NOTICE OF MOTION

21 March 2018

I give notice that on the next day of sitting I shall move that

The Senate -

1. Notes that 20 March 2018 marked the fifteenth anniversary of the commencement of the Iraq War;
2. Recalls the motion passed by the Senate on 20 March 2003 which stated that "there should be no commitment of Australian troops to a war in Iraq outside the authority of the United Nations", and opposed "the decision of the Australian Cabinet and the President of the United States of America to commit troops to an attack on Iraq";
3. Recognises that the decision of the Australian government to commit Australian troops and provide support to the invasion of Iraq was made in the face of opposition of the majority of the Australian community, as well as the Senate;
4. Notes with deep sadness that the 2003 invasion of Iraq unleashed a catastrophe in every respect, and caused an enormous amount of additional suffering; and
5. Calls on all parties to support a long overdue inquiry into Australia's involvement in the Iraq War.

I give notice that on the next day of sitting, I shall move

That the Senate

Notes:

[a] The 25th March, the UN International Day of Remembrance of the Victims of Slavery and the Transatlantic Slave Trade offers us an opportunity to honour and remember those who suffered and died at the hands of the brutal slavery system.

[b] The UN resolution 62/122 in December 2007, called for an ongoing outreach programme to mobilise educational institutions, civil society and communities across the world to ensure future generations will understand the causes and consequences and lessons of the Transatlantic Slave Trade and to communicate the dangers of racism and prejudice.

[c] The cross party report on Modern Slavery, *Hidden in Plain Sight: An inquiry into establishing a Modern Slavery Act in Australia*, tabled on 7th December 2017, provides clear evidence that slavery and trafficking still exists today and notes the report's recommendations for action in legislation, supply chain monitoring and support for victims.

[d] Notes and commends the Government on taking action against the trafficking of children into modern slavery in for-profit orphanages.

Acknowledges:

The importance of a commitment to end the tyranny of modern slavery, learning the lessons of the horrors of the Transatlantic Slave Trade, modern slavery's incompatibility with the individual rights and freedoms that underpin democracies.

NOTICE OF MOTION

Senator Claire Moore

21st March 2018

I give notice that on the next day of sitting, I shall move

That the Senate:

(1) Notes

- (a) United Nation's World Water Day is March 22nd, with the 2018 theme of Nature for Water exploring how we can look to nature to overcome the water challenges of the 21st century.
- (b) Currently, 2.1 billion people live without secure access to fresh drinkable water. Agriculture accounts for 70 per cent of global water usage, with industry consuming 20%, and domestic use of 10%. The proportion used for drinking water is less than 1%. By 2050, the estimated growth in the human population of 2 billion will increase demand by 30%.
- (c) When we neglect our ecosystems, we make it harder to provide everyone with the water we need to survive and thrive. Environmental damage, together with climate change, is driving global crises related to water.

(2) Acknowledges

- (a) Australia has a strong record with protecting and caring for our vital waterways and lakes.
- (b) Part of our pursuit of the Sustainable Development Goals, in particular SDG6 around Clean Water and Sanitation, is to ensure the availability and sustainable management of water and sanitation for all by 2030.

(3) Calls upon

The Australian government to ensure Australia's water is protected for the future, through preserving precious areas of native forests, restoring river systems and wetlands and renewed action on climate change.

NOTICE OF MOTION

Senator Claire Moore

21st March 2018

I give notice that on the next day of sitting, I shall move

That the Senate:

1. Notes that:

- (a) 24 March is World Tuberculosis Day, and marks the anniversary of German Nobel laureate Dr Robert Koch's 1882 discovery of the bacterium that causes tuberculosis;
- (b) tuberculosis is contagious and airborne, ranking as the world's leading cause of death from a single infectious agent;
- (c) in 2016, 1.7 million people died from tuberculosis worldwide and 10.4 million people became sick with the disease, with over 60 per cent of cases occurring in countries in our region;
- (d) large gaps in tuberculosis detection and treatment remain, with 4.1 million cases of active tuberculosis that were not diagnosed and treated in 2016, including 600,000 children;
- (e) Papua New Guinea (PNG) had one of the highest rates of tuberculosis infection in the Pacific in 2016, with an estimated 35,000 total cases including 2,000 drug-resistant cases, not taking into consideration the large number of cases that go unreported in many regions; and
- (f) tuberculosis is:
 - (i) the leading cause of death among HIV positive people globally—HIV weakens the immune system and is lethal in combination with tuberculosis, each contributing to the other's progress;
 - (ii) now linked to non-communicable diseases like diabetes; and
 - (iii) considered a preventable and treatable disease, however many current treatment tools—drugs, diagnostics and vaccines—are outdated and ineffective;

2. Recognises:

- (a) the funding that Australia is providing to support the testing and treatment of tuberculosis in PNG, including the joint program with the World Bank, is already leading to an initiative to achieve universal testing for tuberculosis in Daru;
- (b) the commitment of up to \$75 million over five years for Product Development Partnerships in the Indo-Pacific Health Security Initiative to accelerate access to new therapeutics and diagnostics for drug resistant tuberculosis, and malaria and mosquito vector control— an increase in funding to build on the successes of Australia's previous investments;
- (c) Australia's three year \$220 million pledge to the Global Fund to Fight AIDS, Tuberculosis and Malaria (2017-2019)—a fund that has supported tuberculosis testing and treatment to 17.4 million people since 2002, including over 8.2 million people in the Indo-Pacific region;
- (d) that through our endorsement of the Sustainable Development Goals in September 2015, we made a bold commitment to end the tuberculosis epidemic by 2030; and
- (e) the scheduling of the first United Nations High-Level Meeting on Tuberculosis in September 2018, which will set out commitments to accelerate action towards ending tuberculosis as an epidemic and provide Australia with an opportunity to showcase the success of our investment in tuberculosis in our region; and

3. Calls on the Australian Government to attend the United Nations High-Level Meeting this year, and commit to increased Australian action and leadership on research and development, prevention, testing and treatment as part of the global effort to eradicate tuberculosis.
