (d) for years One Nation has advocated flat tax, last night the Government adopted this policy and set the rate at zero;
 - (e) the Government has also dealt with bracket creep by abolishing every tax bracket; and

- (f) the bill which was supported at the third reading stage by the Government and One Nation will open up a Budget black hole of \$240 billion every single year once implemented; and
 (2) condemns this Government for its gross economic incompetence.

 - (b) Australia's relief efforts were supported by Armenian relief committees established across the nation;
 - (c) the Australian Government made available the government steamer *Hobsons Bay*, to support those humanitarian relief efforts; and

- (d) an Australasian Armenian relief committee was established by Reverend James Cresswell in 1922 to coordinate Australian relief efforts;
- (2) recognises:
 - (a) the extraordinary humanitarian efforts of the then newly formed Commonwealth of Australia for the orphans and other survivors of the Armenian Genocide, as well as the other Christian minorities of the Ottoman Empire including Greeks and Assyrians, as one of Australia's first major international humanitarian campaigns, which set a proud tradition of international humanitarian efforts by Australia;
 - (b) the tireless efforts of all of those Australian individuals and organisations involved in this historic humanitarian effort mobilising a broad spectrum of political, civic and religious leaders, including James Cresswell, Edith Glanville, Jessie Webb, Stanley Savage, Isobel Hutton and Cecilia John, as documented in the University of NSW Press publication *Armenia Australia & The Great War* authored by Professor Peter Stanley and Vicken Babkenian; and

SUPPLEMENT TO VOTES AND PROCEEDINGS

No. 125

FEDERATION CHAMBER

MINUTES OF PROCEEDINGS

MONDAY, 13 AUGUST 2018

1 The Federation Chamber met at 10.41 am.

2 MEMBERS' CONSTITUENCY STATEMENTS

Members' constituency statements were made.

3 GAS CRISIS

Mr Hill, pursuant to notice, moved—That this House:

- (1) acknowledges:
 - (a) the Prime Minister's persistent failure to resolve the ever growing gas crisis in Australia;
 - (b) that this gas crisis is hurting Australian households and threatening manufacturing jobs all over the nation, especially in Victoria, NSW and Queensland;
 - (c) that manufacturing companies around the nation have experienced:
 - (i) between a tripling and quadrupling of the price they pay for Australian gas; and
 - (ii) upwards of a 200 per cent increase in the price they pay for electricity;
 - (d) that cost increases are seriously impacting on the ability of manufacturing companies to continue operations; and
 - (e) that manufacturing companies around the nation are still unable to secure affordable gas supply contracts despite the Prime Minister's handshake agreement with the gas companies in September 2017;
- (2) condemns the Prime Minister for failing to pull the export control trigger by November 2017 to ensure that Australian households and manufacturers are not being charged exorbitant prices for Australian gas;
- (3) recognises that the responsibility for every job lost in the manufacturing industry due to the skyrocketing price of Australian gas falls squarely with the Prime Minister and the Minister for the Environment and Energy; and
- (4) calls on the Government to act decisively now and find a solution to the gas crisis which is threatening jobs in the electoral division of Bruce and countless others around the nation.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

4 MENTAL HEALTH

Mr Wallace, pursuant to notice, moved—That this House:

- (1) recognises that mental health is a crucial area that needs attention;
- (2) notes that the Government has made mental health a priority and is a key pillar of the National Long Term Health Plan with a record investment of \$4.3 billion;

- (3) further notes that Australians with severe mental health illness will now receive more support services in their communities following an agreement between the Australian Government and state and territory governments; and
- (4) congratulates the Government for investing \$160 million in the new national psychosocial support measure.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

5 PAY DAY LENDING

Ms McGowan, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) the Government last year released draft legislation concerning pay day lending which would have capped the maximum amount a consumer could repay on a small loan of less than \$2,000 at 10 per cent of their net income;
 - (b) the draft legislation also called for pay day lenders to be barred from making continued offers of credit to vulnerable borrowers;
 - (c) there is no legislation before Parliament despite the Government in late 2016 flagging new laws to protect consumers and releasing draft legislation;
 - (d) people continue to get into financial difficulty because of high-interest contracts;
 - (e) the 2016 Review of the Small Amount Credit Contract laws found payday loans were being inappropriately handed to low-income and vulnerable Australians—the high-interest, high-fee cash advances continue to trap people in cycles of debt; and
 - (f) Good Shepherd, St Stephens and other consumer advocates are concerned about the impact of the delay in presenting this legislation to the Parliament; and
- (2) calls on the Government to bring the draft legislation before the Parliament as soon as possible in order to give consumer advocates an assurance that legislative change will be considered to address the increasing number of vulnerable borrowers impacted by these lending practices.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

6 PERTH FREIGHT LINK ROE 8 AND 9 EXTENSIONS

Mr Morton, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) funding is available in the 2018-19 federal budget for the Australian Government's contribution to the construction of the Roe 8 and 9 extensions to complete the Perth Freight Link (PFL), despite the decision of the Western Australian Government to not proceed with the project; and
 - (b) the Australian Government will provide \$1.2 billion to the first Western Australian Government willing to build the PFL by constructing the Roe 8 and 9 extensions and is therefore recording this commitment as a contingent liability in the federal budget;
- (2) acknowledges the real benefits of these projects including 15 sets of traffic lights bypassed, 7,000 trucks and 74,000 cars off local roads each day, freeway access and travel time savings and a reduction of 450,000 tonnes of carbon dioxide emissions;
- (3) welcomes strong community support for Roe 8 and 9;
- (4) condemns the Western Australian Government for not accessing the federal funding and building this critical infrastructure that will improve freight efficiency, make local roads safer and create local jobs in Western Australia;
- (5) calls on the Western Australian Government to:
 - (a) consider all options that allow Roe 8 and 9 to proceed, like a longer bridge over the wetlands or a longer tunnel; and

- (b) immediately access the \$1.2 billion available in the federal budget and build this critical infrastructure; and
- (6) calls on the federal Opposition to explain if it will keep or remove this critical funding from the federal budget if elected.

Debate ensuing—

Mr Albanese moved, as an amendment—That all words after “notes that” be omitted and the following be inserted:

- (a) there is no actual funding allocated in the 2018-19 federal budget for the construction of the Perth Freight Link;
- (b) the community rejected construction of this project when it elected the McGowan Labor Government in Western Australia with a record majority;
- (c) the Federal Government announced funding for the project despite the Barnett Liberal Government’s Parliamentary Secretary for Transport Jim Chown admitting that ‘we have not actually got design plans that are worthy of public scrutiny’; and
- (d) the opposition to the Perth Freight Link was based on the lack of proper planning and the adverse environmental impact it would have, most notably on the Beeliar Wetlands; and
- (2) calls on the Commonwealth Government to:
 - (a) provide increased financial support to the Western Australian Government’s METRONET urban rail project;
 - (b) work with the Western Australian Government to identify rail and traffic management strategies to expedite freight movement around the current Fremantle Port facilities; and
 - (c) work with the Western Australian Government to identify and develop future projects that will best meet the State’s long-term infrastructure needs, including a second port at Kwinana, and that those projects be supported by fully developed business cases that are submitted to Infrastructure Australia for assessment.

