

## **Submission No 116**

### **Inquiry into Australia's Relations with Indonesia**

**Organisation:** AusAID

**Contact Person:** Mr Stuart Schaefer

**Address:** GPO Box 887  
Canberra ACT 2601

## Attachment A-1

**JSCFADT Foreign Affairs Sub-Committee  
Inquiry into Australia's relationship with Indonesia  
Request for further information from AusAID**

AusAID's website 'Country brief-Indonesia' has a table of Australian Aid to Indonesia (1995-96 to 2001-02).

1. **The annual data is disaggregated according to 'country program' and 'other'. Can you provide details of what 'other' generally consists of?**

The "other" category generally consists of expenditures made outside of the bilateral Indonesia country program that are classifiable as official development assistance (ODA).

These expenditures can be made either within or outside of AusAID. "Other" Australian ODA to Indonesia originating from within AusAID includes expenditures made through AusAID regional and global programs such as the AusAID NGO Cooperation Program (ANCP), the APEC Support Program and the Australia ASEAN Development Cooperation Program (AADCP).

"Other" Australian ODA to Indonesia originating from outside of AusAID consists of ODA-classifiable expenditures made by other national--as well as state and territory--government departments and agencies.

2. **Can you give any explanation of why the level of 'Other' dropped dramatically in 1996-97 and then again in 1997-98.**

Australian aid channelled through the Development Import Finance Facility (DIFF) program to Indonesia declined from \$49.4 million in 1995-96 to \$10.5 million in 1996-97. The DIFF program ceased in 1996-97.

3. **Would it be possible to get the data for the years 1994-95, 1993-94?**

Yes. This data is as follows (in \$A'millions):

	1993-94	1994-95
Country programs	60,300	70,100
Other	70,337	65,009
<b>Total</b>	<b>130,637</b>	<b>135,109</b>

### **Government Sector Linkages Program**

Can you clarify some matters around the Government Sector Linkages Program.

AusAID's web site on the GSLP gives the following details:

Estimated budget A\$19.5 million  
Commenced 1995  
Scheduled completion 2006

The Indonesia Country Program Strategy From 2003 gives the following details:

Commenced 1 Feb 1996  
Completion date 30 June 2003  
Approved amount 22,160,000  
Expense Total 11,101,931  
Undisbursed balance 11,058,069

**4. What year did it actually commence?**

The Indonesia GSLP commenced in the 1995-96 financial year.

**5. Is the level of funding indicated for the total life of the program or annual?**

The level of funding indicated is for the total life of the Program.

**6. Was the program completed in June 2003 and if so what happens to the undisbursed funds?**

No. The Program is scheduled to run until 30 June 2006.

**7. Has it been replaced with anything?**

No, it has not yet completed its current phase.

