

Questions on Notice

Question 1: Senator Crossin, p. 57 of transcript

Senator CROSSIN—Thank you. Can any of you tell me if you have a copy of the proposal that you say QAILSS put together; you said it outlined what people were entitled to or whom it concerned. Did you ever see that? I thought you said earlier that QAILSS had got money from ATSIC to put together a proposal.

Mrs Hegarty—Yes.

Senator CROSSIN—Have you ever seen that?

...

Senator CROSSIN—So you are not aware that there is a copy on the public record anywhere?

Mrs Hegarty—I think there is. If we looked hard enough, we could find one!

Senator CROSSIN—I am not sure which public record, but if you—

Mr Hart—Chair, we could help. There are people in the audience who do have copies and we could certainly get one.

Mrs Hegarty—Yes, we could get that to you.

Question 2: Senator Moore, p. 62 of transcript

Senator MOORE—I know that you are very active in maintaining the community action around this issue, and your report does that. I would ask that we get something as a supplement to say exactly who was at the meeting, because we keep talking about the meeting. It would be useful for our clarification if you could get together and tell us who was there and in what capacity.

Mrs Hegarty—We can do that.
