**Question No: 139**

**Program No. ABC**

**Hansard Ref: Page 73**

**Topic: Mr Loewenstein**

**Senator Abetz asked:**

**Mr Scott:** ... I should point out that Mr Loewenstein is not an employee of the ABC. As you pointed out, he has appeared as a guest on our programs, but he is not an employee.

**Senator ABETZ:** But he gets paid a fee from time to time for those appearances?

**Mr Scott:** I would have to check on that. I do not know...

**Senator ABETZ:** It was within the week of that column that the ABC took that decision. Compare Mr Milne's column to Mr Lowenstein's offensive comment, which remained in the ether for five weeks before an apology was finally dragged out of him. Is the ABC willing to continue to have Mr Loewenstein appear as a credible panellist on its programs?

**Mr Scott:** That decision was made, I think, at the editorial level of *Insiders*. The first I have become aware of this incident was this afternoon. I can take that question on notice, but I understand this was a very offensive statement made—

**Answer:**

Antony Loewenstein is a freelance journalist, blogger and author and has appeared as a guest and commentator from time to time on various ABC Radio networks.

In 2012 he has appeared on triple j's *Hack* and *Sunday Night Safran*, on Radio National on *Common Knowledge*, on 702 ABC Sydney *Afternoons* and on 105.7 ABC Darwin *Afternoons*.

He has not been paid for any of his contributions to ABC Radio programs, however, he has received payment for articles he has contributed to *The Drum* website, which is not unusual for contributors to *The Drum* website.

There are no current plans for Mr Loewenstein to appear on ABC radio nor to commission pieces from Mr Loewenstein for *The Drum*.

**Question No: 140**

**Program No. ABC**  
**Hansard Ref: Pg 74**

**Topic: Twitter Account**

**Senator Abetz asked:** If you could, I would appreciate it, because one of them is:

COMPLETE this joke: Tony Abbott's COS and a mussel walk into a bar ...

and at the end of the blog he clearly identifies himself as a foreign correspondent with you.

**Mr Scott:** This is not a blog, it would appear to me; this is a Twitter—

**Senator ABETZ:** Sorry, it is Twitter—my apologies.

**Mr Scott:** That is all right; we can give you a brief on those. But the social media policy applies specifically to Twitter, so we will examine this in light—

**Answer:**

The comments referred to were posted by ABC journalist Eric Campbell to his personal twitter account.

Such content is covered by the ABC's *Use of Social Media Policy*, which sets out guidelines for those ABC staff who engage in a personal capacity on social media platforms.

The policy is based on four key principles:

1. Do not mix the professional and the personal in ways likely to bring the ABC into disrepute.
2. Do not undermine your effectiveness at work.
3. Do not imply ABC endorsement of your personal views.
4. Do not disclose confidential information obtained through work.

Mr Campbell's tweets are considered a breach of the ABC's *Use of Social Media Policy*.

Mr Campbell has removed his account and it is no longer active. ABC News management has raised this matter with Mr Campbell.

**Question No: 141**

**Program No. ABC**

**Hansard Ref: Page 74-75**

**Topic: 774 ABC Melbourne website**

**Senator Abetz asked:**

**Senator ABETZ:** I move now to the issue of the 774 ABC Melbourne website. On 17 April, at 20:12, there is 'Abbott responds to Afghan withdrawal' and a picture of Mr Abbott. When you run your cursor over the photograph, the word 'rabbit' appears. How does this occur on ABC websites? This was a story by one Karina Hogan.

**Mr Scott:** Again, I am not aware of it. It has not been brought to my attention.

**Senator ABETZ:** Can we have a look at that to ascertain whether this was an employee of the ABC who did this and whether they are still employed—three months later, I trust that she is no longer an employee of the ABC. It raises the question of how this could occur. But this same Karina Hogan then tweeted, exactly three months later, 'Tony Abbott MHR, you're an idiot, that's all.' That sort of straight out abuse should not be associated with the ABC.

**Answer:**

The photo was sourced from AAP in 2009 and, as commonly occurs, was stored on the ABC's online system as a 'stock image' managed by the online resource library. Such images are used from time to time and tagged and re-tagged by various users. News management was unaware of the tag, however, consider that the tag "rabbit" was likely applied to the image some time ago relating to a then news story about whether Mr Abbott had been called "rabbit" in Parliament.

The tag has now been removed on 17 October 2012.

The female staff member, to whom the Senator referred in the Estimates hearing, and whom he inferred was responsible for the tag and a later inappropriate tweet, was a student journalist who undertook work placements with ABC Radio followed by a temporary assignment with 774 ABC Melbourne in early- mid 2012). She is no longer working with the ABC.

The ABC understands the tweet was made by Ms Hogan using her personal twitter account.

As noted in response to QoN 140, all ABC staff are required to comply with the ABC's *Use of Social Media* policy. That policy sets out the principles by which staff should undertake personal and professional use of social media, including the requirement that such use not bring the ABC into disrepute, compromise effectiveness at work or imply ABC endorsement of personal views.