**8. Is it possible to get a breakdown of how the GSLP has been allocated on an annual basis since it commenced?**

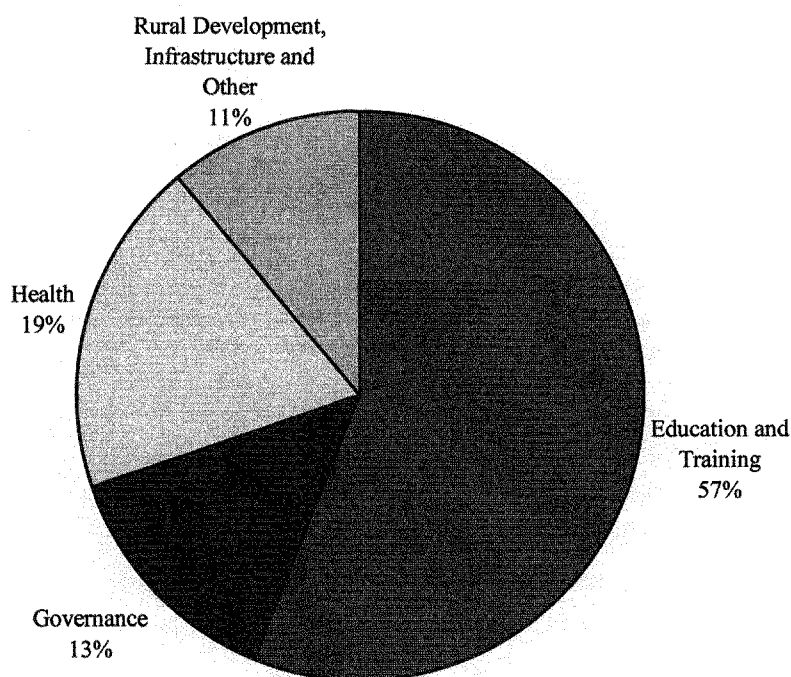

Yes. A breakdown by year, department/agency, activity title and funding is attached.

**Further Questions on Program Expenditure**

**9. Would it be possible to get a figure showing Indonesia country program aid expenditure for 2002-03 by sector – similar to the one in the Annual Report on PNG (page 33).**

Yes, as follows:

Indonesia Country Program: Expenditure by Key Sector 2002-03 (provisional)

Source: AusAID, IRSU statistical datamart

10. **The Indonesia Country Program Strategy From 2003 includes a table on Country Program Portfolio Implementation as of 30 June 2002. Is data updated to June 30 2003 available?**

No. Preparation of that table was a one-off exercise for Country Program Strategy purposes only.

**Education**

11. **Under the Education heading there is a Program Indonesia –Ads. What is this?**

ADS are Australian Development Scholarships for study at the Masters or PhD level in Australia.

**Can you explain why so little of the money allocated to the NTT Primary Education Project had been expended?**

Support for the basic education system in NTT province, through the NTT Primary Education Project (NTT PEP), has been designed to expand progressively through time. The money allocated to NTT PEP is being expended as per the contracted schedule. Total expenditure up to the end of FY2003/04 is expected to be around \$8.5 million.

## Health

- 12. Can you explain why a relatively small proportion of the amount allocated to Women's Health and Family Welfare has been spent?**

The money allocated to WHFW is being expended as per the contracted schedule. Total expenditure up to the end of FY 2003/04 is expected to be around \$13.5 million.

## Governance

- 13. Can you explain why not all the money allocated to Institutional Support for the Komnas HAM was spent? What happened to the undisbursed funds?**

The project operated during a period of internal difficulties in Komnas HAM and as such it became apparent that Komnas HAM did not have the required absorptive capacity. As a result several planned activities could not be completed. These activities included support for a computerised complaints database, training in investigation techniques and training on substantive human rights issues. This reduced the amount of actual expenditure.

Since the completion of this project AusAID has provided additional support to Komnas HAM through the Legal Reform Program Facility. This support has focused on the development and implementation of a Cooperation Plan that assesses the institutional needs of Komnas HAM. Komnas HAM has also been identified as one of three priority institutions for support under AusAID's new Indonesia-Australia Legal Development Facility.

The undisbursed funds initially allocated to the Institutional Support for Komnas HAM project were reallocated to other activities in the Indonesia Program.

## More Education

- 14. At the public hearing on 5 August 2003, Mrs Sudradjat referred to a World Bank education sector review that AusAID was contributing to and another study by the Asian Development Bank (p 399). Are there reports available yet for either review?**

The World Bank Education Sector Review is nearing completion with an extensive consultation process between national and district governments now underway. The report is expected to be publicly available in 2004. The Madrasah Education Sub-sector Assessment managed by the ADB is also nearing completion and is expected to be the subject of broader consultations in December. It is not known at this stage if or when the Ministry of Religious Affairs will make the final report publicly available.

**JSCFADT Foreign Affairs Sub-Committee  
Inquiry into Australia's Relationship with Indonesia  
Request for further information from AusAID**

---

1. **What impact does Indonesia's withdrawal from the IMF program at the end of 2003 have on Australia's assistance?**

Indonesia is not withdrawing from the IMF program, the IMF program has expired. Australian assistance has been unaffected by the conclusion of the IMF program.