 - (b) the creation of jobs can only occur when the Government sets the right economic framework;

- (2) congratulates the Government on its strong economic management and its plans to reduce the tax burden on individuals and business; and

10 HOME CARE PACKAGES

The order of the day having been read for the resumption of the debate on the motion of Mr Hart—That this House:

 - (a) there are almost 300 older Australians who have waited more than two years for their approved home care package, without any care;
 - (b) a further 636 older Australians have waited more than a year for care and they currently have no care at all and there are thousands more getting less care than they need;
 - (c) the latest waiting list for home care packages indicates that more than 100,000 older Australians are waiting for the package they have been approved for; and
 - (d) the latest figures show that the waiting list grew by more than 20,000 between 1 July and December 2017 and it is likely to continue growing without funding for the release of more packages;
- (2) recognises the Government's response in its budget of 14,000 home care packages is woefully inadequate;

The order of the day having been read for the resumption of the debate on the motion of Ms T. M. Butler—That this House:

- (1) notes that:
 - (a) the Government's short-sighted \$2.2 billion in cuts to universities are equivalent to more than 9,500 Australians missing out on a university place in 2018, and again in 2019;

- (b) across the country this month, students will be attending university, with orientation periods beginning, and that these students are faced with more uncertainty about how the cuts will affect their student experience; and
 - (c) the Government's short-sighted cuts will hurt regional and outer metropolitan universities and their students the most; and

 - (b) the Government’s true intentions are confirmed in the bill’s Regulation Impact Statement, which on page 9 reads ‘...the current framework makes it unattractive for foreign ships to enter the coastal trading sector’ and on page 14 reads ‘These amendments ... will remove the barriers that currently face many foreign flagged vessels under the current system’; and

“whilst not declining to give the bill a second reading, the House:

- (1) notes that during the current Government’s tenure 12 previously Australian-flagged vessels have been reflagged to foreign States—in each case the Australian flag has been lowered and replaced with the white flag when it comes to Australian jobs;
- (2) further notes that:
 - (a) the consultations associated with preparation of the bill were negligible, the Minister failed to build bipartisan support for the changes he has brought before the Parliament, and the Government is attempting to tilt the ‘playing field’ further in favour of foreign operators to the detriment of Australian-based shipping companies and other domestic modes of transport, including rail; and
 - (b) the Government’s true intentions are confirmed in the bill’s Regulation Impact Statement, which on page 9 reads ‘...the current framework makes it unattractive for foreign ships to enter the coastal trading sector’ and on page 14 reads ‘These amendments ... will remove the barriers that currently face many foreign flagged vessels under the current system’; and
- (3) reaffirms that Australia’s vital economic, environment and national security interests are best served when there is a viable, competitive and growing local shipping industry”—

 - (a) the last time this Parliament sat, the Government shut down this House because this Government was unable and unwilling to govern itself;
 - (b) the next day, the Government deposed the elected Prime Minister but nobody is able to explain why;
 - (c) the Government continues to be wracked by infighting, with Government Members leaking against each other on an almost daily basis;
 - (d) the current Prime Minister claims he remained loyal to Malcolm Turnbull, but his own Liberal Party colleagues have been briefing that he was plotting to depose the former Prime Minister for some time;
 - (e) the current Prime Minister has described his own Government as a "Muppet Show" and his own colleagues as Muppets; and

- (f) Government Members don't trust each other, are only focused on fighting themselves, and cannot possibly be trusted to look out for the interests of the Australian people; and
- (2) therefore, condemns this Abbott-Turnbull-Morrison Government for only being focused on itself and not on helping Australians.

Debate ensued.

7 IMMUNISATION OF CHILDREN

Dr Frelander, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) increased immunisation of children, which is essential for protecting them against diseases including pneumonia, polio, rotavirus diarrhoea, meningococcal and measles now saves the lives of 2 to 3 million children per year globally but, nevertheless, 1.5 million children globally still die each year from vaccine-preventable diseases;
 - (b) in 2017, 85 per cent of children globally received the full course of the diphtheria, tetanus and pertussis vaccine, a key measure of vaccine coverage, however, this left nearly 20 million children not covered by this vaccine;
 - (c) globally, 85 per cent of children receive the polio vaccine, however, gaps in polio vaccine coverage allow some children to contract the disease, with 15 cases in 2018 so far in Afghanistan and Pakistan;
 - (d) Gavi, the Vaccine Alliance, to which Australia has been a consistent contributor, has supported the vaccination of more than 640 million children, and saved an estimated 9 million lives; and
 - (e) in December 2018, Gavi will hold a mid-term review to assess what changes to its strategy are needed to achieve increased and equitable access to vaccines;
- (2) recognises that:
 - (a) Australia co-sponsored a resolution at the 2017 World Health Assembly to accelerate access to vaccines, calling for the extension of immunisation services beyond infancy, increasing domestic financing, and strengthening international cooperation to achieve global vaccination goals; and
 - (b) current funding by the Global Polio Eradication Initiative (GPEI), to which Australia contributes, is due to decline significantly as polio nears eradication—this funding covers one fifth of the World Health Organisation’s costs, and accounts for a high proportion of the health and vaccination workforce in several countries; and
- (3) calls on the Government to:
 - (a) participate in planning to accelerate progress in making vaccines available to all children, including through the Gavi mid-term review; and
 - (b) work with countries now receiving polio support and multilateral agencies to ensure that transition from GPEI funding results in increased resources for other health and vaccination programs.

The Speaker informed the House that he had received the following Remonstrance passed by the Legislative Assembly of the Northern Territory requesting that the Federal Parliament not determine and distinguish between the rights of Australian citizens by virtue of where those Australians reside within the country, and that the House of Representatives repeal section 50A of the *Northern Territory (Self-Government) Act 1978*—

REQUEST TO THE PARLIAMENT OF AUSTRALIA**MOTION: TERRITORY RIGHTS**

On Thursday 23 August 2018, Mr Gunner (Chief Minister), pursuant to notice, moved:

- (1) That this Assembly recognises:
 - (a) Australia’s democracy is one of the best in the world;
 - (b) Territory rights are of paramount importance to citizens of the Northern Territory of Australia;
 - (c) the actions of the Australian Senate on the evening of 15 August 2018 in failing to agree to a legislative proposal to restore the rights of both the Northern Territory and the Australian Capital Territory to consider and pass legislation on behalf of the residents of those Australian territories is a breach of democratic principles for Territorians;
 - (d) specifically, the failure of the Australian Parliament to repeal section 50A of the *Northern Territory (Self-Government) Act 1978* remains an impediment to democracy for Territorians;
 - (e) the ongoing disparity between the legislators elected by the residents of Australian territories and those elected to represent the people in the Australian states in relation to legislative capacity is anti-democratic;
 - (f) the distinction between the capacity to legislate and any actual legislation about the rights of terminally ill persons in the Northern Territory appears to have been deliberately confused by some Senators; and
- (2) This Assembly requests that:
 - (a) the Federal Parliament not determine and distinguish between the rights of Australian citizens by virtue of where those Australians reside within this country; and
 - (b) the House of Representatives as soon as practicable consider and pass legislation to repeal section 50A of the *Northern Territory (Self-Government) Act 1978*.

