

To the Secretary,

Dear Sir, Ms

I am writing to you because I want the chance to speak at your inquiry. I was placed in a Mental Hospital at a young age also placed in childrens homes in Q.L.D. It was the policy of Govt in the sixties to place young girls into Mental Hospitals as a punishment for running away from Church homes. The people in the homes knew where we were going so they must share in the blame. I went into a Catholic home in Wynnum when I was eight and gradually moved through the "system" into worse and worse places. I remember all of it. I know what drugs I was on and all the sacristic treatment. I have tried for years to tell people and I was not allowed to tell the Jack Inquiry in Brisbane that is why I am so pleased about your inquiry. Will I finally get to tell the truth. I cannot believe it please consider me at your inquiry and I thank you greatly for having it

yours sincerely

Patricia K Pascoe.