2. [referred to Treasury]

3. **In the Indonesia Country Program Strategy, decentralisation activities are listed as having been allocated \$1,232,750 over a five year program. Is this the total of monies that would come under the "Economic Management at the District Level objective" outlined on page 29 of the strategy? Can you provide details of the activities?**

The \$1,232,750 currently allocated for decentralisation includes "economic management at the district level" activities, but may include a wider range of activities, such as the Area Focussed Approach, which will assist Indonesia's decentralisation process by helping to improve local governance and service delivery in regional areas. Australian aid support for decentralisation in Indonesia, particularly through the Area Focussed Approach, is likely to expand significantly in coming years.

4. **What are the criteria for determining which countries qualify for HIPC? How much debt relief did Australia provide under HIPC for 2002-03 (is it the total for the year \$18,000,000 minus the \$540,000 cash contribution to HIPC as identified in AusAID's Annual Report p 70 and 169)? Why doesn't Indonesia qualify for HIPC assistance and was this also the case before it withdrew from the IMF program?**

A nation must satisfy three criteria to qualify for HIPC assistance:

1. face an unsustainable debt burden, beyond traditionally available debt-relief mechanisms;
2. establish a track record of reform and sound policies through IMF- and World Bank supported programs; and
3. have developed a Poverty Reduction Strategy Paper (PRSP) through a broad-based participatory process (an interim strategy is sufficient to begin the process).

Satisfaction of criterion 1 requires debt sustainability analysis. If a country's external debt ratio after traditional debt relief mechanisms is above a threshold for the value of debt to exports, it qualifies for assistance under HIPC. Indonesia is not above this threshold, rendering it ineligible for HIPC assistance. This situation was the same under the IMF program.

Australia's 2002-03 contribution to HIPC was \$18 million. This \$18 million includes \$540,000 in cash contributed to the World Bank IDA-Administered Trust Fund in 2002-03.

5. [referred to Treasury]
6. [referred to Treasury]
7. **Can AusAID provide further details of Australia's efforts regarding revenue enhancement particularly regarding tax reform – including the costs of these efforts and the percentage of the aid program that they represent?**

In 2002-03, AusAID provided \$653,238 to assist tax reform and revenue enhancement activities in Indonesia. Activities have included enhancing tax audit methodology, planning and improving taxpayer services. This represented 19% of expenditure under the Indonesia country program's flagship economic governance activity, the Technical Advisory Management Facility (TAMF), in 2002-03.

8. **Table 7 of the Indonesia Country Program Strategy gives a list of activities under the strategy? Is this a comprehensive list of the activities? Can you give more details of the Debt Management Project? Of the funding allocated for this, less than 25% appears to have been spent although the program is listed as due for completion in 2004. Any reasons for this?**

Table 7 provided a comprehensive list of Indonesia Country Program activities as of June 2002. The Indonesia Debt Management Project was approved in 2000, but did not commence until November 2001. It was expected that this project would only have expensed approximately 25% of funding by July 2002. The project is currently on track to fully expend allocated funds by the end of 2004.

The Debt Management Project assists the Centre for Government Bond Management (PMON) within the Ministry of Finance to develop its capacity to issue government securities, to manage the risks around domestic public debt and to undertake total government debt monitoring and analysis.

9. **Page 29 of the Indonesia Country Program Strategy refers to revenue enhancement as being crucial to improving fiscal sustainability. Can you provide details of the assistance that Australia is providing in the area of tax reform, the amount allocated and the amount spent? Where are these activities listed in Table 7?**

See question 7 above. These activities are contained within the TAMF II line item in the governance section of Table 7.

10. **Table 2 in Australia's Overseas Aid Program 2003-04 (Budget Papers) shows Australia's ODA 1971-72 to 2003-04. Can you provide a similar table for each of PNG, the Pacific and Indonesia, for the periods 1993-94 to 2003-04 (est), disaggregating that data annually against level of aid (Country specific and other), real change over the previous year, and as a percentage of ODA.**

Australian ODA flows 1993-94 to 2003-04 (est) current and constant prices (AUD millions).