17 SUSPENSION OF STANDING ORDERS MOVED

Mr Burke moved—That so much of the standing orders be suspended as would prevent the Member for Watson from moving the following motion immediately—That the House:

(1) notes:

- (a) in the House today, the Environment Minister categorically denied reports that last night she said to the former President of Kiribati “I know why you’re here. It is for the cash. For the Pacific it’s always about the cash. I have my cheque book here. How much do you want?”;
- (b) however, multiple sources have confirmed to journalists that the Minister did in fact say those words;
- (c) the Minister also told the House today during Question Time that only “a small amount of money” could be spent on administration under the Government’s almost half a billion dollar Great Barrier Reef grant and that administration costs were capped at five per cent;
- (d) however, under the Government’s grant agreement up to 10 per cent of the entire grant can be spent on administration by the Foundation itself and a further 10 per cent of any grant money provided to subcontractors can be spent on administration as well, which means that more than \$80 million can be spent on administration; and
- (e) immediately before providing this incorrect information, the Minister was handed a note by the Prime Minister which she appeared to rely on during her answer when she falsely claimed that administration costs were capped at five per cent - an amount \$60 million lower than what is the case; and

(2) therefore, calls on the Environment Minister to:

- (a) attend the House to correct her answers as she is required to do under the Prime Minister’s Ministerial Standards; and
- (b) advise the House whether any of the incorrect information she provided was as a result of the note handed to her by the Prime Minister.

HOUSE OF REPRESENTATIVES
SUPPLEMENT TO VOTES AND PROCEEDINGS

No. 145

FEDERATION CHAMBER

MINUTES OF PROCEEDINGS

MONDAY, 22 OCTOBER 2018

1 The Federation Chamber met at 4.04 pm, a division having been called in the House.

2 MEMBERS' STATEMENTS

Members' statements were made.

3 AUSTRALIA AND CAMBODIA

Mr Hill, pursuant to notice, moved—That this House:

- (1) notes Australia's proud legacy of working for peace and democracy in Cambodia, led by the work of the former Labor Foreign Minister the Hon. Gareth Evans QC in fostering the Paris Peace Accords in 1991;
- (2) reiterates that as a longstanding friend of Cambodia and the Cambodian people, Australia must continue to urge the Cambodian Government to take steps to allow free and open political debate without violence and intimidation;
- (3) condemns the sham election in Cambodia last month and expresses grave concern that:
 - (a) the illegitimate election may sound the death knell of democracy, reversing more than 25 years of work to establish and strengthen democracy in Cambodia; and
 - (b) Prime Minister Hun Sen's 'victory' is a sham and cannot truly be said to represent the will of the Cambodian people because freedom of expression and association underpin democratic societies, yet in Cambodia the:
 - (i) main opposition party, the Cambodian National Rescue Party, has been banned;
 - (ii) opposition leader Kem Sokha remains in jail on politically motivated charges;
 - (iii) media and civil society have been silenced and harassed, with Hun Sen publicly threatening a civil war if he lost the election;
 - (iv) National Election Committee is not credible nor independent; and
 - (v) official 82 per cent turnout figures are not credible, noting the opposition boycotted the election and international media reported that election day was quiet in many places;
- (4) calls on the Cambodian Government to immediately release Kem Sokha from jail and guarantee his safety;
- (5) considers that Australia must now consider stronger measures and calls on the Australian Government to:
 - (a) review Australia's international development assistance to Cambodia to ensure the program is focused on humanitarian and civil society support rather than broader cooperation with Hun Sen's regime;
 - (b) examine the introduction of targeted sanctions such as visa restrictions and asset freezes for members of Hun Sen's regime and their families, given the reported strong links between the regime's key officials and Australia;

- (c) lead and support multilateral efforts with other nations, starting with signatories of the 1991 Paris Peace Accords, to develop coordinated measures to increase pressure on Hun Sen's regime to allow free and open political debate without violence and intimidation;
 - (d) fully investigate allegations of illicit activities, including money laundering, by members of the Cambodian People's Party in Australia; and
 - (e) guarantee the rights of Australians of Cambodian heritage to live safely and free from intimidation, and determine whether the Foreign Influence Transparency Scheme may apply to expose community groups which may be operating covertly in Australia in support of Hun Sen's regime;
- (6) calls on the Australian Government to:
- (a) withdraw from the refugee resettlement deal; and
 - (b) promise not to enter into any further such deals with Cambodia; and
- (7) acknowledge the tireless advocacy of the Australian Cambodian community in support of democracy and human rights in Cambodia.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

4 IRRIGATED AGRICULTURE

Mr Drum, pursuant to notice, moved—That this House:

- (1) acknowledges the importance of irrigated agriculture to the Australian economy;
- (2) notes that:
 - (a) irrigated agricultural enterprises in 2016-17 contributed \$15.5 billion to the Australian economy and accounts for 25 per cent of total Australian agricultural production; and
 - (b) in 2016-17 there were 22,103 agricultural businesses that farmed 2,244,000 hectares of irrigated land in Australia;
- (3) recognises that of the \$15.5 billion contributed to the economy in 2016-17, the major commodities included:
 - (a) fruit and nuts \$3.5 billion;
 - (b) vegetables \$3.3 billion;
 - (c) dairy \$1.6 billion;
 - (d) cotton \$1.5 billion;
 - (e) grapes \$1.3 billion;
 - (f) nurseries and turf \$1.3 billion;
 - (g) sugar cane \$836 million;
 - (h) beef cattle \$684 million;
 - (i) cereals \$308 million; and
 - (j) rice \$252 million; and
- (4) acknowledges the commitment, hard work and investment of irrigators in every state and territory in Australia and the contribution they make to our economy.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

5 BLEEDING DISORDERS

Ms Vamvakinou, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) 7 to 13 October 2018 is Bleeding Disorders Awareness Week;
 - (b) haemophilia, the most common bleeding disorder, affects more than 2,700 Australians, almost all of them boys and men;
 - (c) haemophilia is a genetic disease where a lack of a protein in the blood needed for clotting leads to excessive bleeding, often into joints and muscles;

