

2019-2020

The Parliament of the
Commonwealth of Australia

THE SENATE

Coronavirus Economic Response Package Omnibus Bill 2020, and related bills

(Second reading amendment to be moved by Senator McKim, on behalf of the Australian Greens)

At the end of the motion, add:

“, but the Senate is of the opinion that the Government must develop and promptly present its plan to at least double the number of intensive care units, ventilators and the necessary medical equipment immediately, and then further increase these supplies in line with the advice of medical experts so the Australian people can be confident that no one will be left to die unnecessarily from this pandemic”.