Year	Pacific Island Countries*			PNG**			Indonesia Total Aid Flow***		
	Current Prices	Constant Prices	% of Aust ODA	Current Prices	Constant Prices	% of Aust ODA	Current Prices	Constant Prices	% of Aust ODA
1993-94	125.6	151.08	8.90	339	407.78	24.03	130.64	157.14	9.26
1994-95	127.7	152.52	8.61	319.2	381.24	21.51	135.11	161.37	9.11

**1. When is the review of education to be finalised? Can a copy be made available to the Sub-Committee?**

The World Bank Education Sector Review is nearing completion with an extensive consultation process between national and district governments now underway. The report is expected to be publicly available in 2004. The Madrasah Education Sub-sector Assessment managed by the ADB is also nearing completion and is expected to be the subject of broader consultations in December. It is not known at this stage if or when the Ministry of Religious Affairs will make the final report publicly available.

*Background about the operation of ADS in Indonesia*

AusAID's records show that between 1993 and the end of 2003 over 5,300 scholarships will have been awarded to Indonesia. Some have been for short courses but the majority has been for university undergraduate and postgraduate programs. There have been a number of scholarship schemes during this time including the Australian Sponsored Training Assistance Scheme (ASTAS), the Australian Development Co-operation Scholarship scheme (ADCOS) and the Equity and Merit Scholarship Scheme (EMSS). Since 1997, AusAID has rationalized and consolidated previous scholarship schemes replacing them with the Australian Development Scholarship scheme (ADS). ADS are provided under two broad categories:

Public sector: where partner countries nominate candidates, most of whom are drawn from the public sector; and

Open: where individuals independently apply for a scholarship.

**2. What percentage of ADS have been in the public sector for the last ten years?**

Just over 2,000 ADS public sector category scholarships have been awarded since 1993 - approximately 38 % of the total (ADS public sector category has only been offered since 1997).

**3. What percentage in the open category?**

Approximately 790 ADS open category scholarships have been awarded since 1993 - approximately 15% of the total (ADS open category has only been offered since 1997).

**4. How many in each category for 2004?**

The process of placing Indonesian ADS students who will be starting at Australian universities in 2004 is still in progress. As of 21 November 2003, 179 students had requested places, of whom 63 were Open category and 116 were Public sector category.

**5. The figure for ADS for Indonesia in 2004 is 360. What is the number to be allocated for 2005, 2006 and 2007.**

The number of ADS awards offered to Indonesia in 2004 has been reduced to 300 following completion of the package of 60 Economic Scholarships that were offered after the Asian financial crisis.

The number of ADS awards to be offered to Indonesia in 2005, 2006 and 2007 is not yet clear. It will depend on the extent to which there may need to be further adjustments in the numbers of ADS awards, in order to allow the flexibility necessary to accommodate new priority areas of cooperation, for example, increased support for basic education and decentralisation.

**6. How much will be spent on specialised training and scholarships in 2006/07?**

It is anticipated that around A\$12 million will be spent on specialised training in 2006/07 under the Indonesia Australia Specialised Training Project (IASTP). Allocations to specific sectors and sub-sectors have not been finalised for 2006/07. See the answer to Question 5 for planning re scholarship numbers.

**7. What have been the priority sectors for Indonesia over the last ten years?**

1993-1996: Priority was given to applications for study in disciplines related to broad sectors of development interest, such as development administration, trade and law, agriculture and the environment, science, technology, infrastructure and industry, human resource development and health.

1996/97 - 1998/99: In the humanities and social sciences, priority was given to: (1) development administration, management and business development; (2) governance, social and human development; and (3) education and training. In science and technology, priority was given to: (1) agriculture; (2) engineering; and (3) science

1999/2000: Economic governance; humanities; education and training; agriculture; engineering; science; and health.

2000/01: As for 1999/2000, except "humanities" was replaced with "political and social development" and "natural resources management" was added to agriculture.

2002/03: As for 2000/01, except "economic governance" was broadened to simply "governance".