- (d) haemophilia impacts every aspect of day-to-day life—activities we all take for granted—as a result of hospitalisations, pain, accumulated disability and psychological impacts;
 - (e) treatment for bleeding disorders is delivered through specialised haemophilia treatment centres across the country and is jointly funded by the Commonwealth, state and territory governments through the National Blood Agreement; and
 - (f) the Haemophilia Foundation of Australia delivers vital support to Australians with bleeding disorders through advocacy, education and promotion of research;
- (2) recognises that:
- (a) while haemophilia treatment has improved significantly in recent years, there is still a significant need for improved treatments to deliver a better quality of life;
 - (b) reforms to the Therapeutic Goods Administration process to evaluate new medicines now allows for expedited priority review of new treatments for serious conditions such as haemophilia; and
 - (c) however, the road to fund new bleeding disorder treatments remains complex; and
- (3) calls on the Government to continue working constructively with state and territory governments to ensure all Australians with bleeding disorders receive timely access to the treatments they need.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

6 STRONGER ECONOMY

The order of the day having been read for the resumption of the debate on the motion of Ms Banks—That this House:

- (1) recognises the positive effect of the Government’s measures for a stronger economy mean that essential services are guaranteed including the Government’s:
 - (a) support for education and childcare; and
 - (b) measures to support more choices for Australians to live longer, healthier lives; and
- (2) notes with deep concern that the Opposition has no plan for a stronger economy that will deliver essential services to Australians—

Debate resumed.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

7 BAHÁ’ÍS IN IRAN

Ms Brodtmann, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) the Bahá’í community in Iran is subject to a widespread and systematic campaign of persecution;
 - (b) in 2012 and 2015, the House condemned the persecution and treatment of Bahá’ís in Iran;
 - (c) the discriminatory and unjust persecution continues, despite Iranian President Hassan Rouhani promising justice and equal opportunity for all Iranians;
 - (d) Australia was a co-sponsor of the December 2017 resolution by the General Assembly of the United Nations which expressed ‘serious concern about ongoing severe limitations and restrictions on the right to freedom of thought, conscience, religion or belief in Iran’; and
 - (e) persecution of Bahá’ís has recently spread to Yemen where a death sentence was passed against Mr Hamed bin Haydara in January 2018 due to his religion; and

- (2) calls for:
- (a) the immediate release of all Bahá'ís currently imprisoned in Iran for their religion, including the remaining Bahá'í leaders imprisoned since 2008;
 - (b) the Iranian Government to repeal all discriminatory legislation and practices, including the 1991 Bahá'í Question memorandum of the Supreme Revolutionary Cultural Council;
 - (c) respect for the right of freedom of religion and belief for all and an end to the persecution of the Bahá'ís in Iran; and
 - (d) the repeal of the death sentence against Mr bin Haydara and the immediate release of all Bahá'ís currently imprisoned in Yemen for their religion.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

Mr Hayes, pursuant to notice, moved—That this House:

HOUSE OF REPRESENTATIVES
SUPPLEMENT TO VOTES AND PROCEEDINGS

No. 149

FEDERATION CHAMBER

MINUTES OF PROCEEDINGS

MONDAY, 26 NOVEMBER 2018

1 The Federation Chamber met at 10.30 am.

2 MEMBERS' CONSTITUENCY STATEMENTS

Members' constituency statements were made.

3 HUMAN RIGHTS IN VIETNAM

Mr Dick, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) Brisbane's southside hosts a vibrant Vietnamese-Australian community; and
 - (b) Vietnamese migration is a successful case of multiculturalism at its finest and has strengthened the social fabric of Australian society;
- (2) recognises that:
 - (a) Australia must continue to advocate for freedom and the respect of human rights for the people of Vietnam and for all people around the world;
 - (b) international human rights organisations such as Human Rights Watch, have become increasingly concerned about abuses to human rights in Vietnam;
 - (c) Vietnam's prisons currently hold at least 140 political prisoners; and
 - (d) during the first five months of 2018 alone, at least 26 rights activists and bloggers were put on trial, convicted and sentenced to long prison terms; and
- (3) calls on the Australian Government to:
 - (a) exert pressure on the Vietnamese Government to allow thorough examination of claims of human rights abuses;
 - (b) seek the holding of those responsible for these abuses to account; and
 - (c) help protect vulnerable citizens from human rights abuses in Vietnam.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

4 AUSTRALIAN INSTITUTE OF ABORIGINAL AND TORRES STRAIT ISLANDER STUDIES

Mr Evans, pursuant to notice, moved—That this House:

- (1) recognises that the Australian Institute of Aboriginal and Torres Strait Islander Studies (AIATSIS):
 - (a) is a cultural institution of international renown; and
 - (b) has been central to the development of Aboriginal and Torres Strait Islander studies;
- (2) notes that on Monday, 15 October 2018 AIATSIS unveiled its *Strategic Plan 2018-2023* in Parliament House;
- (3) congratulates the dedicated team at AIATSIS for its ambitious strategic plan;

- (4) commends the work of AIATSIS in helping to forge a national identity that embraces, celebrates and preserves the unique cultures of Australia's First Peoples; and
- (5) encourages honourable Members to raise public awareness of the institute's collections and the great work being done by AIATSIS to assist and promote the study of Aboriginal and Torres Strait Islander languages and culture.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

5 CEO REMUNERATION

Ms Kearney, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) a recent report into CEO remuneration found that the average total pay of ASX 100 CEOs rose by 9 per cent last year—4 times the pace of average wage growth;
 - (b) the median ASX 100 CEO earned more than \$4 million, and the average pay for ASX 100 CEOs was 75 times the average pay of full time workers, meaning a CEO takes home in a single year what it would take the average worker nearly two careers to accrue;
 - (c) excessive remuneration was not always the norm, given in the late 1970s, the BHP CEO was earning only around 6 or 7 times what an average Australian worker took home; and
 - (d) there is widespread public concern about inequality, and in particular that CEO salaries are growing at an unfair rate and leaving workers behind;
- (2) recognises that:
 - (a) large firms in the United States and the United Kingdom are required to report ratios between CEO pay and workers in their firms;
 - (b) excessive CEO pay makes firms less profitable than they should be, with experts noting that an excessive gap can hurt employee morale and reduce productivity;
 - (c) remuneration ratio transparency is not an affront, but rather a complement, to a market economy; and
 - (d) extending current market reporting requirements for public companies helps inform investors as they calculate risks and decide where to invest their money; and
- (3) calls on the Government to support Labor's plan to implement reporting rules requiring large listed firms to publicly release the ratio of total CEO remuneration and median worker pay.

Debate ensued.

Debate adjourned, and the resumption of the debate made an order of the day for the next sitting.

