Written Question on Notice

Senator Boyce asked:

Can you supply me a list of health professionals and/or organisations what will be eHealth repositories?

Answer:

For the purposes of the personally controlled electronic health record it is envisaged that the following categories of healthcare organisations may operate conformant repositories when the system is operational:

- state Health Departments;
- pathology laboratories;
- diagnostic imaging organisations;
- hospitals; and
- medical centres and GP practices.

This list is not exhaustive and may include other categories of healthcare organisations when the system is operational.