**8. What are the current priority sectors?**

Current priority sectors for training under Indonesia ADS, framed within the four 'pillars' underlying the global aid program's strategies to reduce poverty, are as follows:

Areas of Development Priority	Example Fields of Study
<p><b>Growth</b> Increasing economic growth by improving economic management and accelerating structural reform</p>	<p>Economics and economic management; tax reform; public sector reform; public administration; human resource development; governance; financial systems; audit; labour policy; industrial relations; international relations; international trade</p>
<p><b>Accountability</b> Improving accountability by strengthening democratic institutions and practices</p>	<p>Legal and judicial systems; human rights; civil society; decentralization; gender equity; women in development; political science; media studies.</p>
<p><b>Productivity</b> Improving productivity by increasing the human capital of the poor and near poor</p>	<p>Education and training; teacher training; education management; health services; health management; agriculture; agribusiness; aquaculture and fisheries; English language teaching; computer science and information technology</p>
<p><b>Vulnerability</b> Reducing vulnerability by mitigating the impact of conflict, natural and other disasters on vulnerable communities</p>	<p>Environmental resource management; regional and community development; development studies; peace studies; conflict resolution</p>

**9. What percentage of scholarships would have been in the field of education - specifically teacher training and education management?**

Since 1993 there have been 290 scholarships specifically in the fields of education, teaching training and education management. Many other awards would have been for students studying in different fields but eventually going on to teach at Indonesian secondary and tertiary education institutions.

### Breakdown of GSLP Activities since commencement 1995/96

YEAR	ROU Number	DEPARTMENT	NAME OF ACTIVITY	FUNDING
02/03	11786	Australian Federal Police (AFP)	Indonesia Counter Terrorism Forensic Capacity Building Program	219,840
02/03	11612	Therapeutic Goods Administration (TGA)	Collaboration on the regulation of medicines and medical devices with Indonesian regulatory agency	117,054
02/03	11611	Australian Nuclear Science and Technology Organisation (ANSTO)	Provision of a quality remaining life assessment and material properties capability for BATAN	95,865
02/03	11608	CSIRO	Building Indonesia's Management Capacity in Marine Mineral Resources and their Environmental Sustainability	139,820
02/03	11607	National Oceans Office (Environment and Heritage Portfolio)	Indonesia's Capacity Building in Oceans Management	57,910
02/03	11606	Australian Government Analytical Laboratories (AGAL)	Establishment of National Integrated Food Safety System Programs in Indonesia	249,250
02/03	11605	Commonwealth Ombudsman	Indonesia Ombudsman Enhancement Program	117,000
02/03	11602	Australian Bureau of Statistics (ABS)	Cooperation in Statistics in Indonesia (phase II)	70,100
02/03	11445	Australian Maritime Safety Authority (AMSA)	Search and Rescue training for staff of the Indonesian National Search and Rescue (SAR) Authority, Badan SAR Nasional (BASARNAS)	125,000
02/03	11444	Australian Bureau of Statistics (ABS)	Cooperation in Statistics in Indonesia	118,500
01/02	11224	Attorney General's Department (AG)	Legislative Drafting: Training and technical assistance	76,500
01/02	11219	Department of Education, Science and Training (DEST)	Educational Quality Assurance and Management for Basic Education	179,070
01/02	11214	Department of Immigration and Multicultural and indigenous Affairs (DIMIA)	Border Integrity Management Program	250,000
01/02	11212	Therapeutic Goods Administration (TGA), Department of Health & Aged Care	Australia and Indonesia inter-agency cooperation on therapeutic goods regulation - phase 2	126,456