6 LOCAL GOVERNMENTS

The order of the day having been read for the resumption of the debate on the motion of Mr Falinski—That this House:

- (3) notes that:
 - (a) the Government has left parents and providers in limbo with its refusal to provide funding certainty;
 - (b) without ongoing funding to four year old preschool/kindy, providers are unable to plan ahead;
 - (c) since Labor introduced Universal Access to Early Childhood Education in 2008, preschool enrolment for four year olds has increased from 77 per cent to 93 per cent; and
 - (d) the Government's lack of commitment has left us falling behind other OECD countries in early education; and

 - (c) in the 10 years since those devastating fires and the horrific weather conditions that preceded them, communities in the electoral division of Indi have worked hard to rebuild homes, businesses, communities and lives;
 - (d) in the immediate aftermath of the fires, these communities were inundated with generous offers of help, including the commitment of governments at all levels to work with those affected to rebuild;
 - (e) as a result, much has been done to rebuild communities, to provide support to help heal the devastating emotional loss and progress the recovery of those many thousands of people affected by these fires;
 - (f) while much has been achieved, it is time to finish the task of rebuilding core infrastructure and restore the sense of place and vibrancy within communities that were destroyed almost 10 years ago; and

HOUSE OF REPRESENTATIVES

VOTES AND PROCEEDINGS

No. 155

WEDNESDAY, 5 DECEMBER 2018

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 **MATTER OF PRIVILEGE—STATEMENT BY SPEAKER**

The Speaker made the following statement:

On 29 November, the Member for Tangney raised as a matter of privilege, whether during the inquiry by the Joint Standing Committee on Electoral Matters into the 2016 election, the Committee had been provided with false and misleading information by GetUp such as to substantially obstruct the Committee in the performance of its functions in relation to the inquiry. The Member for Tangney presented as supporting information a letter from him to the Chair of the Committee.

The Member for Tangney indicated that the Committee had considered the matter and had concluded:

- that GetUp had provided false and misleading information to the Committee;
- the provision of the false and misleading information substantially obstructed the Committee in the performance of its functions; and
- authorised the Member of Tangney to raise the issue as a matter of privilege in the House.

I have had the opportunity to review the matter raised by the Member and the detailed supporting information.

I accept that the events outlined in the Member for Tangney's letter show that GetUp appeared to be less than fully forthcoming with information in response to the Committee's queries and that the information provided did not seem to be consistent. I note in relation to the principal matter on which the Committee was seeking information, namely the results of GetUp's 2016 election survey, that ultimately GetUp provided the full results of the survey in response to a possible summons.

I also do not dispute the view expressed by the Committee that it considers it has been provided with false and misleading information and, as result, its work has been impeded.

The task for me under the standing orders is to determine two issues.

The first is whether the matter has been raised at the earliest opportunity. I appreciate this matter has been on foot for some time, but I understand that the Member for Tangney has only just received the Committee's view about the matter. And so I accept that it has been raised at the earliest opportunity.

The second is whether there is a prima facie case of contempt. There is a significant hurdle in section 4 of the *Parliamentary Privileges Act 1987* as to whether a matter constitutes a contempt. To constitute a contempt conduct needs to amount, or be intended or likely to amount, to an improper interference with the free exercise by a committee of its authority or functions.

In considering these matters it is important to recognise that the penal jurisdiction of the House is significant and it should be exercised with restraint.

Although I can see that the conduct of GetUp in response to queries from the Committee was unhelpful and at times misleading, it is not clear to me that the conduct was done intentionally to interfere with the Committee in a way that was improper. Also, although the Committee's work was impeded, I do not see that it has prevented the Committee from being able to freely perform its functions and exercise its authority and properly report to the House on its inquiry.

For these reasons, I do not propose to give precedence to a motion to refer the matter to the Committee of Privileges and Members' Interests.

3 MESSAGE FROM THE SENATE

Message No. 482, 4 December 2018, from the Senate was reported informing the House that the Senate had agreed to the following resolution:

8 QUESTIONS

Questions without notice being asked—

Suspension of standing orders moved

Mr Bowen moved—That so much of the standing orders be suspended as would prevent the Member for McMahon from moving the following motion immediately—

That the House:

(1) notes:

- (a) the Abbott-Turnbull-Morrison Governments have failed to provide a consistent energy policy for Australia;
- (b) that the Government has embraced respectively, before each policy was abandoned:
 - (i) an emissions intensity scheme;
 - (ii) a clean energy target;
 - (iii) at least six different versions of the national energy guarantee; and
 - (iv) three different versions of divestment just this week;
- (c) the Government's most recent attempt at forced divestment policy has been panned by experts as increasing sovereign risk, chilling investment and putting upward pressure on power prices;
- (d) that the divestment policy had to be completely rewritten to remove the power to order divestiture from the Treasurer to the courts;
- (e) that the legislation tabled by the Treasurer yesterday allows for the privatisation of energy assets if divestiture is forced in relation to a government owned asset;

- (f) that the Treasurer and other Government ministers have continually denied this is the case despite the legislation being clear on this point; and
- (g) that the Member for Kennedy has moved an amendment, seconded by the Member for Dawson, which seeks to ban privatisations as part of a divestiture process, which confirms that the current bill does not; and
- (2) condemns the Government for their complete failure in energy policy, their botched divestiture policy and for seeking privatisation by stealth.

Debate ensued.

29 MESSAGE FROM THE SENATE

Message No. 496, 12 February 2019, from the Senate was reported informing the House that Senator Stoker had been appointed a member of the Parliamentary Joint Committee on Intelligence and Security.

30 MESSAGE FROM THE SENATE—HOME AFFAIRS LEGISLATION AMENDMENT (MISCELLANEOUS MEASURES) BILL 2018

Message No. 493, 6 December 2018, from the Senate was reported returning the Home Affairs Legislation Amendment (Miscellaneous Measures) Bill 2018 with amendments.

Statement by the Speaker

The Speaker made the following statement:

I wish to make a statement about the constitutional implications of the Senate’s amendments to this bill. This statement follows the receipt by me of advice from the Attorney-General and the Solicitor-General which I tabled just prior to the MPI.

In essence the advice to me is that the Senate’s amendments increase a ‘charge or burden on the people’ contrary to the requirements of section 53 of the Constitution. Further, I am advised that those amendments do not comply with the requirement of section 56 of the Constitution; namely that a proposed law for the appropriation of revenue or moneys shall not be passed unless the purpose of the appropriation has in the same session been recommended by a message of the Governor-General to the House in which the proposal originated. Thus the Senate’s amendments should have been made to the House as requested amendments.

Specifically the advice I have received is that the amendments, by creating a new Independent Health Advice Panel, would engage a standing appropriation in the *Remuneration Tribunal Act 1973* in that a number of members of the Panel would hold public offices for which the Remuneration Tribunal would need to determine remuneration. The remuneration would be paid out of the Consolidated Revenue Fund which is appropriated for this purpose by a standing appropriation in the *Remuneration Tribunal Act*. The direct legal effect of the Senate’s amendments thus would be to dictate an increase in expenditure under that existing appropriation. In terms of the test that the House has used, as referred to in *House of Representatives Practice* – what are the probable, expected or intended practical consequences of the proposed amendment? – the advice to me is that section 53 is engaged by the proposed amendments.

