Department of Education Question No. ED0188_14

Senator McKenzie asked on 20 November 2013, Hansard page 65

Question

Concerns from Family Day Care providers outside of NSW

CHAIR: Have there been any other concerns raised from family day care providers outside of New South Wales?

Mr De Silva: We would need to take on notice in terms of what concerns have been raised and correspondence. But I think that by far they have been from New South Wales.

Answer

Since this Government has been in office, concerns about the family day care ratio changes coming in from 1 January 2014 have been raised by family day care providers in New South Wales. One piece of correspondence has been received from a Western Australian provider.