YEAR	ROI Number	DEPARTMENT	NAME OF ACTIVITY	FUNDING
01/02	11090	CSIRO Energy Technology	Assessment of the Environmental Impact of Illegal Gold Mining	129,200
01/02	11089	Commonwealth Ombudsman	Developing administrative oversight	61,000
01/02	11087	Australian Securities & Investments Commission (ASIC)	Securities Regulators Training	71,000
01/02	11082	Department of Industry, Science & Resources Australian Government Analytical Laboratories (AGAL)	Institutional Strengthening of food safety initiatives in Indonesia	90,000
01/02	11078	Australian Quarantine & Inspection Service (AQIS)	The Australian Fumigation Accreditation Scheme - stage 2 for Indonesia	130,490
01/02	11077	Agriculture, Fisheries and Forestry Australia - Biosecurity Australia (AFFA)	Papua Agriculture Quarantine, Animal and Plant Health Support Project (Phase 3)	221,000
01/02	10775	Department of Transport & Regional Services (DTRS)	Sustainable skill enhancement to more efficiently provide air traffic services (ATS) in Indonesia	167,880
00/01	10202	Department of Environment and Heritage	Development of aquaculture as an alternative income generating livelihood for traditional Indonesian fishers dependant on declining fisheries in Australian waters	145,500
01/02	10201	Department of Transport & Regional Services (DTRS)	Indonesia Perishables Cool Chain Project	85,296
00/01	10200	Department of Environment and Heritage	Enhancement of local Government planning & management capacity at Lorentz National park natural world heritage property, Irian Jaya	228,850
00/01	10199	Australian Government Analytical Laboratories (AGAL)	Institutional strengthening of food safety initiatives in Indonesia	125,250
00/01	10198	(Australian New Zealand Food Authority) Food Standards Australia New Zealand	Food import labelling and composition guide - Bahasa Indonesian version	73,868
00/01	10197	Therapeutic Goods Administration (TGA)	Australia & Indonesia inter-agency cooperation therapeutic goods regulation	114,594
00/01	10195	Australian Customs Service (ACS)	Integrity implementation strategy	135,695
00/01	10194	Office of the Commonwealth Ombudsman	Developing administrative oversight	54,600

YEAR	ROI Number	DEPARTMENT	NAME OF ACTIVITY	FUNDING
00/01	10191	Department of Agriculture, Fisheries & Forestry - Australia (AFFA)	Komodo Mariculture project - Finfish mariculture to support alternative livelihood development in the Komodo area, Nusa Tenggara Timur	55,900
00/01	10190	Department of Health and Aged Care	Capacity building in health promotion and public health education	151,609
00/01	09921	Commonwealth Treasury	Jakarta workshop on Commonwealth-State relations	61,220
00/01	09920	Department of Environment and Heritage	Development of a strategy to improve Indonesia's environmental management in mining capabilities	122,600
00/01	09919	Department of Agriculture, Fisheries & Forestry - Australia (AFFA)	Development of a database & upgrading of associated reference specimens of agriculturally important insects	79,575
00/01	09918	CSIRO - Division of Exploration and Mining	Expanding Indonesia's capacity to assess its seafloor mineral resources	100,440
00/01	09917	Department of Foreign Affairs and Trade (DFAT)	WTO dispute settlement assistance to Indonesia	31,756
00/01	09914	Australian Federal Police (AFP)	AFP/INP Cooperative law enforcement assistance program	223,200
00/01	09913	Attorney General's Department (AG's)	Improvement of human resources in information technology	199,390
00/01	09912	Department of Education, Training and Youth Affairs (DETYA)	Curriculum and assessment reform project	154,636
00/01	09909	Australian Trade Commission (ATC)	NAFED Capacity Building Project	152,342
00/01	09896	Federal Court of Australia	Strengthening Judicial training in Indonesia Stage 3	249,910
00/01	09889	Attorney General's Department (AG's)	Comparative study on legal drafting in Australia	44,530
00/01	09579	Department of Agriculture, Fisheries & Forestry - Australia (AFFA)	The Irian Jaya Animal and Plant Health and Quarantine Support Project	122,960
00/01	09535	Australian Institute of Marine Science (AIMS)	Project Tropics - Tropical River-Ocean processed in Coastal settings	36,459
99/00	09470	Department of Agriculture, Fisheries & Forestry - Australia (AFFA)	Marine resources mapping technologies assessment	98,000
99/00	09204	Department of Health and Aged Care	Management Capacity Development program	126,780

YEAR	ROI Number	DEPARTMENT	NAME OF ACTIVITY	FUNDING
99/00	09147	CSIRO	Application of Australian technologies to the study of Indonesian ore deposits	180,980
99/00	08983	Australian Customs Service ACS)	Strategic planning for compliance audit management	129,887