In addition, as the Senate amendments would increase expenditure under a standing appropriation, the amendments would require a message to be reported from the Governor-General recommending an appropriation for them under section 56 of the Constitution.

The advice from the Attorney-General also referred to the importance of the House adhering to the requirements of sections 53 and 56 as otherwise, to quote the Attorney-General, ‘the Senate would be given the power to dictate the expenditure of public revenue, with potentially crippling effects on public finances’. This reflects the important constitutional principle of the financial initiative of the Crown which rests with the House of Representatives and executive government.

Issues to do with section 53 of the Constitution have been matters of difference between the Houses since the early years of Federation. As it is generally recognised that the provisions of sections 53 and 56 are matters for the Houses themselves and may not be determined by the courts, the point has been made that this provides some flexibility. In considering the application of the third paragraph of section 53 of the Constitution, the House Standing Committee on Legal and Constitutional Affairs stated:

The Committee considers that the Houses do, in some ways, have more flexibility in approaching the interpretation and application of the third paragraph of section 53 than if it were a strictly legal question. In this respect, I note that the practice in relation to the creation of statutory offices and the reporting of messages under section 56 of the Constitution has at times varied. However, the Committee also noted that it did not follow that the Parliament should give the section any meaning it chose. The Attorney-General and the Solicitor-General have pointed to the direct link between an amendment proposed by the Senate and the engaging of additional expenditure under a standing appropriation in this particular case.

It is a matter for the House as to how it wishes to proceed with the Senate's amendments. The matter for consideration is not so much one of the privileges and rights of the two Houses, as one of the observance of the requirements of the Constitution concerning the appropriation of revenue. I will leave it in the House's hands as to how it wishes to proceed.

Mr Porter (Attorney-General) moved—That:

- (1) the House endorse the statement of the Speaker in relation to the constitutional questions raised by Message No. 493 transmitted by the Senate in relation to the Home Affairs Legislation Amendment (Miscellaneous Measures) Bill 2018; and
- (2) that consideration of the Senate's amendments be made an order of the day for the next sitting.

Mr Burke moved, as an amendment—That all words after "That" be omitted with a view to substituting the following words:

- "(1) the House notes the statement of the Speaker in relation to the constitutional questions raised by message transmitted by the Senate in relation to the Home Affairs Legislation Amendment (Miscellaneous Measures) Bill 2018;
- (2) the House, having regard to the fact that the public interest demands the early enactment of the legislation, refrains from the determination of its constitutional rights in respect of the Senate message; and
- (3) the amendments be considered immediately."

Debate ensued.

Closure

Mr Burke moved—That the question be now put.

“whilst not declining to give the bill a second reading, the House notes:

- (1) the then Treasurer’s shock decision on 14 September 2017 to ban the build-to-rent sector, which had multi-billion dollar ramifications for the Australian property market;
- (2) the then Treasurer’s failure to reverse the decision, seeing significant damage to Australia’s build-to-rent sector before finally capitulating on 26 July last year;
- (3) that the same incompetent approach to policy-making saw snap rule changes affecting investors in student accommodation; and
- (4) that failure to address the Government’s mistakes in student accommodation could see more international students competing with Australians in the rental market”.

3 TUBERCULOSIS

Mr Entsch, pursuant to notice, moved—That this House:

- (1) notes that:
 - (a) 24 March is World Tuberculosis Day, a day to commemorate the precious lives lost due to tuberculosis, a disease that is preventable and curable;
 - (b) tuberculosis is contagious and airborne—it is the world's leading infectious disease killer, killing more people than HIV/AIDS;
 - (c) in 2017 alone, 1.6 million people died from tuberculosis worldwide and 10 million people became sick with the disease; and
 - (d) there is a funding gap of US\$1.3 billion annually in tuberculosis research and development and it is critical to develop quicker diagnostic tools, better drugs, and a new tuberculosis vaccine in order to end the tuberculosis epidemic;
- (2) recognises that the:
 - (a) funding that Australia is providing jointly with the World Bank to support testing and treatment in Papua New Guinea is already leading to an initiative to achieve universal testing for tuberculosis in Daru; and
 - (b) provision of \$75 million over five years for Product Development Partnerships in the Indo-Pacific health security initiative accelerates access to new therapeutics and diagnostics for drug resistant tuberculosis and malaria, building on the successes of Australia's previous investments; and
- (3) calls on the Government to:
 - (a) develop an action plan to monitor the progress made towards the targets and commitment made at the United Nations High-Level Meeting on TB; and
 - (b) make an increased financial commitment to the Global Fund at its Replenishment Conference in October 2019.

 - (i) 82 per cent of the poorest children;
 - (ii) 84 per cent of Indigenous children; and
 - (iii) 74 per cent of children with disabilities;
 - (b) under the current Government, almost nine in ten (88 per cent) of public schools will never get to their fair funding level because the Government has capped federal funding for public schools at just 20 per cent of the Schools Recommendation Scheme;
 - (c) after spending a year trying to deny there were cuts, the fact the Government has restored funding to Catholic and independent schools was finally an admission that it is cutting billions of dollars from schools;
 - (d) Labor has announced a plan to restore funding to public schools; and
 - (e) Labor's plan will transform public schools across Australia and give all children the opportunity to reach their full potential, no matter where they live, or what amount their parents earn; and
- (3) calls on the Government to:
 - (a) immediately adopt Labor's plan to restore funding to public schools to ensure every public school reaches its fair funding level; and
 - (b) work with school systems to get every school to its fair funding level.

Debate ensued.

- (3) acknowledges the importance of building a broad and deep bilateral relationship based on:

 - (b) women and men who travelled from interstate and New Zealand to offer assistance and to support the work of the TFS;
 - (c) contribution of Tasmania's volunteer firefighters who demonstrated unflinching dedication for days and weeks, often at significant personal cost in terms of lost family time, wages and consumption of annual leave; and
 - (d) resilience and strength of the Tasmanian people and their willingness to rally in support of firefighters and fire affected communities, including volunteers and others who operated and staffed evacuation centres at Bothwell and Huonville; and
- (3) calls on the Australian Government to:
 - (a) continue to provide disaster relief funding to Tasmania as per established Commonwealth-state processes, and ensure there is no unnecessary delay in the distribution of federally funded relief to affected parties; and
 - (b) liaise with the Tasmanian Government on an appropriate Commonwealth funding contribution to rehabilitate fire affected World Heritage and other wilderness, which does not qualify for assistance under existing disaster relief agreements.

