Between January 2004
March 2005 ^{till} ^{Q_r} for 5 months⁷

I was imprisoned in
Mental Institutions and
injected and forced to
swallow tranquilisers against
my will, without any
proven wrong doing or
transgression. I am completely
innocent and seek full
justice including compensation
repudiation of perpetrators via

What we seek is a movement
via the Supreme and High
Courts, facilitated by readiness
to legal assistance and a
wavering of the filing fee
and threats of costs should
there be recalcitrant ruling
so these (my) people can
gain solice and relief.

This should not be seen
as a threat, but failing
no recourse via Justice through
the Courts of this country,
via prayer the alternative is

①

I wish only to protect my God
given right to move freely within this
world without interference, obstruction
or intimidation, vigilant in the
honouring of God as Sovereign head
and Father of us all: people need support,
nurture not interview or interrogation.

Inability of the medical profession to
discern finer abilities within individuals
~~not~~ which need support and Foster.

I challenge unashamedly the
~~assumed~~ presumed right 'by doctors
to usurp the liege and autonomy
of an individual in making decisions
in regards to maintenance of well
being and health.

Debilitated through interview and quest-

ioning which can only be called interrogat
ion.

* Called to account too often

Don't like substances which impair
my cognitive capabilities and affect
amongst others, resourcing function

I will not cringe before the quacks
(medic)

* And I will not ameliorate the sacred
right of dominion ~~over~~ of one's body.

Blessed are the ~~the~~ peacemakers for they
shall see GOD

Harassment and false allegations which
saw what has become an unruly
police force bundle me into the back
locked section of a wagon 7

times in 10 months

I will be accountable to the army and some members of the clothe and in future only God the father and of course Jesus.

I am an individual and wish only to be able to engage life experience love and joy to be able to perfect my religious life ~~tain~~ the honour of God.

Bad men drop off!

Before getting on the slow boat to nowhere (doctors attempt at help)

help sought which initially was for a sleep deficit and malnourishment, a retreat in a quiet area with proper food

4.

would have effected a recovery within
3 weeks

medical Conveyer, month-time limbo

Any anger almost always was directly linked
to mistreatment, distrust ~~and~~ or ~~not~~
brought about by a fear in the populace,
fuelled, rarely allayed by medicos.

Instead it became a 22 year nightmare-
distrust from doctors and community,
vilification, ostracism, subjects of
small talk and gossip, murmuring,
calumny and jeering and only basic
provision which saw us the poorest of
the poor.

Hope it is only the executive and part
of the legislature which has the duty
not.

The Good Book says "place not your trust

in man, but in God alone"

After 22 years I know this to be true.

In the whole 22 years of mistrust and mismanagement, I can't recall being asked, even once,

"How can I help you".

For so called mental patients to recover, to be heard, the mental health wing would be on the dock queue.

Most, nay almost all "health workers" that I have dealt with have shown little compassion, ^{have never} ~~also~~ been encouraging, never the desire to empower: all too ready to wrench and usurp ones initiative, put you in the hands of the mengele, phd of chemicals

6.

They have hindered and harassed
and violated me.

Psychotropics ~~exaggerate~~ exacerbate, thwart
and aberrate, the physical and the
psyche (hence the mind) to where
will is grossly debilitated.

Any thought or action on this
chemical rubbish, is not of the
true self.

N.B.*

So virtually all instances of problems
are directly attributed to these
drugs. * ^A-able

Woe be tide person experimenting
with mixes of drugs and alcohol
Russian roulette.

7.

Psychotropics are garbage and after 22 years I'm telling you what they can do with them.

I seek massive recompense for the violations from the Mengeses and their blue uniformed baboons

The greatest insult of all is that this hideous tsunami continued by making inception of these sludge like compounds, compulsory with even low substratum permitted to initiate incarceration and the consequent intimidation and humiliation - compulsory blood tests, urine samples, play school blood pressure tests and

temperature readings.

No saints make it through the
NSW. (and Qld) health systems.

I can not stress enough what
this treachery - only suggested at
first, which became fully enacted.

Police intimidation: for example
in my case being called to account,
and the mental health doctors
partnering the police in acting
upon the line of least resistance

whilst the amphetamine dealers are
needling our young women and men

When dragged in as data was

~~was~~ accented the tone was 9.

immediately changed to murmur
and asides with no direct
address

Doctors have sought power, they
have not followed the rules that govern
the heart, and I believe with
all my heart that they basically have
abandoned the Hippocratic Oath.

They are evil or I will ~~allow them~~
be content to allow them a little
saving of face. They are stupid.

Doctors do not know wholistic
health. If they have to use an
apparatus to tell blood pressure
and can't see the state of

Someone's health in their eyes —
 "Jesus!"

They can put their potions just
 south of the colon.

when interviewed by Mental
 Health in my home, it made
 me feel violated.

Psychotropics disease ^{*}moral fibre
 and the stupid documentation in
 hospices, is in fact a farce.
 Put garbage in a good person
 and a written commentary on behaviour
 behaviour —
 well, what a venetian

waste of resources.

Special note:

All individuals, irregardless of credential or capability, ~~the~~ ~~are~~ must be seen as fellow members, equal in standing, within society and are treasured members of God's family. and their ~~rig~~ right to freedom and full credence is pinned in the United Nations Declaration of Human Rights.

My only dis-ease is the violation by doctors and police.

Also most nurses and nearly all social workers are rat-bags. am
