

Dear Committee Secretary.

I am writing to you about my concern for young people drinking to excess. This can set a pattern in life which is governed by addiction and is a very real tragedy, for all concerned. The spate of advertising targeting young people which connects alcohol with success, fun, sex, and all the "good" things of life, needs to be restricted and our young people protected from such advertising. Please listen to reason and support this bill.

Yours faithfully,
N.E. Attwood