**Question No: 142**

**Program No. ABC**

**Hansard Ref: Page 76**

**Topic: ABC regional radio**

**Senator Williams asked:**

**Senator WILLIAMS:** Does management receive any or many complaints about editorial bias in the ABC regional radio? If so, about which regional services, the nature of the complaints and what action, if any, is taken?

**Answer:**

From time to time, ABC management receives comments and complaints from audience members on a range of issues, including perceived editorial bias. Since 2010, the ABC's Audience and Consumer Affairs unit has received 39 such complaints. Of these 39 complaints, 30 required further investigation. Of those, 10 referred to ABC news content broadcast on regional radio stations, including one which remains open for investigation at the time of preparing this answer.

Complaints related to content on: ABC Capricornia, ABC Central Victoria, ABC Central West NSW, ABC Far North Queensland, ABC Gippsland, ABC Gold Coast, ABC Goulburn Murray, ABC Illawarra, ABC Mid North Coast NSW, ABC New England North West NSW, ABC Newcastle, ABC North Coast NSW, ABC North Queensland, ABC Northern Tasmania, ABC Riverina, ABC South East NSW, ABC Southern Queensland, ABC Sunshine Coast, ABC Western Plains NSW, ABC Wide Bay.

Complainants raised a broad range of concerns including coverage of federal and state politics, climate change and environment issues, same sex marriage, sport, refugees and local issues.

None of the complaints that were investigated by the Audience and Consumer Affairs unit were upheld (one remained open for investigation at the time of preparing this response).

**Hansard Ref: In Writing**

**Topic: *Auction Room* advertising**

**Senator Bilyk asked:**

**Senator BILYK:** Yes, but it is made in Tassie. I did not see any advertising for it. I am wondering how much advertising there was for it. The timeslot has changed, as well.

**Mr Scott:** I would have to take that on notice. There are two different kinds of promotion. There is the promotion we do externally, and we do a relatively little amount of that. That might be billboards or newspaper ads and the like. The second kind is internal promotion. Again, our Television division will make a call on that. We have a finite amount of space and they can make the decision on where best to invest to build the biggest audience. It is not just on television; it could also be on radio or on our online site. I will have to take on notice the specific promotion schedule for *Auction Room*.

**Senator BILYK:** Can you also tell us how much money was spent on that promotion.

**Mr Scott:** Yes, but lot of it will just be an edit that is done internally with internal resources.

**Senator BILYK:** That is fine, but I would like to know. One could be cynical and say the timeslot has changed and it did not get much advertising, and one might wonder whether there was a potential there for Tasmanian production to be stopped. Having said that, I would like to know whether there are any other TV productions being looked at for development in Tasmania.

**Mr Scott:** I am not aware of that at the moment. I have not been briefed on anything.

**Senator BILYK:** Can you take it on notice and let me know?

**Mr Scott:** Yes, I will.

**Answer:**

Promotions

Series 1 and 2 of *Auction Room* were both advertised on-air on ABC television. The on-air promotions were part of a promotional campaign that consisted of a launch leading up to transmission of the first episode and weekly promotions aired throughout each series. In addition, the launch of Series 1 was featured in our “New to ABC1 2012” reel presented to media and our “New to 2012” on-air promotions.

Social Media

The first series was supported by a strong social media campaign which introduced the concept of the series and its host showcased some of the content. *Auction Room* (Series 1) featured regularly on the ABC and ABC TV homepages and an interview with the show’s host, William McInnes, was a lead story in the ABC’s electronic newsletter in the lead-up to transmission (circulated to 25,000 subscribers). A sample teaser clip was uploaded to YouTube, and shared across Facebook and Twitter in order to give prospective viewers a taste of the show. The official trailer was also posted on social media

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

With viewers already familiar with the series, the focus of promotions for Series 2 of *Auction Room* was on introducing the new host. A blog post was published about the new host and second series, shared across Facebook and Twitter. The new host was featured as a lead story in the ABC TV marketing newsletter (which reaches approximately 25,000 subscribers). Messages were also posted on Facebook and Twitter accounts.

The total cost of promotions for Series 1 and 2 of *Auction Room* was approximately \$8,000.

Further productions

The ABC is currently consulting with staff regarding the future of its production unit in Hobart.

The ABC is proposing to invest \$1.5 million over three years in a production fund and will seek a matching investment from the state government, most probably through Screen Tasmania. This is similar to initiatives set up by the ABC in both South Australia and Western Australia which have ensured continuity of local production in these states and resulted in programs such as *Who's Been Sleeping in My House*, *Vet School*, *Race to London* and *Croc College*.

Through this initiative, it is intended that the ABC will support Tasmanian production and provide a greater incentive for independent producers to pitch content across a range of genres – not just lifestyle programs.

ABC Tasmania will be resourced to maintain full Anzac Day coverage and for other key events such as Q&A when it travels to Tasmania and state elections.

