Question No: 36

Hearing: Supplementary Budget Estimates

Outcome: Outcome 5

Programme: Wildlife Heritage and Marine Division

Topic: Kangaroos – Export Licences

Hansard Page: N/A

Question Date: 27 November 2013

Question Type: Written

Senator Rhiannon asked:

How many export licences are currently granted to kangaroo exporters?

- a) Please include details: which products, what quantities and to which country – by each exporter?
- b) Have any export licences been granted to China; for which products and how much; and to which exporter?
- c) If not, what discussions are there or applications in process for export licences to China?
- d) To any other country?

Answer:

- a) Permits are issued for export of single shipments or for multiple consignments over periods of up to three years. A spreadsheet containing export permit data for the last three years (10 December 2010 to 9 December 2013) is attached. No quantities or importing country information are given for multiple consignment authorities, as this type of permit is valid for export of unspecified quantities of product to any country. All product must be sourced from approved state management programmes. The Department does not disclose the names of exporters without their consent, or unless the request is made under a law which requires disclosure.
- b) Over the last three years, five single use permits have been issued to four companies for export to China of one taxidermied animal, 210 leather pieces, 81 skins, 100 skins and 54 skins (the last two for the same exporter).
- c) Five applications are currently under assessment for multiple consignment authorities to export skins and assorted manufactured leather goods. The Department will not know until each consignment is shipped whether the destination country was China.
- d) Refer to the response to c) above.

REFERENCE	IMPORTING_COUNTRY	ISSUE_DATE	PERMIT_TYPE	SCIENTIFIC_NAME	PRODUCT_DESCRIPTION	QUANTITY	UNIT