- (1) recognises the Australian Parliament’s ongoing commitment to the global promotion of democracy, human rights and respect for the rule of law;
- (2) notes with concern the existence of a policy of extrajudicial killing in the Philippines, an issue which has escalated with a nationwide drug campaign based merely on suspicion, providing police and vigilante groups with a ‘licence to kill’;
- (3) notes that Philippine Senator Leila De Lima, the former Secretary of Justice, has been a notable critic of President Rodrigo Duterte’s policy of extrajudicial killing;
- (4) notes the deteriorating plight of Senator De Lima, who since 24 February 2017 has been arbitrarily detained without trial, charged with drug related offences on the strength of untested statements of convicted drug lords, police officers and prison officials;
- (5) further notes that the conditions and circumstances of her arbitrary detention have restricted her:
 - (a) freedom of movement; and
 - (b) capacity to carry out her duties as an incumbent Senator of the Republic of the Philippines, including the very fundamental and critical right of a legislator to attend parliamentary hearings and cast her vote on legislative measures;
- (6) also notes that President Duterte is on record having made a number of attacks against Senator De Lima, publicly vowing to destroy her;
- (7) further notes that the United Nations Working Group on Arbitrary Detention of the United Nations Human Rights Council, handed down a ruling in November 2018 confirming the injustice of Senator De Lima’s arrest and has recommend a number of measures be adopted by the Government of the Republic of the Philippines, most notably, her immediate release; and

4 MATTER OF PRIVILEGE—STATEMENT BY SPEAKER

The Speaker made the following statement:

Last Wednesday, the Manager of Opposition Business raised, as a matter of privilege, whether certain actions of the Member for Goldstein in his capacity as Chair of the House Economics Committee constitute an improper interference with the free exercise by the Committee of its authority or functions such as to amount to a contempt of the House.

The specific actions the Manager of Opposition Business referred to in this regard are:

- the apparent organising of a public hearing of the Committee at a certain place and time at the behest of a person with a vested interest in the Committee's inquiry; and
- the authorisation of a website as the Chair of the Committee through which people could lodge a submission to the inquiry, and register to attend a public hearing of the inquiry by agreeing to be registered for a petition against the Opposition's policy.

The Manager of Opposition Business presented several documents as supporting information, including media articles, Hansard transcripts of committee proceedings, webpage printouts and printed excerpts from audio files.

I have had the opportunity to review the matter raised by the Manager of Opposition Business and the detailed supporting information.

The task for me under the standing orders is to determine two issues.

The first is whether the matter has been raised at the earliest opportunity. The Manager of Opposition Business noted that some of the circumstances to which he has referred had only come to light very recently, and so I accept that it has been raised at the earliest opportunity.

The second is whether there is a *prima facie* case of contempt. There is a significant hurdle in section 4 of the *Parliamentary Privileges Act 1987* as to whether a matter constitutes a contempt. To constitute a contempt conduct needs to amount, or be intended or likely to amount, to an improper interference with the free exercise by a committee of its authority or functions.

In considering these matters, as I and other Speakers have stated previously, it is important to recognise that the penal power of the House is significant and it should be exercised with restraint.

I appreciate the concerns that may have been raised by the actions of the Member for Goldstein and the actions could be seen to have caused damage to the Committee's reputation and the reputation of the House committee system more generally. However, I do not believe that evidence has been presented to demonstrate that the Member for Goldstein's actions have prevented the Committee in a fundamental way from continuing to fulfil its basic responsibilities in relation to its inquiry work. I therefore do not propose to give precedence to a motion to refer the matter to the Committee of Privileges and Members' Interests.

As I have noted, while I do not believe the actions of the Member for Goldstein meet the test set out in Section 4 of the Privileges Act, I believe his actions have not always conformed with what I see as the conventions usually observed by Chairs of House committees and the practice of House committees. The particular matters I would mention include:

- having a private website 'authorised by', and with the badging of, the Chair of the Committee, which appeared to solicit submissions and attendees at public hearings from just one perspective; and
- apparently arranging for a public hearing of the Committee to coincide with the meeting of a group with an active interest in the Committee's inquiry, including with the possible intention to engage in protest activity at the hearing.

As Members would be aware, it is quite properly the role of the committee secretariat to seek submissions to inquiries and make arrangements for public hearings on behalf of a committee, and committee members and other interested parties should be able to expect that these arrangements will be made without influence or interference. Inevitably political views influence some of the inquiries that committees conduct, but this shouldn't mean that committees would not approach their task open to the evidence which may be presented and with clear and proper processes. In this case, although I am satisfied there has been the potential for interference with evidence given to the Committee, I have not been provided with material to demonstrate any interference has unduly prevented the Committee from performing its work. If there is such evidence, for example from members of the Committee itself, I would be happy to consider the matter further.

Can I also say in relation to two other matters raised by the Manager of Opposition Business that the handing out of party political material or the display of signs by individual Members at hearings of parliamentary committees should not be tolerated by Chairs.

The Manager of Opposition Business also noted that the Member for Goldstein had apparently failed to declare in a timely way on the Register of Members' Interests that he had been a director and shareholder of a particular company. He advised that the Member for Isaacs has written to the Committee of Privileges and Members' Interests in respect of this matter, and I will leave it to that Committee to consider this issue in line with usual practice in accordance with resolutions of this House.

The Manager of Opposition Business also raised the question of whether the Member for Goldstein is in breach of Standing Order 231 which states, in part, that “No Member may sit on a committee if he or she has a particular direct pecuniary interest in a matter under inquiry by the committee. House of Representatives Practice notes (on page 656) that this rule has been interpreted in the very narrow sense of an interest peculiar to a particular person. It states (on pages 656 and 657):

If, for example, a Member were an owner of bank shares he or she would not, for that reason alone, be under any obligation to disqualify himself or herself from serving on a committee inquiring into the banking industry, as the interest would be one held in common with many other people in the community. In the first instance it is a matter for individual committee members to judge whether they may have a conflict of interest in an inquiry.

However, House of Representatives Practice also notes (on page 149) that while no instances have occurred in the House of a Member not sitting on a committee for the reason that he or she was pecuniarily interested, Members have been advised to declare at committee meetings any matters, whether of pecuniary or other interest, where there may be, or may be perceived to be, a possible conflict of interest. I consider this to be good practice.

Finally, having mentioned the role of committee secretariats earlier in this statement, I would like to add that it is my understanding that the secretariat of the House Economics Committee has performed its role properly throughout this inquiry, acting appropriately and impartially in support of the Committee’s work and each of its Members in accordance with established practice.