In an associated move, ABC News will increase its Tasmanian-based resources and content. This includes creating a new reporter position to develop Tasmanian stories for *Landline*, and to support Tasmanian stories across other news and current affairs programs.

**Question No: 144**

**Program No. ABC**

**Hansard Ref: Page 79**

**Topic: Audio Description Trial**

**Senator Ludlam asked:**

**Senator LUDLAM:** I will traverse these fairly fast and I suspect you will have to pack a bunch of this stuff on notice because we are so time constrained. In relation to the audio description trial, what kind of feedback have you had from the blind or vision impaired community?

**Mr Scott:** I think there were two levels. I will give you the detail on notice...

**Mr Pendleton:** ... There have been quite a number of responses from the community in relation to disruptions to their set-top boxes because of the lack of a standard in relation to devices out there. We have had over 1,000 complaints from members of the public who have had their services affected as a result of the trial. So there are a range of technical issues.

**Senator LUDLAM:** I was not aware of that. If there is anything further you want to provide us on notice about the transition between trial and full program or not, that would be great...

**Answer:**

The Audio Description trial on the ABC finished on 4 November 2012. The ABC will provide a report on the trial to the Minister by the end of 2012.

This report will include information on: work flow issues, creation and acquisition of audio description tracks, transmission and distribution, technical issues, reception issues and a summary of feedback from the public through the ABC's Reception Advice Line and the consumer survey conducted by the ABC. The ABC understands the Government will assess the findings of the report in considering the future of audio description services in Australia.

The ABC has been in consultation with vision advocacy groups such as Vision Australia and Blind Citizens Australia both before and during the trial. The ABC has also received feedback from audience members during the course of the trial about the trial and its impact on people with a vision impairment and, in some instances, its impact of other viewers.

**Impact on digital radio services**

The ABC would like to correct a statement made during the Supplementary Budget hearings on 16 October 2012 about digital radio services being affected by the trial (refer to page 80 of the Hansard).

To accommodate the spectrum (bandwidth) required to conduct the trial in an already congested transmission bit stream, the ABC initially believed that that its two digital radio channels (Dig and Dig Jazz) broadcast via digital television would need to be suspended for the length of the trial to avoid degrading the pictures on any ABC television channel. However, just prior to the commencement of the trial, ABC engineers together with the equipment vendors were able to

**Question No: 145**

**Program No. ABC**

**Hansard Ref: Page 80**

**Topic: Radio National**

**Senator Ludlam asked:**

**Senator LUDLAM:** Can you confirm for us that in the last 18 months Radio National arts programs have lost approximately 12 positions, not including the eight that are currently being proposed, and last November ABC also closed down the TV arts unit, resulting in the loss of approximately 16 positions. I guess that is a quantitative question, so I will ask you to take that on notice.

**Mr Scott:** I can give you a detailed answer on our commitment to arts. It is a story that talks about ending some things and doing new things as well. Our commitment to arts remains very strong. It is central to our charter and I am happy to brief you in more detail on our plans and our commitment.

**Answer:**

Radio National has not lost 12 arts positions in the last 18 months. In fact, from 1 January 2011 to 1 October 2012 there has been an increase of 3.8 arts positions within Radio National.

The changes to Arts programming on ABC Television in 2011–12 resulted in 10 staff being made redundant. The redundancies arose from the cessation of *Art Nation*, which had experienced a significant decline in audience. The resources previously allocated to that program have been redirected so as to enable more prime time arts content, which will reach larger audiences.

The ABC remains committed to the arts and will continue to fulfil its Charter by encouraging and promoting the musical, dramatic and other performing arts in Australia. Arts content is central to the purpose of Radio National as Australia's specialist network. It provides specialist arts and cultural coverage, performance, features, reportage and analysis on air and online including podcasts, transcripts and other rich media content. The recently commissioned 2013 Radio National schedule renews the emphasis on arts and represents an increase of 18% original/first-run arts content compared to 2011.

The ABC will continue to prioritise high quality, audience-driven Arts television programming, expanding the Charter obligations in prime time while aiming for higher production values, enhanced formats, a stronger online presence and a prime position in ABC1 and ABC2 schedules.

Since April 2012 the ABC has commissioned the following for television:

- Eleven 30 minute documentaries for *Artscape*
- Three 60 minute episodes of *Art of Australia*
- One 60 minute feature *Peter Sculthorpe: A Journey Through My Life*
- 14 hostings for the new *Sunday Arts Up Late* slot

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Australia Network**

**Senator Birmingham asked:**

1. What is the nature of the agreement between the ABC and the Department of Foreign Affairs and Trade for the broadcast of the Australia Network?
2. How long does the agreement run for?
3. Please detail the payment schedule under the agreement.
4. Please summarise how the agreement differs from the previous agreement in place.
5. Will the Australia Network be broadcast into China?
6. Will the Australia Network be broadcast into the Middle East?
7. Has the ABC had any discussion with Government about securing distribution rights in China? If so, what progress has been made?
8. What is the current status of the ABC's satellite capacity for the Australia Network?

**Answer:**

1. As outlined in Senator Carr's media release of 31 August 2012, the Agreement for the future service relates to a converged service covering Australia Network, Radio Australia and related online services.
2. The arrangements for Australia Network to be delivered by the ABC are perpetual. The funding agreement will be renewed after 10 years.
3. Payment is annually in advance.
4. The service description now reflects the changing nature of audience trends, technology and service delivery, with flexibility to shape the service to meet audience and technology trends.
5. Australia Network is available through partnerships with Chinese media, limited satellite rebroadcast services and Australia Network's website is available internationally at any time.
6. The Australia Network is available online and on mobile devices in the Middle East.

**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

7. The ABC's objective to secure landing rights in China has been the subject of sustained efforts by the ABC, the Department of Foreign Affairs and Trade and the Australian Embassy in Beijing for a number of years. The ABC understands the government will continue to pursue this issue with the relevant Chinese regulatory authority, SARFT.
  
8. Australia Network is currently available in an estimated 31 million homes in 46 countries across Asia, the Pacific and the Indian sub-continent. Australia Network is distributed across the Pacific, south-east Asia, north Asia and south Asia on the Intelsat 18, Intelsat 20 and Intelsat 10 satellites. This makes the network available to rebroadcasters and direct-to-home. From December 2012, the current IS-10 satellite that covers Australia Network's India feed will be replaced by IS-20

**Question No: 147**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Local Sport**

**Senator Birmingham asked:**

Is the ABC planning any changes to local sports coverage for the 2013 year? If so, please detail.

**Answer:**

No major changes to local sports coverage are planned by ABC Radio for 2013.

ABC Television is in discussions with local football codes about coverage of the 2013 season. In its Television Production Strategy 2011–2013, the ABC made a commitment to pursue new 2-year broadcasting arrangements with various local football codes. To this end, discussions have taken place with the Victorian Football League and the South Australia National Football League regarding the ABC's option for broadcast in 2013. No formal agreement has been reached at the time of preparing this answer.

The ABC will soon meet with the West Australian Football Commission to discuss possible broadcast of the West Australian Football League in 2013.

Discussions have also taken place with the Rugby Union administrations for Sydney, New South Wales and Australia regarding coverage of the Shute Shield competition in 2013. Finalisation of coverage arrangements has been delayed whilst the Australian Rugby Union conducts a corporate governance review.

**Hansard Ref: In Writing**

**Topic: Advertising**

**Senator Birmingham asked:**

Please provide a breakdown of the advertising budget for each program and for each program please detail total advertising expenditure in both News Ltd and in Fairfax publications or through other mediums.

**Answer:**

The ABC refers to its answer to Parliamentary Question on Notice 1973 from Senator Birmingham, tabled on 19 September 2012 (copy attached).

Information regarding the promotion and advertising spend for individual programs is commercial in confidence.

## QUESTIONS ON NOTICE

The following answers to questions were circulated:

### **Broadband, Communications and the Digital Economy**

#### **(Question No. 1973)**

**Senator Birmingham** asked the Minister for Broadband, Communications and the Digital Economy, upon notice, on 31 July 2012:

In regard to the Australian Broadcasting Corporation and the Special Broadcasting Service, can details be provided, for each individual organisation, of advertising/promotion spending in the 2011-12 financial year for all programs, including a breakdown by program being promoted and also by News Limited publications, Fairfax Media Limited publications and any other publications.

**Senator Conroy:** The answer to the honourable senator's question is as follows:

#### *Australian Broadcasting Corporation*

The total cost of advertising and promotions across the ABC for the 2011-12 financial year was \$5.8 million. This consisted of \$2.2 million in advertising and \$3.6 million in promotions.

The ABC does not hold a single set of data for advertising placement for ABC Television for the full 2011-12 financial year. Between July 2011 and the end of March 2012, the ABC operated centralised buying arrangements with a single supplier.

Between April 2012 and the end of July 2012, ABC Television used a number of buying agencies. Television ad placement data for these two periods are reported below as separate amounts.

ABC Television ad placement expenditure for July 2011 – end-March 2012

- ABC Television ad placement expenditure was \$1.59 million.
- Of this, \$234,350 was placed with Fairfax and \$122,064 was placed with News Ltd.

ABC Television ad placement expenditure for April – July 2012

- ABC Television ad placement expenditure was \$223,150.
- Of this, \$61,300 was placed with Fairfax, nil with News Ltd.

ABC Radio ad placement expenditure for full financial year 2011-12

- ABC Radio ad placement expenditure was \$14,452. This data cannot be split between News Limited and Fairfax.

Information regarding the promotion and advertising spend for individual programs is commercial in confidence.

#### *Special Broadcasting Service*

SBS's advertising/promotion spend in 2011-12 was \$2.3 million (excl. GST).

Total amount spent on News Limited and Fairfax Media Limited publications out of a total spend on print media of \$398,414 (excl. GST): Fairfax - \$219,784; News Limited - \$145,979.

Information regarding advertising and promotion spend by program being promoted is commercial in confidence.

### **Australia Post**

#### **(Question No. 1992)**

**Senator Abetz** asked the Minister for Broadband, Communications and the Digital Economy, upon notice, on 6 August 2012:

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

**Question No: 150**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Executive positions**

**Senator Birmingham asked:**

1. Have executive positions under review as part of structural changes been filled?
2. In all cases were positions advertised internally and externally?

**Answer:**

1. Three of the four positions have been filled (Head News Content, Head Newsgathering, Deputy Head Newsgathering/News Editor NSW). The selection process for Editor Asia Pacific News Centre is yet to be finalised.
2. Three of the positions were advertised internally and externally. The position of Deputy Head Newsgathering/News Editor NSW was advertised internally only.

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

**Question No: 151**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Electricity Costs**

**Senator Birmingham asked:**

1. What were the ABC's electricity costs for 2011-12?
2. What is the budgeted cost for 2012-13? Does the ABC believe it is on track to meet the budgeted cost?

**Answer:**

1. The ABC incurred \$6.5 million in electricity charges in 2011–12.
2. The 2012–13 budget for electricity costs is \$6.6 million. The ABC expects that electricity costs will exceed its budgeted amount in 2012–13.

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

**Question No: 152**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Permanent versus non-permanent work at the ABC**

**Senator Cameron asked:**

Unions are concerned that the ABC is increasing the number of non-permanent positions in the workforce.

1. How many temporary positions (not permanent) currently exist in the ABC:
  - a. By Division\*
  - b. By Classification
  - c. By type (casual, specified task contract, Run of Show contract and fixed term contract)

\* ABC divisions include: Business Services, Commercial, Communications Networks, COO, Corporate Affairs, Group Audit, Innovation, International, Legal and Business Affairs, News, Radio, Research and Marketing, and Resources and TV.
2. How many of these temporary positions were created this financial year to date (FYTD)?
3. To ensure the Committee can correctly assess what these figures mean, the ABC will also need to provide information on permanent positions for comparison. Therefore can the ABC provide a breakdown of the percentage of new positions by ABC Band Classification created this FYTD that were permanent in each of the ABC divisions?
4. What percentage of new permanent positions created this FYTD was a result of making temporary staff permanent?
5. What is the current breakdown of ongoing staff and non ongoing staff currently employed in each ABC Band Classification?
6. If possible, can the ABC provide staffing numbers for the last 5 years broken down as per attached table?
7. What is the average length of casual employment by ABC Division for 2008, 2009, 2010, 2011 and 2012?
8. What is the average length of contract employment by department for 2008, 2009, 2010, 2011 and 2012?

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

**Answer:**

1. The employment of contracted workers on a non-ongoing basis is a widely accepted practice in the broadcasting and production industries. Workers are regularly contracted on a 'run of show' basis. This is a significantly more efficient allocation of resources than engaging permanent employees in the periods of inactivity in between productions. It also provides the contracted employee with the flexibility to quickly seek employment on other productions as soon as possible. Contracts are also used to cover temporary vacancies arising from secondments, higher duties and parental leave.

a. Current contract positions by Division (as at 21 October 2012)

<b>Division</b>	<b>Number of Positions</b>
ABC Commercial	13
ABC International	14
ABC Resources	56
Business Services	7
Communications Networks	3
Corporate Affairs	3
Editorial Policies	3
Innovation	24
Legal & Business Affairs	11
Managing Director's Office	4
News	55
Office of Chief Operating Offr	6
People & Learning	5
Radio	132
Technology	10
Television	129
<b>Total</b>	<b>475</b>

The above details temporary positions but does not include casual employees. The ABC does not record details of casual positions against established positions.

**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

7. The collation of this information would require extensive manual processing of pay information and would represent an unreasonable diversion of resources.
8. Refer to the answer to question 7 above.

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

**Question No: 153**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Utilisation of labour hire services in the ABC**

**Senator Cameron asked:**

I understand that the ABC has a contract with 'The One Umbrella Group' to provide labour in the Content Services Division. Information has been provided indicates the ABC is paying an average of \$30.00 per hour to the company. At the same time, the labour hire employees are only receiving \$19.95 per hour (casual rate). This figure is significantly less than the rate for permanent ABC staff in the same area – the ABC staff are on Band 4 salary or higher and are paid a minimum of \$29.02 per hour.

1. Can the ABC explain the tender process undertaken for the procurement of services from The One Umbrella Group?
2. Is the process undertaken for One Umbrella Group the same as the tender process that the ABC has undertaken for other labour hire companies?
3. Can the ABC provide details of other labour hire companies and recruitment and contract agencies that the ABC has engaged to provide labour services for doing ABC work in the last 5 years broken down by ABC Division and by year?
4. Can the ABC confirm how much money has been spent over the last 5 years on temporary staff arrangements through external hire companies?
5. How many staff employed through labour hire agreements are currently undertaking work in the ABC in each ABC Division?
6. What is the average period of time these external employees are working in the ABC broken down by ABC Division?

**Answer:**

1. A tender process has not been conducted. A review of labour hire services rates is conducted from time to time and suitable rates negotiated with agencies to get the best service arrangements for the ABC. The ABC seeks services from those agencies known in the market place for specialising in information management professionals. Over the last few years the ABC has used services from at least three different agencies, always seeking the best match for the job from any source within the budget available for the work/positions required.
2. The Corporation uses a number of different labour hire companies depending on the skills required and the nature of the role. There has not been a tender carried out in relation to these engagements.
3. Please see the spreadsheet supplied with this answer.

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

4. Over the last five years, the ABC has engaged contract labour equating to \$64.3 million. This includes all contract labour engaged in Australia and overseas for a wide variety of reasons.
  
- 5-6. A central record of this information is not kept by the ABC. It would require an unreasonable diversion of resources to collate this information.

**Question No: 154**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Regional content**

**Senator McKenzie asked:**

In the ABC's answer to QON #103, regional content production figures were provided for all states except NSW and Victoria.

1. Does this mean that in relation to the \$31,809,236 of regional content commissioned in 2011/2012, none of this content was commissioned from NSW or Victoria?
  - a. If not, why not?
  - b. Have past years produced similar figures?

**Answer:**

1. None of the commissioned regional content making up the \$31.8 million referenced in Question on Notice 103 (2012 Budget Estimates) was commissioned from NSW or Victoria.
  - a. Though marginal amounts of production may have occurred in regional Victoria and regional NSW across all production, the majority of production on projects commissioned in these states occurred within the metropolitan areas. It is also sometimes the case that production can occur across multiple states whilst being managed through a single state. For example, the majority of the production of *Q and A* is undertaken in New South Wales notwithstanding that the program travels to regional areas across all the states and territories. *The Straits* was commissioned from a Sydney based company, but all production took place in Northern Queensland.

This method of logging the management of productions is consistent with the approach taken by Screen Australia, the federal agency which tracks film and television industry data more generally.

- b. The ABC's contribution to regional television production increased by 19% in the period between 2010–11 to 2011–12. However, collaboration with the independent production sector has stimulated much greater investment in regional television production, which increased overall by 78% across the same timeframe.

In 2009–10 the ABC commissioned a contribution of \$29.07 million towards television production in the regions, with total production value of \$39.8 million.

In 2010–11 the ABC commissioned a contribution of \$26.7 million towards television production in the regions, with total production value of \$39.9 million.

In 2011–12 the ABC commissioned a contribution of \$31.8 million towards production in the regions, with total production value of \$70.9 million.

**Question No: 155**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Local content**

**Senator McKenzie asked:**

APN News Media made a submission to the Convergence Review on diversity and local content, and raised some solid points regarding regional media.

1. The ABC receives government funding. To reach small regional markets it has expanded to include ABC Local and ABC Open online services. Its increased online and news presence has made it harder for small commercial providers to develop in similar markets.
2. What framework is in place to ensure diversity in regional media is able to prosper?
3. APN's submission mentioned the proposal allowing commercial outlets to redistribute its content via the ABC to help reduce crowding.
4. Ensuring the content was appropriately attributed, would this be a possibility?

**Answer:**

The ABC has traditionally been a leading provider of independent news and current affairs across regional Australia. The ABC plays an important role in guaranteeing that audiences have access to a diversity of sources of news and information, and a variety of programs oriented towards local communities. This is particularly true in regional Australia where the Corporation provides a wide array of localised services and is an active participant in regional communities.

The ABC has for most of its existence provided its service into markets where free-to-air radio and television broadcasters have also traditionally operated, and where local and regional newspapers have also successfully operated. The provision of independent and distinct regional news content has always been an important part of the ABC's Charter obligations to serve the Australian community.

As news audiences have expanded into online, mobile and other digital platforms, all news providers have had to adjust to this reality. In order to continue to deliver relevant content to our audiences, ABC has expanded its output into online services.

Independently of this, the expansion of online news content has put substantial pressure on the business models of commercial news providers by cutting into advertising revenue. Previously, newspapers often had a monopoly on certain forms of advertising, particularly classified advertising at a local, state and national level. The shift of such advertising to online platforms has had a substantial impact, and as a result newspapers are in decline across the developed world.

The ABC is not in a position to address these significant structural changes in the industry, nor are we responsible for the impact they are having on local and regional media organisations. The decline in the number and quality of commercial media outlets has been noticeable for some time, and is occurring regardless of any actions by the ABC to respond to the same structural shifts.

**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

One vital factor the ABC needs to preserve is its independence as a news organisation, and its integrity as a trusted news source. For that reason, any decision to carry news content which it does not editorially control and stand behind could risk damage to the ABC's reputation and role.

**Question No: 156**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Revenue**

**Senator McKenzie asked:**

How is the ABC planning to combat the drop in ABC Commercial's contribution to net revenue from \$7.9mn in 2010-2011 to \$5.5mn in 2011-2012?

**Answer:**

Over recent years ABC Commercial has faced a structural shift in more traditional markets within retail sales away from a DVD/ CD product range. These structural changes are being felt by the retail sector as a whole and are not unique to the ABC.

In order to address this structural shift, the ABC will continue to invest and grow its digital business, pursuing a range of strategies to develop new revenue streams, including:

- Building on the strong growth from ABC Music digital sales
- The development and successful launch of new digital products and applications by ABC Digital
- Further release of E-Book titles and ABC Magazines across digital platforms
- Further investment in ABC Shop Online
- Further brand extension into merchandising, toys and apparel.

**Question No: 157**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Radio Drama Programs**

**Senator McKenzie asked:**

1. Why did ABC Radio National decide to cancel its radio drama programs?
2. What other outlets are available for Australian radio drama authors to broadcast their radio dramas?
3. Where will the savings from cancelling these programs be redirected?

**Answer:**

1. The ABC has a responsibility to manage its resources in an effective and efficient manner. The ABC therefore undertakes detailed reviews of its funding structures from time to time in order to ensure it is making the best use of resources.

In 2012, the ABC undertook a review of Radio National's organisational and funding structures in order to ensure it remains an agile, adaptive and essential part of the contemporary Australian conversation.

That review identified declines in the already small audience for radio plays over recent years. The current model for radio plays involves relatively high costs and considerable production resources and it was therefore appropriate to consider an alternative approach.

The review also identified an opportunity to evolve the format so as to engage more with younger writers and artists who are looking for different ways of working with sound and story. There are also developments overseas in performance radio which the ABC is monitoring.

In order to make these changes and implement a more cost-effective commitment to performance radio, the ABC has decided to decommission a number of programs currently within its Drama portfolio.

Radio National will continue to be engaged in the development and broadcast of new, original and innovative audio for broadcast and online delivery.

2. Professional writers of radio drama generally write for a number of platforms/media including theatrical performance and television. The growing interest in niche online broadcasting creates opportunities for writers of audio drama to produce work outside the ABC.

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Supplementary Budget Estimates Hearings October 2012**  
**Broadband, Communications and the Digital Economy Portfolio**  
**Australian Broadcasting Corporation**

3. Funds from decommissioned radio plays will be redirected to a new Creative Audio Unit (CAU) which will be tasked with repositioning Radio National's creative performance audio output. The new CAU will have a budget which matches the decommissioned Radio Drama budget.

The CAU will continue to work with writers and other artists, and engage a new generation of creative producers working across media and forms. The slots left by the decommissioned plays will be programmed by the new CAU.

**Question No: 158**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: ABC Advisory Council**

**Senator Singh asked:**

Of the 6 roles of the ABC Advisory Council, three of the six tasks mention the word 'community' and a fourth mentions interest groups. Yet there is no evidence that the Council has anything to do with community organisations or interest groups. If it does, where is that recorded? If it doesn't, why not? Is there funding to assist Advisory Council members with the coordinating/running of community facilitation?

**Answer:**

The ABC Annual Report outlines the activities and recommendations of the ABC Advisory Council for the year. The 2011-12 Annual Report notes that members of the Council undertook detailed consultations with their communities on:

- Current affairs in prime time: including changes to the hosts and format of 7.30 and the relevance and balance of stories on that program.
- Radio National: responses to the Radio National changes in January 2012 including changes to the multimedia offering.

The Advisory Council also holds community consultations from time to time. In July 2011, a consultation was held in Port Lincoln, South Australia, on the topic of *The Urban & Rural Divide in Australia*. In December 2011, the Council presented a discussion paper to the Board outlining the results of the consultation. In July 2012, a consultation was held in Tamworth, New South Wales, on the topic of *The ABC's Educational Effectiveness*. It is expected that the Council will present a discussion paper to the Board addressing this consultation in December 2012.

Council members also attend, at their own initiative, numerous community events in their local areas in order to gather feedback on ABC programming and services.

Members are chosen, in part, for their connection to local communities and their ability to incorporate those perspectives into their consideration of ABC content and activities. Current further information regarding the members of the Council and their ties to the community can be found in the ABC 2011-12 Annual Report.

The Advisory Council is provided with a budget funded from the ABC's general appropriation and this budget supports the secretariat functions for the Council. In addition, Council members are entitled to such remuneration and travel allowances as determined by the Remuneration Tribunal.

**Hansard Ref: In Writing**

**Topic: Review of OB Vans**

**Senator Singh asked:**

1. At the Budget Estimates in May 2012, ABC Director Mark Scott said a review of the Corporation's OB vans was being undertaken. What progress has been made regarding the review of OB vans? Can you outline a timeline of this review?
2. Have any of the ABC owned OB vans been sold/decommissioned/privatised in the past 12 months?

**Answer:**

1. A review is currently being undertaken of the ABC's Outside Broadcast (OB) vans. With the exception of the Tasmanian OB Van, which will be decommissioned at the end of 2012, no decisions made regarding the OB fleet at this stage. There is no timeline set for the review.
2. None of the ABC-owned OB vans has been sold, decommissioned or privatised in the past 12 months.

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Sport Content**

**Senator Singh asked:**

Does the ABC actively approach sporting codes which would fulfil its sports strategy or must the codes contact the ABC in accordance with the Independent Production guidelines? Can you list the organisations that have approached the ABC to request an ongoing coverage and whether such an arrangement was entered into?

**Answer:**

The ABC consults regularly with a variety of sporting bodies and distributors of sport content on a formal and informal basis.

The ABC has recently been approached by sports administrators about the broadcast of Intersarsity rowing, touch football, baseball, international rugby, golf and netball. These offers have not resulted in broadcasting agreements.

**Question No: 161**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: Written complaints**

**Senator Singh asked:**

In the ABC Annual Report 2012, a summary of contacts is included in Chapter 4: Governance. Mention is made of Audience and Consumer Affairs receiving 1,135 written complaints from viewers who expressed disappointment about the decision to discontinue ABC-produced television programs including *Art Nation*, *The New inventors* and *Collectors*. What was the nature of these written complaints from viewers regarding *Art Nation*, *The New Inventors* and *Collectors*? How does the number of complaints received compare to complaints about the decommissioning of other shows over the past five years?

**Answer:**

The nature of the complaints received included general concerns about the ABC's in-house production capacity, as well as concern at the end of specific programs *Art Nation*, *The New Inventors* and *Collectors*.

By way of comparison, written complaints about other programs decommissioned over the last five years are provided below:

2011: Discontinuation of lawn bowls coverage: 408 (note that these complaints were included in the 1,135 referenced in the Annual Report)

2011/12: Discontinuation of Hopman Cup: 76 complaints.

2010: Discontinuation of *The Einstein Factor*: 176 complaints.

2008: Cessation of screening state football replays on ABC2: 433 complaints.

2008: Cessation of ABC Radio National *StarStuff*: 95 complaints.

2007: Cessation of *The Side Show*: 308 complaints.

**Hansard Ref: In Writing**

**Topic: Hobart Statewide *Evenings***

**Senator Singh asked:**

Since the resignation of 936 ABC Hobart Statewide *Evenings* host, this program has been broadcast from Melbourne. What was the reasoning behind this decision? Is this a long term solution or a temporary measure while a new local host is found?

**Answer:**

936 ABC Hobart Statewide *Evenings* host Michael Veitch left the ABC in September 2012. At this time, a decision was to share *Evenings* between Tasmania and Victoria pending the commissioning ABC Radio schedules and presenters for 2013. The ABC has commissioned Statewide *Evenings* 936 ABC Hobart in 2013, to be hosted by Helen Shield out of Hobart.

**Australian Broadcasting Corporation**

**Question No: 163**

**Program No. ABC**

**Hansard Ref: In Writing**

**Topic: 7.30 TAS program**

**Senator Singh asked:**

Recently, ABC TV program 7.30 TAS (previously Stateline Tasmania) coverage has included national stories. Traditionally, 7.30 TAS has featured Tasmanian produced/ relevant content only. Can you explain decisions behind the featuring of national stories as opposed to purely Tasmanian content?

**Answer:**

The schedule for the 7.30 pm timeslot on ABC1 has for some time featured a national current affairs program from Monday to Thursday and a state-based program on Friday nights.

The Friday night program was previously known as *Stateline* but was changed to 7.30 in 2011 in line with a decision to apply a consistent brand across the timeslot. This was a change in name only and the practice of having national programs from Monday to Thursday and state-based programs on Fridays has continued, with different production teams and different presenters in each state responsible for the Friday edition.

It is not correct to say that the Tasmanian edition of Friday night's 7.30 featured only Tasmanian produced/relevant content. All state-based 7.30 Friday night programs regularly incorporate national stories in their coverage. There has been no change in this practice.

It is long-standing practice that if a major national story breaks it will be carried by the Friday state-based 7.30 programs. Sometimes these national stories are provided as optional stories available for those states and territories that wish to run them. On other occasions the stories are significant enough to be designated 'must run' in all editions. This ensures ABC audiences have access to major news and current affairs stories as they develop.

**Hansard Ref: In Writing**

**Topic: 2011 radio survey for Tasmanian radio stations**

**Senator Singh asked:**

I understand that the 2011 radio survey for Tasmanian radio stations was abandoned after media research company Nielsen failed to secure an appropriate sample. How long since the ratings of 936 ABC Hobart have been sourced? Does the ABC 936 Hobart commission its own audience research? Are there plans for another attempt at completing a radio survey to obtain the ratings of 936 ABC Hobart?

**Answer:**

On behalf of ABC Local Radio in Tasmania, the ABC's Audience Research unit undertakes research for the station, with the most recent project conducted in 2011.

The ABC is working with the commercial broadcasters to facilitate an industry radio survey in Hobart and it is expected that a survey will be conducted in 2013.
