Senator Siewert asked:

What assessment is there of labour productivity i.e. individuals may benefit from a full-time job but what is the community cost and would three CDEP participants have delivered a better outcome for community?

Answer:

No assessment of the labour productivity has been undertaken as described.

The purpose of the Jobs Package was to create jobs which were previously supported by CDEP in the Northern Territory. The organisations receiving the funding have been able to decide the appropriate mix of full-time and part-time positions.