Suspension of standing orders moved

Mr Shorten (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Member for Maribyrnong from moving the following motion forthwith—That the House:

- (1) notes that:
 - (a) the Finance Minister abolished the Labor Government's travel panel and made it compulsory for all Government travel to be booked through Helloworld companies;
 - (b) the Finance Minister received free flights to Singapore from Helloworld just before it was awarded a multimillion dollar whole-of-government contract by the Minister's own Department;
 - (c) the CEO of Helloworld and one of its largest shareholders, Mr Andrew Burnes, is the Liberal Party Treasurer;
 - (d) the US Ambassador Joe Hockey helped Helloworld lobby for Embassy travel arrangements but Embassy staff weren't aware of Mr Hockey's million dollar Helloworld shareholding when he directed them to set up a meeting with a Helloworld company, a meeting which Mr Hockey personally attended;
 - (e) DFAT officials in Australia weren't told about Mr Hockey's conflict of interest until after the meeting and Mr Hockey didn't list his million dollar Helloworld shareholding on his DFAT register of interests until the month after that meeting;
 - (f) explosive Estimates evidence today confirms that the meeting was arranged because, in the words of Mr Andrew Burnes, "Hockey owes me"; and
 - (g) these are just the latest examples of Members in this Government acting as if they are above the rules and treating taxpayers' money as their own, including the:
 - (i) Helloworld scandal;
 - (ii) Paladin scandal;
 - (iii) unlawful tipping off an Australian Federal Police raid;
 - (iv) use of Ministerial authority to assist Liberal Party donors;
 - (v) treatment of a parliamentary committee as if it were a branch of the Liberal Party; and
 - (vi) use of a Members' position to promote their own commercial interests; and
- (2) therefore, condemns Members of this Government for acting as though they are above the rules and treating taxpayers' money as their own.

3 **SUSPENSION OF STANDING ORDERS MOVED**

Mr Bowen moved—That so much of the standing orders be suspended as would prevent the Member for McMahon from moving the following motion forthwith—That the House:

- (1) notes that:
 - (a) after six years of cuts and chaos under this Liberal Government, Australians are doing it tough;
 - (b) in last night's Budget, the Treasurer delivered an energy payment which left out thousands of Australians who rely on Government payments, including: ABSTUDY, Austudy, Double Orphan Pension, Newstart Allowance, Parenting Payment Partnered, Partner Allowance, Sickness Allowance, Special Benefit, Widow Allowance, Wife Pension, Youth Allowance and Veteran Payment;
 - (c) on radio this morning, less than 24 hours after he delivered his Budget, the Treasurer caved into pressure from Labor and backflipped, saying that Australians on Newstart would now receive an energy payment;
 - (d) in just a few minutes, the Government will introduce legislation that now extends the payment to all the people that the Government had previously left out in its Budget;
 - (e) the Government's backflip has already blown an \$80 million hole in the Budget; and
 - (f) the Government's Budget is unravelling less than 24 hours after it was delivered; and
- (2) therefore, condemns this government for:
 - (a) six years of cuts and chaos, which has only continued in the last 24 hours; and
 - (b) only looking after the top end of town and treating vulnerable Australians as an afterthought.

Debate ensued.

Members' qualifications**Register of Members' qualifications relating to sections 44 and 45 of the Constitution**

- (1) The Registrar of Members' Interests shall, in accordance with procedures determined by the Committee of Privileges and Members' Interests (the committee), maintain a Register of Members' qualifications, comprising material:
 - (a) tabled on behalf of the Australian Electoral Commission in accordance with s. 181B of Part XIV of the *Commonwealth Electoral Act 1918* in respect of Members; and
 - (b) provided by Members in accordance with the obligation to provide an attestation or supplementary information under paragraphs (5), (6) or (7) of this resolution.
- (2) Other than as provided for in this resolution, the committee has the same powers and functions in relation to the Register as it does in relation to the Register of Members' Interests.
- (3) The Registrar shall publish the Register and any supplementary information as soon as practicable after a Member has provided documents to the Registrar, or after tabling of documents on behalf of the Australian Electoral Commission.
- (4) The Registrar shall remove information from the published copy of the Register when a Member ceases to hold office as a Member of the House of Representatives.

Requirement to provide statements and supplementary information

- (5) Within 28 days of making and subscribing an oath or affirmation as a Member of the House of Representatives in accordance with section 42 of the Constitution, each Member shall provide to the Registrar a statement attesting to the House of Representatives the accuracy and completeness of the material provided to, and tabled on behalf of, the Australian Electoral Commission in respect of the Member's last nomination for election in accordance with Part XIV of the *Commonwealth Electoral Act*.
- (6) In making an attestation in accordance with paragraph (5), a Member may provide supplementary material. Supplementary material may augment, explain, or correct earlier information contained in the material provided to, and tabled on behalf of, the Australian Electoral Commission, but must not result in removal from the Register of material that was previously entered on the Register.
- (7) If a Member becomes aware that information they have attested to in accordance with paragraph (5), or have subsequently provided in accordance with paragraph (6), can no longer be regarded as accurate, the Member shall provide supplementary material to the Registrar as soon as practicable, but no later than 28 days, after the Member becomes aware of the inaccuracy. Such supplementary material does not cause earlier material to be removed from the Register.
- (8) The committee shall prescribe a form or forms for the purposes of paragraphs (5), (6) or (7), which shall be consistent with the disclosure requirements in Part XIV of the *Commonwealth Electoral Act*.

Consideration of possible disqualification matters

- (9) The House of Representatives will deal with any question concerning a Member's qualification under the Constitution only in accordance with the following procedures, and not otherwise.
- (10) If a Member becomes aware of circumstances that give rise to a possible disqualification under sections 44 or 45, arising from facts not disclosed in accordance with Part XIV of the *Commonwealth Electoral Act*, the Member may provide a statement of those circumstances to the Speaker. Any material redacted from the material entered onto the Register, including redactions from documents tabled on behalf of the Australian Electoral Commission is taken not to have been disclosed.

- (11) If, and only if, a matter satisfies the conditions in paragraph (10), the Speaker shall, as soon as practicable, report the matter to the House, and the Member who raised the matter may move, without notice, a motion referring the matter to the committee for inquiry and report.
- (12) Before reporting on such a matter, the committee shall provide a reasonable opportunity for a Member affected by the reference to respond to the allegations, to the evidence before the committee, and to any recommendation the committee proposes to make.
- (13) If, on the evidence before it, the committee considers that there is sufficient doubt about a Member's qualifications, then the committee may recommend that the matter be referred to the Court of Disputed Returns under section 376 of the Commonwealth Electoral Act; however, the committee shall not make such a recommendation unless it determines that the question arises from facts not disclosed in accordance with Part XIV of the Commonwealth Electoral Act.
- (14) When a question respecting a Member's qualification turns solely upon the interpretation or application of foreign citizenship law, the committee shall not recommend that the question be referred to the Court of Disputed Returns unless the committee has taken evidence from experts in the relevant foreign law and the committee considers there is a sufficient possibility that the Member was a foreign citizen under the relevant foreign law at the relevant time.

Referral to Court of Disputed Returns

- (15) Notwithstanding anything contained in the standing orders or any other resolution, no Member may move a motion to refer any question to the Court of Disputed Returns under section 376 of the Commonwealth Electoral Act unless the committee has considered whether the matter be so referred and reported to the House of Representatives. After the committee has made such a report, a Member may, without notice, move to refer the matter to the Court of Disputed Returns.

- (16) Any Member who:
